TS ICET 30th Sep 2020 Shift-2

Analytical Ability

Instructions [1 - 20]

In the following questions, a question is followed by data in the form of two statements labelled as I and II. You must decide whether the data given in the statements are sufficient to answer the questions.

1. Is x a rational number?

(I) $x = b + c$

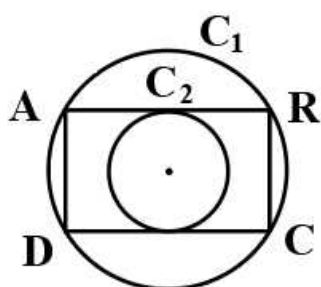

(II) b and c are irrational numbers.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

Free Banking Study Material (15,000 Solved Questions)

2. In the adjacent figure what is the area of the square ABCD?

(I) $AC = 16$ cm

(II) The areas of the circles C_1 and C_2 are in ratio of 4 : 1

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

3. $f(x)$ is a polynomial with integer coefficients. Is $(x + 2)$ a factor of $f(x)$?

(I) $f(x) = 2x^4 + bx^3 + cx^2 + dx + e$

(II) $8b - 4c + 2d - e = 32$

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

4. Find the area of the sector?

(I) Length of the arc = 1 unit.

(II) Radius of sector is six times length of arc.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

Daily Free Banking Online Tests

5. A person can purchase three articles for Rs.49. What is the price of the costliest article?

(I) The cost price of two articles each is Rs. 1 less than the cost price of the costliest article.

(II) The cost price of costliest article is 6.25% more than the cost price of the cheapest article.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

6. Is the polygon ABCD a trapezium?

(I) It has a pair of parallel sides.

(II) Two of its sides are equal in length.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

7. What is the median of the frequency distribution?

(I) Its arithmetic mean is 57.

(II) Its mode is 55.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CHSL Previous Question papers (download pdf)

8. What is the positive integral value of x ?

(I) $39 < 7x + 3 < 46$

(II) $25 < x^2 < 49$

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

9. What is the LCM of two numbers a and b ?

(I) The GCD of a and b is 3.

(II) a is even and b is odd.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

10. What is the digit in the Ten's place of the number n ?

(I) $n > 100$

(II) n gives remainder 69 then divided by 100.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

SSC CHSL Free Mock Test

11. If A is a square matrix, what is $\det A$?

(I) $\det 5A = 45$

(II) $\det 10A = 360$

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

12. How old is Rakesh now?

(I) Seven years ago. Rakesh was older than Suresh by eight years.

(II) Presently Rakesh is thrice as old as Suresh.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

13. Find the cost of two benches and three chairs?

(I) The cost of 5 benches, 10 chairs is Rs. 17500.

(II) The cost of benches, 11 chairs is Rs. 27500.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

SSC CGL Free Mock Test

14. Find the value of $\frac{x^3+y^3}{x+y}$

(I) $x = \frac{4}{y}$

(II) $x^2 + y^2 = 12$

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

15. Find the volume of the cone C

(I) Height of C > radius of C

(II) Volume of the cylinder, whose radius and height are same as C, is 300 cm^3 .

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

16. What is the number of elements in the set A?

(I) Number of elements in $A \cup B$ is 35.

(II) Number of elements in $B - A$ is 7

(Here B is also a set)

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

Daily Free SSC Practice Set

17. What is the value of $\cos^4 \theta + \sec^4 \theta$?

(I) $\sin^2 \theta + \cos^2 \theta = 1$

(II) $\cos \theta + \sec \theta = 2$

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

18. What is cost price of the article?

(I) It is sold for Rs.X at a loss of 20%.

(II) If it is sold for Rs.(X + 50) the profit would have been 10%.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

19. If a set X has 22 elements and A is a subset of X, then what is the number of subsets of X that are disjoint from A?

(I) Set A has less than 10 elements.

(II) The largest subset of X disjoint from A has 14 elements.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

20. What is the value of y ?

(I) $x = 2y + z$.

(II) $x = (y - 1)^3$ and $x = 8$.

- A if the statement I alone is sufficient to answer the question.
- B if the statement II alone is sufficient to answer the question.
- C if both the statements I and II are sufficient to answer the question but neither statement alone is sufficient
- D if both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

21. CAR : 040219 :: LOT :: _____

- A 131621
- B 131520
- C 131620
- D 121621

Answer: A

22. BMS : ZKQ :: _____ : AXV

- A CZA
- B DAB
- C CYD
- D BAD

Answer: A

Free SSC Study Material (18,000 Solved Questions)

23. c, _____, h, _____, t

- A f, n
- B e, m
- C d, m
- D e, n

Answer: B

24. Foot : Inch :: Year : _____

- A Decade

- B** Day
C Week
D Month

Answer: D

25. $(6, 7) : 21 :: (8, 9) : \underline{\hspace{2cm}}$

- A** 27
B 36
C 45
D 38

Answer: B

26. GASKET : JISFER :: PERSON :

- A** RUMNIQ
B RSMOIQ
C NUQTOP
D RUPPIS

Answer: A

27. PRINT : 86 :: NOVEL :

- A** 78
B 83
C 85
D 88

Answer: D

28. : pon :: DCB : hgf

- A** l k j
B L K J
C l K J
D L K j

Answer: B

29. CAM : USE :: SAT : _____

- A KTM
- B JRM
- C KSL
- D LTR

Answer: C

30. A2101U : B2002T :: C1703Q : R _____ S

- A 1917
- B 1918
- C 1916
- D 1919

Answer: B

Instructions [31 - 35]

In the following questions pick the odd thing out.

- A $x^3 - 3x^2 + 3x - 1 = 0$
- B $x^3 - 3x^2 + 3x + 3 = 0$
- C $x^3 - 6x^2 + 12x - 8 = 0$
- D $x^3 - 6x^2 + 12x + 8 = 0$

Answer: B

Free Banking Study Material (15000 Solved Questions)

- A $\frac{15}{19}$
- B $\frac{14}{19}$
- C $\frac{11}{19}$
- D $\frac{9}{19}$

Answer: C

- A 3223
- B 3443
- C 3663
- D 3883

Answer: C

- A** Flute
- B** Violin
- C** Veena
- D** Mandolin

Answer: A

AP SI Free Solved Previous Papers PDF

- A** Fish
- B** Frog
- C** Turtle
- D** Alligator

Answer: A

Instructions [31 - 40]

Each of the questions follows a definite pattern, observe the same and fill in the blanks with suitable ones.

31. 9, 28, 126, 344, _____

- A** 578
- B** 742
- C** 916
- D** 1332

Answer: D

32. $\frac{8}{3}, \frac{25}{12}, \frac{5}{9}, \underline{\hspace{1cm}}, \frac{32}{21}, \frac{81}{56}$

39. aeui, _____, iaueo, euia

- A uiaae
- B uieae
- C uiaae
- D uieia

Answer: A

40. 0, 6, 24, 60, _____, 210

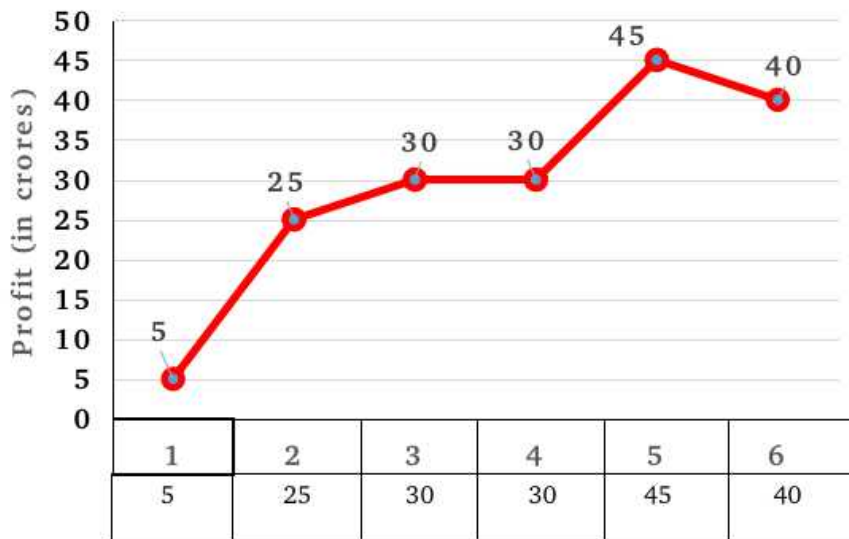

- A 84
- B 96
- C 120
- D 180

Answer: C

Instructions [41 - 43]

The following graph depicts the profits earned by a company through export, in the past six years. Based on this data, answer the questions 46, 47 and 48.

Profit earned by a company

41. The approximate yearly average of the profits through exports (in crores of rupees) is

- A 29
- B 32
- C 33
- D 34

Answer: A

SSC CHSL Free Mock Test

42. In which year (2^{nd} year to 6^{th} year) the increase in the profits was maximum when compared to that of previous year?

- A 5^{th} year
- B 4^{th} year
- C 3^{th} year
- D 2^{th} year

Answer: D

43. When compared to the first 3 years what is the increase percentage in the profits to the last three years?

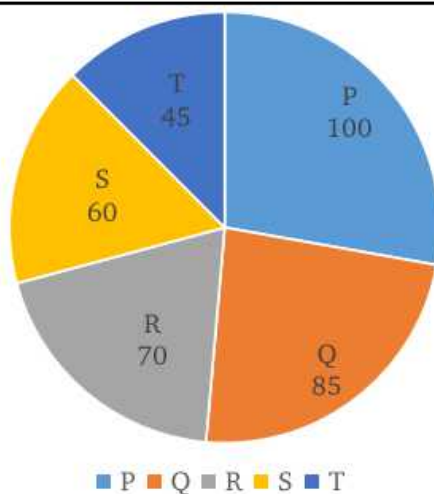

- A $89\frac{1}{6}$
- B $90\frac{1}{3}$
- C $91\frac{1}{3}$
- D $92\frac{1}{6}$

Answer: C

Instructions [44 - 48]

The following Pie-chart shows the budget allocation of a company under different heads P, Q, R, S, T in one financial year. Based on the information given, answer the questions from 49-53.

Budget allocation of a company under different heads

P	100°
Q	85°
R	70°
S	60°
T	45°

44. The amount allocated to Q, is what percent of total budget?

- A $22\frac{7}{18}$
- B $23\frac{11}{18}$
- C $22\frac{13}{18}$
- D $23\frac{7}{18}$

Answer: B

SSC CGL Free Mock Test

45. If the amount allocated to the head 'S' is Rs. 18 lakhs, in an year, then the amount allocated to the head 'P' in that year (in rupees of lakhs) is

- A 20
- B 24
- C 30
- D 32

Answer: C

46. The amount allocated to the head 'R' is Rs. $24\frac{1}{2}$ lakhs in a year, then the total budget in that year (in crores) is

- A 1.08
- B 1.12
- C 1.20
- D 1.26

Answer: D

47. If the total budget in an year is Rs. 2.7 crores then the difference between the allocations of heads S and T (in lakhs) is

- A 12.5
- B 12.25
- C 11.5
- D 11.25

Answer: D

Daily Free SSC Practice Set

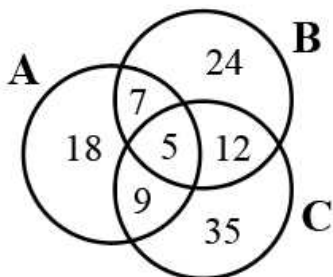

48. The total amount allocated to heads 'P' and 'S', put together is what percent of the total amount allocated to the remaining heads ?

- A 75
- B 78
- C 80
- D 90

Answer: C

Instructions [49 - 50]

Consider the following wenn diagram representing three sets A, B, C. Based on the information given, answer the questions 54 and 55

A- Students of a school play Football.

B- Students of the same school play Basket ball.

C- Students of the same school that play Cricket.

49. The number of students who play Cricket and. Football but not Basket ball is

- A 7
- B 9
- C 5
- D 12

Answer: B

50. The number of students who play either Football or Basket ball is

- A 63

- B** 70
- C** 68
- D** 75

Answer: D

SSC CGL Free Online Coaching

Instructions [51 - 55]

English alphabets (26) are arranged along a circle. Then each vowel is coded to its next second vowel in clockwise direction while each consonant is coded to its next constant in clockwise direction. For decoding the inverse process can be followed. Using this coding procedure answer the questions.

51. **Code word for LARGE is**

- A** MISHU
- B** MISHO
- C** MISHA
- D** MISHE

Answer: B

52. **Code word for SMALL is**

- A** TNAOO
- B** TMIOO
- C** TNINN
- D** TNIMM

Answer: D

53. **Which word is coded as CITO?**

- A** BATE
- B** BOSE
- C** BASE
- D** BESA

Answer: C

Free SSC Study Material (18,000 Solved Questions)

54. **Code word for QUARANTINE is**

- A** REISIPVUPO
- B** REISIOVUPO

C REISIUVOPO

D REISIRVUPO

Answer: A

55. Code word for CORONA VIRUS is

A DASAPI WUSET

B DASAPI WUSIT

C DASAPI WVUSIV

D DASAPI WUSIW

Answer: A

56. In a certain code. CALIFORNLA is coded as GWPEJKVJMW code word for ANDRA is

A EHVJDW

B EJDHVV

C EJHVDW

D AHJVDW

Answer: C

SSC CGL Previous Papers (DOWNLOAD PDF)

57. If 18907 is coded as BIJAH then the code for 25836 is

A FJKLM

B CFIDG

C DCGHI

D EHJVDW

Answer: B

58. If TRIGONOMETRY is coded as UTLKTTVUNDCK, then TRIANGLE will be coded as

A UTLSESMN

B UTLESSMN

C UTLSEMSM

D UTLESMSM

Answer: D

59. If BLACK is coded as 515262416, then RED is coded as

A 092223

B 082122

C 072021

D 092122

Answer: A

1500+ Very Important Free SSC Solved Questions

60. If HIGH is coded as 08090708, the 'DARE' is coded as

A 04011805

B 04011705

C 04011605

D 04011505

Answer: A

61. In a certain leap year the first day of the year was Sunday. On what day was the 2nd of March in that year?

A Thursday

B Friday

C Saturday

D Sunday

Answer: B

62. The angle between minutes hand and hours hand in wall dock (in radians) at 9.56 am is

A $\frac{19\pi}{90}$

B $\frac{\pi}{5}$

C $\frac{\pi}{4}$

D $\frac{17\pi}{90}$

Answer: A

Free Banking Study Material (15000 Solved Questions)

63. A clock gains time uniformly. It was observed to be 2 minutes slow at 12.00 pm on Monday and was 4 minutes 48 seconds fast at 2.00 pm on the next Monday. When did the watch show the correct time?

A Friday

B Thursday

C Wednesday

D Tuesday

Answer: C

64. A is B's sister, C is B's mother, D is C's father and E is D's mother then how is A related to D?

A Grand father

B Grand mother

C Daughter

D Grand daughter

Answer: D

65. Mr.A left home for the bus stop 25 minutes earlier than usual. It takes 15 minutes for A to reach the bus stop . A reaches bus stop at 8.30 am. What time does A usually leave house for the bus stop?

A 9.00 am

B 8.50 am

C 8.40 am

D 8.35 am

Answer: C

AP SI Free Solved Previous Papers PDF

66. Mr A came 34 minutes before the time at which a board meeting is scheduled. Mr B arrives to the meeting 25 minutes later than Mr.C who arrived 7 minutes before the scheduled time of that board meeting. If B arrived at 11.03 am, then the time of arrival of Mr.A is

A 10.11 am

B 10.45 am

C 10.38 am

D 11.03 am

Answer: A

67. A church bell rings at regular intervals of 50 minutes. It rang at 7.00 am after that there was a technical problem with the bell and it was rectified at 8.45 am. When will the bell ring between 10 am and 11 am?

A 10.20 am

B 10.30 am

C 10.50 am

D 10.40 am

Answer: A

68. For $\frac{a}{b} < 1$, define $a * b = \frac{a}{b} + \frac{a^3}{b^3} + \frac{a^5}{b^5} + \dots$ then $4 * 6 =$

A $\frac{1}{2}$

B $\frac{2}{3}$

C 1

D $\frac{6}{5}$

Answer: D

Free Banking Study Material (15,000 Solved Questions)

69. If $x \triangle y = |x|y + x|y| - (x+y)$ for $x, y \in \mathbb{R}$, then $\frac{-3}{2} \triangle \frac{1}{2} =$

A 1

B $-\frac{1}{2}$

C $\frac{1}{2}$

D $\frac{1}{4}$

Answer: A

70. If α, β, γ and δ denote the arithmetical operations $+, -, \times$ and $\div$ respectively then $[(10\gamma 4)\alpha(4\gamma 4)\beta 6]\delta(50) =$

A 4

B 3

C 2

D 1

Answer: D

Daily Free Banking Online Tests

Mathematical Ability

71. $\left\{3 - \left\{1 - (1 - x^2)^{-1}\right\}^{-1}\right\}^{-\frac{1}{2}}$

A 1

B x

C $1/x$

D $\sqrt{x}$

Answer: E

72. If $\frac{(2^{n+1})^m (2^{2n}) (2^n)}{(2^{m+1})^n (2^{2m})} = 1$, then $m =$

- A $\frac{n}{2}$
- B n
- C $2n$
- D n^2

Answer: C

73. If $a : b = 3 : 7$ and $b : c = 5 : 4$, then $2a : 3b : 4c =$

- A $6 : 12 : 21$
- B $15 : 35 : 28$
- C $30 : 105 : 112$
- D $30 : 70 : 81$

Answer: C

74. Four men can do as much work as eight women, and three women can do as much work as four children. If twenty-four women finish a work in 52 days, in how many days, will the same work be finished by 8 men, 4 women and 8 children?

- A 48
- B 38
- C 50
- D 40

Answer: A

SSC CHSL Free Mock Test

75. $\sqrt{\frac{2}{10+2\sqrt{21}}} - \sqrt{\frac{1}{12-2\sqrt{35}}} + \sqrt{\frac{1}{8-2\sqrt{15}}}$

- A $\sqrt{7}$
- B $\sqrt{5}$
- C $\sqrt{3}$
- D 0

Answer: D

76. If $x = 17 + 12\sqrt{2}$ then $x^2 + \frac{1}{x^2}$

- A $289 + 24\sqrt{2}$
- B 287

C $34 + 24\sqrt{2}$

D 1154

Answer: D

77. The number of divisors of 2160 which is of the form $3k$, where k is a positive integer is

A 10

B 20

C 30

D 40

Answer: C

SSC CGL Free Mock Test

78. The remainder when $5! + 6! + 7! + \dots + 100!$ is divided by 35 is _____

A 0

B 1

C 2

D 3

Answer: A

79. The LCM and GCD of two numbers are 4641 and 21 respectively. If one is greater than 300, then find the other number.

A 273

B 283

C 293

D 299

Answer: A

80. If the GCD of two positive integers, m, n is 5, then the GCD of $201m$ and $2697n$ is

A 5

B 10

C 15

D 20

Answer: C

Daily Free SSC Practice Set

81. $5 + \frac{1\frac{1}{6} + \frac{1}{8} + \frac{1}{10}}{6} =$

A $5\frac{18}{496}$

B $5\frac{81}{496}$

C $5\frac{118}{496}$

D $5\frac{169}{496}$

Answer: B

82. $(11 \div 2\frac{1}{5}) \div \frac{11}{5}$ of $\div 5\frac{1}{2} - 3\frac{1}{2} =$

A $\frac{3}{11}$

B 5

C $\frac{9}{2}$

D 9

Answer: D

83. The ascending order of the following fractions

$a = \frac{1}{2}; b = \frac{2}{9}; c = \frac{7}{13}; d = \frac{13}{18}$ is

A a, b, c, d

B b, a, c, d

C d, c, b, a

D c, d, a, b

Answer: B

SSC CGL Free Online Coaching

84. If $a \leq b \leq c \leq d \leq e \leq a$ and $e = 39$. then possible value of c is

A 29

B 39

C 49

D 59

Answer: B

85. In a mixture of 450 kg of two food grains A and B, A is 15%. How much quantity of B (in kg) is to be added to this mixture so that A will be 5% in the resulting quantity?

A 540

- B** 600
- C** 860
- D** 900

Answer: D

86. If 25% of 640 is 11 less than $x\%$ of 15, then $x =$

- A** 57
- B** 114
- C** 1140
- D** 570

Answer: C

Free SSC Study Material (18,000 Solved Questions)

87. If the cost price of 20 articles is equal to the sale price of 16 articles, then the profit percentage is

- A** 25
- B** $27\frac{1}{2}$
- C** 30
- D** $32\frac{2}{3}$

Answer: A

88. The marked price of article A is Rs.1200 more than its cost price. When a discount of Rs.300 is allowed, a profit of 20% is earned. To earn a profit of 25%, the price at which the article A should be sold is (in Rupees).

- A** 5120
- B** 5400
- C** 5625
- D** 6200

Answer: C

89. A, B, C started a partnership business where A invests 3 times as much as B and B invests $\frac{2}{3}$ of what C invests. The ratio of their profits at the end of the year is

- A** 2 : 3 : 6
- B** 3 : 2 : 4
- C** 6 : 2 : 3
- D** 6 : 1 : 2

Answer: C

SSC CGL Previous Papers (DOWNLOAD PDF)

90. In a partnership business with A, B, C as partners the capital of A is $\frac{3}{4}$ of the capital of B + C and capital of B is $\frac{1}{3}$ of the capital of C + A. The ratio of the annual share of their profits is

- A 5 : 8 : 11
- B 7 : 10 : 11
- C 11 : 9 : 8
- D 12 : 7 : 9

Answer: D

91. A tank has two taps A and B. The taps A and B can empty a full tank in 6 hours and 8 hours respectively. Both are opened at same instant and after 2 hours. B is closed. Total time taken to fill the empty tank (in hours) is

- A $2\frac{1}{2}$
- B 3
- C $3\frac{1}{2}$
- D $4\frac{1}{2}$

Answer: D

92. A pipe can fill a tank in 16 minutes and a second one fill it in 24 minutes. A third pipe can empty that full tank in 8 minutes. The first two pipes are kept open for 4 minutes in the beginning and then the third pipe is opened. Then the time in which the tank will be emptied after all the three pipe started working simultaneously (in minutes)?

- A 20
- B 24
- C 28
- D 32

Answer: A

1500+ Very Important Free SSC Solved Questions

93. Initially Mandeep is at place X and Sandeep is at place Y and these two places are separated by a distance of 825kms. Mandeep started his journey at 35 kmph for 3 hours earlier than Sandeep to meet each other. If the speed of Sandeep is 45 kmph and they met at place Z between X and Y; the distance between Y and Z (in kms) is

- A 505
- B 460
- C 435
- D 405

Answer: D

94. A person walking at a speed of 10 kmph stops and rests for 2 minutes after every kilometer. How much time will he take to cover 6 kms?

- A 55 minutes
- B 50 minutes
- C 46 minutes
- D 35 minutes

Answer: C

95. 35 persons can plant 1500 trees in 7 hours. In how many hours 45 persons can plant 2500 trees?

- A 15
- B 12
- C 8
- D 10

Answer: A

Free Banking Study Material (15000 Solved Questions)

96. Two persons A and B undertook to do a piece of work for Rs.6534. A alone can do it in 12 days and B alone can do it in 18 days. If they finished that with the help of C in 6 days, then the share of C in that work is (in rupees)

- A 1484
- B 1268
- C 1089
- D 936

Answer: C

97. The area of a rhombus if its perimeter is 40 cm and one of its diagonals is 16 cm (in sq.cm) is

- A 84
- B 90
- C 92
- D 96

Answer: D

98. Around a circular field of radius 5 meters, there is a path of 2 meter wide. Then the area of the path (in sq. m) is

- A 12π
- B 15π
- C 18π

D 24π

Answer: D

AP SI Free Solved Previous Papers PDF

99. Two metallic right circular cones with same base with the radius 2.1 cm, and height 4.1 cm and 4.3 cm have been melted and recast into a sphere. The surface area (in sq.cm) of that sphere is

A 49.82

B 51.64

C 55.44

D 56.84

Answer: C

100. The ratio of the curved surface area and the total surface area of a right circular cylinder is 1 : 2. If its total surface area is 616 sq.cm, then the volume (in cm^3) of that cylinder is

A 1240

B 1078

C 1028

D 976

Answer: B

101. If four circular plates of radius 5 cm are placed such that each plate touches two other. Then the area of the hallow space between them, in cm^2 , is (take $\pi = \frac{22}{7}$)

A 2143

B 7857

C 3928

D 6072

Answer: A

Free Banking Study Material (15,000 Solved Questions)

102. A window is in the shape of a rectangle and mounted by a semi circle. If the length of the rectangle is 150 cm and the breadth of the rectangle on which the semi circular pats stands is 70 cm. Then the area of the window, in sq.cm, is (take $\pi = \frac{22}{7}$)

A 10.500

B 14.350

C 12.425

D 18.200

Answer: C

103. A cylindrical vessel of radius 10 cm contains water up to a depth of 25 cm. A spherical iron ball is dropped into the vessel and the level of water is raised by 45 cm. The radius of the iron ball (in cms) is

- A 12
- B 15
- C 16
- D 18

Answer: B

104. $(102)_3 + (103)_4 =$

- A $(11100)_2$
- B $(11110)_2$
- C $(10110)_2$
- D $(11001)_2$

Answer: B

Daily Free Banking Online Tests

105. Let $m \in \mathbb{Z}^+$ be such that $m \equiv 29 \pmod{72}$. If $m \equiv r \pmod{12}$ and $0 \leq r \leq 12$, then $\frac{r!}{12} =$

- A 5
- B $\frac{1}{2}$
- C 10
- D $\frac{5}{12}$

Answer: C

106. Which one of the following implications is false?

- A if $3 + 2 = 5$ then $1 \times 0 = 0$
- B if $3 \times 6 = 20$ then $2 \div 7 = 9$
- C if $5 \times 7 = 30$ then $2 \div 1 = 2$
- D if $6 \times 7 = 42$ then $6 \div 2 = 4$

Answer: D

107. The inverse of the statement $(p \wedge q) \rightarrow (q \rightarrow r)$

- A $p \wedge (q \rightarrow r)$
- B $r \wedge (p \rightarrow q)$

C $q \wedge (r \rightarrow p)$

D $r \wedge (q \rightarrow p)$

Answer: C

108. Let N denote the set of natural numbers. Define

$$A = \{x \mid x = 4n, n \in N\} \text{ and } B = \{x \mid x = 6n, n \in N\} \text{ then } A \cap B =$$

A $\{x \mid x = 24n, n \in N\}$

B $\{x \mid x = 12n, n \in N\}$

C $\{x \mid x = 2n, n \in N\}$

D The empty set

Answer: B

109. If $A = \{p, q, r, s\}$ then a relation on A , which is not transitive among the following?

A $\theta_1 = \{(p, q), (q, s), (p, s)\}$

B $\theta_2 = \{(p, p), (q, q), (r, r)\}$

C $\theta_3 = \{(p, q), (q, p), (p, p)\}$

D $\theta_4 = \{(p, q), (r, s)\}$

Answer: C

110. If a set A has 6 elements, then the number of reflexive relations on A that are not symmetric is

A $2^{36} - 2^6$

B $2^{30} - 2^{15}$

C $2^{30} - 2^{21}$

D 2^{21}

Answer: B

SSC CHSL Free Mock Test

111. The equation of a line passing through the points (2, 5) and (4, 7) is

A $2x - 3y - 7 = 0$

B $3x + 2y + 7 = 0$

C $x - y + 3 = 0$

D $x + y + 3 = 0$

Answer: C

112. An equation of a line passing through (4, 3) and marking intercepts on coordinate axes whose sum is equal to -1 is

- A $x - y - 1 = 0$
- B $x + 3y - 13 = 0$
- C $2x - y - 5 = 0$
- D $x - 2y + 2 = 0$

Answer: D

113. $\sec \theta + \tan \theta =$

- A $\cos \theta + \sin \theta$
- B $\frac{1}{\sec \theta - \tan \theta}$
- C $\frac{1}{\sec \theta + \tan \theta}$
- D $\cos \theta - \sin \theta$

Answer: B

SSC CGL Free Mock Test

114. $\sin 12^\circ \sin 24^\circ \sin 48^\circ \sin 84^\circ =$

- A $\frac{1}{16}$
- B $\frac{2}{15}$
- C $\frac{3}{15}$
- D $\frac{5}{16}$

Answer: A

115. If $A + C = B$, then $\tan A \cdot \tan B \cdot \tan C =$

- A $\tan A - \tan B - \tan C$
- B $\tan B - \tan C - \tan A$
- C $\tan C - \tan A - \tan B$
- D $\tan A + \tan B + \tan C$

Answer: B

116. A straight high way leads to the foot of a tower. Anil standing at the top of the tower observes a car at an angle of depression 30° . Six seconds later, the angle of depression of the car is found to be 60° . If the car is approaching the foot of tower with a uniform speed, the time taken by the car to reach the foot of that tower from this, the later point (in seconds) is

- A 2
- B 3
- C $3\frac{1}{2}$
- D 4

Answer: B

Daily Free SSC Practice Set

117. If $a + b + c = 15$ and $a^2 + b^2 + c^2 = 77$ then $ab + bc + ca =$

- A 85
- B 81
- C 72
- D 74

Answer: D

118. If $x^4 + 6x^3 + ax^2 + 12x + b$ is a perfect square, then $3a - 2b =$

- A 47
- B 19
- C 31
- D 28

Answer: D

119. If the remainder when a certain integer x is divided by 5 is 2, then each one of the following could also be an integer, except

- A $\frac{x}{11}$
- B $\frac{x}{10}$
- C $\frac{x}{6}$
- D $\frac{x}{3}$

Answer: B

SSC CGL Free Online Coaching

120. The remainder if $73 \times 74 \times 5 \times 76$ is divided by 14 is

- A 13
- B 12

C 10

D 9

Answer: C

121. If $x+y + \frac{3}{x-y} = 2$, $x+y - \frac{1}{x-y} = \frac{1}{2}$, then $(x, y) =$

A $(-5, -3)$

B $(-3, -5)$

C $(3, 5)$

D $(5, 3)$

Answer: D

122. If the difference of $\frac{7}{12}$ th of a positive integer and $\frac{8}{15}$ of the same positive integer is 6, then the number of distinct primes that divide that positive integer is

A 1

B 2

C 3

D 4

Answer: C

Free SSC Study Material (18,000 Solved Questions)

123. The sum of the infinite G.P. is

$5, \frac{20}{7}, \frac{80}{49}, \frac{320}{343}, \dots$

A $\frac{25}{3}$

B $\frac{35}{3}$

C $\frac{100}{7}$

D $\frac{113}{7}$

Answer: B

124. The sum to infinite terms of a G.P. is 15 and the sum of their squares is 150. If r is the common ratio of the G.P., then $100r^2 =$

A 4

B 8

C 12

D 6

Answer: A

125. The numerically greatest term in the expansion of $(2x - 3y)^{12}$,
when $x = 1, y = \frac{5}{3}$ is

- A 8
- B 9
- C 11
- D 10

Answer: C

126. The term independent of x in the expansion of is $(3x^3 - \frac{1}{2x^4})^7$

- A No term is independent of x
- B 5^{th} term
- C 4^{th} term
- D 3^{th} term

Answer: C

127. A square matrix A is called an orthogonal matrix if A satisfies

- A $A^T = A$
- B $A^T = -A$
- C $A^T = A^{-1}$
- D $A^T = A^2$

Answer: C

128. A is a 3×3 matrix and B is its adjoint matrix. If the determinant of B is 64, then the determinant of A is

- A 4
- B ± 4
- C 8
- D ± 8

Answer: D

1500+ Very Important Free SSC Solved Questions

129. $\lim_{x \rightarrow \infty} (\sqrt{x^2 + x + 1} - \sqrt{x^2 + 1}) =$

- A ∞
- B -1
- C $\frac{1}{2}$
- D 1

Answer: C

130. If $3x^2 + 2xy + y^2 = 6$, then $\frac{dy}{dx}$ at $(-1, 2)$ is

- A 0
- B $\frac{1}{2}$
- C 1
- D $\frac{3}{2}$

Answer: C

131. A right angled triangle is to be constructed such that the sum of lengths of perpendicular sides can't be greater than 24cm and the area is to be maximum. Then the length of hypotenuse (in cm) is

- A 36
- B 18
- C $18\sqrt{2}$
- D $12\sqrt{2}$

Answer: D

Free Banking Study Material (15000 Solved Questions)

132. The diagonals of a trapezium PQRS intersect at the point A. If the ratio PA : PR is 3 : 7, then the ratio of lengths of its parallel sides is

- A 3 : 7
- B 4 : 7
- C 3 : 4
- D 2 : 7

Answer: C

133. Two circles have radii 13cm and 29cm, and the distance between their centres is 15 cm, then the number of common tangents that can be drawn to the two circles is

- A 0
- B 1

C 2

D 4

Answer: A

134. If the points A(3, 2) ; B(-3, 2) and C(0, h) form the vertices of an equilateral triangle, then one value of h is

A $3 - 2\sqrt{3}$

B $2 - 3\sqrt{3}$

C $3\sqrt{3}$

D $2\sqrt{3}$

Answer: B

AP SI Free Solved Previous Papers PDF

135. The distance of point (a, b) to the line $\alpha x + \beta y + \gamma = 0$ is

A $\left| \frac{a+b}{\sqrt{\alpha^2+\beta^2}} \right|$

B $\left| \frac{\alpha+\beta}{\sqrt{a^2+b^2}} \right|$

C $\left| \frac{a\alpha+b\beta+\gamma}{\sqrt{\alpha^2+\beta^2}} \right|$

D $\left| \frac{a\alpha+b\beta+\gamma}{\sqrt{a^2+b^2}} \right|$

Answer: C

136. The mean of the following frequency distribution is

Class	0-4	4-8	8-12	12-16	16-20
Frequency	4	6	7	2	1

A 6

B 8

C 10

D 12

Answer: B

137. Which one of the following is NOT true?

A Mode is not affected by change of origin and scale.

- B** Mean is affected by change of origin and scale.
- C** Median is affected by change of origin and scale.
- D** Standard deviation is not affected by change of origin and scale.

Answer: A

Free Banking Study Material (15,000 Solved Questions)

138. If the mean and Mode of a data are 9 and 100 respectively, then the Median is

- A** 97
- B** 98
- C** 99
- D** 101

Answer: B

139. The variance of 1471, 149, 151, 153, ..., 183 is

- A** 120
- B** 90
- C** 60
- D** 30

Answer: A

140. The standard deviation of three consecutive integers is

- A** $\sqrt{3}$
- B** $\sqrt{\frac{3}{2}}$
- C** $\sqrt{\frac{2}{3}}$
- D** $\sqrt{2}$

Answer: C

Daily Free Banking Online Tests

141. The rank correlation for the following data is

X	2	4	5	6	8	11
Y	18	12	10	8	7	5

- A -1
- B 0.96
- C 0.93
- D 1

Answer: A

142. If A and B are events with $P(A) = 0.5$, $P(B) = 0.4$ and $P(A \cap B) = 0.3$, then the probability that neither A nor B occurs is

- A 0.4
- B 0.6
- C 0.5
- D 0.3

Answer: A

143. A problem in statistics is given to three students A, B and C whose chances of solving it independently are $\frac{1}{2}$, $\frac{1}{3}$ and $\frac{1}{4}$ respectively. The probability that exactly one of them is able to solve that problem is

- A $\frac{11}{24}$
- B $\frac{9}{24}$
- C $\frac{7}{24}$
- D $\frac{1}{4}$

Answer: A

SSC CHSL Previous Question papers (download pdf)

144. In a simultaneous throw of two dice, the probability of getting a total of 10 or 11 is

- A $\frac{1}{4}$
- B $\frac{5}{36}$
- C $\frac{7}{12}$
- D $\frac{1}{36}$

Answer: B

145. If the letters of the word MINISTER are permuted at random, then the probability that all three vowels come together is

- A $\frac{3}{56}$
- B $\frac{3}{28}$

C $\frac{3}{14}$

D $\frac{3}{7}$

Answer: B

- A Talked out of
- B Talked over
- C Talked back
- D Talked down

Answer: B

Instructions [181 - 185]

Patriotism is a very complex feeling, built up out of primitive instinct and highly intellectual convictions. There is love of home, family and friends, making us peculiarly anxious to preserve our own country from invasion. There is the mild instinctive liking for compatriots as against foreigners. There is pride, which is bound up with the success of community to which we feel that we belong. There is a belief, suggested by pride but reinforced by history that one's own nation represents a great tradition and stands for ideals that are important for human race. But besides all these, there is another element, at once nobler and more open to attack, an element of worship of willing sacrifice, of joyful merging of the individual life with the life of the nation. This religious element in patriotism is essential to the strength of the State since it enlists the best that is in most men on the side of national sacrifice.

181. We try to protect our country because?

- A** We love our home, family and friends
- B** We love outsider
- C** We love outsiders as much as, we love ourselves
- D** We think outsiders as our own

Answer: A

182. The word 'compatriot' means

- A** Fellow countrymen
- B** Fellow human beings
- C** Fellow villagers
- D** Fellow townsmen

Answer: A

SSC CGL Free Mock Test

183. Which of the following statement about patriotism is false according to the passage?

- A** It is a noble belief

Instructions [186 - 190]

A Study found that music therapy sessions have a positive effect on the neurorehabilitation of acute stroke patients. The research was carried out on a 26-bed stroke and rehabilitation unit at a hospital in the UK. In total, 177 patients took part in 675 Neurologic Music Therapy (NMT) sessions over a two-year period. According to the researchers, music therapy is understood to help stroke patients through mood regulation, improved concentration and promoting changes in the brain to improve function, known as neural reorganisation. Lots of repetition or "massed practice", is central to neurorehabilitation. In addition to playing physical instruments (keyboard, drum and hand-held percussion), touch screen instruments were used in the trial to help patients with hand rehabilitation, through improving finger dexterity, and cognitive training.

NMT sessions were run along side existing stroke rehabilitation treatment including physiotherapy, occupational therapy, speech therapy, and clinical psychology. Of the 139 patients, relatives and hospital staff who completed mood-scale questionnaires, the average response was that NMT was helpful or very helpful. And of the 52 patients who completed mood-scale questionnaire, there was a reduction in sadness and an increase in happy responses immediately following a session. Speech and language therapists observed a positive impact on patient engagement and reported that it may help patients overcome low mood and fatigue - both common following stroke - and therefore be beneficial for their rehabilitation.

"The fact 675 sessions were carried out in two years is in itself an indication of the success of the treatment. It shows that staff are referring patients because they understand the mechanisms of the exercise and can see how it can benefit their patients. It also shows that patients are willing to do the exercises, with each one participating in an average of five sessions", a researcher said.

186. What was the duration of the research experiment?

- A 26 weeks
- B One year and eight months
- C Two years
- D Five years

Answer: C

187. How many sessions of the therapy were carried out?

- A 57
- B 675
- C 177
- D 139

Answer: B

188. What is central to the rehabilitation process?

- A Repetition
- B Mood swings
- C Happy responses
- D Finger dexterity

Answer: A

189. How many patients respond to the mood-scale questionnaires?

- A** 177
- B** 26
- C** 139
- D** 52

Answer: D

190. Which fact is not mentioned as evidence of the success of the research?

- A** More patients were being referred
- B** More patients were willing to do the exercises
- C** Each patient did the exercises without fatigue
- D** Each patient took part in an average of 5 sessions

Answer: C

Instructions [191 - 195]

Thailand brings to mind turquoise blue waters, highest landscapes, and thriving wildlife. My journey began at Don Muong airport as I took the flight to Phuket.

The first day had me travelling to Big Buddha, one of the revered landmarks on the island. It sits atop a hill and is a 45-meter-tall white marble statue of Buddha. Driving up hill I came across an elephant safari and opted not to do the ride for ethical reasons but you could go feed the elephants, play with them and that truly was out of the world. The elephants were tamed and did the sweetest actions like kissing the tourist, asking for food and so on. I would like to believe that they did it of their own accord. The elephant I met was called Anda and he was a baby, terribly cute and his mannerisms were unlike any animal I have seen. The route is dotted with many cafes that have a spectacular view of the ocean and a nice mocktail coupled with the cold breeze and the sounds of waves was a beautiful way to spend the afternoon.

Phuket was all about exploring beaches and the best part is that it is so close to the many other islands that are just a boat trip away. I decided to go on an island-hopping adventure and took a speed boat to the first island, Panak. In one of the many islands on Phang Nga Bay the resort owner told me that the experience would be like no other.

The island had limestone formations and looked absolutely stunning. We had to take a look at the island from the boat. As the boat went close to the rocks, I observed something moving in the water, it jumped back on to the rock. It was a monkey. The island had monkeys all around that very simply jumped into the water, swam and came back on the rocks. For someone who encountered monkeys in the wild as notorious little animals that mostly live on trees, this was pretty fascinating. It wasn't the monkeys but the landscape they lived in that had us, many Indians included, in awe.

191. What was the name of the first island on the island-hopping trip?

- A** Phuket
- B** Don Muong
- C** Phang Nga
- D** Panak

Answer: D
