TS ICET 19th August 2021 Shift-2

Analytical Ability

Instructions [1 - 20]

In the following questions, a question is followed by data in the form of two statements labelled as I and II. You must decide whether the data given in the statements are sufficient to answer the questions.

1. If the positive real numbers a, b, c, d are in Geometric Progression, what is the common ratio of that Geometric Progression?

I) $\frac{ad}{bc} = 1$
II) $\frac{ac}{bd} = 9$

- A if the statement I alone is sufficient to answer the question.
B if the statement II alone is sufficient to answer the question.
C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

Free Banking Study Material (15,000 Solved Questions)

2. What is the y-intercept of the straight line?

I) The straight line is passing through the point $(2, -1)$
II) Slope of the straight line is $\frac{3}{4}$

- A if the statement I alone is sufficient to answer the question.
B if the statement II alone is sufficient to answer the question.
C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

3. What is the amount of money Mr A saved from his monthly salary?

I) Monthly salary of Mr A is Rs.18000
II) The amount of Mr A spent on house rent and provisions in that month is RS.12500

- A if the statement I alone is sufficient to answer the question.
B if the statement II alone is sufficient to answer the question.
C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

4. What is the cost price of the article?

I) The marked price of the article is Rs.1500
II) By selling the article dealer gets 12% profit

- A if the statement I alone is sufficient to answer the question.

- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

Daily Free Banking Online Tests

5. What is the number of sides in the regular polygon?

- I) Length of each side of the regular polygon is 13 cm
- II) The sum of the internal angles of the regular polygon is π radians

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

6. What is the sum of the ages of P, Q and R ?

- I) Q's age is one half of the average of P,Q and R's ages
- II) P's age is twice the average age of P,Q and R

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

7. What is the digit in the units place of the positive integer n?

- I) n is a multiple of 11
- II) n- 1 is a multiple of 5

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

SSC CHSL Previous Question papers (download pdf)

8. Z_1 and Z_2 are complex numbers. Is $Z_1 + Z_2$ real?

- I) The real and imaginary parts of Z_1 and Z_2 are integers
- II) Z_1 is conjugate of Z_2

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

9. Is x divisible by 107?

I) x is multiple of 749

II) x is a common multiple of 7 and 37

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

10. What is the intercept made by the line on x -axis?

I) The line is passing through (7, -6)

II) The line is perpendicular to the line $2x + 3y = 25$

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CHSL Free Mock Test

11. What is the interest earned in three years?

I) Principal is Rs.1000

II) Rate of interest is 5% per annum

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

12. What is the remainder when the positive integer 'n' is divided by 12?

I) When n is divided by 28, the remainder is 9

II) When n is divided by 34, the remainder is 15

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

13. Find the value of a ?

- I) 3^a divides 1701
- II) 3^{a+1} do not divides 1701

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CGL Free Mock Test

14. How many cones can be formed by melting a sphere?

- I) The radius of the sphere, the radius of the cone and the height of the cone are in the ratio 6 : 2 : 1
- II) The volume of the sphere is 800 m^3

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

15. In a college, the number of students enrolled in both the physics course and the zoology course is how much less than the number of students enrolled in neither?

- I) There are 40 students enrolled in the physics course
- II) There are 50 students enrolled in the zoology course

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

16. Is $x > 0$?

- I) $|x + 1| < 5$
- II) $|x - 1| < 2$

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

Daily Free SSC Practice Set

17. How many sisters does A have?

- I) Parents of A have four children
II) A is the only son of his parents

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

18. Are the integers q , r and s consecutive?

- I) The arithmetic mean of q , r and s is r
II) $r - q = s - r$

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

19. Are the points of A, B, C collinear?

- I) C lies inside the circle for which AB is a diameter
II) $C = AB - BC$

- A** if the statement I alone is sufficient to answer the question.
- B** if the statement II alone is sufficient to answer the question.
- C** if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

SSC CGL Free Online Coaching

20. Is the function $f : R \rightarrow R$ even ?

I) $f(-5) = f(5)$

II) $f(-10) = -f(10)$

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

21. GOD : ELB :: SAT : _____

- A PWS
- B QXR
- C QWS
- D PYT

Answer: B

22. SUWY : LPTX :: PRTY : _____

- A INNRU
- B INQU
- C IMRU
- D IMQU

Answer: D

29. 7 : 342 :: 9 : ____

- A 728
- B 729
- C 730
- D 732

Answer: A

30. $5 \times 6 \times 7 \times 8 : 4! :: 9 \times 10 \times 11 \times 12 : \underline{\hspace{2cm}}$

- A 7!
- B 5!
- C 6!
- D 4!

Answer: D

Instructions [31 - 35]

Note : In questions numbered 31 to 35 pick the odd thing out.

- A $x^3 - 6x^2 + 12x - 8 = 0$
- B $x^3 - 6x^2 + 6x + 16 = 0$
- C $x^3 - 12x^2 + 12x + 25 = 0$
- D $x^3 - 24x^2 + 24x + 32 = 0$

Answer: A

Free Banking Study Material (15000 Solved Questions)

- A 12th Dec 2019
- B 10th Aug 2019
- C 8th Jun 2019
- D 11th May 2019

Answer: A

- A 125
- B 343
- C 729
- D 999

Answer: D

- A** Fish
- B** Tortoise
- C** Frog
- D** Crocodile

39. $25, 20, 16\frac{2}{3}, 14\frac{2}{7}, 12\frac{1}{2}, \underline{\hspace{1cm}}$

A $11\frac{1}{10}$

B $11\frac{1}{9}$

C $11\frac{1}{8}$

D $11\frac{3}{7}$

Answer: B

40. Triangle, _____, Pentagon, _____, _____, Octagon

A Rectangle, Hexagon, Heptagon

B Rectangle, Circle, Nonagon

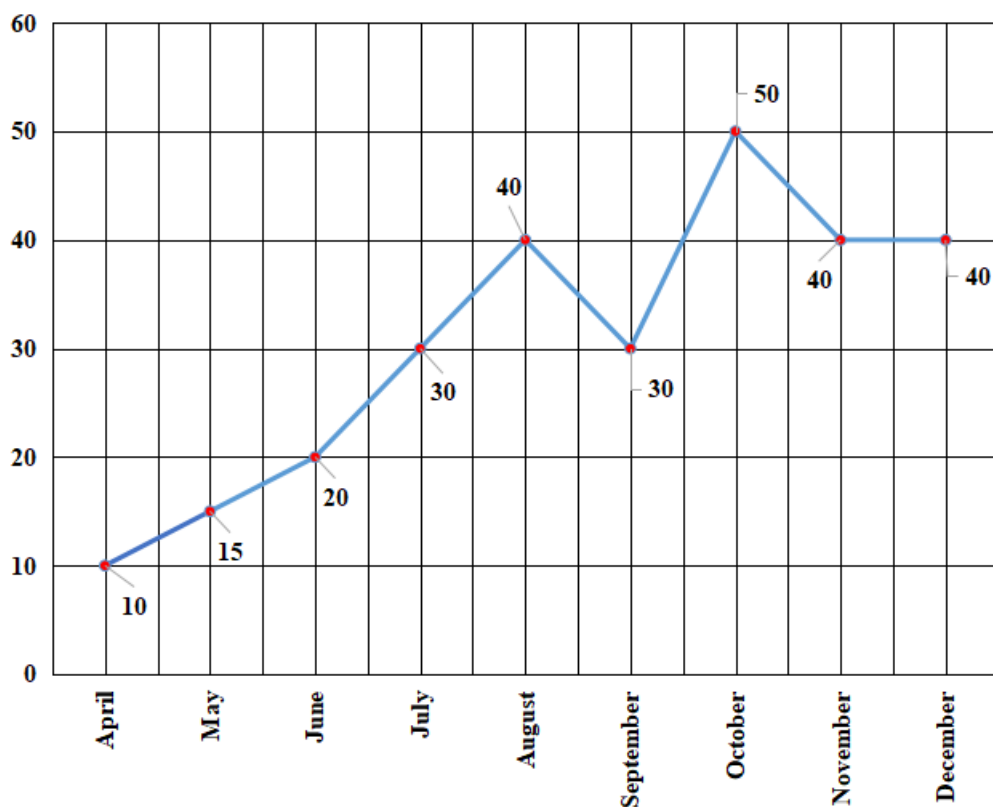

C Rectangle, Square, Rhombus

D Rectangle, Quadrilateral, Square

Answer: A

Instructions [41 - 43]

The number (in thousand) of tests of corona virus that showed positive in 9 months from April 2020 to December 2020 in a state is depicted in the following graph. Based on the data answer the questions.

41. During which months there was maximum increase in the positive cases?

- A April - May
- B July-August
- C September-October
- D November-December

Answer: C

SSC CHSL Free Mock Test

42. In which months was there neither increase nor decrease in the positive cases observed?

- A April - May
- B July - August
- C October - November
- D November - December

Answer: D

43. What is the percentage increase of the positive cases in August in comparison to April?

- A 400
- B 100
- C $66\frac{2}{3}$

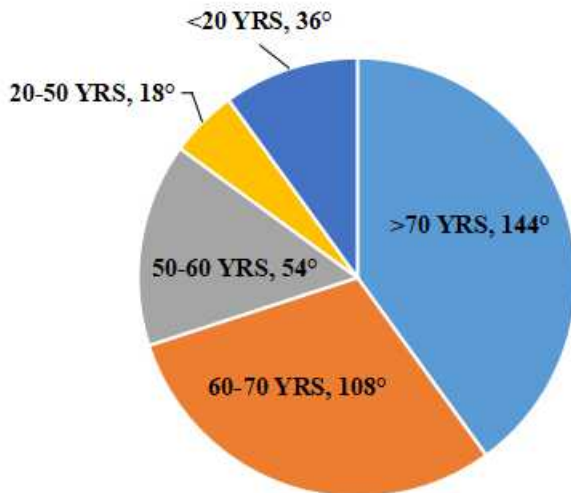

D 25

Answer: A

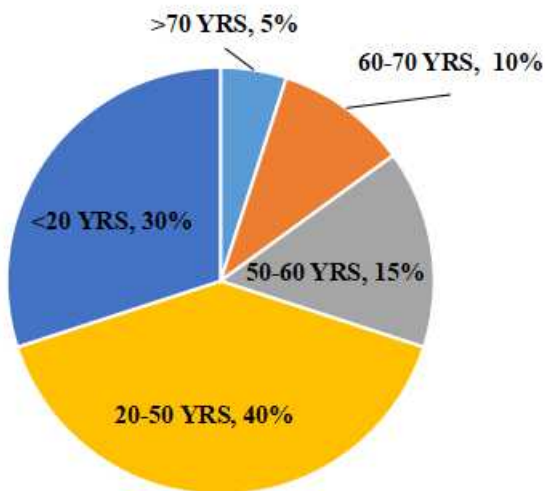

Instructions [44 - 48]

Based on a private study on the rates of infection and recovery from COVID-19 on different age groups in a population, not following the three precautionary protocols, some projections are made. These results are shown in the following Pie charts. Based on this data answer the questions.

INFECTION

RECOVERY

44. What is the percentage of the infection rate among the population of age more than 70 years?

- A 45
- B 40
- C 36
- D 30

Answer: B

SSC CGL Free Mock Test

45. What is the sectorial angle in the recovery sheet of the population in the age group of less than 20 years?

- A 125°
- B 108°
- C 96°
- D 75°

Answer: B

46. What will be the ratio of the infected to the recovery in a population of 50,000 in the age group of 60-70 years?

- A 10 : 1
- B 3 : 2
- C 3 : 4
- D 3 : 5

Answer: A

47. In which age group, is the rate of recovery is equal to the rate of infection?

- A ≥ 70
- B 60-70
- C 50-60
- D 20-50

Answer: C

Daily Free SSC Practice Set

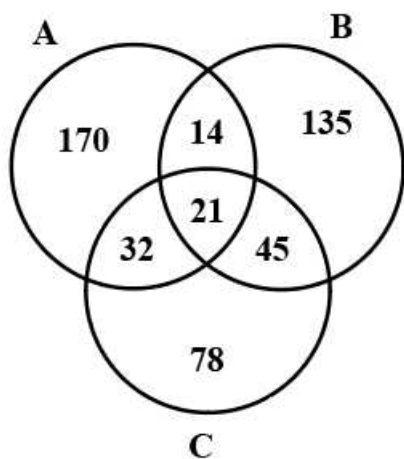

48. After the first dose of vaccination to senior citizens (age ≥ 60 years) it is expected that the infection rate will be reduced by 50% and the recovery rate increased by 40%. What will be the resulting ratio of the infection and recovery rates?

- A 10 : 1
- B 7 : 2
- C 5 : 3
- D 5 : 4

Answer: C

Instructions [49 - 50]

The following Venn diagram shows the number of students in a college who study the courses A, B and C. Based on the information given, answer the questions.

49. The number of students who study at least two out of the three courses A, B and C is

- A 91
- B 383
- C 103
- D 112

Answer: D

50. The number of students who study the courses either B or C but not A is

- A 45
- B 180
- C 258
- D 279

Answer: C

SSC CGL Free Online Coaching

Instructions [51 - 55]

In a certain code the alphabets A, B, C, ... are given ranks 1, 2, 3, respectively, and then n^{th} letter is coded as k^{th} letter where $1 \leq k \leq 26$ and $5n = k \pmod{26}$. For example, the 12^{th} letter L is coded as the 8^{th} letter H because $60 = 8 \pmod{26}$. For decoding reverse process is followed. Based on this answer questions

51. The code word for PRINCE is

- A BLRSPY
- B BLRTOY
- C BLSROY
- D BLSTPY

Answer: C

52. The code word for ALIKE is

- A EGRDY
- B EGSCY
- C EHRDY
- D EHSCY

Answer: D

53. The letters that are not changed under the given code are

- A M, T
- B L, Z
- C L, T
- D M, Z

Answer: D

Free SSC Study Material (18,000 Solved Questions)

54. The string of letters that is coded as WORLD is

- A OCNRF
- B PBMRF
- C OCMQG
- D PBNQG

Answer: A

55. The string of letters that is coded as DIARY is

- A FHVNE
- B FGUNE
- C FGUMD
- D FHUMD

Answer: B

56. If COVID is coded as FRYLG then the code for CORONA is

- A FRVSTD
- B FRWTUD
- C FRXTZD
- D FRURQD

Answer: D

SSC CGL Previous Papers (DOWNLOAD PDF)

57. In a certain code the word PINK is coded as OLQJ and the word BLUE is coded as VFCM, then the word GREY is coded as

- A FZHS
- B FUHX
- C ALMG
- D AMNF

Answer: A

58. In a certain code RELATION is coded as IVOZGRLM. Then which word is coded as UFMXGRLM?

- A FUNCTION
- B AARDVARK
- C ADVANCED
- D SYLLABLE

Answer: A

59. If CATCH is coded as GEXGL, which word is coded as HVST?

- A SLIP
- B FISH
- C HOLD
- D DROP

Answer: D

1500+ Very Important Free SSC Solved Questions

60. If HIGH is coded as 08090708, then the DARE is coded as

- A 04011805
- B 04011705
- C 04011605
- D 04011505

Answer: A

61. If March 2nd of any year is a Sunday, then the day on November 20th of the same year is?

- A Wednesday
- B Thursday

- C Friday
D Samrday

Answer: B

62. When the time in the clock is 7.13 AM, then the smaller angle between the minutes hand and hours hand, in degrees is

- A $144\frac{1}{2}$
B $137\frac{1}{2}$
C $215\frac{1}{2}$
D $222\frac{1}{2}$

Answer: A

Free Banking Study Material (15000 Solved Questions)

63. A clock was set at right time at 8 am on Monday. It is known that the clock gains 10 minutes every 24 hours. If the clock shows 1 pm on Tuesday, what would be the correct time?

- A 4.48 pm
B 4.45 pm
C 4.42 pm
D 4.40 pm

Answer: A

64. Let the Blood relationships between 2 persons be defined as

- i) $X + Y \Rightarrow X$ is husband of Y
ii) $X - Y \Rightarrow X$ is sister of Y
iii) $X \times Y \Rightarrow X$ is son of Y

what is the relationship A to B in $A - C \times B$?

- A Daughter
B Sister
C Niece
D Daughter-in-law

Answer: A

65. Mr. A reaches office 48 minutes before Mr.B who came to the office 12 minutes later than Mr.C. If C came to the office at 10.25 am; the time of arrival of A to the office is ?

- A 9.49 am
B 9.37 am
C 11.25 am

D 11.01 am

Answer: A

AP SI Free Solved Previous Papers PDF

66. Reaching the place of meeting 20 minute before 8.50 hours, Satish found himself 30 minutes earlier than the man who came 40 minutes late. What was the scheduled time of the meeting?

A 8.10

B 8.20

C 8.00

D 8.05

Answer: B

67. Five persons A, B, C, D, E sit on a row as follows. C sits to the right of B, E sits to the right of D, who is on the right of C and A sits to the left of B. Then the person in the middle is

A B

B C

C D

D E

Answer: B

68. If $p \otimes q = p^2 + q^2 - p - q$ and $p \triangle q = pq - p - q$, then $(6 \otimes 5) \triangle 5 =$

A 200

B 175

C 195

D 179

Answer: C

Free Banking Study Material (15,000 Solved Questions)

69. If $A * B = A + AB + B - 6$, then $7 * 8 =$ _____

A 55

B 70

C 65

D 49

Answer: C

70. If A means $\times$, B means $\div$, C means $+$, D means $-$, then $21C3D6A8B2 =$

- A 0
- B 14
- C 28
- D 48

Answer: A

Daily Free Banking Online Tests

Mathematical Ability

71. If $2^p + 3^q = 17$ and $2^{p+2} - 3^{q+1} = 5$, then $2^p - 3^q =$

- A 3
- B 5
- C 7
- D 16

Answer: B

SSC CHSL Previous Question papers (download pdf)

72. If $3^{45} = (3^2)^k$, then $k =$

- A 10
- B 512
- C 256
- D 20

Answer: B

73. If $a : b = 3 : 4$, then $a^2 - ab + b^2 : a^2 + ab + b^2 =$

- A 13 : 35
- B 13 : 37
- C 37 : 13
- D 35 : 13

Answer: B

74. Two vessels of equal capacity are $\frac{1}{3}$ and $\frac{1}{4}$ full with milk. Both the vessels are filled with water and the contents are transferred to a bigger vessel. What will the ratio of water to milk in the bigger vessel?

- A 17 : 7
- B 17 : 35
- C 20 : 23
- D 20 : 43

Answer: A

SSC CHSL Free Mock Test

75. If $(\sqrt[3]{2})^{2x+5} = (\sqrt[4]{2})^{3x-6}$, then $x =$

- A 12
- B 28
- C 32
- D 38

Answer: D

76. $\sqrt{10 + 2\sqrt{6} + 2\sqrt{10} + 2\sqrt{15}} =$

- A $1 + \sqrt{3} + \sqrt{7}$
- B $1 + \sqrt{2} + \sqrt{7}$
- C $\sqrt{2} + \sqrt{5} + \sqrt{7}$
- D $\sqrt{2} + \sqrt{3} + \sqrt{5}$

Answer: D

77. When a number is divided by divisor, the quotient obtained is one-third of the divisor and the remainder is 50% more than the quotient. If the remainder is 30, then the value of the original number is

- A 1540
- B 1460
- C 1310
- D 1230

Answer: D

SSC CGL Free Mock Test

78. The remainder obtained when $9^{19} + 6$ is divided by 8 is

- A 3
- B 4

C 5

D 7

Answer: D

79. What is the smallest number which when increased by 5 is divisible by 3, 6, 9, 15, 20, 24 and 36?

A 365

B 360

C 355

D 350

Answer: C

80. What is the least integer which gives remainder 0 when divided by 2, remainder 4 when divided by 5 and remainder 3 when divided by 7?

A 164

B 24

C 94

D 31

Answer: B

Daily Free SSC Practice Set

81. The average of four consecutive even integers is 37. Then the product of the first and fourth is

A 1480

B 1420

C 1380

D 1360

Answer: D

82. The value of $5 + \frac{11}{6 + \frac{11}{8 + 2}}$ is

A $5\frac{17}{104}$

B $6\frac{8}{105}$

C $7\frac{9}{106}$

D $8\frac{1}{117}$

Answer: A

83. The ascending order of the surds $4\sqrt{13}$, $5\sqrt{9}$, $6\sqrt{6}$, $7\sqrt{5}$ is

- A $7\sqrt{5}, 6\sqrt{6}, 5\sqrt{9}, 4\sqrt{13}$
- B $4\sqrt{13}, 5\sqrt{19}, 6\sqrt{6}, 7\sqrt{5}$
- C $7\sqrt{5}, 5\sqrt{9}, 6\sqrt{6}, 4\sqrt{13}$
- D $4\sqrt{13}, 6\sqrt{6}, 5\sqrt{9}, 7\sqrt{5}$

Answer: D

SSC CGL Free Online Coaching

84. What is the difference between the largest and the smallest of the following rational numbers?

$$\frac{7}{12}, \frac{13}{18}, \frac{19}{36}, \frac{5}{6}$$

- A $\frac{1}{4}$
- B $\frac{1}{9}$
- C $\frac{11}{36}$
- D $\frac{13}{36}$

Answer: C

85. In a mixture of 124 litres of milk and water, the water content is 25%. If 31 litres of water is added to the mixture, then the ratio of milk to water in 155 litres of mixture is

- A 2 : 3
- B 3 : 2
- C 3 : 4
- D 4 : 3

Answer: B

86. If the numerator of a fraction is increased by 20% and the denominator is decreased by 10%, then the percentage increases in that fraction is

- A 50
- B $45\frac{1}{2}$
- C $45\frac{2}{3}$
- D $45\frac{1}{3}$

Answer: D

Free SSC Study Material (18,000 Solved Questions)

87. The profit made by selling an article at Rs.1350 is twice the loss incurred when the same article is sold at Rs.900. To get profit of 25%, the selling price of that article is (in rupees)

- A 1470.5
- B 1392.5
- C 1312.5
- D 1275.5

Answer: C

88. The profit earned by selling an article for Rs.900 is double the loss incurred when the same article is sold for Rs.450. At what price should the article be sold to make 25% profit?

- A 600
- B 750
- C 800
- D Data inadequate

Answer: B

89. Two persons A and B are partners in a business. Their capitals are in the ratio 4 : 3. The time kept the capitals in the business are in the ratio 5 : 6. If, at the end of the year A gets a share of Rs.15200 in the profit, then the share of B in rupees is

- A 14680
- B 13680
- C 12680
- D 14180

Answer: B

SSC CGL Previous Papers (DOWNLOAD PDF)

90. A person starts a business with some capital. After 3 months B joins the business with the capital being 60% of A's capital and C joins with 80% of capital of A. At the end of the year they made a profit of Rs.328000. The share of C' in the profit (in rupees)

- A 128000
- B 105000
- C 84000
- D 96000

Answer: D

91. Two pipes A and B can fill a tank in 24 minutes and 36 minutes respectively. If both the pipes are opened together and A is shut off after 8 minutes the further time required to fill the tank (in minutes) :

- A 20

- B** 18
C 16
D 10

Answer: C

92. Two taps A and B can fill a tank separately in 20 and 25 minutes respectively. If both the taps are started together and after 5 minutes B is turned off, then in how many more minutes will the tank be full?

- A** 6
B 9
C 11
D 16

Answer: C

1500+ Very Important Free SSC Solved Questions

93. A man takes 5 hours walking to a place and coming back walking. He would have gained 2 hours by riding a bicycle both ways. Find the time taken by the man to walk to the place and riding back by bicycle (in hours)?

- A** 6
B 2
C 3
D 4

Answer: D

94. A man riding on a bicycle at a speed of 11 kmph takes 4 hours to complete one round along circumference of a circular field. Then the area of the field (in sq.meters)

- A** 160
B 154
C 180
D 165

Answer: B

95. Two persons A and B working together can complete a task in $7\frac{1}{2}$ days. B alone takes 8 days less than A alone to complete the task. If another person C alone takes 14 days to complete the task, then the difference between the number of days needed by B alone and C alone to complete the task is

- A** 2
B 3
C 4

D 5

Answer: A

Free Banking Study Material (15000 Solved Questions)

96. Three persons A, B and C could complete a piece of work individually in 24, 30 and 40 day, respectively. All the three started the work together but, C left the work before 4 days of its completion. In how many days was the work completed?

A 16

B 15

C 13

D 11

Answer: D

97. The sides of a triangle are 6 cm, 8 cm and 9 cm long. Its area is (cm^2)

A $12\sqrt{5}$

B $12\sqrt{2}$

C $13\sqrt{5}$

D $13\sqrt{2}$

Answer: A

98. The length and breadth of a rectangle are in the ratio 8 : 5. If the area of the rectangle is $1000 m^2$, then the perimeter of the rectangle (in meters) is

A 65

B 85

C 130

D 170

Answer: C

AP SI Free Solved Previous Papers PDF

99. The volume of a right circular cone of height 12 cm and base radius 6 cm is equal to half of the volume of a sphere. Then the radius of the sphere (in cm) is

A 6

B 5

C 4

D 3

Answer: A

100. How many solid spherical balls of diameter 1.5 cm can be made by melting a cylindrical metal of height 20 cm and a base diameter of 12 cm?

- A 1320
- B 1300
- C 1280
- D 1250

Answer: C

101. A rectangular tank is 5 m long and 2.9m deep. If 100 m^3 of water is pumped out of the tank, then the water level is reduced by 20 cm. Then the full capacity of the tank (in m^3) is

- A 1450
- B 1400
- C 1000
- D 729

Answer: A

Free Banking Study Material (15,000 Solved Questions)

102. An open box, made of wood 3 cm thick has external dimensions 1.46 m, 1.16 m and 8.3dm. The cost of painting the inner surface of the box at the rate of Rs.0.50 per 100 sq.cm. is (in rupees)

- A 168
- B 277
- C 315
- D 436

Answer: B

103. In a rectangular plot of $500\text{ m} \times 300\text{ m}$ roads of 2 m wide are laid joining the mid points of the opposite sides and also a path of same width running inside and along the length and the breadth of it. How much of the area of the plot left excluding the roads and the path (in sq. m.)?

- A 145632
- B 145326
- C 145236
- D 145362

Answer: C

104. The digit in the units place in the decimal expansion of 7^{151} is

- A 1

- B** 3
- C** 5
- D** 6

Answer: B

Daily Free Banking Online Tests

105. The remainder when 281 is divided by 17 is

- A** 0
- B** 1
- C** 2
- D** 3

Answer: C

106. If p, q, r are 3 statements then $\sim ((\sim p \rightarrow q) \wedge (\sim p \rightarrow r))$ is equivalent to

- A** $p \rightarrow (\sim q \rightarrow \sim r)$
- B** $\sim p \wedge (q \rightarrow r)$
- C** $\sim p \wedge (q \rightarrow \sim r)$
- D** $\sim p \rightarrow (\sim q \rightarrow r)$

Answer: C

107. If p and q are two statements then which of the following is a tautology?

- A** $(p \rightarrow q) \vee p$
- B** $(p \leftrightarrow q) \vee p$
- C** $(p \rightarrow q) \wedge p \leftrightarrow q$
- D** $[(p \rightarrow q) \vee p] \leftrightarrow q$

Answer: C

SSC CHSL Previous Question papers (download pdf)

108. If a set A has 5 elements then the number of nonempty proper subsets of A is

- A** 32
- B** 31
- C** 30
- D** 29

Answer: C

109. Let $n(A) = m$, and $n(B) = n$. Then the total number of nonempty relations that can be defined from A to B is

- A m^n
- B $n^m - 1$
- C $mn - 1$
- D $2^{mn} - 1$

Answer: D

110. Let $f : R \rightarrow R$ be a function satisfying the condition $2f(x) - 3f\left(\frac{1}{x}\right) = x^2$ for all $x \neq 0$. Then $f(3) - f\left(\frac{1}{3}\right) =$

- A $-\frac{16}{11}$
- B $-\frac{16}{9}$
- C $\frac{16}{9}$
- D $\frac{16}{11}$

Answer: C

SSC CHSL Free Mock Test

111. The sum of the intercepts made by the line passing through the points (3, 4) and (5, -2) on the coordinate axes is

- A $\frac{13}{3}$
- B $\frac{26}{3}$
- C $\frac{39}{3}$
- D $\frac{52}{3}$

Answer: D

112. The equation of the straight line passing through the point (-4, 3) and is perpendicular to the line segment joining the points (1, -3) and (-5, 1) is

- A $x - y + 7 = 0$
- B $x + y + 1 = 0$
- C $3x + 2y + 6 = 0$
- D $3x - 2y + 18 = 0$

Answer: D

113. If θ is not in the third quadrant and $\cos \theta = \frac{-4}{5}$, then $\frac{3 \tan \theta + 5 \operatorname{cosec} \theta}{4 \cot \theta + 3 \sec \theta} =$

- A $-\frac{24}{79}$
-

- B** $\frac{-77}{119}$
- C** $\frac{-73}{109}$
- D** $\frac{-29}{71}$

Answer: C

SSC CGL Free Mock Test

114. $\cos 208^\circ \sin 238^\circ + \sin 152^\circ \cos 122^\circ =$

- A** 0
- B** 1
- C** $\frac{1}{2}$
- D** $\frac{1}{3}$

Answer: C

115. If $A + B + C = 180^\circ$, then $\frac{\tan A + \tan B + \tan C}{\tan A \tan B \tan C} =$

- A** -2
- B** 01
- C** 1
- D** 2

Answer: C

116. If the top of a 15 meter high tower makes an angle of depression of 60° with the bottom of an electric pole and an angle of depression of 30° with the top of the pole, then the height (in meters) of that electric pole is

- A** 5
- B** 6
- C** 8
- D** 10

Answer: D

Daily Free SSC Practice Set

117. $\sqrt{(x^2 - 2x - 15)(x^2 - 5x - 24)(x^2 - 13x + 40)}$

- A** $(x + 8)(x - 5)(x - 3)$
- B** $(x + 8)(x - 5)(x + 3)$
- C** $(x - 8)(x + 5)(x + 3)$

D $(x - 8)(x - 5)(x + 3)$

Answer: D

118. If $(3a - \frac{1}{b})^2 - 8(3a - \frac{1}{b}) + 16 + (c + \frac{1}{b} - 2a)(3a - \frac{1}{b} - 4) = 0$, then

A $a + 3c + = 4$

B $a + c + = 4$

C $3a + c + = 4$

D $2a + 3c + = 4$

Answer: B

119. A polynomial in x leaves remainder -1 and 7, when it is divided by $(x + 1)$ and $(x - 3)$ respectively. If the same polynomial is divided by $x^2 - 2x - 3$ then the remainder is

A $x + 2$

B $x - 2$

C $2x - 1$

D $2x + 1$

Answer: D

SSC CGL Free Online Coaching

120. If the remainder when the polynomial $7x^3 - 8x^2 + 9x - 10$ is divided by $x^2 - x - 2$ is $ax + b$, then $a + b =$

A 10

B 22

C -12

D -8

Answer: A

121. A person has Rs.10 and Rs.20 notes in his purse. Total number of notes is 37. Total amount is Rs.510. Then the difference between the number of Rs.10 notes and Rs.20 notes is

A 14

B 23

C 7

D 9

Answer: D

122. Five pens and six pencils cost Rs.28. Six pens and five pencils cost Rs.27. Now the cost (in Rupees) of each pen and each pencil respectively?

- A 3.2
- B 2.3
- C 1.4
- D 4.1

Answer: B

Free SSC Study Material (18,000 Solved Questions)

123. The sum of all natural numbers between 1 and 100 which are multiples of 3 is

- A 1683
- B 1563
- C 1526
- D 1443

Answer: A

124. If the 5th term of a Geometric Progression is 7, then the product of the first 9 terms is

- A 7^{18}
- B 7^9
- C $(\sqrt{7})^9$
- D 9^7

Answer: B

125. If $C_0, C_1, C_2, \dots, C_n$, are binomial co-efficients of $(1+x)^n$ = then $C_0 - C_1 + C_2 + \dots + C_n(-1)^n$

- A 1
- B -1
- C 0
- D 2^n

Answer: C

126. The coefficient of x^{-7} in the binomial expansion of $\left(3x^{\frac{1}{5}} + \sqrt{x}\right)^{21}$

- A ${}^{21}C_5 3^{16} 4^5$
- B ${}^{21}C_5 3^5 4^{16}$

C ${}^{21}C_6 3^{15} 4^6$

D ${}^{21}C_6 3^6 4^{15}$

Answer: B

127. If a, b, c , are distinct real numbers and

$$\begin{vmatrix} a & a^2 & a^3 - 1 \\ b & b^2 & b^3 - 1 \\ c & c^2 & c^3 - 1 \end{vmatrix} = 0, \text{ then}$$

A $a + b + c = 0$

B $a + b + c = 1$

C $abc = 1$

D $ab + bc + ca = 0$

Answer: C

128. $A = \begin{bmatrix} 1 & 0 & 0 \\ 0 & 1 & 0 \\ 0 & 0 & 1 \end{bmatrix}$ and

$B = \begin{bmatrix} 0 & 0 & 1 \\ 0 & 1 & 0 \\ 1 & 0 & 0 \end{bmatrix}$ then $A^{25}B^{37} + A^{24}B^{36} =$

132. In the figure given below PQRS is a parallelogram. Then $y =$

- A 90°
- B 70°
- C 120°
- D 110°

Answer: D

133. In the adjacent figure $\angle BAT = 130^\circ$ and $\angle T = 25^\circ$, then $\angle TCA =$

- A 50°
- B 105°
- C 135°
- D 130°

Answer: D

134. If the distance between the points $(4, p)$ and $(1, 0)$ is 5, then the value of p is

- A 4 only
- B ± 4
- C -4 only
- D 0

Answer: B

AP SI Free Solved Previous Papers PDF

135. If (x_1, y_1) and (x_2, y_2) are the points of trisection of the line segment joining the points $(-7, 5)$ and $(2, -4)$, then

- A -5
- B $-\frac{5}{3}$
- C 5
- D $\frac{5}{3}$

Answer: A

136. The Arithmetic Mean of the following data

1, 4, 9, 16, ..., 144

- A $\frac{13}{2}$
- B $\frac{175}{3}$

C $\frac{325}{6}$

D $\frac{625}{12}$

Answer: C

137. Find the median of the following frequency distribution:

Class	0-4	4-8	8-12	12-16	16-20
Frequency	8	10	20	10	2

A 9.1

B 9.4

C 10.2

D 10.6

Answer: B

Free Banking Study Material (15,000 Solved Questions)

138. The mode of the data 2, 5, 3, 2, 6, 2, 7, 8, 2, 7, 7, 3, 7, 8, 7 and 10 is

A 7

B 2

C 3

D 8

Answer: A

139. The standard deviation of the data 6, 5, 9, 13, 12, 8 and 10 is

A $\sqrt{\frac{52}{7}}$

B $\frac{52}{7}$

C $\sqrt{6}$

D 6

Answer: A

140. The standard deviation of a distribution is 4. If each observation in that data is increased by 2, then the new standard deviation will be _____

A 8

B 2

C 4

D 6

Answer: C

Daily Free Banking Online Tests

141. There are 12 observations $x_1, x_2, \dots, x_{12}$ and $y_1, y_2, \dots, y_{12}$ of two variables x, y and $d_i = x_i - y_i$ for $1 \leq i \leq 12$. If $\sum d_i^2 = 65$, then the coefficient of rank correlation is

A $\frac{7}{11}$

B $\frac{7}{22}$

C $\frac{17}{22}$

D $\frac{17}{33}$

Answer: C

142. Three numbers are chosen at random from 1 to 20. The probability that they are not consecutive, is

A $\frac{186}{190}$

B $\frac{187}{190}$

C $\frac{188}{190}$

D $\frac{18}{203}$

Answer: B

143. If 5 boys and 5 girls are allowed to sit in a row at random, then probability that no two girls sit adjacent to each other is

A $\frac{5}{42}$

B $\frac{2}{41}$

C $\frac{1}{42}$

D $\frac{4}{21}$

Answer: C

180. The fire _____ the sunrounding forest.

- A helped
- B demarked
- C drowned

D devastated

Answer: D

Instructions [181 - 185]

Read the following passage and answer the questions.

Holi celebrations start on the night before Holi with a Holika Dahan where people gather, perform religious rituals in front of the bonfire, and pray that their internal evil be destroyed the way Holika, the sister of the demon king Hiranyakashipu, was killed in the fire. The next morning is celebrated as Rangwali holi - a free-for-all festival of colours, where people smear each other with colours and drench each other. Water guns and water-filled balloons are also used to play and colour each other. Anyone and everyone is fair game, friend or stranger, rich or poor, man or woman, children or elders. The frolic and fight with colours occur in open streets, open parks, outside temples and buildings. Groups carry drums and other musical instruments, go from place to place, sing and dance. People visit family, friends and foes to throw coloured powders on each other, laugh and gossip then share Holi delicacies, food and drinks. Some customary drinks include bhang (made from cannabis), which is intoxicating. In the evening, people dress up and visit friends and family.

181. **Holika Dahan is celebrated because _____**

- A** It symbolizes destruction of evil within us
- B** It symbolizes destruction of our enemies
- C** It symbolizes destruction of evil in the outside world

Instructions [186 - 190]

Read the following passage and answer the questions.

The COVID-19 pandemic has led to a dramatic loss of human life worldwide and presents an unprecedented challenge to public health, food systems and world of work. The economic and social disruption caused by the pandemic is devastating_: tens of millions of people are at risk of falling into extreme poverty, while the number of undernourished people, currently estimated at nearly 690 million, could increase by up to 132 million by the end of the year.

Millions of enterprises face an existential threat. Nearly half of the world's 3.3 billion global workforce are at risk of losing their livelihood. Informal economy workers are particularly vulnerable because the minority lack social protection and access to quality healthcare and have lost access to productive assets. Without the means to earn an income during lockdowns, many are unable to feed themselves and their families. For most, no income means no food, or at best, less food and less nutritious food.

Now is the time for global solidarity and support, especially with the most vulnerable in our societies, particularly in the emerging and developing world. Only together can we overcome the intertwined health and social and economic impacts of the pandemic and prevent its escalation into a protracted humanitarian and food security catastrophe with the potential loss of already achieved development gains.

We must recognise this opportunity to build back better, as noted in the Policy Brief issued by the United Nations Secretary-General. We are committed to pooling our expertise and experience to support countries in their crisis response measures and efforts to achieve the sustainable Development Goals. We need to develop long-term sustainable strategies to address the challenges facing the health and agri-foods sectors. Priority should be given to addressing underlying food security and malnutrition challenges, tackling rural poverty, in particular through more and better jobs in the rural economy, extending social protection to all, facilitating, safe migration pathways and promoting the formalization of the informal economy.

186. **What among the consequences of COVID-19, causes the enormous increase in the number of undernourished people?**

- A** Micro migration
- B** Loss of human life
- C** Danger to public health
- D** Increase in poverty

Answer: D

187. **Where do you find acute problem of food security?**

- A All over the world
- B In the developed world
- C In the developing world
- D In the international community

Answer: C

188. What is the meaning of "protracted" in the passage?

- A without delay
- B lasting longer than necessary
- C proposed
- D projected

Answer: B

- C W.H.O.
- D Health Department, China

Answer: C

190. What are the sectors that need long-term sustainable strategies in this situation?

- A Urban economy
- B Health and Agri-food sectors
- C Migration
- D Unemployment

Answer: B

Instructions [191 - 195]

Read the following passage and answer the questions.

There was a time when the late Prime Minister of India, P.V. Narasimha Rao was asked by a journalist, "Sir, why do you always answer a question with a question?" Pat came the reply "Why shouldn't I answer a question with a question?" Such is the spontaneity of repartee that it leaves the person at the receiving end dumbfounded and speechless.

The word 'repartee' owes its origin to the French word repertoire which is a retort. Sir Sullivan states. "I have used the word 'artless' in my title for good reason, for if there be even a suggestion of premeditation about a repartee, it ceases to be what it is meant for-its power is gone ..., repartee is the saying of something on the spur of the moment which, by the unanimous consent of the hearers, leaves the person replied to practically destitute of speech by way of defence".

While repartee may be considered as the peak of wit, it necessarily needs to meet two conditions. First, it's always a rejoinder and second, it is delivered with lightning speed. The rejoinder need not always be a response to a spoken delivery and could include a

response to an irritating action. Timing is the essence of repartee! It is different from 'staircase wit' which is when we think of a rather witty reply but only once we've left the door and are heading down the staircase. A repartee is typically delivered with courtesy although sometimes along with cleverness. It is distinct from an acrimonious reply but is brutal in its action. Which is why the Irish refer to it as an "insult with its dress suit on".

191. What do you understand from PV's rejoinder: "Why shouldn't I answer a question with a question?"

- A He was speechless
- B He did not answer the question
- C He ironically answered the question with another question
- D He delayed the rejoinder

Answer: C
