TS ICET 1st Oct 2020 Shift-1

Analytical Ability

Instructions [1 - 20]

In the following questions, a question is followed by data in the form of two statements labelled as I and II. You must decide whether the data given in the statements are sufficient to answer the questions.

1. Find the values of x and y .

(I) $2x = 3y$

(II) $4x^2 + 9y^2 = 12xy$

- A If the statement I alone is sufficient to answer the question.
- B If the statement II alone is sufficient to answer the question.
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

Free Banking Study Material (15,000 Solved Questions)

2. Is the triangle ABC, an acute angled triangle?

(I) The sides of the triangle are in the ratio 4 : 5 : 7

(II) The Length of the longer side is 28 cm.

- A If the statement I alone is sufficient to answer the question.
- B If the statement II alone is sufficient to answer the question.
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

3. If a is an integer, $100 < a < 200$. then what is the value of a ? then what is the value of a ?

(I) a gives remainder 5 when divided by 10.

(II) a is divisible by 11.

- A If the statement I alone is sufficient to answer the question.
- B If the statement II alone is sufficient to answer the question.
- C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

4. How many books were sold this month in your shop?

(I) Last month ... 87 books were sold.

(II) The number of books sold this month was 2 times that of last month.

- A If the statement I alone is sufficient to answer the question.

- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

Daily Free Banking Online Tests

5. What is the height of the mountain .

(I) The angle of elevation of the top of the mountain is 60° .

(II) The top of the mountain is seen from a point which is on horizontal line with the base.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

6. If a, b, c are in geometric progression, then $a + b + c =$

(I) $a = 7$.

(II) The third term of the progression is twice the first term.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

7. What is the Mode of the frequency distribution?

(I) The arithmetic mean is 58.

(II) The total frequency is 100.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

SSC CHSL Previous Question papers (download pdf)

8. What is the percentage increase in profit of the company X in the year 2016 with respect to that in 2014?

(I) The profit of the company in 2014 was Rs.1 lakh, which 10% more than that in 2015.

(II) Company's profit in 2016 was Rs.2 lakhs which was Rs.1 lakh more than that in 2014.

- A** If the statement I alone is sufficient to answer the question.

- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

9. Let L be the set of straight lines in a plane. Is the relation S defined on L a reflexive relation?

(I) $l_1, l_2 \in L$

(II) $(l_1, l_2) \in S \leftrightarrow l_1 \perp l_2$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

10. How many students are there in the school?

(I) Out of the total number of girls in the school, 25% belong to age group below 10 years and these are 150 in number.

(II) The ratio of girls to boys in the school is 5 : 7.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CHSL Free Mock Test

11. What is the average of x and y ?

(I) $x - y = 6$

(II) $x + y = 16$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

12. Find the area of the rectangular field.

(I) The expenditure incurred in fencing along sides of the rectangle is Rs.30000

(II) Cost of fencing per foot is Rs.500.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

13. Is the positive integer m divisible by 96?

- (I) m is divisible by 12.
(II) m is divisible by 8.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

SSC CGL Free Mock Test

14. The arithmetic mean of integers r, s, t, u, v is 100. Are exactly two of these integers greater than 100.

- (I) Three of the integers are less than 50.
(II) None of these integers is equal to 100.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

15. If p, q are positive integers is p a multiple of q ?

- (I) Every distinct prime factor of q is also a distinct prime factor of p .
(II) Every factor of q is also a factor of p .

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

16. Anil has 3 credit cards A, B and C. He owes balances on all the three cards. Does he owe the greatest balance on the card B?

- (I) The sum of the balances on card B and C is Rs.1350 which is 3 times the balance on card A.
(II) The balance on card B is $\frac{4}{3}$ of the balance on card A and $\frac{4}{5}$ of the balance on his card C.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient

- D** It both the statements I and II together are not sufficient to answer the question and. additional data is required.

Answer: B

Daily Free SSC Practice Set

17. Is the standard deviation of the ages of students in class A greater than standard deviation of the age of students in class B ?
(I) The difference between the ages of any two students in class A is always more than one year.
(II) No student in class B is more than 6 months older than any other student.

- A** If the statement I alone is sufficient to answer the question.
B If the statement II alone is sufficient to answer the question.
C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
D It both the statements I and II together are not sufficient to answer the question and. additional data is required.

Answer: C

18. Is n an even integer?
(I) $6n$ is even.
(II) $71n$ is odd.

- A** If the statement I alone is sufficient to answer the question.
B If the statement II alone is sufficient to answer the question.
C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
D It both the statements I and II together are not sufficient to answer the question and. additional data is required.

Answer: B

19. If Z is an integer, what is the units digit of Z^3 ?
(I) Z is a multiple of 5.
(II) $\sqrt{Z}$ is an integer.

- A** If the statement I alone is sufficient to answer the question.
B If the statement II alone is sufficient to answer the question.
C If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
D It both the statements I and II together are not sufficient to answer the question and. additional data is required.

Answer: D

20. What is the ratio of discounted price of an item to its marked price?
(I) The discounted price is Rs.4 less than the marked price.
(II) Discounted price is 20% less than the marked price.

- A** If the statement I alone is sufficient to answer the question.
B If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

21. **BACK :** _____ **:: FRONT : 0921181723**

- A** 05040614
- B** 05040613
- C** 05040612
- D** 040030614

Answer: A

22. **SUWY : LPTX :: PRTV : _____**

- A** INRU
- B** INQU
- C** IMRU
- D** IMQU

Answer: D

- D 445,711

Answer: B

40. 100, 1001, 11001, 110001, _____

- A 1100001
- B 1110001
- C 1111001
- D 1111101

Answer: C

Instructions [41 - 43]

The following table gives the classification of 100 students based on the marks obtained by them in Mathematics and Physics in an examination. Based on this information, answer the questions from 46 to 48.

Subject	Max. Marks 50				
	40 and above	30 and above	20 and above	10 and above	0 and above
Mathematics	9	33	80	92	100
Physics	5	21	66	82	100
Average	7	27	73	87	100

41. The number of students scoring less than 40% marks in aggregate is

- A 27
- B 20
- C 19
- D 13

Answer: A

SSC CHSL Free Mock Test

42. The number of students scoring less than 60% marks in aggregate is

- A 71
- B 72
- C 73
- D 74

Answer: C

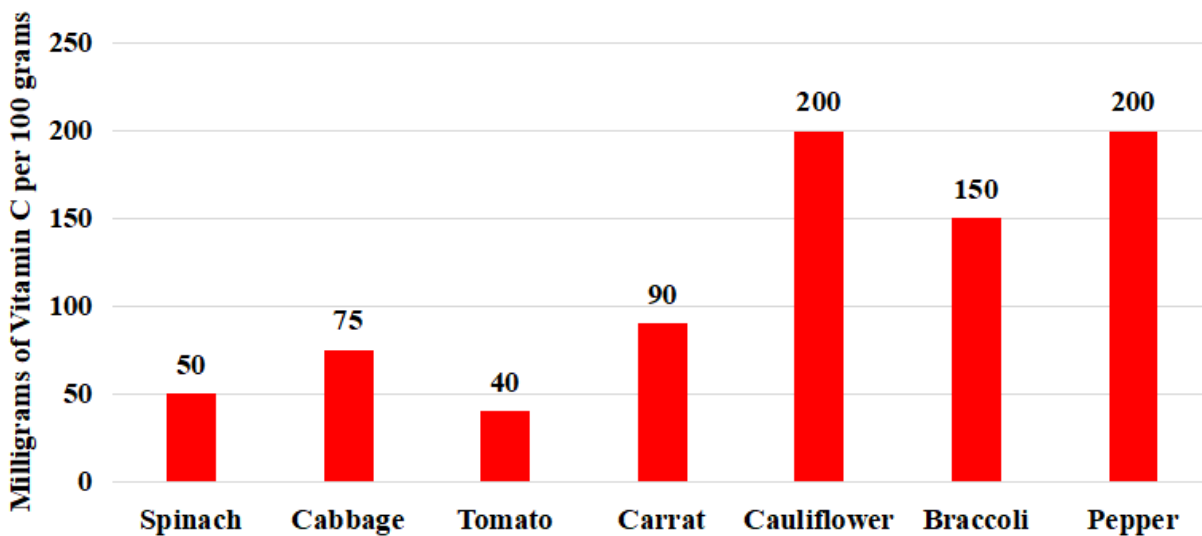

43. The number of students scoring less than 80% marks, but more than 60% marks in aggregate is:

- A** 24
- B** 20
- C** 16
- D** 14

Answer: B

Instructions [44 - 48]

Based on the following bar diagram, answer the questions from 49-53.

44. The ratio of amount of Vitamin C in 500 grams of Cabbage to 500 grams of Cauliflower is

- A** 7 : 20
- B** 8 : 21
- C** 6 : 19
- D** 6 : 17

Answer: A

SSC CGL Free Mock Test

45. How many grams of Carrot you require to get 900 mgs of Vitamin C ?

- A** 950
- B** 900
- C** 1000
- D** 800

Answer: C

46. Which of the following vegetables gives maximum vitamin C?

- A** 250 gms of Spinach
- B** 150 gms of Cauliflower
- C** 250 gms of Carrot
- D** 300 gms of Cabbage

Answer: B

47. A person consumed 150 gm of Spinach and 150 gms of Tomato on same day. The amount of vitamin C (in m.gms) he consumed on that day is

- A** 135
- B** 130
- C** 125
- D** 120

Answer: A

Daily Free SSC Practice Set

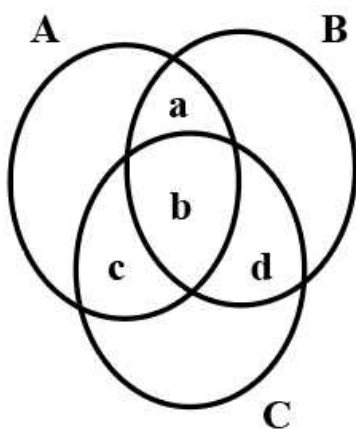

48. The total amount (in m.gms) of vitamin C available in 500 gms of Pepper and 300 gms of Broccoli is

- A** 1350
- B** 1400
- C** 1450
- D** 1500

Answer: C

Instructions [49 - 50]

Using the following Venn diagram answer the questions 54 and 55.

49. The area that represents contract employees who work in government sector but not post graduates is

- A** a

- B** b
C c
D d

Answer: D

50. The region that represents employee in the government sector who are also post graduates is

- A** $a \cup b$
B $b \cup c$
C $a \cup b \cup c$
D $c \cup b \cup d$

Answer: C

54. If CENTURY is coded a AGLVSTW, then the code for SACHIN is

- A UCAJGP
- B UCEFGL
- C QCAJGP
- D QCAFKL

Answer: C

55. If DIAMOND is coded as VQYMKKLV, how is FEMALE coded?

- A TUMYNU
- B UVNZOV
- C UVNYNV
- D TUMZOU

Answer: A

56. In a certain code the word PHONE is coded as DMNGO, then BUILT is coded as

- A UMJVC
- B SKHTA
- C UKHTC
- D SMJVA

Answer: B

SSC CGL Previous Papers (DOWNLOAD PDF)

57. In a certain code MASTER is coded as QISREL, then STUDENT is coded as

- A SLHBASR
- B SNJDASR
- C SMICASR
- D SNJDBSR

Answer: C

58. In a certain code language the word PRINCE is coded as 144 and the word KING is coded as 91, then in the same language MINISTER is coded as

- A 107

B 237

C 214

D 298

Answer: B

59. In a certain code language, the words ENGINEER and DOCTOR are coded respectively as 29 and 15 then in the same language TEACHER is coded as

A 38

B 39

C 40

D 41

Answer: A

60. If the word BANKER is coded as LISCEP, then in PENCIL is coded as

A GIPDOM

B DONRIP

C DOMQIP

D RIPOND

Answer: C

61. If a person take birth on 14th April 1992. which was a Sunday, then on which day of the week does his birthday fall in 1993?

A Monday

B Tuesday

C Wednesday

D Friday

Answer: A

62. The angle between the minute hand and the hour hand of a clock at 3 hours 40 minutes is

A 20°

B 70°

C 90°

D 130°

Answer: D

Free Banking Study Material (15000 Solved Questions)

63. The smaller angle between the two hands of a clock at 3.49 pm, in degrees is

- A $165\frac{1}{2}$
- B $169\frac{1}{2}$
- C $175\frac{1}{2}$
- D $179\frac{1}{2}$

Answer: D

64. A woman pointing a man tells that his mother is the only daughter of my father. How is the man related to woman?

- A Uncle
- B Grand son
- C Son
- D Nephew

Answer: C

65. A bus B_1 arrives at a station S, 50 minutes late, but it arrives 30 minutes before another bus B_2 which reaches the station S 20 minutes early than its scheduled time 3.40 pm. Then the scheduled time of arrival of bus B_1 and station S is

- A 1.30 pm
- B 2.00 pm
- C 2.30 pm
- D 3.00 pm

Answer: B

AP SI Free Solved Previous Papers PDF

66. A person starts from his house and walks 80 meters towards West, then he walks 60 meter meters towards his left, then 80 meters towards West and then 40 meters towards South, finally, he turns right and walks 50 meters. What is the horizontal distance covered by him from his house? (in meters)

- A 140
- B 180
- C 130
- D 210

Answer: D

67. Four persons A, B, C and D live in different towns which are located as

i) B is to the South West of A;

ii) C is to the East of B and is also to the South East of A;

iii) D is to the North of C in line with B and A;

What is the direction of A relative to D?

- A North
- B East
- C South West
- D North East

Answer: C

68. If $a * b = ab + \frac{1}{ab} + a + \frac{1}{b}$ then $(-1) * (2 * 1) =$

- A $-5\frac{1}{2}$
- B -5
- C -6
- D $-6\frac{1}{2}$

Answer: D

Free Banking Study Material (15,000 Solved Questions)

69. If $a \triangle b = \frac{a}{b} + \frac{b}{a}$ and $a * b = ab + \frac{1}{ab}$ then $(1 \triangle 2) * 4 =$

- A $10\frac{1}{5}$
- B $9\frac{1}{9}$
- C $10\frac{1}{10}$
- D $10\frac{1}{2}$

Answer: C

70. If $a \oplus b = a^2 + b^2$, $a \ominus b = a^2 - b^2$ then $(2 \oplus 3) \ominus 13 =$

- A 1
- B 2
- C 3
- D 0

Answer: D

Mathematical Ability

71. If $a(\sqrt[3]{x^2}) + a(\sqrt[3]{x}) + c = 0$ then $a^3x^2 + b^3x + c^3 =$

- A $3abcx$
- B $3abc$
- C $a + b + c$
- D $3abcx^3$

Answer: A

SSC CHSL Previous Question papers (download pdf)

72. If s, t are rational numbers such that $(3^{t-2}) \times (2^{s+3})^3 = 432$, then $4t - 5s =$

- A 153
- B $\frac{281}{15}$
- C $\frac{154}{15}$
- D 280

Answer: B

73. A bag contains the coins of denomination of Rs.5, Rs.2, and Rs.1 in the ratio of 2 : 3 : 5 respectively. If total value of the money in the bag is Rs.2100, then how many Rs.5 coins are there in the bag?

- A 500
- B 400
- C 300
- D 200

Answer: D

74. The shares of two persons P and Q in a company are in the ratio 3 : 7. The company have each of them 20 additional shares, as a result of which, the ratio got altered to 1 : 2. How many shares of company does Q now hold?

- A 140
- B 160
- C 200
- D 180

Answer: B

SSC CHSL Free Mock Test

75. $x = \sqrt[3]{p + \sqrt{p^2 + q^3}} + \sqrt[3]{p - \sqrt{p^2 + q^3}}$, then $x^3 + 3qx - 2p =$

- A 0
- B 1
- C 2
- D 3

Answer: A

76. If $x = \sqrt{3} + \sqrt{2}$, then $x^3 + \frac{1}{x^3} =$

- A $18\sqrt{3}$
- B $15\sqrt{3}$
- C $9\sqrt{3}$
- D $8\sqrt{3}$

Answer: A

77. The least values of x and y , respectively, so that $7x342y$ is divisible by 88 are

- A 1, 4
- B 2, 4
- C 4, 4
- D 5, 4

Answer: C

SSC CGL Free Mock Test

78. A natural number m is multiplied by 11 and then 22 is added to the product. The result is a multiple of 17, Then the smallest value of m is

- A 11
- B 15
- C 17
- D 22

Answer: B

79. The smallest positive integer which is perfect square and is also divisible by 15, 18 and 24 is

- A 450
- B 600
- C 900
- D 625

Answer: C

80. The smallest positive integer which when subtracted from 3000 is divisible by 7, 11 and 13

A 1001

B 998

C 996

D 984

Answer: B

Daily Free SSC Practice Set

81. If $3.812 = \frac{p}{q}$ where p, q are positive integers with no common factors, except 1, then $2q + p =$

A 959

B 794

C 564

D 389

Answer: A

82. If the reciprocal of the sum of the reciprocals of $\frac{3}{5}, \frac{5}{7}, \frac{4}{9}$ is $\frac{p}{q}$ when p, q positive integers with GCD 1, then $3q - 5p =$

A 97

B -1415

C 657

D -1825

Answer: C

83. The biggest number among the following is

$$\sqrt{10} - 3, \sqrt{13} - 2\sqrt{3}, \sqrt{5} - 2, 3 - 2\sqrt{2}$$

A $\sqrt{5} - 2$

B $\sqrt{13} - 2\sqrt{3}$

C $\sqrt{5} + 2$

D $3 - 2\sqrt{2}$

Answer: A

SSC CGL Free Online Coaching

84.
$$\frac{(1.73)^2 - (1.73)(1.27) + (1.27)^2}{(1.73)^3 + (1.27)^3}$$

A $\frac{1}{3}$

B 3

C $\frac{1}{2}$

D 1

Answer: A

85. If p% of 96 is equal to q% of 21, then $\frac{1}{3p}$ % of 5q is equal to

A $\frac{4}{105}$

B $\frac{8}{105}$

C $\frac{16}{105}$

D $\frac{32}{105}$

Answer: B

86. When numerator of a fraction is increased by 15%, and denominator is decreased by 8%, the fraction becomes $\frac{15}{16}$. What is the original fraction?

A $\frac{3}{4}$

B $\frac{4}{5}$

C $\frac{6}{7}$

D $\frac{7}{11}$

Answer: A

Free SSC Study Material (18,000 Solved Questions)

87. A merchant purchases 11 bags for Rs.900 and sells 9 for Rs. 1100. Then profit percent he gets in this business is

A $\frac{4000}{81}$

B $\frac{4000}{91}$

C $\frac{4000}{71}$

D $\frac{4000}{51}$

Answer: A

88. A person buys an article for a discount of 10% on its marked price Rs.1200. If, in turn, he sells it for Rs,1200, then profit percent is

A 11

B $11\frac{1}{9}$

C $10\frac{1}{9}$

D 10

Answer: B

89. A person started a business with Rs.15 lakhs. After 2 months, B joined A as a partner and after 4 more months C joined A and B as a partner. At the end of the year, they shared the profit in the ratio 9 : 8 : 5. Then the ratio of the capitals of B and C was

A 17 : 13

B 21 : 25

C 24 : 25

D 27 : 24

Answer: C

SSC CGL Previous Papers (DOWNLOAD PDF)

90. The initial capitals of two persons A and B in a partnership business are Rs.40 lakhs and Rs.60 lakhs, respectively. After 4 months each of them invested Rs.10 lakhs. If the profit at the end of the year is Rs.13.6 lakhs, then the difference in their profits in lakhs of Rupees is

A 3.2

B 3.0

C 2.8

D 2.4

Answer: D

91. Two pipes A and B can fill an empty cistern in 6 hours and 8 hours, respectively. After opening both the pipes simultaneously, pipe B is closed after X hour and A filled the rest of the tank in 4 hours. Then X =

A $\frac{8}{12}$

B $\frac{8}{7}$

C $\frac{8}{6}$

D $\frac{8}{3}$

Answer: B

92. Two pipes P_1 and P_2 can fill a tank in 15 minutes and 20 minutes respectively. Both the pipes are opened simultaneously, but after 4 minutes, pipe P_1 is turned off. What is the total time required to fill the tank?

A 10 1minutes 20 seconds-

B 11 1minutes 45 seconds-

C 12 1minutes 30 seconds-

D 14 1minutes 40 seconds-

Answer: D

1500+ Very Important Free SSC Solved Questions

93. Walking at $\frac{2}{3}$ rd of my normal speed, I am an hour late to office. Then the normal time I take in travelling to office is

A $1\frac{1}{2}$

B 2 hours

C $1\frac{3}{4}$

D Indeterminate

Answer: B

94. The circumference of a cart wheel is $4\frac{2}{7}$ meters and it makes 7 revolutions in 4 seconds. Then the speed of the cart (in kmph) is

A 27

B 30

C 32

D 40

Answer: A

95. There are three workers Ram, Tom and Jill who take 3 hour. 2 hours and 4 hours respectively, for manufacturing a toy by themselves. How long would it take if all three workers worked together. (in hours)

A $1\frac{3}{12}$

B $1\frac{2}{13}$

C $1\frac{3}{11}$

D $\frac{4}{3}$

Answer: B

Free Banking Study Material (15000 Solved Questions)

96. Three persons A, B and C working alone, can complete a piece of work in 10, 15, and 40 days respectively. A and C started working together, after 5 days, C quits and is replaced by B, The number of days required to complete the work is

A $6\frac{1}{2}$

B $8\frac{2}{3}$

C 10

D $7\frac{1}{4}$

Answer: D

97. The smallest side of a right angled triangle is 7 cm less than the side of square of perimeter 52 cm. The second largest side of that triangle is equal to the length of the rectangle of area 72 sq cm., whose breadth is 8 cm. The length of the largest side of the right angled triangle is (in cms)

- A $\sqrt{105}$
B $\sqrt{110}$
C $\sqrt{117}$
D $\sqrt{124}$

Answer: C

98. The area of the four walls of a room is 128 sq.m. If the length, the breadth are equal and the height of the wall is equal to 4 meters , the area of the floor of the room (in sq.m) is

- A 64
B 72
C 81
D 100

Answer: A

AP SI Free Solved Previous Papers PDF

99. The diagonal of a cube is $6\sqrt{3}$ meters. Its volume is (in cubic meters)

- A 225
B 216
C 206
D 196

Answer: B

100. If curved surface area of the cylinder with meters height is 220 sq.mts. Its volume (in cu mts) is

- A 770
B 760
C 740
D 780

Answer: A

101. The ratio of diameter to height of a right circular cylinder is 6 : 5. If the diameter gets reduced by 25%, then its total surface area is reduced by 338.25 sq.meters. Then the circumference of the base of original cylinder is

A $8\sqrt{2}\pi$

B $6\sqrt{7}\pi$

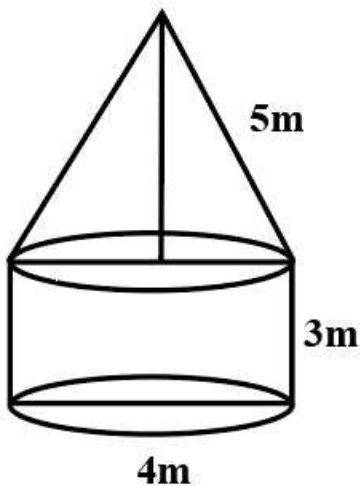

C $4\sqrt{5}\pi$

D $7\sqrt{3}\pi$

Answer: B

Free Banking Study Material (15,000 Solved Questions)

102. A circular tent with a cone on top is to be constructed as shown in the given diagram. The canvas (in sq.m) required to erect the tent is

A 44π

B 48π

C 40π

D 52π

Answer: A

103. $193m^3$ of water is poured in a tank having a square base. The water reaches a level that is three times the length of the base. Then area of the base is (in m^2)

A 9

B 16

C 25

D 36

Answer: E

104. Convert $(102)_7$ into decimal representation.

A 53

B 52

C 51

D 50

Answer: C

Daily Free Banking Online Tests

105. If $|x| \leq 2$, which one of the following has the largest (greatest) possible absolute value?

A $3x - 1$

B $x^2 + 1$

C $3 - x$

D $x^2 - x$

Answer: A

106. The converse of the following statement is
'If a triangle is equilateral then it is isosceles'

A If a triangle is isosceles then it is equilateral.

B If a triangle is not isosceles then it is not equilateral.

C If a triangle is equilateral then it is isosceles.

D If a triangle is not equilateral then it is isosceles.

Answer: A

107. Which one of the following statements is true?

A $3 \times 5 = 8 \wedge 1 \times 3 = 6$

B $3 + 5 = 8 \wedge 1 \times 0 = 10$

C $3 + 5 = 8 \wedge 1 + 2 = 3$

D $2 + 4 = 6 \wedge 4 + 2 = 3$

Answer: C

SSC CHSL Previous Question papers (download pdf)

108. If A, B, C are sets, then $(A - B) - (B - C) =$

A $A - (B \cup C)$

B $A - (B \cap C)$

C $A - C$

D $A - B$

Answer: D

109. For $x \neq -1$, define $f(x) = \frac{x-1}{x+2}$, then $f(x) = \frac{f(x)-f(y)}{1+f(x)f(y)}$

A $\frac{x+y}{1-xy}$

B $\frac{x-y}{1+xy}$

C $\frac{x+y}{x-y}$

D 1

Answer: B

110. If $f : R \rightarrow R$ and $g : R \rightarrow R$ are functions defined by $f(x) = 3x - 2$ and $g(x) = x^2 + 1$ then $(g \circ f^{-1})(2) =$

A $\frac{25}{9}$

B $\frac{22}{9}$

C $\frac{17}{8}$

D $\frac{16}{5}$

Answer: A

SSC CHSL Free Mock Test

111. The equation of a line perpendicular to $y = 3x + 1$ and passing through $(1, 1)$ is

A $3y + x = 12$

B $y + 3x = 4$

C $3y + x = 4$

D $3y = x + 2$

Answer: C

112. A line makes intercepts a and b on the coordinate axes such that $a+b = 5$ and $ab = 6$
The equation of such a line is

A $3x - 2y - 6 = 0$

B $3x + 2y + 6 = 0$

C $3x - 2y - 6 = 0$

D $3x + 2y - 6 = 0$

Answer: D

113. $\cot(-840^\circ) + \operatorname{cosec}(330^\circ) + \sec(1020^\circ) - \sin(-1320^\circ) =$

A $\frac{1}{2\sqrt{3}}$

B $2\sqrt{3}$

C $-2\sqrt{3}$

D $\frac{-1}{2\sqrt{3}}$

Answer: D

SSC CGL Free Mock Test

114. $\tan^2 \frac{\pi}{3} + \cot^2 \frac{\pi}{4} - \sec^2 \frac{\pi}{3} + 8 \cos^2 \frac{\pi}{6} =$

A 0

B 1

C 6

D 8

Answer: C

115. If $A + B = \frac{\pi}{4}$, then $(1 + \tan A)(1 + \tan B) =$

A 0

B -1

C 1

D 2

Answer: D

116. A man walking away from the foot of a cliff 150 meters high observes that it take 2 minutes to change the angle of elevation of the top of the cliff from 60° to 45° . His walking speed in kmph is

A $\frac{9+3\sqrt{3}}{2}$

B $\frac{9-3\sqrt{3}}{2}$

C $\frac{3(1+3\sqrt{3})}{2}$

D $\frac{3(\sqrt{3}-1)}{2}$

Answer: B

Daily Free SSC Practice Set

117. If α and β are two roots of the equation $ax^2 + bx + c = 0$, then $a + \beta$ and $\alpha\beta$ are respectively

A $\frac{b}{a}, \frac{c}{a}$

B $\frac{b}{a}, \frac{-c}{a}$

C $\frac{-b}{a}, \frac{-c}{a}$

D $\frac{-b}{a}, \frac{c}{a}$

Answer: D

118. If α, β, γ are zeros the polynomial of $ax^2 + bx^2 + cx + d$, then the polynomial zero are $\frac{1}{\alpha}, \frac{1}{\beta}, \frac{1}{\gamma} =$

A $bx^3 + cx^2 + dx + a$

B $cx^3 + dx^2 + ax + b$

C $dx^3 + ax^2 + bx + c$

D $dx^3 + cx^2 + bx + a$

Answer: D

119. The remainder when $f(x) = 4x^3 - 3x + 9$ is divided by $3x - 2$ is

A $f\left(-\frac{3}{2}\right)$

B $f\left(\frac{3}{2}\right)$

C $f\left(\frac{2}{3}\right)$

D $f\left(-\frac{2}{3}\right)$

Answer: C

SSC CGL Free Online Coaching

120. If $px^2 + qx + 17$ leaves remainder -5, 13 when divided by $x - 5x + 7$, respectively. Then $3p - q =$

A $\frac{35}{38}$

B $\frac{47}{42}$

C $\frac{38}{35}$

D $\frac{42}{47}$

Answer: C

121. Vishal's age is at present four times the age of Jahnavi. After 8 years, Vishal's age will be 2.5 times Jahnavi's age. In another eight years, how many times will be vishal's age, as compared to Jahnavi's age?

A 1.5

B 2

C 2.5

D 3.25

Answer: B

122. A rational number becomes $\frac{1}{4}$ when 7 is subtracted from the numerator and 3 is added to the denominator. The same number becomes 2 when 1 is added to the numerator and is subtracted from the denominator. The number is

- A $\frac{3}{5}$
- B $\frac{7}{9}$
- C $\frac{9}{11}$
- D $\frac{11}{13}$

Answer: D

Free SSC Study Material (18,000 Solved Questions)

123. The sum of eight terms of an A.P. is 316 and the difference between the first and the eighth terms is 91 . What is its first term?

- A 85
- B 74
- C 69
- D 48

Answer: A

124. If 5 times the 5^{th} term of an A.P. is equal to 13 times of its 13^{th} term, then the 18^{th} term of the A.P. is

- A 36
- B 18
- C 9
- D 0

Answer: D

125. What is. the number of terms the expansion of $(a^2 + 2ab + b^2)^{10}$

- A 21
- B 22
- C 19
- D 20

Answer: A

129. $\lim_{x \rightarrow 1} \frac{x^2 - \sqrt{x}}{\sqrt{x} - 1} =$

- A** 1
- B** 2
- C** 3
- D** 4

Answer: C

130. The derivative of $f(x) = \frac{x^3+3}{x-1}$

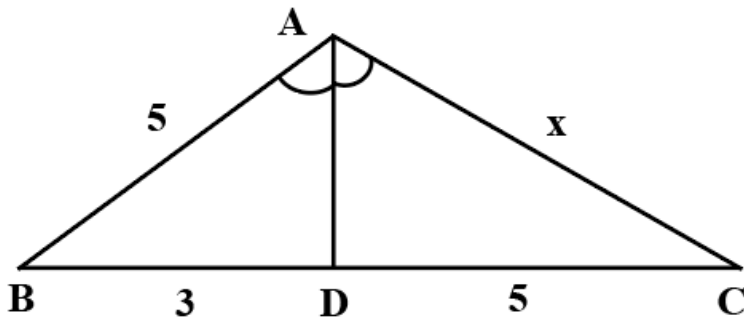

- A** $\frac{(x-1)x-(x^2+3)}{(x-1)^2}$
- B** $\frac{(x-1)2x-(x^2+3)}{(x-1)^2}$

C $\frac{(x+1)x-(x^2+3)}{(x-1)^2}$

D $\frac{(x-1)2x-(x^2-3)}{(x-1)^2}$

Answer: B

131. In the adjacent figure AD is the bisector of $\angle A$. AC =

A $1\frac{3}{5}$

B $5\frac{2}{7}$

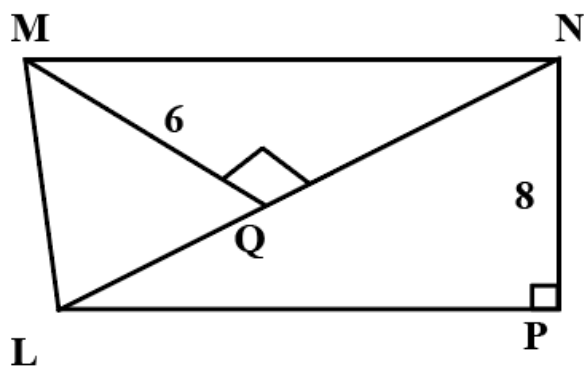

C $7\frac{4}{9}$

D $8\frac{1}{3}$

Answer: D

Free Banking Study Material (15000 Solved Questions)

132. In the quadrilateral $\square MNP$ shown below $PN = 8$, $MQ \perp LN$ and $MQ = 6$. If the area of $\triangle LNP = 32$. then the area of $\triangle LMN =$

A $24\sqrt{2}$

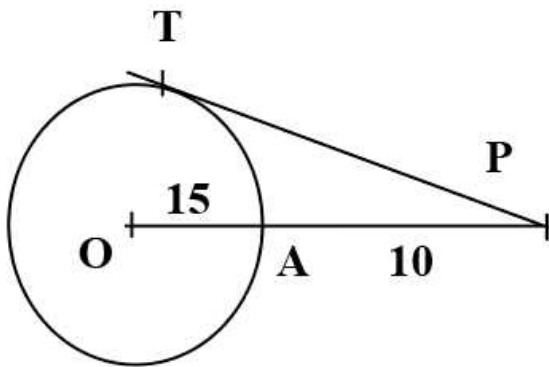

B $24\sqrt{3}$

C 32

D 24

Answer: A

133. In the adjacent figure, the length of the tangent PT given that $OA = 15$ cm and $AP = 10$ cm (in cm) is

- A 25
- B 22
- C 20
- D 18

Answer: C

134. If the point $(1, 4)$ is the centroid of a triangle ABC with vertices $A(4, -8)$, $B(-9, 7)$, then the distance AC in units is

- A $\sqrt{286}$
- B $\sqrt{326}$
- C $\sqrt{368}$
- D $\sqrt{457}$

Answer: D

AP SI Free Solved Previous Papers PDF

135. The points $A(2, -3)$, $B(6, 5)$, $C(-2, 1)$ and $D(-6, -7)$ form

- A Square
- B Rectangle
- C Parallelogram
- D Rhombus

Answer: D

136. If the arithmetic mean of $a, b, 7$ is 13, then the arithmetic mean of $a + 3, b - 5$ and 6 is

- A 9
- B 10
- C 12

D 16

Answer: C

137. Median of the data 14, 2, 8, 5, 12, 41, 16, 3 is

A 5

B 8

C 11.5

D 12

Answer: A

Free Banking Study Material (15,000 Solved Questions)

138. What is the mode of the following data?

Observations	1	2	3	4	5	6	7	8
Frequency	4	9	16	25	22	15	7	3

A 4

B 5

C 3

D 6

Answer: A

139. The standard Deviation of the following 13 observations is
73, 74, 75, ..., 85

A 17

B 14

C $\sqrt{17}$

D $\sqrt{14}$

Answer: D

140. If σ is the standard deviation of the observations $x_1, x_2, \dots, X_n$, then the standard deviation of $12x_1 + 13, 12x_2 + 13, \dots, 12x_n + 13$ is

A 12σ

B $\sigma - 13$

C $\sigma + 13$

D σ

Answer: D

Daily Free Banking Online Tests

141. A computer, while calculating the correlation coefficient between two variables X and Y, obtained the following results:

$$N = 25, \sum x = 125, \sum y = 100, \sum x^2 = 650, \sum y^2 = 460 \text{ and } \sum xy = 508$$

At the time of checking, it is found that it copied two pairs of observations as

x	y
6	14
8	6

in the place of correct pairs

x	y
8	12
6	8

.The correct value of the coefficient of con-elation r is

A 0.56

B 0.62

C 0.67

D 0.72

Answer: C

142. A and B are two events such that $P(A) = \frac{2}{3}$, $P(A \cap B) = \frac{1}{6}$ and $P(A \cup B) = \frac{1}{3}$, ther $P(A \cup B) =$

A $\frac{1}{6}$

B $\frac{1}{2}$

C $\frac{2}{3}$

D $\frac{3}{4}$

Answer: C

143. Three dice are rolled. What is the probability of getting a total of 5

A $\frac{1}{6}$

B $\frac{1}{36}$

C $\frac{5}{216}$

D $\frac{1}{216}$

Answer: B

- A** Caught out
- B** Caught up
- C** Caught on
- D** Caught in

Answer: B

Instructions [181 - 185]

We often worry about lying awake in the middle of the night - but it could be good for you. A growing body of evidence from both science and history suggest that the eight-hour sleep may be unnatural.

In the early 1990s, psychiatrist Wehr conducted an experiment in which a group of people were plunged into darkness for 14 hours every day for a month. It took some time for their sleep to regulate but by the fourth week the subjects had settled into a very distinct sleeping pattern. They slept first for four hours, then woke for one or two hours before "falling into a second four-hour sleep. Though sleep scientists were impressed by the study, among the general public the idea that we must sleep for eight consecutive hours persists.

In 2001, historian Roger Ekirch of Virginia Tech published a seminal paper, drawn from 16 years of research, revealing a wealth of historical evidence that humans used to sleep in two distinct chunks. Roger Ekirch says a 1595 engraving by Jan Saenredam is evidence of activity at night. His book "At Day's Close: Night in Times Past," published four years later unearths more than 500 references to a segmented sleep pattern in diaries, court records, medical books and literature, from Homer's Odyssey to an anthropological account of modern tribes in Nigeria.

Ekirch found that references to the first and second sleep started to disappear during the late 17th century. This started among the urban upper classes in northern Europe and over the course of the next 200 years filtered down to the rest of western society. By the 1920s the idea of a first and second sleep had receded entirely from our social consciousness. He attributes the initial shift to improvements in street lighting, domestic lighting and a surge in coffee houses - which were sometimes open all night. As the night became a place for legitimate activity and as that activity increased the length of time people could dedicate to rest dwindled.

181. Which of the following assumptions is the writer questioning here?

- A** Everyone needs eight hours of continuous sleep
- B** Everyone needs to sleep in darkened rooms
- C** Everyone sleeps well after dusk but makes up by dawn
- D** Everyone can get good sleep after a tiring day.

Answer: A

182. Who conducted sixteen years of research on sleep patterns of people?

- A** Saenredam
- B** Ekirch

- C Wehr
- D Homer

Answer: B

SSC CGL Free Mock Test

183. What reasons did Ekrich give to explain reduced periods of rest?

- A More electricity in public and private places and more coffee houses.
- B Greater opportunities to go out anywhere at any time
- C Offices extending working through the day and night
- D Better and safer streets in cities.

Answer: A

184. In wehr's experiment how long did the people take to adjust to the new sleeping pattern?

- A Fourteen hours
- B Two weeks
- C Four weeks
- D Four hours

Answer: C

185. Which word in the passage means the means as 'hold responsible for'?

- A Persist
- B Attribute
- C Recede
- D Regulate

Answer: B

Instructions [186 - 190]

The United States and Canadian governments are mounting a defence against Russian invasion. No, the clock has not been turned back. These invaders are Asian gypsy months, foliage-chomping insects that can cause billions of dollars in damage. Experts believe they entered North America from Russia last year in egg masses attached to grain vessels. The larger Asian gypsy moth is more voracious feeder than the common North American strain and can feed on pacific northwest tree species. Unlike the flightless North American female, an Asian female can fly 20 miles between mating and egg -laying. The United States Health Inspection Service is barring from west coast ports ships found carrying egg masses. The Tacoma and Portland areas, as well as Vancouver. British Columbia has been sprayed with a bio-pesticide.

186. The word 'strain' in the passage means

- A A tendency in person's character

- B** An injury
- C** A distinct breed of an organism
- D** A species

Answer: C

187. Which of the following words refers to the eating habits of Asian moths?

- A** Voracious
- B** Foliage
- C** Species
- D** Biopesticide

Answer: A

188. The author calls the increase in Asian gypsy moths as 'Russian invasion'

- A** To remind reader of Russian invasion
- B** To show dislike for Russia
- C** To make light of serious situation
- D** To emphasize the severity of the problem

Answer: D

189. Which of the following statements is not given in the passage?

- A** Asian gypsy moth came from Russia
- B** Asian gypsy moth can't fly
- C** Asian gypsy moth is capable of feeding on North American trees
- D** North American moth can't fly

Answer: B

190. The idiom "clocks haven't turned back" in the context of the passage means

- A** It is an impending future event
- B** It is not an impending future event
- C** It is a repetition of past events
- D** It is not a repetition of past events.

Answer: D

Instructions [191 - 195]

Most investigators concur that certain facial expressions suggest the same emotions all people. Moreover, people in diverse cultures recognise the emotions manifested by the facial expressions. In classic research Paul Ekman took photographs of people exhibiting the emotions of anger, disgust, fear, happiness and sadness. He then asked people around the world to indicate what emotions were being depicted in them. Those queried ranged from European college students to members of the Fore, a tribe that dwells in the New Guinea highlands. All groups, including the Fore who had almost no contact with Western culture, agreed on the portrayed emotions. The Fore also displayed familiar facial expressions when asked how they would respond if they were the characters in the stories that called for basic emotional response. Ekman and his colleagues more recently obtained similar results in a study of ten cultures in which participants were permitted to report that multiple emotions were shown by facial expressions. The participants generally agreed on which two emotions were being shown and on which emotion was more intense.

191. what does the word 'concur' in the passage refer to?

- A Estimate
- B Agree
- C Expect
- D Understand

Answer: B
