TS ICET 28th July 2022 Shift-2

Analytical Ability

Instructions [1 - 20]

In the following questions numbered 1 to 20, a question is followed by data in the form of two statements labelled as (I) and (II) You must decide whether the data given in the statements are sufficient to answer the questions.

1. What is the value of $x + y + z$?

(I) $3x - y + 2z$

(II) $x + 5y + 2z = 10$

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

Free Banking Study Material (15,000 Solved Questions)

2. If x, y are positive integers, is $\sqrt{x^2 + y^2}$ an integer?

(I) $x : y = 1 : 2$.

(II) $x + y$ is multiple of 7.

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

3. Is the positive integer n divisible by 462?

(I) 715 divides n .

(II) 210 is a factor of n .

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

4. What is height of the cylinder?

(I) Volume of the cylinder is 48cm^3 .

(II) The lateral surface area of the cylinder- is 28cm^2 .

- A if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.

- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

Daily Free Banking Online Tests

5. If x and y are integers then is z an even integer?

(I) $z = (x + y)^2$.

(II) $Z = 2x + 4y$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

6. If a, b, c are integers, is $a < b$?

(I) $a^2 + b^2 + c^2 = 0$.

(II) $b < a + c$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

7. What is the cost of erecting a fence around a rectangular field?

(I) The area of the field is 24000 square meters.

(II) The cost of fencing Rs.150 per meter.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

SSC CHSL Previous Question papers (download pdf)

8. If m, n are positive integers greater than 4, then what is the value of $m+n$?

(I) $mn = 48$.

(II) $m > n$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

9. What is the common ratio of the Geometric Progression?

(I) The sum of the first four terms is 80.

(II) The first and fourth terms are 2 and 54 respectively.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

10. What is the positive integral value of x ?

(I) $57 < 7x + 1 < 71$.

(II) $25 < x^2 < 81$.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

SSC CHSL Free Mock Test

11. What is the selling price of the sofa?

(I) The marked price of the sofa is Rs.7500.

(II) The profit the merchant gets by selling the sofa is Rs.900.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

12. What is the present age of the person A?

(I) Today is A's birthday.

(II) After one year he will be twice as old as he was ten years ago.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

13. What is the area of the circle?

- (I) The circle circumscribes a square of area 49 cm^2
- (II) The circle is inscribed in a triangle of area 48 cm^2 .

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

SSC CGL Free Mock Test

14. How many marks did he get in Mathematics?

- (I) The average of his marks in Mathematics, Physics and Chemistry is 79.
- (II) The average of his marks in Mathematics and Chemistry is 72.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: D

15. Is $f(x)$ an even function?

- (I) $f(x) = g(x) + g(-x), x \in \mathbb{R}$
- (II) $g(x) = \cos x, x \in \mathbb{R}$

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement {II} alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

16. How many people are there in the queue between two persons A and B?

- (I) A is the 15^{th} from the end of the line.
- (II) B is in the centre of the line and there are 10 more ahead of him.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

Daily Free SSC Practice Set

17. In a Carrom Board game of doubles played by four players A, B, C and D, who is sitting opposite to A?
 (I) B is sitting opposite to D.
 (II) C is sitting facing North.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

18. In a queue of 20 people waiting at the counter what is the position of A from the end of the line?
 (I) B is the fifth person in front of A from A.
 (II) B is eighteenth person from the end of the line.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: C

19. Will it be Friday tomorrow?
 (I) Day before yesterday is Tuesday.
 (II) Sunday is a holiday.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: A

SSC CGL Free Online Coaching

20. Four boys A, B, C, D sit around a round table side by side facing the centre of the table. Then who sits to the left of B?
 (I) B and C face each other and A sits between B and C.
 (II) D sits to the right of C and sits opposite to A.

- A** if the statement (I) alone is sufficient to answer the question, but (II) does not answer the question.
- B** if the statement (II) alone is sufficient to answer the question but (I) does not answer the question.
- C** if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is sufficient.
- D** if both the statements (I) and (II) together are not sufficient to answer the question and additional data is required.

Answer: B

Instructions [21 - 30]

In the questions 21 -30, each contains two pairs of groups (of letters or letters and numbers). The pattern that appears in one pair should be followed by the other pair also. Observe the pattern carefully and fill in the blanks appropriately.

21. **CAM : USE :: SAT : _____**

- A** KSL
- B** MOJ
- C** LTR
- D** JRM

Answer: A

22. **FIG : KNL :: SET : _____**

- A** XKY
- B** XJZ
- C** XJY
- D** XJA

Answer: C

Answer: B

45. $1\frac{2}{3}$, $1\frac{2}{11}$, $1\frac{4}{19}$, _____, $1\frac{4}{43}$.

A $1\frac{5}{31}$

B $1\frac{6}{31}$

C $1\frac{2}{29}$

D $1\frac{4}{37}$

Answer: B

Instructions [46 - 48]

The table gives the data of the sales (in crores of rupees) in one year of four companies I, II, III, and IV dealing with same type of electronic items in five major cities A, B, C, D and E. Based on the data answer the questions from 46 to 48.

Company City	I	II	III	IV
A	375	525	225	475
B	400	500	275	525
C	450	550	325	475
D	425	575	350	550
E	450	550	375	625

46. Taking into consideration the total sales of all the companies in all the cities what is the percentage of sales of Company-I?

- A $23\frac{1}{3}$
- B $27\frac{2}{3}$
- C 29.0
- D $31\frac{1}{3}$

Answer: A

SSC CHSL Free Mock Test

47. In all the cities put together which company recorded the maximum sales in that year?

- A IV
- B II
- C III
- D I

Answer: B

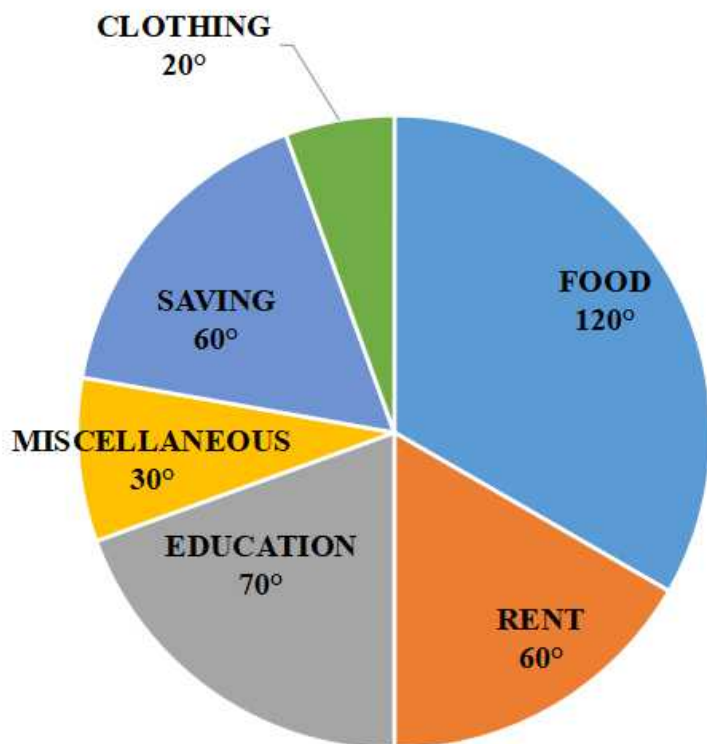

48. Of all the companies put together what is percentage increase of sales of the products in the city E compared to the City A?

- A $25\frac{1}{2}\%$
- B $25\frac{1}{4}\%$
- C 25%
- D 26%

Answer: C

Instructions [49 - 51]

The following pie-chart shows the expenditure of a family. Based on this information answer the questions from 49 to 51.

FOOD	120°
RENT	60°
EDUCATION	70°
MISCELLANEOUS	30°
SAVING	60°
CLOTHING	20°

49. How much (in rupees) the family can save if the total income is 72000 rupees?

- A 12000
- B 11000
- C 12500
- D 11500

Answer: A

SSC CGL Free Mock Test

50. The percentage of expenditure on food is

- A $35\frac{1}{3}\%$
- B 34%
- C $33\frac{1}{3}\%$
- D 35%

Answer: C

51. If the total income of the family is Rs.144000, then the amount (in rupees) spent by family on Rent and Education is

- A 56000
- B 51000
- C 54000
- D 52000

Answer: D

Instructions [52 - 55]

In a group of 100 persons, each reads at least one among three news papers T, E and H, 8 read all the three, 20 read both T and E, 18 read both E and H and 14 read both T and H, 60 read E and 46 read T. Based on this data, answer the questions 52-55.

52. How many persons read only H?

- A 16
- B 14
- C 17
- D 18

Answer: B

Daily Free SSC Practice Set

53. How many persons read exactly two among the three E, T and H?

- A 28
- B 26
- C 32
- D 34

Answer: A

54. The ratio between the number of persons who read E and T is

- A 30 : 29
- B 5 : 4
- C 30 : 23
- D 24 : 23

Answer: C

55. The percentage of persons who read T is

- A 42

- B** 48
- C** 44
- D** 46

Answer: D

59. **SECTION** is coded as

- A** WIGXOUS
- B** WIGXOUR

C WOGXOUR

D XIGYOUR

Answer: B

60. Which word is coded as BULLET?

A XOHIAP

B XOIIIAP

C XUHHAP

D XOHHAP

Answer: D

61. If INPUT is coded as LQXW then code for COMPUTER is

A FRPSXWHU

B FSPMXHWU

C FPMSHXWU

D FQNTIYZU

Answer: A

SSC CGL Previous Papers (DOWNLOAD PDF)

62. If PURCHASE is coded as 73429186 and ORDER is coded as 54064, the code for PROCEED is

A 7452660

B 7354880

C 7483550

D 7694330

Answer: A

63. If PRIVATE is coded as 1234567 and RISK is coded as 2398, then which of the following is coded as 962347?

A SIVERT

B RIVETS

C STRIVE

D REVERT

Answer: C

64. If FAILURE is coded as KFNQZWJ, then the code for SUCCESS is

A YAIKYY

- B** WBJJLWW
- C** XZHHJXX
- D** TVKKLTT

Answer: C

65. If NATION is coded as 467234 and GREEN is coded as 19554, then the code for INTEGRATION is

- A** 24861957234
- B** 24961857234
- C** 24695817234
- D** 24751967234

Answer: D

66. The calendar of the year that is identical with the calendar of the year 2005 is

- A** 2009
- B** 2010
- C** 2011
- D** 2012

Answer: C

67. At what time between 4:00 and 4 : 30 will the hands of a clock be at right angle?

- A** $5\frac{5}{11}$ min.past 5:00
- B** $6\frac{5}{11}$ min.past 4:00
- C** $5\frac{4}{11}$ min.past 4:00
- D** $5\frac{5}{11}$ min.past 4:00

Answer: D

Free Banking Study Material (15000 Solved Questions)

68. At what time between 9 o'clock and 10 o'clock will the hands of a clock be together?

- A** 45 minutes past 9
- B** 50 minutes past 9
- C** $49\frac{1}{11}$ minutes past 9
- D** $48\frac{2}{11}$ minutes past 9

Answer: C

69. Mrs. X meets a man at a party who is the brother of the sister of her husband. How is the man related to X?

- A** Brother-in-law
- B** Brother
- C** Cousin
- D** Father

Answer: A

70. A person A came to the bus stop at 8:10 am and found that he was 40 minutes before the arrival of the bus which was running late by 30 minutes. What was the scheduled arrival time (STA) of the bus?

- A** 8:20 am
- B** 8:22 am
- C** 8:25 am
- D** 8:30 am

Answer: A

AP SI Free Solved Previous Papers PDF

71. Two trains P and Q arrived at station X on same day at 14:35 hours and 15:28 hours, running late by 21 minutes and 12 minutes respectively. Then the time difference between their scheduled arrivals (in minutes) is

- A** 56
- B** 58
- C** 62
- D** 64

Answer: C

72. Six persons A, B, C, D, E and F are sitting around a circular table such that C is sitting to the right of E, and F is to the right of A. If B is sitting to the left of D, and A and C are sitting adjacent to each other, then who is sitting opposite of D?

- A** A
- B** B
- C** C
- D** E

Answer: A

73. If the symbols α , β , γ and δ stand for arithmetical operations of addition, subtraction, multiplication and division respectively, then

$$\frac{(42\delta 2)\beta(5\gamma 4)}{(5\beta 4)\alpha(4\delta 4)} =$$

- A** 0
B $\frac{1}{2}$
C 1
D 2

Answer: B

Free Banking Study Material (15,000 Solved Questions)

74. If $a \times b$ stands for $\frac{1}{a} + \frac{1}{b}$, then $\sum_{n=1}^{10} (1 \times \frac{1}{n}) =$ then

- A** 75
B 55
C 65
D 60

Answer: C

75. If $C \triangle D = C^2 + CD + D^2 - (C + D)$, then $7 \triangle 8 =$

- A** 169
B 154
C 133
D 172

Answer: B

Daily Free Banking Online Tests

Mathematical Ability

76. If $3^x = 9^y = 27^z$ and $xyz = 36$, then $x + y + z =$

- A** 11
B 13
C 12
D 15

Answer: A

SSC CHSL Previous Question papers (download pdf)

77. If $2^{n-l} + 2^{n+l} = 320$, then $n =$

- A 6
- B 8
- C 5
- D 7

Answer: D

78. If $A : B = 2 : 3$; $B : C = 6 : 7$ and $C : D = 4 : 5$, then $D : A =$

- A 12 : 41
- B 16 : 35
- C 35 : 16
- D 41 : 12

Answer: C

79. An urn contains 60 litres of mixture of milk and water in the ratio 3 : 1. How many litres of water is to be added to this mixture to make the ratio of milk and water as 1 : 3?

- A 60
- B 80
- C 100
- D 120

Answer: D

SSC CHSL Free Mock Test

80. If the arithmetic mean of two surds is $5 + 9\sqrt{2}$ and one of them is $1 + 12\sqrt{2}$, then the square root of the second surd is

- A $\sqrt{2} + \sqrt{6}$
- B $\sqrt{6} - \sqrt{3}$
- C $\sqrt{6} + \sqrt{3}$
- D $\sqrt{3} + \sqrt{5}$

Answer: C

81. If $\sqrt[3]{26 - 15\sqrt{3}} = x - \sqrt{y}$, then $3x + 2y =$

- A 12
- B 6
- C 9
- D 0

Answer: A

82. The smallest 5 digit number that leaves remainder 11 when divided by 111 is

- A 10112
- B 10101
- C 10051
- D 10001

Answer: D

SSC CGL Free Mock Test

83. When a number is divided by 13, the remainder is 11. When the same number is divided by 17, the remainder is 9. Then the number is

- A 339
- B 349
- C 369
- D 379

Answer: B

84. If the LCM of 3, 4, 5, 6, x is 120 and $x < 1201$, then the largest value of x among the following is

- A 8
- B 24
- C 40
- D 32

Answer: C

85. Six bells commence tolling together and toll at intervals of 2, 4, 6, 8, 10 and 12 seconds respectively. In 30 minutes, how many times do they toll together?

- A 4
- B 10
- C 15
- D 16

Answer: D

Daily Free SSC Practice Set

86. If $m^n = 361$, 'm' and 'n' being natural numbers, which of the following could be a value of $\frac{(m-n)}{2}$

- A 9.5
- B 180
- C 8.5
- D 160

Answer: B

$$87. \frac{0.099 \times 9.9 \times 0.99 + 0.000001}{0.099 \times 9.9 - 0.0099 + 0.0001} =$$

- A 0.99
- B 0.01
- C 1.0
- D 0.90

Answer: C

88. The difference between the largest and the smallest of the following numbers is

$$\frac{2}{7}, \frac{2}{9}, \frac{3}{11}, \frac{1}{5}, \frac{5}{12}$$

- A $\frac{14}{63}$
- B $\frac{3}{35}$
- C $\frac{13}{60}$
- D $\frac{1}{45}$

Answer: C

SSC CGL Free Online Coaching

89. If $a = \frac{4}{9}$, $b = \frac{7}{12}$, $c = \frac{3}{7}$, $d = \frac{12}{17}$ and $e = \frac{1}{2}$ then their descending order is

- A c, a, e, b, d
- B a, b, c, d, e
- C e, d, c, b, a
- D d, b, e, a, c

Answer: D

90. In an election contested by two candidates A and B, A polled 35% of the votes and is defeated by B by 15000 votes. What is the number of votes polled by B?

- A 31000
- B 32000
- C 32500

D 33000

Answer: C

91. In an examination A scored 25% of marks and failed by 30 marks whereas B scored 50% of the marks and got 20 marks more than the minimum pass marks. What is the minimum percentage of the pass marks?

A 30%

B 35%

C 38%

D 40%

Answer: D

Free SSC Study Material (18,000 Solved Questions)

92. A man bought a horse and a carriage for Rs.3000. He sold the horse at a gain of 20% and the carriage at a loss of 10%, thereby gaining 2% on the whole. The cost of the horse is (in Rs.)

A 1200

B 1300

C 900

D 1100

Answer: A

93. The profit earned by selling an article for Rs.900 is double the loss incurred when the same article is sold for Rs.450. At what price should the article be sold to make 25% profit?

A 600

B 750

C 800

D 900

Answer: B

94. P, Q and R together started a business. P invests three times as much as Q and Q invests two third of what R invests. What is the share of Q, if the total profit is Rs.12100 (in rupees)?

A 1600

B 2020

C 1800

D 2200

Answer: D

SSC CGL Previous Papers (DOWNLOAD PDF)

95. A, B, C, D start a partnership business where A, B and C invested $\frac{1}{3}$ rd, $\frac{1}{4}$ th and $\frac{1}{4}$ th of the capital respectively and the rest of the capital by D. If the total profit at the end of the year is Rs.60 lakhs, what is the profit of D (in lakhs) ?

- A 15
- B 12
- C 10
- D 8

Answer: C

96. Pipe A and B can fill an empty tank in 6 hours and 9 hours respectively. If Pipe A is opened at 10 pm and B one hour thereafter then the tank will be filled at

- A 1 :00 pm
- B 1 :30 pm
- C 2 :00 pm
- D 3 :00 pm

Answer: C

97. A tank supplies water to a family for 50 days. Due to leak in the tank, 5 litres of water wastage every day and then the supply lasts for 10 days less. For how many days the supply last if 50 litres of water wastage every day?

- A 20
- B 25
- C 22
- D 24

Answer: A

1500+ Very Important Free SSC Solved Questions

98. Two persons A and B start from a point P and walk at the speeds 3 kmph and 4 kmph respectively. B reaches the point Q and returns immediately to meet A at a point R in between P and Q. If P, Q R are collinear, then the distance between Q and R (in km) is

- A 6
- B 5
- C 4
- D 3

Answer: D

99. Walking at $\frac{3}{4}$ of his usual speed a person reaches his office 10 minutes late. What is the time (in minutes) taken by him to reach his office if he walks at his usual speed?

- A 30
- B 32
- C 35
- D 40

Answer: A

100. P works twice as fast as Q and R work together. Working together, all three can do a work in 21 days. In how many days can Q and R together do the work?

- A 48
- B 63
- C 54
- D 72

Answer: B

Free Banking Study Material (15000 Solved Questions)

101. A, B and C individually can complete a job in 20, 15 and 25 days respectively. If only one or two persons can be assigned the job who would complete the job quickly?

- A A, B
- B B, C
- C C, A
- D B

Answer: A

102. ABCD is a quadrilateral. AC = 12 cm. The perpendicular distances from B and D to AC are 4 cm and 6 cm respectively. Then the area (in cm^2) of the quadrilateral ABCD is

- A 30
- B 45
- C 60
- D 90

Answer: C

103. The circumference of circle A is $\frac{11}{7}$ times the perimeter of a square with area 784 sq. cm. The area of another circle B whose diameter is half the radius of the circle A, is (in sq. cm.)

- A 148
- B 154

C 162

D 184

Answer: B

AP SI Free Solved Previous Papers PDF

104. A solid metallic sphere of radius 6 cm is melted and moulded into smaller spheres of diameter 4 cm. The number of smaller spheres made are

A 36

B 32

C 27

D 24

Answer: C

105. The radii of the bases of a cylinder and a cone are in the ratio of 3 : 4, and their heights are in the ratio 2 : 3. Then the ratio of their volumes is

A 10 : 8

B 9 : 8

C 10 : 9

D 9 : 7

Answer: B

106. The curved surface area of a cylinder is 1056 sq.cm, and its height is 28cm. The volume of the cylinder (in cm^3) is

A 2168

B 3168

C 3178

D 2688

Answer: B

Free Banking Study Material (15,000 Solved Questions)

107. The surface area of a cylindrical pipe, open at both the ends is 628 sq.cm. Its length is greater than its radius by 15 cm. If the pipe is closed at one end then the amount of water (in cm^3) the pipe can hold (taking $\pi = 3.14$) is

A 1570

B 1620

C 1680

D 1860

Answer: A

108. One diagonal of a rhombus is 20 cm and side of the rhombus is 26 cm. Then the area of the rhombus (in sq.cm) is

- A 480
- B 560
- C 520
- D 460

Answer: A

109. If $0 \leq x \leq 14$ and $11x \equiv 3 \pmod{14}$ then $x =$

- A 10
- B 11
- C 12
- D 13

Answer: D

Daily Free Banking Online Tests

110. What is the time 100 hours after 7 am?

- A 11 am
- B 10 am
- C 12 am
- D 9 am

Answer: A

111. If $A = \{3, 4, 5, 6, 7, 8, 9\}$, then the number of subsets of A not containing 6 is

- A 256
- B 128
- C 32
- D 64

Answer: D

112. For two sets A and B, if

$$n(A - B) = 14, n(B - A) = 16, n(A \cup B) = 40, \text{ then } n(A \cap B) =$$

- A 20
- B 15
- C 10

D 8

Answer: C

SSC CHSL Previous Question papers (download pdf)

113. If one of the roots of the cubic equation $x^3 + ax^2 + bx + c = 0$ is -1, then the product of the other two roots is

A $b + a - 1$

B $b - a + 1$

C $b - a - 1$

D $a - b - 1$

Answer: B

114. Suppose α and β , are the zeros of the polynomial $f(x) = x^2 - 6x + k$. Then the value of k, such that $\alpha^2 + \beta^2 = 40$ is

A 2

B 1

C -2

D -1

Answer: C

115. If $x^3 - 4x^2 + ax + b$ is exactly divisible by both $x - 2$ and $x + 1$, then (a, b) =

A (-1, 6)

B (1, 6)

C (1, -6)

D (1, 3)

Answer: B

SSC CHSL Free Mock Test

116. If the integer n is divided by 3, the remainder is 2. Then, the remainder when 7n is divided by 3 is

A 3

B 2

C 6

D 4

Answer: B

117. A person bought 29 postal stamps of Rs.5 and Rs.10 by paying Rs.200. The difference between the number of stamps he bought with that money is

- A 10
- B 9
- C 8
- D 7

Answer: D

118. Six years ago, the age of a person was two years more than five times the age of his son. Four years hence, his age will be two years less than three times the age of his son. After how many years from now will their combined age be 100 years?

- A 48
- B 14
- C 19
- D 38

Answer: C

SSC CGL Free Mock Test

119. If $z^x = 4^y = 16^z$ and $xyz = 1728$, then $5x + 3y + 2z =$

- A 148
- B 168
- C 172
- D 184

Answer: B

120. The sum of the first n terms of a sequence is given by $5n^2 + 2n$. Then the 10^{th} term of this sequence is

- A 87
- B 97
- C 107
- D 117

Answer: B

121. If 9 times the 9^{th} term of an arithmetic progression is equal to 13 times the 13^{th} term, then the 22^{nd} term of the arithmetic progression is

- A 0
- B 22

C 23

D 198

Answer: A

Daily Free SSC Practice Set

122. $\frac{\cos 690^\circ + \cot 210^\circ + \cos 420^\circ}{\sin 690^\circ + \sec 210^\circ + \tan 420^\circ}$

A $11(2 - \sqrt{3})$

B $13(2 + \sqrt{3})$

C $11(2 + \sqrt{3})$

D $13(2 - \sqrt{3})$

Answer: B

123. $\frac{1}{\sqrt{3}} \sin 300^\circ + \tan 855^\circ + \frac{3}{4} \sec 780^\circ =$

A $\frac{\sqrt{3}}{2}$

B 0

C -3

D 2

Answer: B

124. If in a $\triangle ABC$, $A + B = C$, then $\tan A \cdot \tan B \cdot \tan C =$

A $\tan A + \tan B + \tan C$

B $\tan A - \tan B - \tan C$

C $\tan B - \tan C - \tan A$

D $\tan C - \tan B - \tan A$

Answer: D

SSC CGL Free Online Coaching

125. $x + \frac{1}{x} = 2 \cos \theta \Rightarrow x^3 + \frac{1}{x^3}$

A $2 \cos 3\theta$

B $\cos 3\theta$

C $3 \cos 3\theta$

D $3 \cos 2\theta$

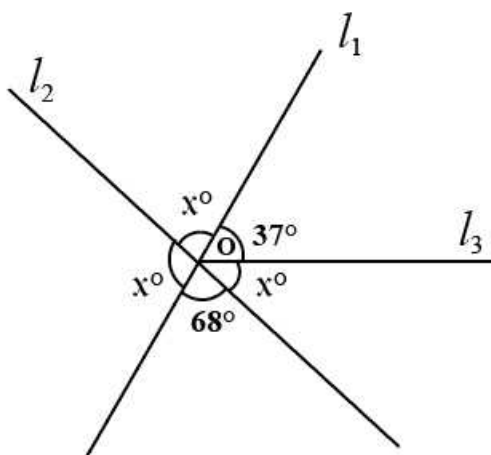

Answer: A

126. A man standing at 50m on the tower of a ship observes the angle of depression of 2 boats on either side of the ship to be 30° and 60° respectively. The distance (in meters) between the boats is

- A $\frac{100}{\sqrt{3}}$
- B $\frac{150}{\sqrt{3}}$
- C $\frac{200}{\sqrt{3}}$
- D $\frac{250}{\sqrt{3}}$

Answer: C

127. In the given figure l_1, l_2 are two intersecting lines at O and l_3 is a horizontal through O. The value of x (in degrees) is

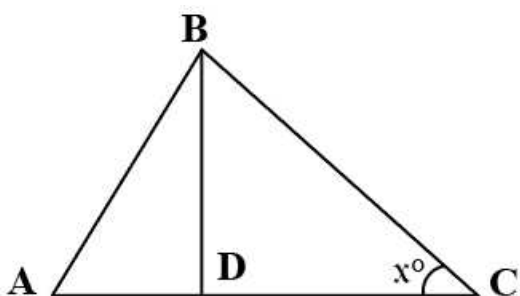

- A 45
- B 55
- C 75
- D 85

Answer: D

Free SSC Study Material (18,000 Solved Questions)

128. In the given triangle if $\angle ABC = \angle BDC = 90^\circ$ and $BD = AD$,
Then $x =$

- A 15
- B 30
- C 45
- D 60

Answer: C

129. The diagonal of a square is $16\sqrt{2}cm$. Its area (in sq. cm) is

- A 16
- B 64
- C 256
- D 512

Answer: C

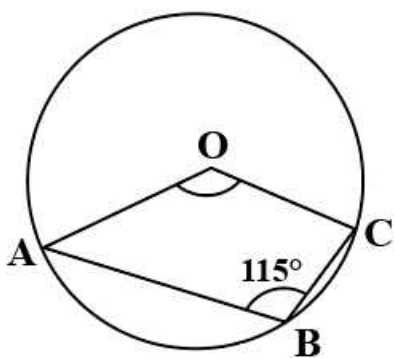

130. The area of a rhombus whose side is 50m and one of its diagonals 80m (in sq.m.) is

- A 1600
- B 2000
- C 2400
- D 4800

Answer: C

SSC CGL Previous Papers (DOWNLOAD PDF)

131. In the following circle with center O, if $\angle ABC$ is 115° , then $\angle AOC =$

- A $57\frac{1}{2}^\circ$
- B 115°
- C 130°
- D 160°

Answer: C

132. The area of the circle centred at (1, 2) and passing through the point (4, 6) is (in sq. units)

- A 5π
- B 10π
- C 25π
- D 20π

Answer: C

133. A(4, 2), B(6, 5), C(1, 4) are the vertices of $\triangle ABC$. If the median from A meets BC at D, then $AD^2 : BC^2 =$

- A 1 : 4
- B 5 : 14
- C 4 : 13
- D 3 : 10

Answer: A

1500+ Very Important Free SSC Solved Questions

134. The equation of the perpendicular bisector of the line obtained by joining the points (1, 1) and (3, 5) is

- A $2x - 3y + 5 = 0$
- B $x - y + 1 = 0$
- C $x + 2y - 8 = 0$
- D $3x + y - 9 = 0$

Answer: C

135. A point C divides the line joining the points A(1, 3) and B(21, 7) internally in the ratio 3 : 4. The equation of the line passing through C and parallel to the line $2x + 7y = 4$ is

- A $7x - 2y - 142 = 0$
- B $2x + 7y - 56 = 0$
- C $14x + 49y - 251 = 0$
- D $2x - 7y + 56 = 0$

Answer: C

136. The equation of line passing through the origin and is inclined at an angle of 30° to the X-axis

- A $y = x$
- B $\sqrt{3}y = x$

C $y = \sqrt{3}x$

D $x + y = 0$

Answer: B

Free Banking Study Material (15000 Solved Questions)

137. The equation of the line passing through the points $(1, \sqrt{3})$ and $(\sqrt{3}, 3)$ is

A $y = x$

B $x + y = 0$

C $y - \sqrt{3}x = 0$

D $\sqrt{3}y + x = 0$

Answer: C

138. If m denotes the slope and c denotes the intercept of a line then (m, c) for the line $7x - 11y - 23 = 0$ is

A $\left(\frac{-7}{11}, -\frac{23}{11}\right)$

B $\left(\frac{-7}{11}, \frac{23}{11}\right)$

C $\left(\frac{7}{11}, \frac{23}{11}\right)$

D $\left(\frac{7}{11}, -\frac{23}{11}\right)$

Answer: D

139. The intercept made by the line joining the points $(1, 11)$ and $(-3, -5)$ on the Y-axis is

A 7

B -7

C $\frac{-7}{4}$

D 4

Answer: A

AP SI Free Solved Previous Papers PDF

140. The equation of the line passing through the point of intersection of the lines

$2x + 3y - 4 = 0; 5x - 2y + 6 = 0$ having slope $\frac{-2}{3}$ is $ax + by + c = 0$, $\frac{5a+6b}{c} =$

A 7

B -7

C $\frac{4}{27}$

D $-\frac{27}{4}$

Answer: B

141. The arithmetic mean of the first twenty natural numbers is

- A** 10
- B** 10.5
- C** 11
- D** 11.5

Answer: B

142. After calculating the arithmetic mean of 25 integers as 73, it was observed that two integers were wrongly taken 76 and -23 instead of -76 and 23 respectively. Then the correct arithmetic mean is

- A** 77.24
- B** 70.88
- C** 68.76
- D** 75.12

Answer: C

Free Banking Study Material (15,000 Solved Questions)

143. The average height of 30 men is 158 cm and average height of another group of 40 men is 162 cm, then the average height of the combined group is

- A** 161
- B** 165.16
- C** 160.28
- D** 163

Answer: C

144. The median of the following set of observations is
1, 3, 5, 7, ..., 97

- A** 45
- B** 47
- C** 49
- D** 51

Answer: C

145. The median of the following frequency distribution is

Class	2 - 6	6 - 10	10 - 14	14 - 18	18 - 22	22 - 26
Frequency	6	9	13	10	12	10

A 14.0

B 14.8

C 16.8

D 17.0

Answer: B

Daily Free Banking Online Tests

146. The mode of the following data is

1, 13, 6, 9, 11, 13, 5, 8, 13, 14, 5, 8, 13, 6, 13

A 12

B 13

C 14

D 15

Answer: B

147. The arithmetic mean and the median of a frequency distribution are 51 and 50 respectively. Then the value of the Mode is

A 56

B 53

C 48

D 45

Answer: C

148. The probability of getting 2 heads in a toss of 5 coins is

A $\frac{2}{5}$

B $\frac{3}{8}$

C $\frac{5}{8}$

D $\frac{5}{16}$

Answer: D

SSC CHSL Previous Question papers (download pdf)

149. The probability that 3 boys and 3 girls can be seated in a row such that all the boys sit together side by side, is

- A $\frac{1}{3}$
- B $\frac{1}{5}$
- C $\frac{1}{6}$
- D $\frac{3}{5}$

Answer: B

150. A bag has 4 white, 5 black and 6 red balls. The probability of drawing a ball which is white or black is

- A $\frac{4}{45}$
- B $\frac{1}{15}$
- C $\frac{4}{5}$
- D $\frac{3}{5}$

Answer: D

Instructions [151 - 155]

Meanings (Sentences with dashes)

151. His _____ services were appreciated by his colleagues.

- A exemplary
- B exorbitant
- C careless
- D indifferent

Answer: A

SSC CGL Free Mock Test

152. The change was indiscernible.

The underlined word means

- A That which could not be seen.
- B That which could not be touched.
- C That which could not be felt.

D That which could not be talked of

Answer: A

153. I don't know why she is always so belligerent towards me.

The underlined word means

A Ready to suspect.

B Ready to support.

C Ready to guide.

D Ready to fight.

Answer: D

154. He turned nostalgic at the mention of school.

The underlined word means

A Deep rooted fear of past.

B Deep rooted fear of future.

C Wistful affection for future.

D Wistful affection for past .

Answer: D

Read the Passage and answer the questions

Walls and wall building have played a very important role in Chinese culture. Not only towns and villages, the houses and the temples within them were somehow walled. The houses also had no windows overlooking the street, thus giving the feeling of wandering around a huge maze. Thus, a great and extremely laborious task of constructing a wall that runs the length of the country must not have seemed such an absurdity.

Various dynasties contributed to constructing and refurbishing of a wall whose foundations had been laid many centuries ago. It was during the 4th and 3rd century B.C. That each warring states like Chin, the Chao and the Yen started building walls to protect their kingdoms both against one another and against northern nomads. They also laid foundations on which Chin Shih Huang Di would build his first continuous Great Wall.

Throughout the centuries many settlements were established along the border. The garrison troops were instructed to reclaim wasteland and to plant crops in it, build roads and canals. All these undertakings greatly helped increase the country's trade with many remote areas and also with southern central, and western parts of Asia.

186. Chinese towns resemble a maze because

- A They are walled.
- B The houses there have no external windows.
- C Walls are important for them.
- D They have temples.

Answer: B

187. **Constructing a wall that ran the length of the country**

- A** was an absurd idea.
- B** was an imported idea.
- C** was an easy task.
- D** made sense in Chinese culture.

Answer: D

Read the Passage and answer the questions

Before the grass has thickened on the roadside and leaves have started growing on the tree as is a perfect time to see, how dirty Britain has become. The pavements are stained with chewing gum, the gutters are full of discarded fast-food cartons. Years ago, I remember travelling abroad and being saddened by plastic bags, discarded bottles and soiled nappies at the edge of every road. Nowadays, Britain seems to look at least as bad.

The problem is that the rubbish created by our increasingly mobile lives lasts a lot longer than before. It stays in the undergrowth for years; a reminder of what a tatty little country we have become now.

It is estimated that 10 billion plastic bags have been given to shoppers. These will take anything from 100 to 1000 years to rot. However, it is not as if there is no solution to this. A few years ago, the Irish government introduced a tax on non-recyclable carrier bags and in three months reduced their use by 90%. When he was a minister, Michael Meacher attempted to introduce a similar arrangement in Britain. The plastics industry protested, of course, the idea was killed before it could draw breath.

191. It is perfect time to see Britain before the trees have leaves because

- A Britain looks the prettiest.
- B one can see how dirty Britain is.
- C grass will not block the roads.
- D Britain looks tidy.

Answer: B

192. According to the writer

- A Britain was better earlier, now has worsened.
- B Britain was worse earlier, now has become better.
- C Other countries were better.
- D Other countries were worse.

Answer: A

193. Micheal Meacher

- A Did not follow any model to tax the plastic bags.
- B Tried to follow the Irish example on tax on plastic bags.
- C Made no attempt to tax plastic bags.
- D Gave incentive for production of plastic bags.

Answer: B

SSC CGL Free Online Coaching

194. Passage is about

- B Plastic revolution.
- C The menace of plastic.
- D Air pollution.

Answer: C

195. Choose the synonym for the word 'tatty'.

- A dean

- B** smart
- C** clever
- D** shabby

Answer: D

Instructions [196 - 200]

Read the Passage and answer the questions

Presumption is our natural and original disease. The most wretched and frail of all creatures is man, and the proudest. He sees himself lodged in the dirt and filth of the world, nailed and riveted to the worst part of the universe, and yet in his imagination will be placing himself above the circle of the moon, and bringing heaven under his feet.

It is by the vanity of the same imagination that he equals himself to God; attributes to himself divine qualities, withdraws and separates himself from the crowd of other creatures, cuts out the shares of animals and distributes to them such portion of faculties and force as himself thinks fit.

All that seems strange to us and that we do not understand, we condemn. The same thing happened also in the judgment we make of beasts; they have several conditions like to ours; from those we may by comparison draw some conjecture: but those qualities which are particular to themselves, how know we what to make of them.

196. In this passage, 'presumption' means

- A** Misunderstanding
- B** Understanding
- C** Sumptuousness
- D** Consumption

Answer: A
