TS ICET 28th July 2022 Shift-1

Analytical Ability

Instructions [1 - 20]

In the following questions numbered 1 to 20, a question is followed by data in the form of two statements labelled as (I) and (II) You must decide whether the data given in the statements are sufficient to answer the questions.

1. What is the value of $x + y$?

(I) $3x - 4y - 5 = 0$.

(II) $8y - 6x + 10 = 0$.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

Free Banking Study Material (15,000 Solved Questions)

2. What is angle A in triangle ABC?

(I) $\angle B = 40^\circ$.

(II) Triangle ABC is isosceles.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

3. Is the integer $3m + 4n$ even?

(I) $2m + n$ is an odd number.

(II) $m + 2n$ is an odd number.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

4. A sequence of integers is given by $a_n = (a_{n-1} + 1)^2$, then what is a_5 ?

(I) $a_3 = 25$

(II) a_1 is an odd integer.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

Daily Free Banking Online Tests

5. Is the perimeter of the rectangle greater than 65 cm?

(I) Its length is less than 16 cm.

(II) Its breadth is greater than 10cm.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

6. For real numbers a, b and c, is $a = b = c$?

(I) $a + 3b + 2c = 0$.

(II) $a^2 + b^2 + c^2 = ab + bc + ca$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

7. How much money do the persons A and B together have?

(I) B has Rs.200 less than what C has.

(II) A has Rs.300 more than C has.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

SSC CHSL Previous Question papers (download pdf)

8. How many students passed in both Mathematics and English?

(I) 15 failed in both Mathematics and English.

(II) The number of failures in Mathematics exceeds the number of failures in English by 10.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

9. Is $x = y = z$?

(I) $x^3 + y^3 + z^3 = 3xyz$.

(II) $x^2 + y^2 + z^2 = xy + yz + zx$.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

10. What is the average of a, b, c, d?

(I) $a + b + c = d + 15$.

(II) $13 - c - 3d = a + b$.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CHSL Free Mock Test

11. What is the GCD of the positive integers m, n?

(I) LCM of m, n is 165.

(II) Product of m, n is 165.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.

- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

12. What is the area of the sector?

(I) Radius of the circular sector is 10 cm.

(II) The angle of the sector is $\frac{\pi}{6}$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

13. What is the area of the rectangle PQRS?

(I) PQ is twice of QR.

(II) PS = 4 cm.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CGL Free Mock Test

14. What is the HCF of x and y ?

(I) Ratio of x and y is 2 : 3.

(II) x and y are two consecutive positive integers.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

15. What is the value of $x^6 - y^6$?

(I) $x^3 - y^3 = 10$.

(II) $x^4 - y^4 = 5$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.

- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

16. Is A a brother of B ?

(I) B is a sister of C.

(II) C is a brother of A.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

Daily Free SSC Practice Set

17. In how many hours did David cover 600 miles?

(I) David covered the first half of the distance at 40 mph.

(II) David covered the last $\frac{1}{4}$ th of the distance at 30 mph.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

18. How many people are there in that room?

(I) If 4 persons leave the room, then there will be less than 15 persons in that room.

(II) If 3 more persons enter the room, then there will be more than 20 persons in that room.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

19. Alex and Tony started a piece of work. After working for two days, Alex left. The remaining work was completed by Tony. In how many days did Tony complete the work?

(I) Tony can complete the work in 20 days working individually.

(II) Alex and Tony can complete the work in $6\frac{2}{3}$ days working 3 together.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CGL Free Online Coaching

20. Is D a brother of F ?
 (I) B has two sons of which F is one.
 (II) D's mother married to B

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

Instructions [21 - 30]

: In the questions 21 - 30, each contains two pairs of groups (of letters or letters and numbers). The pattern that appears in one pair should be followed by the other pair also. Observe the pattern carefully and fill in the blanks appropriately.

21. PRLN : XZTV :: _____ : RTNP

- A** JMGI
- B** JLFH
- C** KMGI
- D** KNHJ

Answer: B

22. QRS : VWX :: _____ : MNO

- A** GHI
- B** HIJ
- C** KLM
- D** DEF

Answer: B

29. $\frac{X}{Y} : \frac{42}{52} :: \frac{P}{Q} : \text{_____}$

- A $\frac{21}{31}$
- B $\frac{41}{51}$
- C $\frac{51}{61}$
- D $\frac{61}{71}$

Answer: D

30. ALSO : CNUQ :: FIVE : __

- A HKXG
- B HKXG
- C KHYG
- D HKWG

Answer: B

Instructions [31 - 35]

In questions numbered 31 to 35 pick the odd thing out.

31. 0, 1, 2, 3, 6, 11, 20, 37, 68, _____

- A 125
- B 126
- C 127
- D 128

Answer: A

38. $(1 - \sqrt{2}), -1, (-1 - \sqrt{2}), (-3 - \sqrt{2}),$ _____

A $(-15 - 11\sqrt{2})$

B $(13 - 9\sqrt{2})$

C $(-10 - 7\sqrt{2})$

D $(-7 - 5\sqrt{2})$

Answer: D

39. 6, 11, 18, 27, 38, _____, 66

A 41

B 47

C 51

D 61

Answer: C

40. $2 + \sqrt{2}, 6, 6 + \sqrt{6}, 8 + 2\sqrt{2}, 10 + \sqrt{10},$, $14 + \sqrt{14}$

A $12 + 4\sqrt{2}$

B $12 + 2\sqrt{2}$

C $12 + \sqrt{2}$

D $12 + 2\sqrt{3}$

Answer: D

Daily Free Banking Online Tests

41. $\frac{1}{2}, \frac{8}{5}, \frac{27}{10}, \frac{64}{17}, \dots, \frac{216}{37}, \frac{343}{50}$

- A** 89
19
- B** 125
26
- C** 132
35
- D** 164
35

Answer: B

42. 64, 32, 35, 5, 22, 11, 14, _____, 16, 8, 28, 4

- A** 1
- B** 2
- C** 3
- D** 4

Answer: B

43. 2, 14, 3, 21, _____, 28, 5, 35, 61 42

- A** 20
- B** 16
- C** 8
- D** 4

Answer: D

44. 4, 12, 48, 240, _____, 10080, 80640

- A** 1440
- B** 3650
- C** 5940
- D** 8420

Answer: A

45. 2, 6, 20, 42, 110, 156, 272, _____

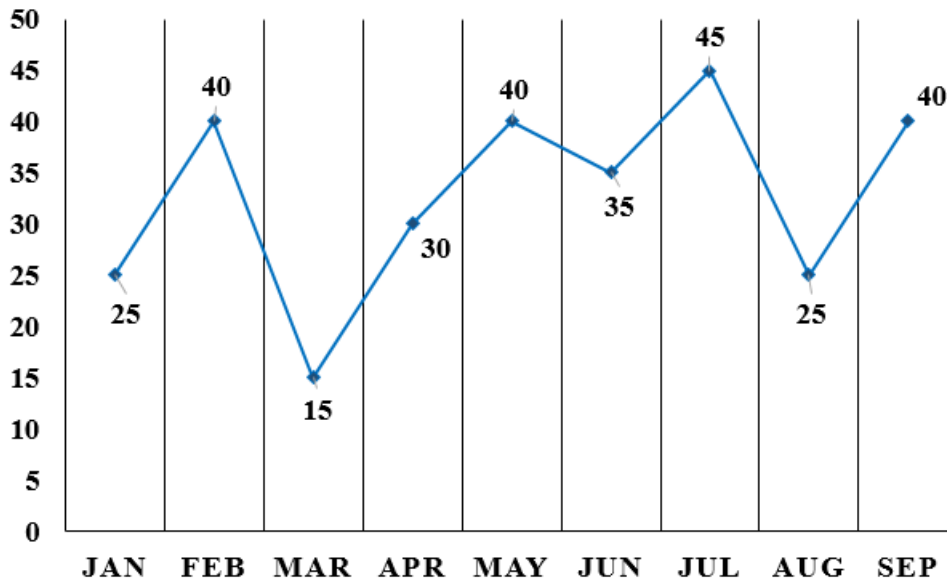

- A** 243
- B** 432
- C** 340
- D** 342

Answer: D

Instructions [46 - 48]

The following graph shows the expenditure of a household on repairs (in hundred rupees) during January to September. Based on this, answer the questions.

EXPENDITURE ON REPAIRS

46. The percentage increase of the expenditure in the month of June than the month of March

A $33\frac{1}{3}$

B $133\frac{1}{3}$

C $233\frac{1}{3}$

D $66\frac{2}{3}$

Answer: B

SSC CHSL Free Mock Test

47. Which month shows highest percentage increase in expenditure over its previous month?

A February

B April

C May

D September

Answer: B

48. The average expenditure per month in the given period (in rupees)

A $3157\frac{5}{9}$

B $4667\frac{2}{3}$

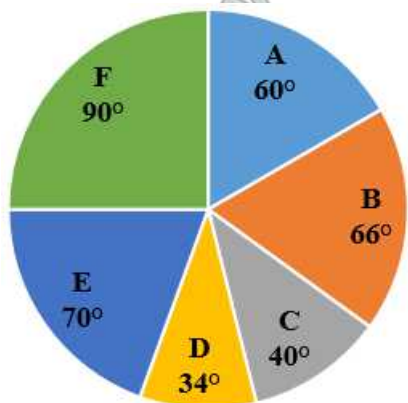

C $3333\frac{1}{3}$

D $3277\frac{7}{9}$

Answer: D

Instructions [49 - 51]

The Pie-chart shows the number of toys of six types A, B, C, D, E and F manufactured by a company. Based on this, answer the questions.

49. The percentage of toys of type E in the total number of toys of all types is

A $19\frac{4}{9}$

B $21\frac{2}{9}$

C $20\frac{4}{9}$

D $19\frac{5}{9}$

Answer: A

SSC CGL Free Mock Test

50. If the total number of toys produced is 72000, then the number of toys of type A is

A 13000

B 12000

C 24000

D 14000

Answer: B

51. The ratio between the number of toys of types A and E is

A 4 : 5

B 5 : 7

C 7 : 6

D 6 : 7

Answer: D

Instructions [52 - 55]

In an examination consisting of tests in three subjects Physics, Chemistry and Mathematics, the following data is obtained.

- (i) Total number of candidates appeared :400.
- (ii) Number of candidates failed in all the three subjects: 12.
- (ii) Number of candidates failed only in Physics and Chemistry: 24.
- (iv) Number of candidates failed only in Chemistry and Mathematics: 18.
- (v) Number of candidates failed in Mathematics and Physics: 32.
- (vi) Number of candidates failed in only Physics, only chemistry and only Mathematics are 40, 30 and 50 respectively.

52. How many candidates passed in Mathematics?

A 288

B 268

C 254

D 242

Answer: A

Daily Free SSC Practice Set

53. What is the percentage of candidates that failed in at least two subjects?

A $18\frac{1}{2}$

B $20\frac{1}{2}$

C $21\frac{1}{2}$

D $22\frac{1}{2}$

Answer: C

54. What is the percentage of candidates who passed in Chemistry?

A 67

B 72

C 76

D 79

Answer: D

55. What is the number of candidates that passed in all the three subjects?

A 208

B 194

C 182

D 176

Answer: B

SSC CGL Free Online Coaching

Instructions [56 - 60]

The letters of the English alphabet A, B, C, ... , Z are given ranks 1, 2, 3, ... , 26 respectively. Then they are coded as follows:

(i) A letter with rank 'n' is coded to the letter with rank r, where r is the remainder when 7n is divided by 26, here $1 \leq r \leq 26$.

(ii) For decoding reverse process is allowed.

Based on this coding process, answer the questions 56-60.

56. The word **FINE** is coded as

A PJTI

B PKTI

C PJSK

D PKSJ

Answer: B

57. The code for the word **PRISM** is

A HVJEM

B HVLDM

C HVKCM

D HVIFM

Answer: D

58. The string of letters that are coded as **NEST** is

A BWYN

B BVXL

C TICJ

D TJDK

Answer: A

Free SSC Study Material (18,000 Solved Questions)

59. The number of letters in the alphabet that are coded to themselves as under the given code is

A 0

B 1

C 2

D 3

Answer: C

60. The string of letters that are coded as CRISP is

- A SKFYE
- B SJFXG
- C SKEXH
- D SJEYF

Answer: D

61. If SOLAR is coded as QMJYP, then the code for EIGHT is

- A CGEIR
- B CGEFR
- C BGEFR
- D CGEFQ

Answer: B

SSC CGL Previous Papers (DOWNLOAD PDF)

62. If TENDER is coded as SDMCDQ then the code for PURCHASE is

- A OSRCHYQD
- B OTQBGZRD
- C ORSCHASD
- D OQBHCZRD

Answer: B

63. In a certain code language, if the word DISTANCE is coded as EDCINSAT, then in that language ACQUIRE is coded as

- A EACIQR
- B EACRIUQ
- C EARCIQU
- D ERCIAQU

Answer: C

64. If PICTURE is coded as QEDVOSA, then ELEVEN is coded as

- A ANAWAP
- B AMAWAP
- C AMAVAP

D AMAWAQ

Answer: B

1500+ Very Important Free SSC Solved Questions

65. In a code language, if GATE is coded as 10042308, then LURE is coded in that language as

A 15212108

B 15241805

C 15242108

D 12182105

Answer: C

66. If April 1st, 2022 is Friday, which day will it be after 208 days?

A Monday

B Wednesday

C Tuesday

D Friday

Answer: B

67. At what time between 7'o clock and 8'o clock will the two hands of the clock be at 120° angle with each other?

A 15 minutes after 7'o clock

B 16 minutes after 7'o clock

C $16\frac{4}{11}$ minutes after 7'o clock

D $15\frac{5}{11}$ minutes after 7'o clock

Answer: C

Free Banking Study Material (15000 Solved Questions)

68. What will be the angle between the minute and hour hands when the clock shows the time as 5:15 (in degrees) ?

A $72\frac{1}{2}^\circ$

B 70°

C $67\frac{1}{2}^\circ$

D 64°

Answer: C

69. E is the mother of the brother of a sister of A's father, then E related to A as

A Aunt

B Grand daughter

C Grand mother

D Sister-in-law

Answer: C

70. A daily train is scheduled 12:15 pm at Station A. It came 15 minutes late on Sunday, another 20 minutes late on Monday, another 25 minutes late on Tuesday and another 30 minutes late on Wednesday. Then the time of arrival of the train at station A on Wednesday is

A 2:45 pm

B 1:15 pm

C 1:30 pm

D 1:45 pm

Answer: D

AP SI Free Solved Previous Papers PDF

71. A local train arrives at station A for every 45 minutes when Mr X came to station A, an announcement says that a local train has departed from station A, 18 minutes back and the next train will come at 11:41 AM. Then the time of the arrival of Mr.X to station A is

A 11:23 am

B 10:56 am

C 11:14 am

D 11:59 am

Answer: C

72. Five persons A, B, C, D, E are sitting around a table facing the centre. A sits to the left of E and C sits to the right of B. D is between A and C then the person on the right of E is

A A

B B

C C

D D

Answer: B

73. For real numbers a and b define $a \triangle b = a^2 - b^2 + ab$. Then the number of real values of a such that $a \triangle a = 4$ is

A 1

B 2

C 0

D 3

Answer: B

Free Banking Study Material (15,000 Solved Questions)

74. For the natural numbers x and y , define

$$x * y = \sqrt{xy} + \frac{1}{\sqrt{xy}} \text{ and } x \odot y = \sqrt{xy} - \frac{1}{\sqrt{xy}}, \text{ then } \frac{(3*4)*(3\odot4)}{(3*4)\odot(3\odot4)} =$$

A 1

B $\frac{37}{36}$

C $\frac{62}{61}$

D $\frac{155}{131}$

Answer: D

75. If $x \oplus y = (x + y + 1)^2$ and $x \ominus y = (x - y + 2)^2$, then $(1 \oplus 4) \ominus (2 \oplus 5) =$

A 576

B 2116

C 676

D 2500

Answer: C

Mathematical Ability

76. $(25x^2)^{\frac{1}{5}} \cdot (5x^4)^{\frac{2}{5}} \cdot (125x^{\frac{27}{5}})^{-\frac{1}{3}} =$

A $\left(\frac{x}{5}\right)^{\frac{1}{5}}$

B $\left(\frac{x}{5}\right)^{-\frac{1}{5}}$

C $(5x)^{\frac{1}{5}}$

D $(5x)^{-\frac{1}{5}}$

Answer: A

SSC CHSL Previous Question papers (download pdf)

77. $\frac{\left(a+\frac{1}{b}\right)^x \left(a-\frac{1}{b}\right)^y}{\left(b+\frac{1}{a}\right)^x \left(b-\frac{1}{a}\right)^y} =$

A $\left(\frac{a}{b}\right)^{x-y}$

B $\left(\frac{a}{b}\right)^{x+y}$

C $a^x.b$

D $a^y.b^x$

Answer: B

78. If $x : y = 3 : 4$, then $(4x + 5y) : (5x - 2y) =$

A $\frac{37}{8}$

B $\frac{33}{8}$

C $\frac{32}{7}$

D $\frac{29}{7}$

Answer: C

79. The sum of the cubes of three positive integers is 8072. If the ratio of the first and the second as also of the second and the third is as 3 : 2. Then the sum of the three numbers is

A 36

B 38

C 40

D 42

Answer: B

SSC CHSL Free Mock Test

80. $\frac{4+3\sqrt{3}}{7+3\sqrt{3}} = a + \sqrt{b}$, then $a - \sqrt{b} =$

A $8 + \sqrt{75}$

B $-8 + \sqrt{75}$

C $-8 - \sqrt{75}$

D $8 - \sqrt{75}$

Answer: C

81. If $\left(\frac{a}{b}\right)^{x-1} = \left(\frac{b}{a}\right)^{x-3}$, then the value of x is

A $\frac{1}{2}$

B 1

C 2

D $\frac{2}{7}$

Answer: C

82. The product of divisors of 127 is

A 635

B 508

C 127

D 762

Answer: C

SSC CGL Free Mock Test

83. The number of positive divisors of 680 other than one and itself is

A 14

B 16

C 18

D 12

Answer: A

84. LCM of $m = 17.23^2.43$, $n = 31^2.23.47$ is

A $17.23^2.43.47.31^2$

B $17.23.43.47.31$

C $17.43.47$

D 23

Answer: A

85. The number among the following which leaves the remainder 3 when divided by 5, 6 and 8 is

A 243

B 245

C 256

D 265

Answer: A

Daily Free SSC Practice Set

86. The sum of 5 consecutive even integers is 50. What is the sum of their squares?

- A 480
- B 540
- C 720
- D 960

Answer: B

87. If the numerator and the denominator of a fraction are increased by 10% and 20% respectively, the number becomes $\frac{22}{45}$. What was the original number?

- A $\frac{11}{15}$
- B $\frac{8}{15}$
- C $\frac{7}{5}$
- D $\frac{3}{5}$

Answer: B

88. Which of the following fractions is largest?

$\frac{5}{7}, \frac{7}{11}, \frac{9}{13}, \frac{4}{9}$

- A $\frac{4}{9}$
- B $\frac{9}{13}$
- C $\frac{5}{7}$
- D $\frac{7}{11}$

Answer: C

SSC CGL Free Online Coaching

89. The descending order of the following fractions is

$\frac{9}{10}, \frac{5}{14}, \frac{7}{9}, \frac{6}{11}, \frac{8}{13}$

- A $\frac{5}{14}, \frac{6}{11}, \frac{8}{13}, \frac{7}{9}, \frac{9}{10}$
- B $\frac{9}{10}, \frac{7}{9}, \frac{8}{13}, \frac{6}{11}, \frac{5}{14}$
- C $\frac{6}{11}, \frac{9}{10}, \frac{7}{9}, \frac{5}{14}, \frac{8}{13}$
- D $\frac{8}{13}, \frac{7}{9}, \frac{6}{11}, \frac{9}{10}, \frac{5}{14}$

Answer: B

90. If x is 16% less than y , then y is what percent more than x ?

- A 16
- B $17\frac{2}{3}$
- C $18\frac{1}{19}$
- D $19\frac{1}{21}$

Answer: D

91. In the year 1990 the population of cities X and Y were same. From 1990 to 2000 the population of X increased by 60%, while population of Y decreased by 60%. In the year 2000 the population of Y is what percent of population of X?

- A 60
- B 40
- C 50
- D 25

Answer: D

Free SSC Study Material (18,000 Solved Questions)

92. Cost price of first article is thrice the cost price of second article. If there is gain of $x\%$ on second article and loss of $x\%$ on first article, then gain percent or loss percent, in the total transaction is

- A $x\%$ gain
- B $2x\%$ gain
- C $x\%$ loss
- D $2x\%$ loss

Answer: D

93. By selling an article for Rs.6800 a trader loses 15%. For how much should he sell to get a profit of 25% (in rupees)?

- A 9500
- B 9750
- C 10000
- D 10500

Answer: C

94. A, B and C enter into partnership. A invests some money at the beginning, B invests double the amount that of A after 6 months and C invests thrice the amount that of A after 8 months. If the annual profit is Rs.27000, then C's share is (in rupees)

- A 8625
- B 9000
- C 10800

D 11250

Answer: B

SSC CGL Previous Papers (DOWNLOAD PDF)

95. A, B, C enter into a business with capitals Rs.8000, 9000, 12000 respectively. After 3 months D joins the business with a capital of Rs.18000. If there is a profit of Rs.2550 at the end of the year, then the difference between the shares of A and D in the profit, in rupees, is

A 330

B 440

C 220

D 385

Answer: A

96. Pipe A can fill a tank in 5 hours, pipe B in 10 hours and pipe C in 30 hours. If all the pipes are opened at a time, in how many hours will the tank be filled?

A 2

B 2.5

C 3

D 3.5

Answer: C

97. Two taps A and B can fill a tank in 2 hours and 3 hours respectively. Both taps are turned on and after 45 minutes turned off due to power cut. After 30 Minutes, only tap A is turned on. Time taken by Tap A to fill the remaining tank is

A 42 minutes

B 48 minutes

C 38 minutes

D 45 minutes

Answer: D

1500+ Very Important Free SSC Solved Questions

98. Murali travelled from city A to city B at a speed of 40 kmph and from city B to city C at 60 kmph. What is the average speed of Murali from A to C given that the ratio of distances between A to B and B to C is 2:3 (in kmph) is

A 48

B 50

C 52

D 56

Answer: B

99. A started running towards south at 7:00 am, B started running towards south at 11:00 am. At what time will they meet if the speeds of A and B are in ratio 3 : 7?

- A 1 pm
- B 2pm
- C 12:30 pm
- D 1:30 pm

Answer: B

100. A alone can complete a job in 12 days. After working for 2 days A is joined by B and they completed the job in 6 days. Had B worked alone how many days are needed to complete the job?

- A 14
- B 16
- C 18
- D 20

Answer: C

Free Banking Study Material (15000 Solved Questions)

101. A works twice as fast as B. working together they complete a job in 14 days. In how many days will B, working alone complete the job?

- A 12
- B 18
- C 26
- D 42

Answer: D

102. ABCD is a quadrilateral in which the length of the diagonal AC = 1.4 meters and the lengths of the perpendiculars drawn from B and D on AC are 80 cm and 50 cm respectively. The area of ABCD (in sq. m.) is

- A 0.91
- B 9.1
- C 91
- D 91.1

Answer: A

103. A rectangular lawn of dimension $80\text{m} \times 60\text{m}$ has two roads each of 10m wide are made in the middle and parallel to its length and breadth. Then the area of the roads in sq. m is

- A 4800
- B 3500
- C 1400
- D 1300

Answer: D

AP SI Free Solved Previous Papers PDF

104. Volume of a right circular cone having base radius 70 cm and curved surface area 40040 cm^2 is

- A 823400
- B 824000
- C 840000
- D 862400

Answer: D

105. A wall of dimensions $25\text{m} \times 2\text{m} \times \frac{3}{4}\text{m}$ is to be built by using bricks each of whose dimensions are $20\text{cm} \times 10\text{cm} \times 7.5\text{cm}$. The number of bricks are needed to build this wall is

- A 32000
- B 30000
- C 28000
- D 25000

Answer: D

106. A solid consists of a circular cylinder with a right circular cone exactly fitted on the top. The height of the cone is h . If the total volume of the solid is three times the volume of the cone, then the height of the circular cylinder is

- A $\frac{1}{3}h$
- B $\frac{1}{2}h$
- C $\frac{2}{3}h$
- D $\frac{3}{5}h$

Answer: C

Free Banking Study Material (15,000 Solved Questions)

107. A metallic solid cylinder of 14cm diameter and 32cm height is cast into 77 solid cubes of equal size. Then the length of side of the cube (in cm) is

- A** 6
- B** 4
- C** 5
- D** 9

Answer: B

108. If the diagonals of a rhombus are 30 cm and 24 cm. Then its area, in sq. cm. is

- A** 180
- B** 720
- C** 360
- D** 1440

Answer: C

109. The remainder when 33^{32} leaves upon division by 7 is

- A** 4
- B** 6
- C** 1
- D** 3

Answer: A

Daily Free Banking Online Tests

110. The digit in the units place of 7^{300} is

- A** 7
- B** 4
- C** 3
- D** 1

Answer: D

111. If A, B, C are three subsets of a set X, then
 $\{(A - B) - C\} - \{A - (B - C)\} =$
 (Here $A' = X - A$)

- A** ϕ
- B** X
- C** $A \cup B \cup C$
- D** $A \cap B' \cap C'$

Answer: A

112. Let $U = \{x \mid x \text{ is a natural number } \leq 20\}$. Define

$A = \{x \mid x \in U \text{ and } x \text{ is a prime number}\}$,

$B = \{x \mid x \in U \text{ and } x \text{ is an even number}\}$,

and $C = \{x \mid x \in U \text{ and } x \text{ is a multiple of } 3\}$. Then $(A \cup B) \cap C =$

A $\{3, 6, 9, 12, 18\}$

B $\{3, 6, 9, 15, 18\}$

C $\{2, 3, 12, 18\}$

D $\{3, 6, 12, 18\}$

Answer: D

SSC CHSL Previous Question papers (download pdf)

113. If the roots of the equation $x^4 - 10x^3 + 35x^2 - 50x + 24 = 0$ are 1, 2, 3 and 4, then the roots of the equation $24x^4 - 50x^3 + 35x^2 - 10x + 1 = 0$ are

A $-1, -2, -3$ and -4

B $-\frac{1}{2}, -\frac{1}{3}, -\frac{1}{4}$ and -1

C $-1, 2, -\frac{1}{3}$ and $\frac{1}{4}$

D $-1, \frac{1}{2}, \frac{1}{3}$ and $\frac{1}{4}$

Answer: D

114. How much is to be added to the polynomial $(x+2)(x+4)(x+6)(x+8)$ to make it a perfect square?

A 16

B 12

C 8

D 4

Answer: A

115. If $(x-1)$ and $(x-2)$ are the factors of $x^4 - 5x^3 + 4x^2 + ax + b$ then, $\frac{a}{b} =$

A 4

B -4

C 1

D -1

Answer: D

SSC CHSL Free Mock Test

116. If $(x^2 - 3x + 2)$ is a factor of $x^3 - 6x^2 + ax + b$ then $a^2 + b^2 =$

- A 157
- B 85
- C -85
- D -157

Answer: A

117. The digits of a 3 digit number are in strict descending order. Then the largest prime that always, divides the difference of the given 3-digit number and the 3 digit number obtained by reversing the digits of the given number is

- A 3
- B 11
- C 79
- D 97

Answer: B

118. If length and breadth are reduced by 2 units each, area of rectangle reduces by 22 sq. units, then the perimeter of the rectangle is

- A 26 units
- B 24 units
- C 28 units
- D 30 units

Answer: A

SSC CGL Free Mock Test

119. If the solution of the system of equations

$$\frac{x}{4} + 2y = 7; \frac{19y}{x+4} = 4 \text{ is } x = \alpha \text{ and } y = \beta, \text{ then } \alpha^2 + \beta^2$$

- A 29
- B 34
- C 25
- D 169

Answer: C

120. The third term of Geometric Progression is 4; then the product of its first 5 terms in that Geometric Progression is

- A 4^3
- B 4^4
- C 4^5
- D 4^6

Answer: C

121. If the ratio of the sum of the first 3 terms of a geometric progression to the sum of the first 6 terms is 8:35, then the common ratio of that geometric progression is

- A $\frac{3}{2}$
- B $\frac{2}{3}$
- C 3
- D $\frac{1}{3}$

Answer: A

Daily Free SSC Practice Set

122. The radius of the circle is 21 cms. The angle subtended by an arc of the circle at the centre is 60° . The length of its arc is

- A 30
- B 35
- C 22
- D 20

Answer: C

123. $4(\sin^4 30^\circ + \cos^4 60^\circ) - 3(\cos^2 45^\circ - \sin^2 90^\circ) =$

- A $\frac{\sqrt{3}}{2}$
- B -1
- C 1
- D 2

Answer: D

124. If $A + B = \frac{\pi}{4}$, then $(1 + \tan A)(1 + \tan B) =$

- A -2
- B -1
- C 1

D 2

Answer: D

SSC CGL Free Online Coaching

125. If the angles of a triangle ABC are in arithmetic progression then

$$\frac{\cos C - \cos A}{\sin A - \sin C} =$$

A $\sqrt{3}$

B 1

C $\frac{1}{\sqrt{3}}$

D $-\frac{1}{\sqrt{3}}$

Answer: A

126. The angle of elevation of top of a mountain cliff from a point 200 m from its foot is 45° . The height of the cliff (in meters) is

A 175

B 200

C 220

D 250

Answer: B

127. The area of an equilateral triangle is $256\sqrt{3}$ sq. cm., then the perimeter of that triangle is

A 32

B 64

C 96

D 128

Answer: C

Free SSC Study Material (18,000 Solved Questions)

128. If the perimeter of a right angled triangle is 60 cm and its hypotenuse is 26 cm. then the area of the triangle in cm^2 , is

A 60

B 120

C 180

D 240

Answer: B

129. If the angles of a quadrilateral are in the ratio 4 : 5 : 10 : 11, then the angles are

- A $36^\circ 60^\circ 108^\circ 156^\circ$
- B $48^\circ 60^\circ 120^\circ 132^\circ$
- C $52^\circ 60^\circ 122^\circ 126^\circ$
- D $60^\circ 60^\circ 120^\circ 120^\circ$

Answer: B

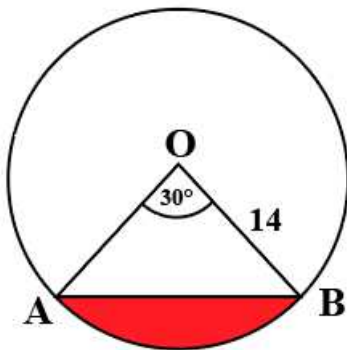

130. $ABCD$ is a parallelogram in which $AB = 2x + 5$; $CD = y + 1$; $AD = y + 5$ and $BC = 3x - 4$. Then the lengths of the sides of the $ABCD$ are

- A 13, 30
- B 13, 35
- C 31, 30
- D 31, 35

Answer: D

SSC CGL Previous Papers (DOWNLOAD PDF)

131. In the following circle with center O, if $\angle AOB = 30^\circ$, then the area of the shaded region (in sq.cm.) is

- A $\frac{13}{3}$
- B $\frac{11}{3}$
- C $\frac{7}{3}$
- D $\frac{9}{4}$

Answer: C

132. If a semi circle is drawn on the side of a square, which has a diagonal of length 12 cm, the area of the semi circle, in cm^2 , is

- A 72π
- B 36π

C $\frac{18}{\pi}$

D $\frac{9}{\pi}$

Answer: D

133. If the triangle with the vertices $A(2, x)$, $B(2, 6)$, $C(2 + \sqrt{3}, 5)$ is equilateral then value of x is

A 0

B 2

C 4

D 5

Answer: C

1500+ Very Important Free SSC Solved Questions

134. The point which divides the line segment $(3, 5)$, $(4, 7)$ in the ratio 2 : 3 internally is

A No 1

B No 2

C No 3

D No 4

Answer: B

135. Let $A(-2, -2)$, $B(31, 6)$ and $C(8, 2)$ be three points. Let the slope of $AB = m_1$ and the slope of $AC = m_2$. Then $m_1 : m_2 =$

A 4 : 1

B 3 : 1

C 2 : 1

D 1 : 5

Answer: A

136. The Y-intercept made by the straight line passing through the point $(3, 2)$ and perpendicular to the line $y = x$ is

A 6

B 5

C 4

D 3

Answer: B

Free Banking Study Material (15000 Solved Questions)

137. The equation of the line passing through the point (1, 2) and perpendicular to the line $x + y + 1 = 0$ is

- A $y - x + 1 = 0$
- B $y - x - 1 = 0$
- C $y - x + 2 = 0$
- D $y - x - 2 = 0$

Answer: B

138. Equation of the line perpendicular to the line $y = 3x + 17$ and which makes an intercept of length 6 units on positive Y-axis is

- A $x - 3y + 18 = 0$
- B $x + 3y - 18 = 0$
- C $3x - y + 6 = 0$
- D $3x + y - 6 = 0$

Answer: B

139. The equation of a line which is parallel to X-axis and cuts the positive side of the Y-axis at 7 units from the origin is

- A $x = 7$
- B $y = 7$
- C $x + y = 7$
- D $y = x + 7$

Answer: B

AP SI Free Solved Previous Papers PDF

140. The equation of the line passing through (p, q) and having slope as $\sqrt{3}$ is

- A $y - p = \frac{1}{\sqrt{3}}(x - q)$
- B $y - q = \frac{1}{\sqrt{3}}(x - p)$
- C $y - q = \sqrt{3}(x - p)$
- D $y - p = \sqrt{3}(x - q)$

Answer: A

141. In a statistical data 2, 4, 6, 8, 10 occur with frequencies 1, 3, 5, 7, 9 respectively, then the arithmetic mean is

- A 6.8
- B 7.6
- C 6.7

D 7.8

Answer: B

142. The average age of 4 boys A, B, C, D is 13 years, while the average age of B, C, D is 14 years then the age of A is

A 10

B 12

C 14

D 16

Answer: A

Free Banking Study Material (15,000 Solved Questions)

143. The arithmetic mean of a data of 100 observations is 23. If each of the observations is multiplied by 5 and then 2 is added to each observation, then the arithmetic mean of the new data is

A 125

B 121

C 117

D 51

Answer: C

144. A data consists of the natural numbers of the form $2k + 1$ with frequency k for $1 \leq k \leq 15$, then the median of the data is

A 19

B 21

C 23

D 25

Answer: C

145. The median value for the following data is

x:	12	16	10	14	17	20	15
f:	4	9	3	5	4	2	10

A 14

B 15

C 12

D 20

Answer: B

Daily Free Banking Online Tests

146. The arithmetic mean and median of a frequency distribution are 20 and 30 respectively. The mode of this distribution is

- A 25
- B 29
- C 40
- D 50

Answer: D

147. The mode of the following data is

x	2	5	7	9	12	15
Cumulative frequency	6	8	13	17	20	22

- A 2
- B 5
- C 7
- D 9

Answer: A

148. The probability of getting at least one head on a toss of five coins is

- A $\frac{1}{5}$
- B $\frac{5}{32}$
- C $\frac{7}{32}$
- D $\frac{31}{32}$

Answer: D

SSC CHSL Previous Question papers (download pdf)

149. While shuffling a pack of 52 playing cards, 2 are accidentally dropped. Then the probability that missing cards to be of different colours is

- A $\frac{22}{52}$
- B $\frac{1}{2}$
- C $\frac{26}{51}$
- D $\frac{27}{51}$

Answer: C

150. When 5 boys and 6 girls sit at random in a row, then the probability that boys and girls sit alternatively is

- A** $\frac{1}{231}$
- B** $\frac{1}{462}$
- C** $\frac{1}{132}$
- D** $\frac{1}{990}$

Read the Passage and answer the questions

Conservation technology is a growing field, and right up in the forefront are drones, or unmanned aerial vehicles, which are either operated by a remote controller or programmed to fly unaided. Drones have had a long history of use in the military and by large tech companies in mapping roadways, and their applications in conservation and ecology are growing.

Drones have various uses in wildlife conservation and monitoring, especially given the smaller sizes and more-affordable costs associated with this technology in modern times. Examples include using drones for elephant population monitoring and in measuring forest biodiversity. They are also widely used in monitoring illegal activities such as poaching or deforestation. Kaziranga National Park was the first protected area in India to utilize drones in targeting rhino-poachers.

UAVs are also used to track wildfires and their spread, playing a role in disaster mitigation. Recent applications include the use of drones in pest management, where pesticides are loaded into drones for spraying large swaths of cropland, as seen during the locust swarm.

Drones can help counter issues related to safety of manned aerial surveys since there is no pilot involved and they can be flown into remote locations which might otherwise be inaccessible. In the event of a crash scenario, their smaller sizes are likely to cause less damage which means ground staff who operate them do not face the risk of injury.

186. **This passage is mainly about using drones for _____.**

- A** spotting enemy aircraft
- B** making roads and high way
- C** wild life conservation and monitoring
- D** spying and warfare

Answer: C

187. **The first use of drones by Kaziranga National Park was in observin _____.**

- A** elephants
- B** rhino-poachers
- C** deforestation
- D** locust swarms

Answer: B

Instructions [191 - 195]

Read the Passage and answer the questions

Although nature must supply the initial force of desire, nature is not, in the civilised man, the spasmodic, fragmentary, and yet violent set of impulses that is in the savage. Each impulse has its constitutional ministry of thought and knowledge and reflection, through which possible conflicts of impulses are foreseen, and temporary impulses are controlled by the unifying impulse which may be called wisdom. In this way education destroys the crudity of instinct, and increases through knowledge the wealth and variety of the individual's contacts with the outside world, making him no longer an isolated fighting unit, but a citizen of the universe, embracing distant countries, remote regions of space, and vast stretches of past and future within the circle of his interests. It is this simultaneous softening in the insistence of desire and enlargement of its scope that is the chief moral end of education.

191. 'Spasmodic' in the passage stands for a/an

A Endemic

B Truce

C Outburst

D Dance

Answer: C

192. Nature in the civilised men does not share the _____ of the savage.

A Impulses

B Glory

- C Wisdom
- D Discretion

Answer: A

193. **Wisdom is an impulse that**

- A unites

- A bad
- B universal
- C greedy
- D questionable

Answer: B

195. **The moral purpose of education is**

- A softening
- B exaggerating
- C vitiating
- D decimating

Answer: A

Instructions [196 - 200]

Read the Passage and answer the questions

Theorists adopting psychodynamic approach hold that inner conflicts are crucial for understanding human behaviour, including aggression. Sigmund Freud, for example, believed that aggressive impulses are inevitable reactions to the frustrations of daily life. Children normally desire to vent aggressive impulses on other people, including their parents, because even the most attentive parents cannot gratify all of their demands immediately. Yet children, also fearing their parents' punishment and loss of potential love, come to repress most aggressive impulses. The Freudian perspective, in a sense, sees us as 'steam engines'. By holding in rather than venting 'steam', we set the stage for future explosions. Pent up aggressive impulses demand outlets. They may be expressed towards parents in indirect ways such as destroying furniture, or they may be expressed toward strangers later in life.

196. **The word 'inevitable' in the passage is closest in meaning to**

- A unavoidable
- B regrettable

- C controllable
- D unsuitable

Answer: A
