- C QPSR
- D SQRP

CUET PG Syllabus

26. Select the pair which has the same relationship the part below

Grammy : Music

- A Booker : Literature
- B Fame : Television
- C Mutton : Sheep
- D War : UNO

Instructions [27 - 30]

Read the passage below and answer the five questions that follows.

Hunting out cafes is probably the last thing one would expect to do on a trip to the magical land of Ladakh, where one expects to find restaurants serving fresh dim sums, steaming tingmos and cubes of yak cheese. But on a recent trip to Leh, I ended up on an interesting adventure hopping across quaint little cafes and brought back some wonderful memories.

Arriving in Ladakh, I was advised to take some rest to acclimatise myself to the cold weather and sparse oxygen. But after a short nap, I realised I was feeling just fine, and headed out to explore the local market to prepare myself for more arduous adventures the following day.

In a bid to try something local and refrain from indulging in the usual fare of cappuccinos and macchiatos that I generally love experimenting with in cafes, I hunted out a lovely little cafe right in the heart of Leh's bustling market. Seeing my inquisitive eyes, the owner who seemed to know exactly what each customer needed, told me she would get me a hot cup of local kahwa, which I accepted without a second thought I clearly needed something warm and nourishing to get me ready for the evening.

27. From among the four options given, find the word in the passage that means the same as 'old fashioned'

- A Bustling
- B Nourishing
- C Quaint
- D Fascinating

28. What would you normally expect to find on the menu of a restaurant in Ladakh ?

- A Dimsums, tingmos and samosas
- B Tingmos, cappuccino and cubes of yak cheese
- C Cappuccionno, macchiato and dimsums
- D Dimsums, tingmos and cubes of yak cheese

- A 800
- B 780
- C 740
- D 720

CUET PG Crash Course

32. A bag contains 7 green and 5 black balls. Three balls are drawn one after the other. The probability of all three balls being green, if the balls drawn are not replaced will be :
- A $7/44$
B $17/44$
C $23/67$
D $12/67$
33. In how many different ways can the letters of the word 'OPTICAL' be arranged so that the vowels always come together ?
- A 120
B 720
C 4320
D 2160
34. A bag contains 5 red smileys, 6 yellow smileys and 3 green smileys. If two smileys are picked at random what is the probability that both are red or both are green in colour ?
- A $1/14$
B $3/7$
C $2/7$
D $1/7$

CUET PG Mock Tests (COQP12)

35. There are two regular polygons with number of sides equal to $(n - 1)$ and $(n + 2)$. Their exterior angles differ by 6° . The value of n is
- A 11
B 12
C 13
D 14
36. In a mixture of milk and water, there is only 26% water. After replacing the mixture with 7 litres of pure milk the percentage of milk in the mixture become 76%. The quantity of mixture is :
- A 65 litres
B 91 litres
C 38 litres
D 78 litres

37. The average temperature of the town in the first four days of a month was 58°F . The average for the second, third fourth and fifth days was 60°F . If the temperature of the first and fifth days were in the ratio 7 : 8, then what is the temperature on the fifth day ?

- A 62°F
- B 64°F
- C 65°F
- D 66°F

Free CUET PG Mock Test (COQP12)

38. The roots of the equation $ax^2 + x + b = 0$ are equal if

- A $b^2 = 4a$
- B $b^2 < 4a$
- C $b^2 > 4a$
- D $ab = 1/4$

39. If $(x - 6)$ is the HCF $x^2 - 2x - 24$ and $x^2 - kx - 6$ then what is the value of k ?

- A 3
- B 5
- C 6
- D 8

40. 50 men took a dip in a water tank 40 m long and 20 m broad on a religious day. If the average displacement of water by a man is 4 m^3 , then the rise in the water level in the tank will be :

- A 25 cm
- B 35 cm
- C 40 cm
- D 30 cm

CUET PG Syllabus

41. A large field of 700 hectares is divided into two parts. The difference of the areas of the two parts is one-fifth of the average of the two areas. What is the area of the smaller part in hectares ?

- A 415
- B 485
- C 315

D 385

42. The sides of an equilateral triangle are $(2a - b)$ cm, $(a + 3b)$ cm and $(2a - b + 1)$ cm then the perimeter of the triangle is
- A 21 cm
B 15 cm
C 12 cm
D 3 cm
43. A starts a business with Rs. 40,000. After 2 months, B joined him with Rs. 60,000. C joined them after some more time with Rs. 1,20,000. At the end of the year, out of a total profit of Rs. 375,000, C gets Rs. 150,000 as his share. How many months after B joined the business did C join ?
- A 5 months
B 6 months
C 4 months
D 7 months

CUET PG Previous Year Question Papers PDF

44. Sumit read $6/13^{th}$ of a book in 1st week and $5/9^{th}$ of the remaining book in 2^{nd} week. If there were 100 pages unread after 2^{nd} week, how many pages were there in the book?
- A 404
B 416
C 418
D 420
45. $\frac{?}{\sqrt{128}} = \frac{\sqrt{162}}{?}$
- A 12
B 14
C 144
D 196
46. What is the difference between the biggest and the smallest fraction among $2/3$, $3/4$, $4/5$ and $5/6$?
- A $1/6$
B $1/12$
C $1/30$

D $1/20$

CUET PG Crash Course

47. $\frac{(K-L)^2 - (K+L)^2}{4K} = \frac{a}{b}$

A $K = b/a$

B $bL = -a$

C $KL = 1$

D $aK = -b$

48. On selling 17 balls at Rs. 720 there is a loss equal to the cost price of 5 balls, the cost price of a ball is ?

A Rs. 70

B Rs. 65

C Rs. 60

D Rs. 55

49. Fresh fruit contains 68% water and dry fruit contains 20% water. How much dry fruit can be obtained from 100 kg of fresh fruits?

A 50 kg

B 40 kg

C 30 kg

D 20 kg

CUET PG Mock Tests (COQP12)

50. In what time would a cistern be filled by three pipes which diameters are 2 cm, 3 cm and 4 cm running together, when the largest alone can fill it in 58 minutes? The amount of water flowing in each pipe is proportional to the square of its diameter.

A 26 cm

B 42 cm

C 32 cm

D 36 cm

51. A vessel is filled with liquid, 3 parts of which are water and 5 parts of syrup. How much of the mixture must be drawn off and replaced with water so that the mixture may be half water and half syrup?

A $1/3$

B $1/4$

C $1/5$

D $1/7$

52. 4 kg of a metal contains $1/5$ copper and rest m. Zinc. Another 5 kg of metal contain $1/6$ copper and rest in Zinc. The ratio of Copper and Zinc into the mixture of these two metals.

A 94: 181

B 49: 221

C 39: 231

D 49: 223

Free CUET PG Mock Test (COQP12)

53. The mean of 50 observations was 36. It was found later that an observation 48 was wrongly taken as 23. The corrected new mean is.

A 35

B 36.5

C 40

D 42

54. How many 3-letter words with or without meaning, can be formed out of the letters of the word 'LOGARITHMS' if repetition of letters is not allowed ?

A 420

B 720

C 5040

D 120

55. In a group of 6 boys and 4 girls, four children are to be selected. In how many different ways can they be selected such at least one boy should be there ?

A 162

B 195

C 200

D 209

CUET PG Syllabus

56. In a box there are 10 apples and $2/5^{th}$ of the apples are rotten. If three apples are taken out from the box what will be the probability that at least one apple is rotten.

A $3/4$

B $9/10$

C $5/6$

D 4/7

57. There are 3 green, 4 orange and 5 white color bulbs in a bag. If a bulb is picked at random, what is the probability of having either a green or a white bulb ?

A 2/3

B 4/3

C 2/5

D 3/4

58. The annual interest rate earned by an investment increased by 10 percent from last year to this year. If the annual interest rate earned by the investment this year was 11 percent what was the annual interest rate last year ?

A 1%

B 1.1%

C 9.1%

D 10%

CUET PG Previous Year Question Papers PDF

59. 3 partners A B and C start a business. 4 times of A's capital is equal to 6 times of B's Capital and B's Capital is 8 times of C's capital if profit of B is Rs. 6300. Then find the average profit A and C.

A 5118.75

B 4475.25

C 7000.50

D 5000.00

60. What is the thousandths digit in the decimal equivalent of $\frac{53}{5000}$?

A 3

B 1

C 6

D 0

Instructions [61 - 62]

In an Academic Council meeting of 120 faculty members, it was found that 50 take tea (T), 52 take juice (J), 52 take lassi (L), 18 take both T and L, 22 take both T and J, 16 take both J and L and 6 take all the three drinks.

61. The number of faculty members who take atleast one of the three drinks is

A 75

B 78

C 104

D 102

CUET PG Crash Course

62. The number of faculty members who take exactly one drink is..

A 44

B 60

C 62

D 64

63. Five sports events A, B, C, D, and E are to be organized from Monday to Friday of a week. On each day, only one event will be organized. E should be immediately followed by C. B should be organized immediately after D. One event is organized between A and B. D or E should not be the first or last event. Which is the second event to be organized ?

A C

B E

C D

D A

64. Indu starts from point A and travels towards north for 5 Km. She then takes a right turn and travels for 7 Km. She then takes a left turn and travels another 7 Km. Finally she takes another left turn and travels for 2 Km in arriving at a point B. What is the distance between point A and B ?

A 13 Km

B 12.33 Km

C 12 Km

D 10 Km

CUET PG Mock Tests (COQP12)

65. At the end of a faculty Development Programme, 10 faculty members shook hands with each other once. How many handshakes will there be altogether ?

A 20

B 45

C 55

D 90

Instructions [66 - 67]

In a school there, are 250 students, and every student plays atleast one of the three indoor games of Chess, Carrom or Sudoku. 110, 90 and 100 students play Chess Carrom and Sudoku, respectively. 20 students play Chess and Carrom, 20 students play Carrom and Sudoku and 25 students play Chess and Sudoku.

66. The number of students who play all the three game is

- A 15
- B 13
- C 20
- D 18

67. The number of students who play only chess is

- A 60
- B 70
- C 80
- D 85

Free CUET PG Mock Test (COQP12)

68. Sangeeta and Madhuri are ranked 7th and 11th respectively from the top in a class of 31 students. What will be their respective ranks from the bottom in the class?

- A 20th and 24th
- B 24th and 20th
- C 25th and 20th
- D 25th and 21th

69. Identify the missing number in place of ? in the following matrix, in which the numbers are arranged in a certain way.

1	7	9
2	14	?
3	105	117

- A 16
- B 12
- C 13
- D 14

70. From the three statements (A-C) and four conclusions (1-4) given below, identify the conclusions that could be logically inferred.

Statement A : Some firefighters are drivers.

B : No driver is a cleaner.

C : All cleaners are firefighters.

Conclusion: 1 : Some drivers are firefighters.

2 : All firefighters are cleaners.

3 : No cleanser is a driver.

4 : Some cleaners are drivers.

- A 1 only
- B 1 and 3 only
- C 1 and 4 only
- D 3 only

CUET PG Syllabus

71. In the context of four statements (A-D) given below, which two of these statements cannot be true: simultaneously, assuming that there is at least one teacher in the college ?

- A. All teachers are enthusiastic.
- B. Some teachers are enthusiastic.
- C. No teacher is enthusiastic.
- D. Some teachers are not enthusiastic.

Choose the correct answer from the option given below :

- A A and B only
- B C and D only
- C A and C only
- D B and D only

72. From the statement and two assumptions I and 2 given below, identify the assumption(s) that is/are implicit in the statement.

Statement : The nutritional status of children in India is better compared to that in other developing countries.

Assumption I : It is not possible to estimate nutritional requirement of children in other countries.

Assumption 2 : India can become a developed country.

- A 1 Only
- B 2 Only
- C Both 1 and 2 Only
- D Neither 1 nor 2

73. From the Statement and two arguments I and 2 given below, identify the argument(s) that hold(s) strong as per the situation described in the statement.

Statement : Should government stop spending huge amounts of money on International sports?

Argument 1 : Yes, This money can be utilized for upliftment of the poor.

74. P and Q are brothers, S is brother of T R is a father of P, T is a daughter of Q then who is uncle of S ?

A P

B Q

C R

D T

75. Given below are two statements :

Statement I : In the number series 1, 6, 15, P, 45, 66, 91-----, the value of P is 28.

Statement II: In the number series 4, 1, -8, P, -20, 29, -32, 43, -44, 57,----, the value of P is 15.

In light of the above statements choose the collect answer from the options given below :

A Both Statement I and Statement II are hue

B Both Statement I and Statement II are false

C Statement I is hue but Statement II is false

D Statement I is false but Statement II is true

76. In a certain coding system, if DESK is written as #5\$2 and RIDE is written as %7#\$, then how will you code RISK ?

A %725

B %752

C %7#2

D %7\$#

CUET PG Crash Course

77. If the word 'LIGHT' is coded as 20-17-15-16-28, then how would you code 'KEADER'?

A 20-12-11-9-13-26

B 20-11-9-12-13-25

C 20-13-9-12-13-26

D 20-12-9-11-13-26

78. In a certain code 'always help old people' is written as 'ba ri sh gi', 'people and old schemes' is written as 'fa gi ma ri1', 'help schemes and support' is written as 'ma jo ha fa' and 'old and better solution' is written as 'ki ri to fa'. 'What does the code 'fa' stand for ?

A schemes

- B support
- C old
- D and

79. Which of the following pairs of words express the relationship that is most similar to the part Spider : Web?

- A Ink : Pen
- B Cock : Hen
- C Teacher : Student
- D Poet : Poetry

CUET PG Mock Tests (COQP12)

80. Trigonometry is related to Triangles in the same way as Mensuration is related to

- A Geometry
- B Circles
- C Areas
- D Polygons

81. Which of the following word is least like the other words ?

- A Cabbage
- B Papaya
- C Cucumber
- D Brinjal

82. A statement is followed by two inferences 1 and 2. Considering the statement to be true which of the inference 1 and 2 logically follow ?

Statement: Spirituality helps us to lead a blissful life.

Inference 1 : Without the help of spirituality, one cannot lead a blissful life.

2 : Spirituality can help bring peace of mind in an individual.

- A 1 Only
- B 2 Only
- C Both 1 and 2
- D Neither 1 nor 2

Free CUET PG Mock Test (COQP12)

83. Based on the three positions of the same dice, what should be the number opposite to 3 ?

- A 1
- B 6
- C 5
- D 4

Instructions [84 - 85]

In a town of 130 people 66 read the magazine L, 56 read the magazine M and 63 read the magazine N. Only read L and M only, 25 read M and N and only 3 read L and N. Five people read all of the three magazines.

84. How many people read only magazine L ?

- A 18
- B 20
- C 21
- D 22

85. How many people read exactly one magazine ?

- A 55
- B 40
- C 50
- D 60

CUET PG Syllabus

86. The square root of 0.09 is

- A 0.3
- B 0.03
- C 0.81
- D 0.081

87. By using the digits 0, 1 and 5 once in each number, how many three digit numbers are possible which are divisible by 3 ?

- A 12
- B 205

C 3

D 4

88. Which of the following statements concerning rational numbers are true?

- I. Rational numbers follow associative rule addition.
- II. Rational numbers follow commutative rule for subtraction.
- III. Difference of two rational numbers is a rational number.
- IV. Rational numbers follow associative rule for subtraction.

A I and III

B II and III

C II and IV

D I, II and III
