## Analytical Ability

### Instructions

The question is followed by data in the form of two statements labelled as I and II. You must decide whether the data given in the Statements are sufficient to answer the questions.

#### Question 1

What is the area of the circle P?

I. Diameter of circle Q = 6 cm

II. Radius of the circle Q is twice the radius of circle P

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

## Free Banking Study Material (15,000 Solved Questions)

#### Question 2

What is the value of  $xy$ ?

I.  $x^2 = 4$

II.  $y^2 = 9$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

#### Question 3

Is  $x$  positive?

I.  $xy = 6$

II.  $xy^2 = 12$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

#### Question 4

What is the value of  $r^2 + s$ ?

I.  $t - u = 8$

II.  $r^2t - su + st - r^2u = 24$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: C**

## Daily Free Banking Online Tests

### Question 5

If p and q are positive real number, is the product of  $pq > 1$ ?

I.  $q > 1$

II.  $P < 1$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: D**

### Question 6

When n and m are real numbers, what is the value of n?

I.  $3n - m = 1$

II.  $n + m = 23$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: C**

### Question 7

What is the value of  $\frac{2p+3q}{3p+2q}$ ?

I.  $\frac{p}{q} = \frac{2}{5}$

II. p and q are positive numbers

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: A**

## SSC CHSL Previous Question papers (download pdf)

### Question 8

Is  $ab = cd$ ?

I.  $a : b = c : d$

II.  $a, b, c, d$  are in an arithmetic progression

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

### Question 9

For the function  $f : R \rightarrow R$ , is  $f\left(-\frac{1}{2}\right) = f\left(\frac{1}{2}\right) = f(2)$ ?

$$\text{I. } f(x) = \begin{cases} -x & \text{for } x < 0 \\ x & \text{for } x \geq 0 \end{cases}$$
$$\text{II. } f(x) = \begin{cases} -x & \text{for } x < 0 \\ x & \text{for } 0 \leq x \leq 1 \\ \frac{1}{x} & \text{for } x > 1 \end{cases}$$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

### Question 10

What is the surface area of the rectangular solid Y ?

I. The dimensions of one face of Y are 2 and 3.

II. The volume of Y is 12.

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CHSL Free Mock Test

**Question 11**

**Is  $ab$  a rational number?**

**I.  $a$  is a rational number.**

**II.  $b$  is an irrational number.**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: C**

**Question 12**

**If the perimeter of a rectangular hall is 80 feet, what is its area?**

**I. The length of the hall is 25 feet.**

**II. The length of the hall is greater than its width.**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: A**

**Question 13**

**What is the value of the integer  $x \geq 0$ ?**

**I.  $16^x$  is odd**

**II.  $15^x$  is odd**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: A**

**SSC CGL Free Mock Test**

**Question 14**

**Is  $x > y$ ?**

**I.  $2x + y = 9$**

**II.  $|x - y| = 25$**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.

- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

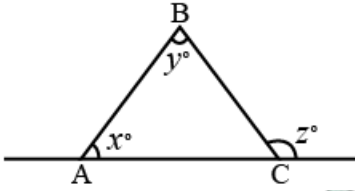

Answer: D

Question 15

In the figure, is  $AB = AC$ ?

I.  $x + y = z$

II.  $y = 180 - z$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

Question 16

For  $a, b \in \mathbb{R}$ , if the number of positive integral divisors of the positive integer  $4ab$  is 3, then what is the value of  $b$ ?

I.  $a = 5$

II.  $a$  is a prime number.

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

## Daily Free SSC Practice Set

Question 17

What is the integer  $a$ ?

I.  $\frac{1}{7} < \frac{1}{2+a} \leq \frac{1}{2}$

II.  $a^2 + 24 = 10a$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

**Question 18**

**How old is Raghu?**

**I. Today is his birth day.**

**II. One year after he will be twice as old as 10 years ago.**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: B**

**Question 19**

**What is the value of the integer w?**

**I. w is a multiple of 3.**

**II.  $420 < w < 425$ .**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: C**

**SSC CGL Free Online Coaching**

**Question 20**

**What percentage of students in the college receive scholarships?**

**I. The total number of students in the college is 2000.**

**II. The percentage of students that receive scholarships in the final year is 5% more than the students that receive scholarships in the first year.**

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

**Answer: D**

**Instructions**

The following question has a sequence of numbers or letters that follow a definite pattern is given. Each question has a blank space. This has to be filled by the correct answer from the four given options to complete the sequence without breaking the pattern.

**Question 21**

**MOUSE : KPSTC :: LIGHT : -----**

- A** MGHEU

- B JJEIR
- C JHEGR
- D MJHKV

Answer: B

Instructions

The following Bar Diagram shows the marks obtained by 5 students P, Q, R, S, T in Physics (Ph) and Chemistry(Ch) out of possible 140 marks in each subject. Based on the data answer questions:

Question 46

Marks obtained by S in chemistry is what percent of the total marks obtained by all students in chemistry

- A 25%
- B 30%
- C 32%
- D 35%

Answer: A

## SSC CHSL Free Mock Test

Question 47

If the marks obtained by T in Physics were increased by 14% then what would be his approximate new percentage in Physics when the maximum marks in Physics were 140?

- A 38%
- B 41%
- C 43%
- D 45%

Answer: B

Question 48

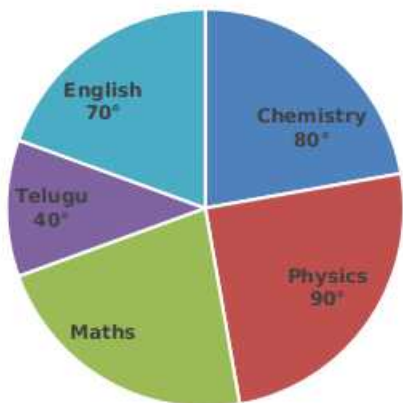

What is the ratio between the total marks scored by Q and S together in Chemistry to the total marks scored by P and R together in Physics?

- A 17 : 19
- B 23 : 25
- C 23 : 21
- D 17 : 23

Answer: C

#### Instructions

The pie chart given below shows the marks obtained by a student in 5 subjects out of total marks 900. Based on this data answer questions:

#### Question 49

The marks obtained in Maths are

- A 220
- B 200
- C 180
- D 210

Answer: B

### SSC CGL Free Mock Test

#### Question 50

The total marks obtained in languages are

- A 280
- B 260
- C 275
- D 295

Answer: C

#### Question 51

The percentage of marks obtained in Maths, Physics and Chemistry among the total marks in all the five subjects is

- A  $68\frac{4}{5}\%$
- B  $64\frac{2}{5}\%$
- C  $79\frac{4}{5}\%$
- D  $69\frac{4}{5}\%$

Answer: D

**Question 52**

The ratio between the marks in languages and other subjects is

- A 11 : 24
- B 11 : 25
- C 13 : 23
- D 15 : 21

Answer: B

**Daily Free SSC Practice Set**

**Question 53**

The marks obtained in English are

- A 180
- B 170
- C 185
- D 175

Answer: D

**Instructions**

In a group of 160 people, each person speaks Telugu or English or Tamil. 20 persons speak all the three languages. 100 persons speak at least two languages of the three. Using this information answer questions

**Question 54**

How many persons in the group speak exactly two languages of the three?

- A 65
- B 80
- C 75
- D 70

Answer: B

**Question 55**

What percent of the persons who speak only one of the three languages among all the persons in the group?

- A 37
- B 36
- C  $36\frac{1}{2}$

D  $37\frac{1}{2}$

Answer: D

## SSC CGL Free Online Coaching

### Instructions

English alphabet is coded as follows:

(i) Each consonant is coded to its next 3<sup>rd</sup> consonant cyclically.

i.e., B is coded as F, F to J,..... X to B, Z to D.....

(ii) Vowels A, E, I, O, U are coded to Vowels as A to U, E to O, I to L, O to E, and U to A.

Using this coding pattern, answer the following question.

### Question 56

The word VOWEL is coded as

A YEZON

B YEZOQ

C YEZOP

D YEZQO

Answer: C

### Question 57

The word CONSONANT is coded as

A GERWERURX

B GFRWFRURX

C GESWESUSX

D GETWETUTX

Answer: A

### Question 58

Code word for WORD is

A YEVH

B WEVJ

C ZEVJ

D ZEVH

Answer: D

## Free SSC Study Material (18,000 Solved Questions)

### Question 59

The number of letter that left fixed under this coding is?

- A 1
- B 2
- C 3
- D 4

Answer: A

**Question 60**

Code word for ENGLISH is

- A ORKPIXL
- B ORKPIWL
- C ORLPIXL
- D OSKPIWL

Answer: B

**Instructions**

For the following questions answer them individually

**Question 61**

If IMMUNE is coded as JSSTRK then code word for MENU is

- A SRKT
- B KSTR
- C SKRT
- D TRSK

Answer: C

## SSC CGL Previous Papers (DOWNLOAD PDF)

**Question 62**

AISLE is coded as 0910111213 then code for LESS is

- A 12131111
- B 11131212
- C 13121111
- D 11121313

Answer: A

**Instructions**

Let  $n^{th}$  letter for  $14 \leq n \leq 26$  in the English alphabet be coded as  $(n - 13)^{th}$  letter and  $n^{th}$  letter for  $1 \leq n \leq 13$  be coded as  $(n + 13)^{th}$  letter. For this coding pattern answer the question.

Question 63

Code word for GAME is

- A NTRZ
- B TNZR
- C TNRZ
- D TNSZ

Answer: B

Question 64

Code word for ALERT is

- A NYSEG
- B NYREH
- C NYREG
- D NYREF

Answer: C

Answer: A

### Instructions

For the following questions answer them individually

Question 66

If a month starts with Monday then the date on which the Second Saturday falls is?

- A 12
- B 13
- C 14
- D 15

Answer: B

**Question 67**

The angle between the two hands of a clock when it shows 5.12 hours?

- A  $76^\circ$
- B  $80^\circ$
- C  $84^\circ$
- D  $86^\circ$

**Answer: C**

**Free Banking Study Material (15000 Solved Questions)**

**Question 68**

At what time between 10 am and 11 am the angle between hands of a clock is  $162\frac{1}{2}^\circ$

- A 10.25 am
- B 10.30 am
- C 10.40 am
- D 10.45 am

**Answer: A**

**Question 69**

If A is the brother of the son of B's son. how is A related to B?

- A Uncle
- B Grand Son
- C Son
- D Brother

**Answer: B**

**Question 70**

A loan application was submitted at a bank counter on a certain day of the week. After verification of the details the application was forwarded to the Manager on the next day. The Manager after scrutiny sent the application the same day to Head Office. The next 2 days were bank holidays and the loan was sanctioned next day which was Monday. Which day of the week was the application submitted?

- A Monday
- B Tuesday
- C Thursday
- D Friday

**Answer: C**

### Question 71

A local train leaves the station at regular intervals of 45 minutes. Arriving at the station a person realized that the last train left 15 minutes back and next train is at 8.45 am. When did the person arrive at the station?

- A 7.45 am
- B 8.00 am
- C 8.15 am
- D 8.30 am

Answer: C

### Question 72

Six friends A, B, C, D, E and F sit around a circle facing the center such that (i) A is between C and E: (ii) E is between D and F: (iii) B is between C and F and to the left of C. Who is sitting between A and B?

- A C
- B D
- C E
- D F

Answer: A

### Question 73

Let the symbols  $\alpha$ ,  $\beta$ ,  $\gamma$  and  $\delta$  denote the arithmetic operations of addition, subtraction, multiplication and division respectively. Then,

$$100\alpha 10\delta 5\beta 15\gamma 5$$

- A 27
- B 52
- C 68
- D 124

Answer: A

**Question 77**

$$2^{x^2-4} = 16^{\frac{1}{10-3x}} \Rightarrow x =$$

A 6

B 4

C -6

D -2

Answer: A

**Question 78**

20 men can do a piece of work in 10 days working 6 hours a day. How many men are needed to complete double the work in 8 days working 10 hours a day?

- A 25
- B 26
- C 28
- D 30

**Answer: D**

**Question 79**

If the ratio of the areas of two squares is 4:7 then the ratio of the perimeters of the squares is?

- A 4 : 7
- B  $8 : 4\sqrt{7}$
- C  $\sqrt{7} : 2$
- D  $2 : \sqrt{7}$

**Answer: D**

**SSC CHSL Free Mock Test**

**Question 80**

$$x = 5 - 2\sqrt{6} \Rightarrow \sqrt{x} - \frac{1}{\sqrt{x}} =$$

- A  $2\sqrt{3}$
- B  $2\sqrt{2}$
- C  $-2\sqrt{3}$
- D  $-2\sqrt{2}$

**Answer: D**

**Question 81**

For  $k \neq 0$ ; if  $a = \sqrt[3]{k} - \frac{1}{\sqrt[3]{k}}$  then,  $a^3 + 3a =$

- A  $\frac{k-1}{k^2+1}$
- B  $\frac{k^2-1}{k}$
- C  $\frac{k-1}{k^2}$
- D  $\frac{k}{k^2-1}$

**Answer: B**

**Question 82**

Which of the following numbers is divisible by 11?

- A 1111111
- B 9999999
- C 99999
- D 999999

Answer: D

**SSC CGL Free Mock Test**

**Question 83**

What is the number in the units place of  $(359)^{59}$ ?

- A 1
- B 3
- C 7
- D 9

Answer: D

**Question 84**

The ged of two numbers is 85 and their sum is 1020. One such pair of the numbers is

- A 425, 595
- B 500, 520
- C 510, 510
- D 550, 650

Answer: A

**Question 85**

What is smallest number of 5 digits which is divisible by 12, 15, 20 and 35?

- A 10070
- B 10080
- C 10090
- D 10110

Answer: B

**Daily Free SSC Practice Set**

**Question 86**

$3.2575757, \dots = \frac{a}{b}, \gcd(a, b) = 1 \Rightarrow a - b =$

- A 149
- B 447
- C 2235
- D 3257

**Answer: A**

**Question 87**

If  $\frac{5}{8}$ th of a number  $x$  is subtracted from  $\frac{25x}{32}$ , the result is 320. Then  $x =$

- A 512
- B 1024
- C 2048
- D 4096

**Answer: C**

**Question 88**

The largest among  $\frac{1}{2}, \frac{11}{23}, \frac{3}{8}, \frac{9}{16}$  is

- A  $\frac{1}{2}$
- B  $\frac{11}{23}$
- C  $\frac{3}{8}$
- D  $\frac{9}{16}$

**Answer: D**

**SSC CGL Free Online Coaching**

**Question 89**

If  $a = \sqrt[3]{11}, b = \sqrt[4]{23}$  and  $c = \sqrt[6]{119}$  then the decreasing order of  $a, b, c$  is

- A  $a > b > c$
- B  $b > a > c$
- C  $a > c > b$
- D  $c > b > a$

**Answer: C**

**Question 90**

$4\frac{1}{3}\%$  of  $57\frac{2}{7}\%$  of  $x = 962 \Rightarrow x =$

- A 2100000
- B 420000
- C 630000
- D 840000

**Answer: B**

**Question 91**

Anil, Sunil and Akhil are trading of same goods. Anil sells his goods 25% cheaper than Sunil and 25% costlier than Akhil. Then Akhil's sells goods cheaper than Sunil by percentage of

- A 40%
- B  $33\frac{1}{3}\%$
- C 30%
- D 25%

**Answer: A**

**Free SSC Study Material (18,000 Solved Questions)**

**Question 92**

If the cost price of 11 mangoes is equal to the selling price of 9 mangoes then percentage of profit is

- A  $\frac{11}{9}$
- B  $11\frac{1}{9}$
- C  $9\frac{1}{11}$
- D  $22\frac{2}{9}$

**Answer: D**

**Question 93**

Mr. A has purchased a property and sold  $\frac{2}{3}$  of the property with 10% profit. If the profit received through this sale is Rs. 60000. the cost price of the total property (in rupees) is

- A 1200000
- B 900000
- C 7500000
- D 600000

**Answer: B**

**Question 94**

A, B entered into a business with a capital of Rs. 9 lakh. Rs. 12 lakh respectively. After 4 months C has joined the business with a capital of Rs. 15 lakh then the share of 'C' in a profit of Rs. 6.975 lakh at the end of the year is

- A 257500
- B 232500
- C 225000
- D 205000

**Answer: C**

## SSC CGL Previous Papers (DOWNLOAD PDF)

**Question 95**

A, B and C entered into a business partnership. A got  $\frac{2}{5}$  of the profit while B and C distributed the remaining profit equally. If C got Rs. 4000 less than A, their total profit was

- A 36000
- B 40000
- C 42000
- D 44500

**Answer: B**

**Question 96**

Two taps A and B can independently fill a tank in 30 minutes and 45 minutes respectively and a pump C can empty full tank in 20 minutes. If all are opened for 10 minutes and the pump C is closed. then the time required to fill the tank (in minutes) is?

- A 17
- B  $25\frac{1}{3}$
- C  $15\frac{1}{3}$
- D 27

**Answer: D**

**Question 97**

Two pipes A and B can fill a tank in 24 minutes and 30 minutes respectively. Both pipes are opened simultaneously but after 5 minutes A is turned off. After how much more time will the tank be filled?

- A 15 mins
- B 18 mins
- C 21 mins
- D 24 mins

Answer: A

## 1500+ Very Important Free SSC Solved Questions

### Question 98

A cyclist travelling at 30 kmph takes 3 hrs more to cover distance between two cities A and B than another cyclist travelling at 40 kmph. What is the distance between A and B?

- A 360 km
- B 350 km
- C 320 km
- D 300 km

Answer: A

### Question 99

The distance between two cities is 30 km. If two persons A and B travel in the opposite directions starting from the two cities, they meet after 2 hours. If they start from the same city and travel in same direction they meet after 3 hours. If A is faster than B the speed of A is

- A 10 kmph
- B  $12\frac{1}{2}$  kmph
- C 15 kmph
- D  $16\frac{1}{2}$  kmph

Answer: B

### Question 100

Of the two workers A works twice as fast as B. If A and B work together they require 12 days to complete a piece of work. How many days are needed if A alone works to complete the same work.

- A 15
- B 16
- C 18
- D 20

Answer: C

## Free Banking Study Material (15000 Solved Questions)

### Question 101

A, B and C can independently complete a work in 10, 15 and 20 days respectively. If they start the work together and A leaves after 2 days and B leaves after 4 days the number of days required for the completion of work is

- A  $13\frac{1}{3}$

B  $12\frac{2}{3}$

C  $11\frac{1}{3}$

D  $10\frac{2}{3}$

Answer: D

**Question 102**

An equilateral triangle is inscribed in a circle of 462 sq.cms. The perimeter(in cms) of the triangle is

A 72

B 84

C 63

D 126

Answer: C

**Question 103**

The perimeter of rhombus is 68 meters and one of its diagonals is 16 meters. The area of the rhombus (in sq.ms.)

A 220

B 240

C 280

D 3200

Answer: B

## AP SI Free Solved Previous Papers PDF

**Question 104**

Three solid metal cubes whose sides are in the ratio 3:4:5 are melted and made into a single cube. If length of the diagonal of this single cube is  $48\sqrt{3}$  meters then the side of the smallest of the three cubes is?

A 24 m

B 22 m

C 20 m

D 18 m

Answer: A

**Question 105**

A solid cylinder of diameter 24 cm and height 10 cm is melted and cast into spheres of diameter 12 cm each. What will be the number of solid spheres made

A 5

B 6

C 7

D 8

Answer: A

**Question 106**

The base and height of a triangle are in the ratio 4:3 and its area is 54 sq. cm. What is its height?

A 9 cm

B 6 cm

C 8 cm

D 7 cm

Answer: A

**Free Banking Study Material (15,000 Solved Questions)**

**Question 107**

Area of the rhombus whose diagonals are 36 cm and 20 cm

A 480 sq cm

B 360 sq cm

C 200 sq cm

D 320 sq cm

Answer: B

**Question 108**

What is the cost of fencing around a circular field of diameter 28 meters at the rate of Rs. 10 per meter?

A ₹ 880

B ₹ 440

C ₹ 660

D ₹ 550

Answer: A

**Question 109**

If  $11011_2 + 11101_2 + 1111_2 + 1001_2 = X_{10}$  then  $X =$

A 80

B 120

C 124

D 132

Answer: A

## Daily Free Banking Online Tests

### Question 110

If  $k_1, k_2$  are natural numbers such that

(i)  $2^{k_1} \mid 10!$  but  $2^{k_1+1} \nmid 10!$  and (ii)  $5^{k_2} \mid 10!$  but  $5^{k_2+1} \nmid 10!$  then

- A  $k_1 = k_2$
- B  $k_1 < k_2$
- C  $k_1 > k_2$
- D  $k_1 = k_2 + 3$

Answer: C

### Question 111

The contra positive of the statement:

"If in a  $\triangle ABC$ ,  $AB = AC$  then  $\angle B = \angle C$ " is

- A If in a  $\triangle ABC$ ,  $\angle B \neq \angle C$  then  $AB \neq AC$
- B If in a  $\triangle ABC$ ,  $AB \neq AC$  then  $\angle B \neq \angle C$
- C If in a  $\triangle ABC$ ,  $\angle B = \angle C$  then  $AB = AC$
- D If in a  $\triangle ABC$ ,  $\angle B \neq \angle C$  then  $AB = AC$

Answer: A

### Question 112

Which of the following is equivalent to the statement  $p \vee [\sim (q \wedge \sim r)]$

- A  $[p \vee (\sim q)] \vee r$
- B  $[p \wedge q] \vee r$
- C  $[p \wedge (\sim q)] \vee (\sim r)$
- D  $[p \vee q] \vee (\sim r)$

Answer: A

### Question 113

If  $I_n = \{x \in \mathbb{R} : -\frac{1}{n} < x < \frac{1}{n}\}$  for  $n = 1, 2, 3, \dots$  then  
 $\bigcap_{n=1}^{\infty} I_n =$

- A  $\{0\}$
- B  $\emptyset$

C  $\{1\}$

D  $\{x \in R : 0 < x < 1\}$

Answer: A

Question 114

If  $f(x) = x^{-1}$  then  $f^{(a)}(a+1) =$

A  $\frac{a^2}{a^2-1}$

B  $\frac{a^2}{a^2+1}$

C  $f(a^2)$

D  $f(a^3)$

Answer: A

Question 115

$f(x) = x^2 - |x|$  is

A An even function

B An odd function

C Not a function

D Neither even nor odd function

Answer: A

## SSC CHSL Free Mock Test

Question 116

The equation of the straight line having intercepts a and b on the axes such that  $a + b = 5$  and  $ab = 6$  is

A  $2x - 3y = 6$

B  $2x + 3y = 6$  or  $3x + 2y = 6$

C  $3x - 2y = 6$

D  $2y - 3x = 6$

Answer: B

Question 117

The equation of the straight line passing through (4, 2) and parallel to the line  $x + 2y - 5 = 0$

A  $2x + y = 8$

B  $x + 2y = 6$

C  $x + 2y = 8$

D  $2x + y = 6$

Answer: C

Question 118

$\cos 1^\circ, \cos 2^\circ, \dots, \cos 179^\circ =$

A  $\frac{1}{\sqrt{2}}$

B 0

C 1

D  $\frac{1}{2}$

Answer: B

## SSC CGL Free Mock Test

Question 119

$\sin 420^\circ \cos 390^\circ + \cos(-300^\circ) \sin(330^\circ) =$

A 0

B -1

C 1

D  $\frac{\sqrt{3}+1}{2}$

Answer: A

Question 120

$\frac{\cos \theta}{1+\sin \theta} + \frac{1+\sin \theta}{\cos \theta} =$

A  $2 \operatorname{cosec} \theta$

B  $2 \operatorname{cosec}^2 \theta$

C  $2 \sec \theta$

D  $2 \sec^2 \theta$

Answer: C

Question 121

A person walking towards the foot of the mountain observes the angle of elevation of its peak to the  $30^\circ$  and  $60^\circ$  respectively. If the distance between two points A, B of observation is  $\sqrt{3}$  km then the height of the mountain in meters is

A 2500

B 2000

C 1500

D 1250

Answer: C

## Daily Free SSC Practice Set

Question 122

$$x + \frac{1}{x} = 5 \Rightarrow x^4 + \frac{1}{x^4} =$$

A 527

B 623

C 625

D 572

Answer: A

Question 123

For two polynomials  $p(x)$  and  $q(x)$  the highest common factor is  $(x - 2)$  and the least common multiple is  $x^3 - 9x^2 + 26x - 24$ . If  $P(x) = x^2 - 6x + 8$  then  $q(x) =$

A  $x^2 + 5x + 6$

B  $x^2 - 5x - 6$

C  $x^2 - 5x + 6$

D  $x^2 - 2x + 3$

Answer: C

Question 124

If the polynomial  $x^3 + 10x^2 + ax + b$  is exactly divisible by  $(x - 1)$  and  $(x + 2)$  then  $a - b =$

A 9

B -9

C -25

D 25

Answer: D

## SSC CGL Free Online Coaching

Question 125

If a polynomial  $p(x)$  leaves remainders 6 and 4 respectively when divided by  $(x - 2)$  and  $(x - 3)$  then the remainders when  $p(x)$  is divided by  $(x^2 - 5x + 6)$  will be

A  $2x + 6$

B  $-2x - 10$

C  $-2x + 10$

D  $2x + 10$

Answer: C

Question 126

The sum of a two digit number and the number obtained by reversing the order of its digits is 121 and the digits differ by 3. The largest of such numbers is

A 47

B 74

C 63

D 52

Answer: B

Question 127

If  $\frac{3}{x+y} + \frac{2}{x-y} = 2$  and  $\frac{9}{x+y} - \frac{4}{x-y} = 1$  then  $x : y =$

A 3 : 2

B 2 : 5

C 5 : 1

D 9 : 4

Answer: C

## Free SSC Study Material (18,000 Solved Questions)

Question 128

The  $r^{th}$  term of an arithmetic progression whose sum of first  $n$  terms is  $2n + 3n^2$  is

A  $7r - 1$

B  $6r + 5$

C  $6r - 1$

D  $7r + 5$

Answer: C

Question 129

If the  $6^{th}$  and  $13^{th}$  terms of a geometric progression are 24 and  $\frac{3}{16}$  respectively, then its  $25^{th}$  term is

A  $3 \times 2^{-18}$

B  $3 \times 2^{-16}$

C  $3 \times 2^{-24}$

D  $3X2^{-22}$

Answer: B

Question 130

The coefficient of  $x^{n-1}$  in the product  $(x+1)(x+2)(x+3)\dots(x+n)$  is

A  $\frac{n(n+1)}{2}$

B  $-\frac{n(n+1)}{2}$

C  $\frac{n(n-1)}{2}$

D  $-\frac{n(n-1)}{2}$

Answer: A

Question 131

If the coefficients of  $x^7$  and  $x^8$  are equal in the expansion of  $\left(3 + \frac{x}{2}\right)^n$  then n =

A 42

B 48

C 55

D 58

Answer: C

Question 132

If  $\begin{bmatrix} a & b^2 \\ c^3 & 0 \end{bmatrix} = \begin{bmatrix} 2 & 9 \\ -8 & 0 \end{bmatrix}$  where a, b, c are real numbers of which b < 0 then 3a + b + c =

A 0

B 1

C -1

D 2

Answer: B

Question 133

If A and B are matrices such that AB = B and BA = A, then  $A^2 + B^2 =$

A 2AB

B 2BA

C A+B

D AB

Answer: C

## 1500+ Very Important Free SSC Solved Questions

### Question 134

$$\lim_{n \rightarrow \infty} \frac{2^n - 5^n}{3^n + 5^n} =$$

A 1

B 2

C -1

D -2

Answer: C

### Question 135

$$\lim_{n \rightarrow \infty} \frac{(1+n)^7 + (2+n)^7 + \dots + (7+n)^7}{1000 + n^7} =$$

A 0

B 1

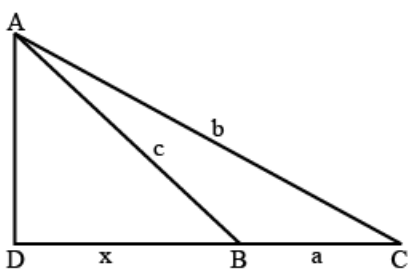

C 7

D  $\infty$

Answer: C

### Question 136

As given in the diagram, in  $\triangle ABC$ ,  $\angle B > 90^\circ$  and AD is perpendicular to BC. Then  $b^2 =$

A  $a^2 + c^2 - 2ax$

B  $a^2 + c^2 + 2ax$

C  $a^2 + c^2 + ax$

D  $a^2 + c^2 - ax$

Answer: B

Free Banking Study Material (15000 Solved Questions)

**Question 137**

If the angles of a quadrilateral are in the ratio 3:4:5:6 then the smallest of these angles is

- A  $30^\circ$
- B  $90^\circ$
- C  $60^\circ$
- D  $45^\circ$

**Answer: C**

**Question 138**

If a chord of a circle of radius 10cm subtends an angle  $60^\circ$  at the center of the circle, then the length of the chord (in centimeters) is

- A 10
- B  $10\sqrt{3}$
- C  $\frac{10}{\sqrt{3}}$
- D 5

**Answer: A**

**Question 139**

A point (x, y) is equidistant from the points (7, 1) and (3, 5). Then  $x - y =$

- A 5
- B 4
- C 3
- D 2

**Answer: D**

**AP SI Free Solved Previous Papers PDF**

**Question 140**

The vertices of  $\triangle ABC$  are A(4, 2), B(6, 5) and C(1, 4). The median through A meets BC at D. Then  $AD^2 =$

- A 13
- B  $\frac{13}{2}$
- C 17
- D  $\frac{17}{2}$

**Answer: B**

**Question 141**

The arithmetic mean of 287, 292, 297, 302, ..... 447 is

- A 367
- B 362
- C 372
- D 377

Answer: A

**Question 142**

If the mean and mode of a data are 58 and 52 respectively. Then the median of the data is

- A 53
- B 54
- C 55
- D 56

Answer: D

**Free Banking Study Material (15,000 Solved Questions)**

**Question 143**

The mode of 124, 142, 86, 136, 126, 124, 98, 114 is

- A 124
- B 86
- C 142
- D 126

Answer: A

**Question 144**

The standard deviation of any five consecutive positive integers is

- A  $\sqrt{2.5}$
- B  $\sqrt{2}$
- C  $\sqrt{5}$
- D 2

Answer: B

**Question 145**

The standard deviation of  $n$  observations  $x_1, x_2, \dots, x_n$  is 15. Then the standard deviation of the observations  $5x_1 - 11, 5x_2 - 11, \dots, 5x_n - 11$  is

- A 64
- B 75
- C 86
- D 130

Answer: B

## Daily Free Banking Online Tests

### Question 146

Two sports persons P and Q have participated in four competitions and their respective ranks are as give in the table below. The rank correlation coefficient is

|     | I | II | III | IV |
|-----|---|----|-----|----|
| P : | 3 | 4  | 1   | 5  |
| Q:  | 2 | 5  | 4   | 3  |

- A  $\frac{1}{3}$
- B  $-\frac{1}{3}$
- C  $\frac{1}{2}$
- D  $-\frac{1}{2}$

Answer: D

### Question 147

A bag contains 3 white, 2 black and 4 red balls. Three balls are drawn in succession Without replacement. The probability that of the three balls drawn one is white, one is black and one is red, is

- A  $\frac{1}{21}$
- B  $\frac{1}{25}$
- C  $\frac{1}{28}$
- D  $\frac{1}{32}$

Answer: A

### Question 148

Two unbiased six faced dice are rolled. The probability of getting a sum which is a prime number is

- A  $\frac{1}{12}$
- B  $\frac{5}{12}$
- C  $\frac{7}{12}$

D  $\frac{11}{12}$

Answer: B

### Question 149

When 4 un-biased coins are tossed, the probability of getting at least 2 heads is

A  $\frac{11}{16}$

B  $\frac{5}{16}$

C  $\frac{1}{2}$

D  $\frac{1}{4}$

Answer: A

### Question 150

If a four digit number is formed at random using the digits 2, 5, 7, 8, 9 then the probability that the sum of the digits in that number is a multiple of 2 is

A  $\frac{2}{5}$

B  $\frac{3}{5}$

C  $\frac{3}{10}$

D  $\frac{7}{10}$

Answer: B

**Question 185**

The whole project dropped ----- because of the lack of finance.

- A through
- B across
- C in
- D away

Answer: A

**Instructions**

Read the following passage and answer questions

Passage:

What is freedom? Freedom is the right to choose: the right to create for oneself the alternatives of choice. Without the possibility of choice and exercise of choice, we are not human beings but only inanimate objects. Fortunately, we are now living in a world full of choice: even in the selection of ice-cream or soaps. There is so much choice that we find it difficult to choose and some people feel that we actually suffer from what may be called choice fatigue!

Thanks to the tremendous growth and diversification in all spheres of life, the educational spectrum is crowded with a variety of courses in every conceivable field: most of the courses offered are practical and job-oriented and as a result, there is an array of career options available. Students are becoming smarter and they are learning to take intelligent decisions based on what is right for them. A good way to choose one's career path is to match one's strengths and aptitudes to the opportunities and threats in the job market of tomorrow. There are career guidance cells and centres in most colleges and universities from where one can get detailed information on career options.

**Question 186**

Why is the right to choose important?

- A without it we become soulless
- B it helps us to be happy
- C it enables us to be successful
- D it prevents conflict

Answer: A

**Question 187**

**What is 'choice fatigue'?**

- A choices are indispensable
- B choices are inevitable
- C there are too many options to choose from
- D a feeling of tiredness after making a choice

**Answer: C**

## SSC CGL Free Mock Test

**Question 188**

**Why is there an 'array of career options' available?**

- A due to technological advances
- B due to business opportunities
- C due to skilled labour
- D due to the availability of practical and job oriented courses

**Answer: D**

**Question 189**

**How does one choose a 'good career path'?**

- A by reading newspapers
- B by assessing one's own strengths and aptitudes
- C by becoming smarter
- D by looking at the job market

**Answer: B**

**Question 190**

**Where can one get information on career options?**

- A from teachers
- B from parents
- C from career guidance centres
- D from classmates

**Answer: C**

## Instructions

Read the following passage and answer questions:

Passage:

Private victory precedes public victory. Self-mastery and self-discipline are the foundations of good relationships with others. Some people say that you have to like yourself before you can like others. I think that idea has merit, but if you don't know yourself, if you don't control yourself, if you don't have mastery over yourself, it is very hard to like yourself.

Independence is an achievement. Interdependence is a choice only independent people can make. Unless we are willing to achieve real independence, it is foolish to try to develop human relations skills.

The most important ingredient we put into any relationship is not what we say or what we do, but what we are. And if our words and our actions come from superficial human relations rather than from own inner core, others will sense that duplicity. We simply won't be able to create and sustain the foundation necessary for effective interdependence.

So the place to begin building any relationship is inside us, inside our own character. As we become independent — proactive, centred in correct principles

— we then can choose to become interdependent capable of building rich, enduring, highly productive relationships with other people.

### Question 191

What is the most important ingredient we put into a relationship?

- A words
- B character
- C actions
- D Public victory

Answer: B

### Question 192

What according to the author is 'self independence'?

- A a choice
- B an achievement
- C a social necessity
- D a duplicity

Answer: B

### Question 193

What is the right place to build a relationship?

- A society
- B inside ourselves
- C office
- D outside ourselves

Answer: B

**Question 194**

**When do you like yourself?**

- A When you have mastery over yourself
- B When you don't control yourself
- C When you don't know yourself
- D When you have human skills

**Answer: A**

**Question 195**

**"You have to like yourself before you can like others". is a view the author:**

- A disagrees with
- B denounces
- C negates
- D agrees with

**Answer: D**

**Instructions**

Read the following passage and answer questions:

Passage:

The origin and progress and future promotion of civilization are all ill understood and misconceived. These should be made the chief theme of education. but much hard work is necessary before we can reconstruct our ideas of man and his capacities and free ourselves from innumerable persistent misapprehensions. There have been obstructionists in all times. not merely the lethargic masses, but the moralists, the rationalizing theologians, and most of the philosophers, all busily if unconsciously engaged in ratifying existing ignorance and mistakes and discouraging creative thought. Naturally, those who reassure us seem worthy of honour and respect. Equally naturally those who puzzle us with disturbing criticisms and invite us to change our ways are objects of suspicion and readily discredited. Our personal discontent does not ordinarily extend to any critical questioning of the general situation in which we find ourselves. In every age prevailing conditions of civilization have appeared quite natural and inevitable to those who grew up in them. Indeed, we are usually quite unaware that a game is being played at all.

**Question 196**

**What hampers the future of civilization?**

- A over enthusiasm
- B lack of enthusiasm
- C misconceptions
- D proper analysis

**Answer: C**

**Free SSC Study Material (18,000 Solved Questions)**
