- D No error

Free CUET PG Mock Test (COQP12)

8. One of the first fish we, dissected had plastic in its gut. What harm such plastic is causing has unsettled science. Plastic reduce the appetites and growth rate of fish that consume it. That could affect reproduction and population size.

Choose the sentence that completes the paragraph:

- A Flying fish appear to eat plastic especially frequently.
- B Small changes in the survival of larval fish can translate into large changes in fish populations.
- C The larger a female fish is, the more eggs she can carry and the higher number of offspring she can produce.
- D We didn't expect so much plastic, in a fish that was first a quarter inch long.

9. A part of the sentence given below is underlined.

Choose the correct alternative to improve underlined part of the sentence.

He seemed very confident and responsible about his work and could make independent decisions, So, I left him with his own devices.

- A left him in his own devices
- B left him to his own devices
- C left him on his own devices
- D left him with his own devices

10. Match the words in list I with their meanings in list II

List I	List II
A. debase	I. contracted
B. analogy	II. notion
C. foreshortened	III. degrade
D. conception	IV. correlation

Choose the correct answer from the options given below:

- A A-IV, B-II, C-III, D-I
- B A-III, B-IV, C-I, D-II
- C A-III, B-IV, C-II, D-I
- D A-II, B-III, C-IV, D-I

CUET PG Syllabus

Instructions [11 - 14]

Read the passage and answer the next five question by choosing the correct option:

Dealing with teenage offspring can be exasperating, because they come up with the darndest questions: "Why should I be good when being bad appears to be more beneficial"? One must then attempt to untangle deep issues of history, philosophy and evolutionary biology, in order to answer that question convincingly and correctly. In today's world of power-crazy the billionaires and an over-supply of despots, can one even fault the youngster for asking?

Thankfully, science has shown, over and over, that in the long run, it is more beneficial for the individual to be good. One such batch of studies comes to us from Dacher Keltner, a professor of psychology at University of California, Berkeley, and founder-director of the Greater Good Science Center, founded in 2001. For decades, he and his team of researchers have been studying the origins and evolution of good in human beings. In one such project, they studied the brains of people who engaged in acts of altruism, and discovered that such acts activate the same circuits that respond to receiving a gift. Evidence collected over years also has it that people who engage in acts of altruism live longer.

Keltner distills some of these findings in his book, *Born to be Good* (2009), which I am hoping my young ones can take time away from their reels in order to read. The whys are not all clear yet. But other contemporary studies support the Center's findings. Humans do good because it makes them feel good.

Where does the desire to do good come from? It is an evolved trait. Altruism is the willingness to do something that confers an advantage on others, even if the outcome may result in a disadvantage for oneself.

There is a school of thought that argues that all altruism is really self-interest in disguise. The writer and philosopher Ayn Rand believed that any behaviour that benefits others is ultimately motivated by a desire for personal gain, whether material, emotional or psychological. The evolutionary biologist, on the other hand, was ultimately motivated by the desire to pass on one's genes. Since this meant that humans had to (and have to) sometimes simulate altruism, that is what we learnt to do.

These arguments fail to explain genuine altruism. Why do whistle-blowers expose corruption at great personal cost? Or protesters fight for a cause when it can, and often does, cost them years or more behind bars?

Perhaps one of the most compelling arguments against Rand and Dawkins emerges from the pages of Matt Ridley's *The Origins of Virtue* (1996). While Ridley concedes that self-interest is a strong motivator, he believes that individuals figured out early on that it felt better to cooperate, and yielded better results for the group. And so it is that we evolved to be kind, empathetic, even selfless.

How do we know that this was an evolution? Because many anthropologists date civilization not to the first settlements or agriculture or art, but to the first healed femur. At some point, prehistoric humans decided they would no longer leave the seriously wounded behind. They would find the time and resources to care for them, even though there was no material benefit involved. In Ridley calls this "reciprocal altruism".

In this form of cooperation, individuals help each other with the expectation that the favour will be returned, if needed. From that idea, we can trace the evolution of ideas of community, and wider social progress. It is the foundation on which cultures and even economic frameworks continue to be built.

For the young one who believes "good" is the old way and doing what suits one best is the need of today, I would argue that is not adapting, it's succumbing to a series of short-term goals guaranteed to provide dwindling levels of satisfaction. It has always been tempting, and often more immediately beneficial, to be selfish. We would have been a short-lived species if we'd all sought only to please ourselves.

11. Human beings have made space for altruism in their lives because:

- A. It has been proven that it makes them live longer.
- B. It makes them feel good about themselves.
- C. It provides a dwindling level of satisfaction.
- D. It is the need of the hour.
- E. It brings satisfaction to pass on good habits to their offsprings.

Choose the correct answer from the options given below:

A C, D & E only

- B B, C & D only
- C A, B & E only
- D A, C & E only

12. Choose statement that prove that the author advocates Altruism:

- A Scientific studies indicate, that in the long run, it more beneficial for the individual to be good
- B It has always been tempting and often more immediately beneficial, to the selfish.
- C In this form of cooperation, individuals help each other with the expectation that the favour will be returned.
- D Selfishness offers dwindling returns, and would have made us a short lived species.

13. Match the statements in List I with the appropriate defining word:

List I	List II
A. A desire to do good with the expectation of favour being returned.	I. Simulated altruism
B. A desire to do good for personal gains	II. Genuine altruism
C. A desire to do good with the hope to pass on genes.	III. Reciprocal altruism
D. A desire to do good at cost of self harm.	IV. Selfish altruism

Choose the correct answer from the options given below:

- A A-III, B-IV, C-I, D-II
- B A-IV, B-III, C-II, D-I
- C A-II, B-I, C-III, D-IV
- D A-I, B-II, C-IV, D-III

CUET PG Previous Year Question Papers PDF

14. Choose the statements that support the following statement:

"Human beings evolved to be kind, empathic, even selfless."

- A. Any behaviour that benefit others is ultimately motivated by a desire for personal gain.
- B. Any behaviour that stems from the expectation that the favour will be returned helped the community in their social progress.
- C. Any behaviour is ultimately motivated by the desire to pass on one's genes.
- D. Any behaviour that required to cooperate with others, yielded better results for the group.

Choose the correct answer from the options given below:

- A A & B only
- B B & C only
- C C & D only

D B & D only

15. Choose the appropriate answer elaborating meaning of 'Altruism'.

- A. Principle for living selflessly
- B. Charitable
- C. Humanitarian
- D. Impolite and unsocial

Choose the correct answer from the options given below:

- A A and B only

47. Workbook is a collection of:

- A Page setup
- B Buttons
- C Worksheets
- D Charts

48. The default file format of MS Access is:

- A .doc
- B .ppt
- C .xls
- D .mdb

49. The data-storage capacity of DVD is:

- A 2.5 GB
- B 700 MB
- C 1.3 GB
- D 4.7 GB

CUET PG Mock Tests (COQP12)

50. The contents written in _____ require continuous power supply to retain it into the memory.

- A Read Only Memory (ROM)
- B Random Access Drive (RAM)
- C Hard Disk Drive (HDD)
- D Pen Drive

51. The shortcut key used to close a tab is:

- A Ctrl + q
- B Ctrl + k
- C Ctrl + w
- D Ctrl + r

52. Which one of the following parameters is used to measure the performance of super computer?

- A GHz
- B MIPS
- C FLOPS
- D Hz

Free CUET PG Mock Test (COQP12)

53. Webpages that are linked to form a website share a _____

- A Uniform Domain Address
- B Unique Domain Address
- C Uniform Domain Name
- D Unique Domain Name

54. MS Word provides the functionality of correction in grammar and spelling of words. This functionality is known as:

- A Grammarly
- B Auto Correct
- C Spell Check
- D High Finition

55. Software that manages and coordinates the entire activities of a computer system is known as:

- A Utility Software
- B Operating system
- C System Software
- D Device driver

CUET PG Syllabus

56. At what time between 9 o'clock and 10 o'clock will the hour hand and the minute hand of a clock be in the same straight line but not together?

- A 9:15 o'clock
- B 9:16 o'clock
- C $9 : 16\frac{4}{11}$ o'clock
- D $9 : 16\frac{9}{11}$ o'clock

57. What day of the week was on April 15, 1954?

- A Wednesday
- B Thursday
- C Friday
- D Sunday

58. The average of nine consecutive natural numbers is 25. Find the smallest number.

- A 20
- B 21
- C 22
- D 24

CUET PG Previous Year Question Papers PDF

59. Simplify $\frac{\frac{3}{4} + \frac{1}{5} - \frac{1}{10} - 1}{\frac{1}{8} + \frac{1}{2} - \frac{3}{4}}$

- A $\frac{1}{16}$
- B $\frac{6}{5}$
- C 12
- D $\frac{3}{20}$

60. B is three times as old as A. After 5 years the ratio in the age of A and B will be 1 : 2. After how many years from now will the ratio in the ages of A and B become 2 : 3?

- A 16
- B 15
- C 13
- D 12

61. The product of two numbers is 4840. If the first number is two-fifth of the second number, then what is the first number?

- A 110
- B 38
- C 44
- D 154

CUET PG Crash Course

62. In what time will a 640m long train cross an electric pole if its speed is 96km/h?

- A 24 sec
- B 54 sec
- C 5.4 sec
- D 12.5 sec

63. The sum of two number 40 and their HFC is 8. How many pairs of numbers satisfy both the conditions?

- A 1
- B 2
- C 3
- D 4

64. Two numbers are 26% and 40% respectively of a third number what percentage is the first number of the second number?

- A 60%
- B 65%
- C 66%
- D 68%

CUET PG Mock Tests (COQP12)

65. A trader sold an article at a gain of 20% Had he purchased it for 40% more and sold, for ₹24 less, he would have incurred a loss of 20%. What is the cost price of the article?

- A ₹150
- B ₹300
- C ₹450
- D ₹600

66. Akhilesh and Javed started a business by investing ₹50,000 and ₹60,000 respectively. Akhilesh being an active partner receives 12.5% of the profit in addition to his share of profit. How much Akhilesh gets out of a profit of ₹800?

- A ₹4,600
- B ₹4,500
- C ₹4,000
- D ₹5,100

67. A certain sum of money on simple interest amounts to ₹1,278 in 3 year and to ₹1,593 in $5\frac{1}{2}$ years. Find the rate of interest per annum.

- A 13%

- B 14%
- C 15.5%
- D 16%

Free CUET PG Mock Test (COQP12)

68. Find the sum of the fourth proportional of 60, 24, 15 and the mean proportional of 5 and 20.
- A 47.5
 - B 16
 - C 106
 - D 117
69. Akhil is two times as efficient as Vinod and Kamal is three times as efficient as Vinod. They worked together and received ₹5,700 for doing the work. Find the share of Kamal in the money received.
- A ₹1800
 - B ₹1900
 - C ₹2580
 - D ₹2850
70. Pipe A and B can fill a tank in 25 hour and 10 hour respectively. Pipe A was opened and after half an hour pipe B was also opened. In how much time the tank got filled?
- A 7 hours 10 minutes
 - B 7 hours 15 minutes
 - C 7 hours 30 minutes
 - D 7 hours 45 minutes

CUET PG Syllabus

71. Three boys A, B and C are running with speeds 40 m/s 2500 m/minute and 144 km/h respectively, then
- (1) A and C have same speed which is less than the speed of B
 - (2) Speed of B is the highest
 - (3) Speed of C is more than the speed of B
 - (4) All the boys A, B and C have equal speeds

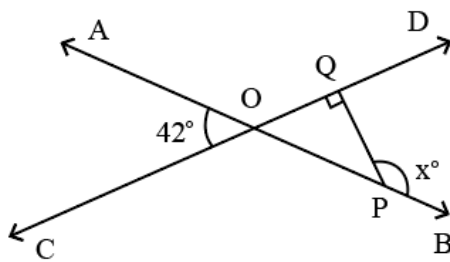

Choose the correct answer from the option given below:

- A A and C Only
- B A and B Only
- C D Only
- D A, B and C Only

72. A man invests some money partly in 8% stock at 105 and partly in 12% stock at 90. In what ratio should he invest the money to have equal dividends?
- A 3:2
B 9:7
C 7:4
D 2:3
73. A dealer marked an item with cost price Rs.600 a 50% above the cost price and offered 20% discount. Find the selling price.
- A Rs. 480
B Rs. 600
C Rs. 720
D Rs. 800

CUET PG Previous Year Question Papers PDF

74. In the figure $\angle AOC = 42^\circ$ and PQ is perpendicular to CD. Find the value of x .

- A 158
B 138
C 132
D 118
75. The value of $\frac{1+\tan^2 \theta}{1+\cot^2 \theta} \times (1 - \sin^2 \theta)$
- A $\frac{1}{\sec^2 \theta}$
B $\frac{1}{\cos \sec^2 \theta}$
C $\tan^2$
D $\cot^2$

76. If $A = \{2, 3, 6\}$ and $B = \{2, 3, 4, 5, 6\}$ are two sets then

- A. $A \subset B$
B. $A \cup B = B$
C. $A \cap B = \phi$

D. $A \cap B = A$

Choose the correct answer from the options given below:

- A A & B Only
- B B & C Only
- C A, B & D Only
- D B & D Only

CUET PG Crash Course

77. If mean of 7, 2, 9, 4 and K is 5, then find the median of 12, 6, K, 9, 15

- A 6
- B 9
- C 10
- D 12

78. Solution A contains 12% water and the remaining is milk. Solution B contains 30% water and the remaining is milk. In what ratio should solutions A and B be mixed to obtain a mixture with 84% milk?

- A 2:7
- B 7:2
- C 3:8
- D 8:3

79. A quadrilateral ABCD has diagonal AC of length 28 cm. If the perpendiculars drawn from vertices B and D to AC are 30 cm and 21 cm respectively, then find its area.

- A 1428 cm^2
- B 357.5 cm^2
- C 710.5 cm^2
- D 714 cm^2

CUET PG Mock Tests (COQP12)

80. A vessel is in the form of a hemispherical bowl surmounted by a hollow cylinder. The diameter of the sphere is 42 cm and the height of the vessel is 27 cm. Find its capacity in cm^3 (Use $\pi = \frac{22}{7}$)

- A 18849.6
- B 56826
- C 27720
- D 56286

81. Find the next term of the given series : 2, 12, 36, 80, 150

- A 250
- B 252
- C 239
- D 159

82. In a competition Alka rank 11^{th} from the top and 27^{th} from the bottom while Anamika ranks 14^{th} from the top. How many candidate have their names listed below Anamika's in that competition's result?

- A 25
- B 29
- C 26
- D 23

Free CUET PG Mock Test (COQP12)

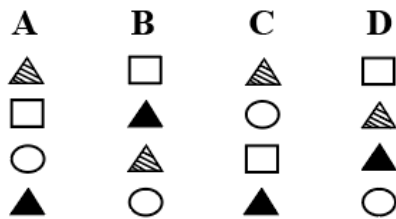

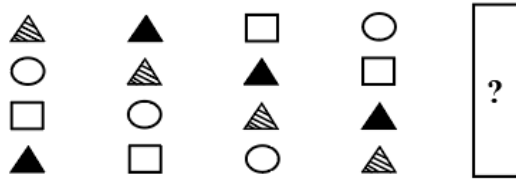

83. Six friends A, B, C, D, E and F are sitting in a row facing towards North. C is sitting between A and E. D is not at the end. B is listing immediate right to E. F is not at the right end. How many person are there to the right of D?

- A 2
- B 3
- C 1
- D 4

84. Bharti travelled 19 km to the East. She turned left and went 15 km. She again turned left and went 19 km. How far she is from the initial position?

- A 14 km
- B 15 km
- C 19 km
- D 18 km

85. Which of the image A to D is next in the sequence (in place or?)?

- A A
B B
C C
D D

CUET PG Syllabus

86. Study the following five numbers and answer the question given below : 617 425 739 941 892. What will be the first digit of the second highest number after the position of only the second and the third digits within each number are interchanged?

- A 6
B 2
C 9
D 8

87. Select the related number from the given alternative : 14 : 8 : 24 : ?

- A 12
B 13
C 14
D 15
