Analytical Ability

Instructions [1 - 20]

A question is followed by data in the form of two statements labelled as I and II. You must decide whether the data given in the statements are sufficient to answer the questions.

1. Is the product of the integers x , y and z equal to 1?

I. $x + y + z = 3$

II. $x > 0, y > 0, z > 0$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

Free Banking Study Material (15000 Solved Questions)

2. What is the radius of the circle circumscribing the triangle ABC?

I. ABC is a right-angled triangle

II. The largest side of the triangle is 12 cms.

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question
- C If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

3. Is $\triangle ABC$ equilateral?

I. $AB = BC$

II. $\angle ABC = 60^\circ$

- A If the statement I alone is sufficient to answer the question
- B If the statement II alone is sufficient to answer the question

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

4. For the positive integer x is the greatest common divisor of 150 and x a prime number?

I. x is a prime number

II. $x < 4$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

Daily Free Banking Online Test

5. If x and y are integers then is z an even integer?

I. $z = (x + y)^2$

II. $z = 2x + 8y$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: B

6. What is the area of the rhombus ABCD?

I. The length of the side AB is 12 cms

II. One diagonal is of length 30 cms

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

7. Is $a + b = d$?

I. The average of a , b and c is 6

II. The average of c and d is 9

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

200+ Free GK Tests for Banking exams

8. Are the lines L_1 and L_2 parallel?

I. L_1 and L_2 make equal angle with $y = 0$

II. L_1 and L_2 lie in a plane

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: A

9. What is the digit in the units place of the integer n ?

I. n leaves remainder 17 when divided by 100

II. n is divisible by 17

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: A

10. What is the value of $\frac{1}{x+48}$?

I. $x + 96 = 0$

II. $x + 48 \neq 0$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: A

[Latest Job Updates on Telegram - Join here](#)

11. What are the coordinates of the point M?

I. M is a point on the y-axis

II. M is a point such that MP is parallel to the Sarin, where P is (3, -4)

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

12. If a, b, c, d is a geometric progression what is the value of $\frac{b}{c}$

I. The product of a and d is 24

II. The common ratio of the geometric progression is 2

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: B

13. Does the point P (x, y) lie in the first quadrant?

I. $x + y \geq 4$

II. $xy < -4$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: B

Whatsapp "JOB" to 7661025557 for Updates

14. What are the values of a and b?

I. $a : b = 7 : 3, b > 0$

II. $2a : 6 = 6 : 11, a > 0$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: D

15. How many elements are in the set $B = \{n \in \mathbb{Z} : f(n) \leq 5\}$

I. $f : \mathbb{Z} \rightarrow \mathbb{Z}$ is given by $f(n) = |2n - 1|$ for $n \in \mathbb{Z}$

II. $f : \mathbb{Z} \rightarrow \mathbb{Z}$ is into

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: A

16. Is the set E infinite?

I. E contains natural numbers

II. E is the set of prime divisors of 1234567

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: B

AP SI Free Solved Previous Papers PDF

17. Is $b > a$?

I. $x + 3$ is a factor of $x^6 - 27^b$

II. $x - 2$ is a factor of $x^2 - 4a^b$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

18. What is the value of $\sin^4 \theta + \operatorname{cosec}^4 \theta$?

I. $\sin \theta + \operatorname{cosec} \theta = 2$

II. $\sec^2 \theta = 1 + \tan^2 \theta$

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: A

19. For integers a and b is $(a^3 + b^3)^{\frac{1}{3}}$ an integer?

I. $a^3 + b^3$ is an even integer

II. $a^3 + b^3$ is equal to the volume of a box with dimensions 12 cm, 18 cm and 125 cms.

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: B

200+ Banking Previous Papers (Download PDF)

20. What is the cost price of the item?

I. It is sold for ₹ s at a loss of 10%

II. If it is sold for ₹ $(s + 50)$ the profit will be 5%

- A** If the statement I alone is sufficient to answer the question
- B** If the statement II alone is sufficient to answer the question
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required

Answer: C

Instructions [21 - 25]

The following Pie-chart gives the percentages of various items manufactured by an electronic company in a particular year. Based on this diagram, answer the questions.

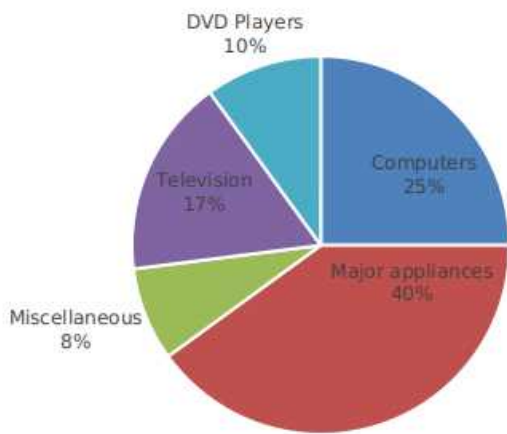

Computers : 25%

Major appliances : 40%

Miscellaneous : 8%

Televisions : 17%

DVD Players : 10%

21. If the company manufactured 3400 televisions and the manufacturing cost of a DVD player is ₹3400, then money invested (in Lakhs of Rupees) for DVD players by the company is

- A 60
- B 62
- C 64
- D 68

Answer: D

22. If the company produced 12000 computers in that year, how many televisions it has manufactured during that year.

- A 8160
- B 7260
- C 6360
- D 5460

Answer: A

SSC CHSL Previous Question papers (download pdf)

23. If 50% of the miscellaneous amount is ₹ 180 lakhs, then the total investment in that year (in crores of rupees) is

- A 35
- B 40
- C 45
- D 48

Answer: C

24. If 10% of the major appliances cost is towards manufacturing the accessories and if the total investment in that year is Rs. 32 crores, the cost of producing the accessories (in crores of rupees) is

- A 2.56
- B 1.28
- C 0.64
- D 0.32

Answer: B

25. The ratio of the number of computers produced to the number of DVDs produced in that year is

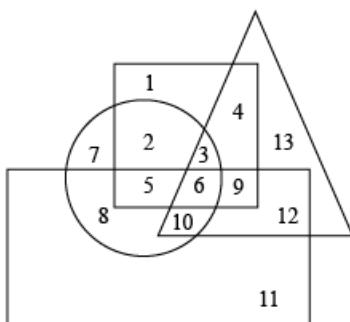

- A 25 : 17
- B 8 : 5
- C 5 : 2
- D 5 : 4

Answer: C

SSC CHSL Free Mock Test

Instructions [26 - 30]

In the diagram given below, the square represents women, the triangle represents government service employees, the circle represents educated persons and the rectangle represents persons working in private sector. Each section of the diagram is numbered. Read the diagram and answer the questions.

26. The number of the region representing educated women in government service, is

- A 2
- B 3 and 6
- C 4
- D 6 and 9

Answer: B

27. The number of the region that represents uneducated women who are in government service and in the private sector is

- A** 4
- B** 6
- C** 9
- D** 12

Answer: C

28. The region numbered 10 represents

- A** Educated women working in private sector
- B** Uneducated men in government service
- C** Educated men working in private sector
- D** Educated men working in private sector and in government service

Answer: D

SSC CGL Free Mock Test

29. Region 2 represents

- A** Educated women without job
- B** Uneducated women without job
- C** Educated men working in government service
- D** Uneducated men working in government service

Answer: A

30. The region representing the educated persons without job is

- A** 7
- B** 2
- C** 7 and 2
- D** 8 and 9

Answer: C

Instructions [31 - 35]

In a certain code the m^{th} letter of the English alphabet is coded as the n^{th} letter where n is the remainder obtained when $7m + 5$ is divided by 26, $1 \leq n \leq 26$. For example, the third letter C becomes $(7 \times 3 + 5) = 26^{\text{th}}$ letter Z in the coded language. For decoding, the reverse process is followed. Based on this information, answer the questions.

31. The code word for 'FRAME' is

- A UAMSO
- B TZKQM
- C UALRN
- D TZMSO

Answer: C

SSC CGL Free Online Coaching

32. Which word is coded as 'RNLKH'?

- A MEALS
- B TRIMS
- C MEATS
- D TRAIN

Answer: A

33. The code word for 'BUST' is

- A SUGP
- B SVHO
- C SWIQ
- D TJHO

Answer: B

34. The word that is coded as 'BLPY' is

- A GAIL
- B GAIN
- C RAIN

D GARE

Answer: B

SSC CGL PREVIOUS PAPERS (download pdf)

35. The number of letters that are invariant in this code is

A 3

B 2

C 1

D 0

Answer: D

Instructions [36 - 40]

Based upon the following coding system and the conditions (i), (ii), (iii), given below answer the questions.

Number/Symbol	7	3	&	6	%	2	#	8	4	@	1	+	5	\$
Code	S	H	P	W	L	D	K	J	X	Z	Q	T	N	F

Conditions:

(i) If the first element is a symbol and the last element is a number, then the codes for both elements are to be interchanged

(ii) If both the first and the last elements are symbols, then the last element's code is to be taken as the code for the first element.

(iii) If the group of elements contain only one symbol, then that symbol is to be coded as A.

36. What is the code word for '%82 & 47'?

A LDJPXS

B SJDXPL

C SJDPXL

D LJDPXS

Answer: C

37. What is the code word for '@4153+'

A TXQNHT

B ZQXNHZ

C TQXNHT

D ZXQNHZ

Answer: A

38. What is the code word for '45631#'?

- A ANWHQX
- B XNWHQX
- C XNWHQA
- D XNHWQA

Answer: C

39. What is the code word for '3+5641'?

- A HANWXQ
- B QANWXH
- C HANXWQ
- D HANWXW

Answer: A

40. What is the code word for '2@7\$4&'?

- A DASFXP
- B DZSFXP
- C PZSAXD
- D DZSXFP

Answer: B

SBI Clerk Free Mock Test (Latest Pattern)

41. A person facing East moves 30 meters towards East and then moves a distance of 80 meters North and later moves 30 meters towards East again. How far is he from the initial point?

- A 80 m
- B 90 m
- C 100 m

D 110 m

Answer: C

42. After 1990, which year has the same calendar as that of 1990?

A 1994

B 1995

C 1996

D 1997

Answer: C

43. Five years back the ratio of a son's age to that of his father is 2:5. The present age of the father is 50 years. Then the present age of the son (in years) is

A 18

B 21

C 23

D 25

Answer: C

SBI Clerk Previous Papers (Download PDF)

44. At 15 minutes past 5, the angle between both the hands of a clock is

A $72\frac{1}{2}^\circ$

B $67\frac{1}{2}^\circ$

C 64°

D $58\frac{1}{2}^\circ$

Answer: B

45. The denominator of a fraction is one more than twice the numerator. If one is added to both the numerator and denominator the fraction becomes

A $\frac{3}{4}$

B $\frac{2}{3}$

C $\frac{1}{2}$

D ⁴/₅

Answer: C

46. B is to the South-West of A; C is to the East of B and is also South-East of A while D is to the North of C in line with B and A. The direction of A relative to D is

A North

B East

C South-West

D North-East

Answer: C

Free Banking Study Material (15000 Solved Questions)

47. Five persons A, B, C, D and E are in a row such that
(i) B is not at any extreme end
(ii) C is in between B and E,
(iii) A is on the left of B
(iv) D is on the right of E

A C, D

B A, E

C C, E

D A, D

Answer: D

48. The town is located on the bank of a river. Another town A is to the West of P and a town is to the East of A but West of P. K is a town which is to the East of B but to the West of T and A. The town on farthest West is

A T

B P

C K

D B

Answer: D

49. 15th August of a year falls on Wednesday. Then what day is 2 October of that year?

- A** Wednesday
- B** Tuesday
- C** Monday
- D** Sunday

Answer: B

Daily Free Banking Online Test

50. If $a * b = a \left(1 + \frac{1}{b} + \frac{1}{b^2} + \dots \right)$ for $a, b \in N, b > 1$ then $2 * 3 =$

- A** 1
- B** 3
- C** 6
- D** 8

Answer: B

Instructions [51 - 65]

a sequence of numbers or letters that follow a definite pattern is given. Each question has a blank space. This has to be filled by the correct answer from the four given options to complete the sequence without breaking the pattern.

51. **PRT : OPQ :: GIK : -----**

- A** EGH

67. If $x + 2y = 19$ and $2x + y = 17$, then the value of x^{3y-4x} is

- A 7
- B 7^5
- C 2^7
- D 5

Answer: D

68. If the angles of a triangle are in the ratio 3:4:5, then the least angle is

- A 36°
- B 45°
- C 60°
- D 72°

Answer: B

69. If $16x^2 - 24xy + 9y^2 = 0$, then $x : y =$

- A 3 : 4
- B 4 : 3
- C 2 : 3
- D 3 : 2

Answer: A

SBI PO Solved Previous Papers (Download PDF)

70. If $\frac{b}{a-c} = \frac{a+b}{c} = \frac{a}{b}$ then $a : b : c =$

- A 1 : -1 : 1
- B 3 : 1 : 2
- C 4 : 2 : 3
- D 3 : 2 : 4

Answer: C

71. If $a = \sqrt{2} + \sqrt{3}$, then $\frac{a+1}{a-1} + \frac{1-a}{1+a} =$

- A $\sqrt{2}$
- B $\sqrt{3}$
- C $1 + \sqrt{2}$
- D $1 + \sqrt{3}$

Answer: A

72. If $x = 3 + \sqrt{5}$, then the value of $x^4 + 12x^3 + 36x^2$ is

- A** 4
- B** -4
- C** -16
- D** 16

Answer: E

SBI Clerk Free Mock Test (Latest Pattern)

73. HCF of two numbers is 15 and their sum is 150. If one of the numbers is greater than 15, then those numbers are

- A** 45, 105
- B** 60, 90
- C** 55, 95
- D** 30, 120

Answer: A

74. If $n = 847 \times K$ is a perfect square then the least possible positive value of K is:

- A** 3
- B** 5
- C** 7
- D** 11

Answer: C

75. The number of distinct prime factors of $8!$ is:

- A** 3
- B** 4
- C** 5
- D** 8

Answer: B

SBI Clerk Previous Papers (Download PDF)

76. If $x > x^2 > x^3$, then a possible value of x among the following is

- A** -2
B $-\frac{1}{2}$
C $\frac{3}{4}$
D 1

Answer: C

77. $\sqrt{10 + \sqrt{25 + \sqrt{108 + \sqrt{154 + \sqrt{225}}}}} =$

- A** 16
B 10
C 5
D 4

Answer: D

78. If the fractions $\frac{1}{2}$, $\frac{2}{9}$ and $\frac{7}{13}$ are expressed with a common denominator, then the least numerator is

- A** 117
B 91
C 136
D 52

Answer: D

79. The maximum of 33^{3^3} , $3^{3^{3^3}}$, 333^3 and 3^{333}

- A** 3^{333}
B 33^{3^3}
C $3^{3^{3^3}}$
D 333^3

Answer: C

80. The difference between compound interest and simple interest on a sum for 2 years at the same 6% interest per annum is ₹ 36. Then that sum (in rupees) is

- A 10,000
- B 20,000
- C 15,000
- D 18,000

Answer: A

81. The length and breadth of a rectangle are changed: by +20% and –10% respectively. Then the percentage change in the area of the rectangle is.

- A 15
- B 10
- C 8
- D 5

Answer: C

Daily Free Banking Online Test

82. If $\frac{3}{4}$ of 15% of an amount is ₹ 72, then that amount (in rupees) is

- A 1400
- B 540
- C 360
- D 640

Answer: D

83. A started a business with a capital of ₹ 6400. Later B joined the business with a capital of ₹ 8000. At the end of the year they shared the profit in the ratio 6:5. After how many months B has joined the business?

- A 8
- B 6
- C 4
- D 3

Answer: C

84. A person buys an article with 15% discount on its marked price. He makes a profit of 15% by selling it at ₹ 3910, Then the marked price of the article (in rupees) is

- A 3,500
- B 4,500
- C 4,000
- D 4,200

Answer: C

200+ Free GK Tests for Banking exams

85. If the cost price of 20 books is equal to the selling price of 16 books, then the percentage of profit is

- A 16
- B 20
- C 25
- D 32

Answer: C

86. A, B and C started a business investing a sum of money in the ratio of 8 : 9 : 10, After three months B contributed another $\frac{1}{3}$ rd of his capital towards business while C withdrew $\frac{1}{5}$ th of his capital after 6 months. If they get an annual profit of ₹ 2,37,300 then C's share of profit in rupees is.

- A 94,200
- B 83,700
- C 75,600
- D 67,200

Answer: C

87. A, B and C started a business with some investments. At the end of the year, in the profit, the share of B is ₹ 5000 more than that of A and C's share is ₹ 2000 more than B. If the total profit is ₹ 1,11,000, then the share of C, in the profit in rupees is

- A 39,000
- B 37,000

C 38,000

D 40,000

Answer: D

Latest Job Updates on Telegram - Join here

88. A and B started business together. B's capital is ₹ 700 more than that of A. But B invested his capital for 9 months and A invested for 10 months. If A and B share the profit in the ratio 8:9, then the capital of B (in rupees) is.

A 3,500

B 4,200

C 4,000

D 2,100

Answer: A

89. Two pipes A and B can fill an empty tank in 6 hours and 8 hours respectively. After opening both of them for t hours the pipe B is closed and the pipe A filled the rest of the tank in 4 hours. Then $t =$

A $\frac{8}{7}$

B $\frac{8}{3}$

C $\frac{4}{3}$

D $\frac{2}{3}$

Answer: A

90. Two pipes can fill an empty tank in 36 minutes and 45 minutes respectively. If both pipes are opened simultaneously, then how much time is needed in minutes to fill tank?

A 10

B 15

C 20

D 25

Answer: C

Whatsapp "JOB" to 7661025557 for Updates

91. Three persons can complete a work individually in 6 days, 8 days and 12 days respectively. If all the three persons work together the number of days required to complete the same work is

- A 3
- B $\frac{10}{3}$
- C $\frac{8}{3}$
- D $\frac{1}{43}$

Answer: C

92. A, B and C can do a work individually in 20 days, 15 days and 25 days respectively. To complete the work fast, which of the two are to be assigned the work?

- A A, B
- B B, C
- C C, B
- D B alone

Answer: A

93. A cube has a volume of 128 cm^3 . It is divided into 8 equal cubes. Then the ratio of an edge of a smaller cube to an edge of the original cube is.

- A 1 : 8
- B 1 : 16
- C 1 : 2
- D 2 : 1

Answer: C

AP SI Free Solved Previous Papers PDF

94. The volume of a cube (in cubic centimeters), whose total surface area is 384 square centimeters, is

- A 64
- B 512
- C 128
- D 256

Answer: B

95. The volume(in proper units) of the cone with r as the radius of the circular base and having height h is

A $\frac{1}{3}\pi r^2 h$

B $\frac{2}{3}\pi r^2 h$

C $\pi r^2 h$

D $\frac{4}{3}\pi r^2 h$

Answer: A

96. If n is the maximum number of solid cubes with an edge of length 0.2 cm that can be put in a box whose dimensions are 1 cm x 1 cm x 4cm then $n =$

A 250

B 150

C 500

D 350

Answer: C

200+ Banking Previous Papers (Download PDF)

97. The lengths of the sides of a right angled triangle are in the ratio 3:4. The area of the triangle is 726 square units. Then the length of the hypotenuse (in proper units) is

A 33

B 44

C 55

D 66

Answer: C

98. The ratio of the radii of two circular arcs A and B is 2:3 and that of their heights is 5:3. If the volume of the cylinder B is 27 m³, then the volume of the cylinder A in cubic meters is.

A 22

B 30

C 40

D 20

Answer: D

99. The number of elements in the set

$E = \{n : n \text{ integer, } 500 \leq n \leq 700 \text{ and } n \text{ is divisible by } 11\}$ is

A 63

B 45

C 108

D 18

Answer: D

00. If $3^{58} \equiv r \pmod{5}$ and $0 \leq r \leq 4$, then $r =$

A 1

B 2

C 4

D 3

Answer: C

01. The Statement $(p \rightarrow q) \rightarrow p$ is equivalent to

A p

B q

C $q \rightarrow p$

D $p \rightarrow q$

Answer: A

02. The contrapositive of the statement $p \rightarrow q$

A $(\sim p) \rightarrow q$

B $(\sim p) \rightarrow (\sim q)$

C $q \rightarrow p$

D $(\sim q) \rightarrow (\sim p)$

Answer: D

SSC CHSL Free Mock Test

03. If the statement " $\frac{1}{2}$ is rational and $\sqrt{3}$ is irrational" is denoted by p , then which of the following statement represents $\sim p$?

- A** $\frac{1}{2}$ is rational or $\sqrt{3}$ is irrational
- B** $\frac{1}{2}$ is irrational or $\sqrt{3}$ is rational
- C** $\frac{1}{2}$ is irrational or $\sqrt{3}$ is irrational
- D** $\frac{1}{2}$ is rational or $\sqrt{3}$ is rational

Answer: B

04. If the number of elements in the sets A, B are respectively 5, 7, then the number of relations that can be defined from A to B is.

- A** 2^7
- B** 2^{12}
- C** 2^{35}
- D** 2^5

Answer: C

05. If $f : R \rightarrow R$ is a function satisfying the condition $2f(x) - 3f\left(\frac{1}{x}\right) = x^2$ for any $x \neq 0$, then $f(3)$ =

- A** $-\frac{11}{3}$
- B** 3
- C** -3
- D** $-\frac{10}{3}$

Answer: A

SSC CGL Free Mock Test

06. If a set A has 8 elements, then the number of subsets of A having atmost 4 elements is

- A** 256
- B** 126
- C** 93
- D** 163

Answer: D

07. If a straight line is passing through the points (3, 3) and (7, 6), then the length of the portion of the line intercepted between the coordinate axes is

- A** $\frac{4}{5}$
- B** $\frac{4}{7}$
- C** $\frac{5}{4}$
- D** $\frac{7}{4}$

Answer: C

08. The equation of a straight line whose slope is 1 and X-intercept is 4, is

- A** $x + y + 4 = 0$
- B** $x + y - 4 = 0$
- C** $x - y - 4 = 0$
- D** $x - y + 4 = 0$

Answer: C

SSC CGL Free Online Coaching

09. The foot of the perpendicular of the point (1, 2) on the line $3x + 4y = 1$ is

- A** $\left(\frac{-1}{5}, \frac{2}{5}\right)$
- B** $\left(\frac{1}{5}, \frac{-2}{5}\right)$
- C** $\left(\frac{11}{25}, \frac{2}{25}\right)$
- D** $\left(\frac{1}{25}, \frac{-2}{25}\right)$

Answer: A

10. $\cos 208^\circ \sin 238^\circ + \sin 152^\circ \cos 122^\circ =$

A $\frac{1}{2}$

B $\frac{1}{\sqrt{2}}$

C $\frac{\sqrt{3}}{2}$

D 1

Answer: A

11. If $0 < \alpha, \beta < \frac{\pi}{4}$, $\cos(\alpha + \beta) = \frac{4}{5}$ and $\sin(\alpha - \beta) = \frac{5}{13}$ then $\tan 2\alpha =$

A $\frac{56}{33}$

B $\frac{33}{56}$

C $\frac{16}{63}$

D $\frac{63}{16}$

Answer: A

SSC CGL PREVIOUS PAPERS (download pdf)

12. If $x = a \cos \theta + b \sin \theta$ and $y = a \sin \theta - b \cos \theta$, then $x^2 + y^2 =$

A 1

B a^2

C b^2

D $a^2 + b^2$

Answer: D

13. $\frac{\tan 10^\circ + \tan 50^\circ}{1 - \tan 10^\circ \tan 50^\circ} =$

A $\frac{\sqrt{3}+1}{2\sqrt{2}}$

B $\frac{\sqrt{3}-1}{2\sqrt{2}}$

C $\sqrt{3}$

D $\frac{1}{\sqrt{3}}$

Answer: C

14. A man in a boat rowing away from the cliff 150 meters high, observed that it takes 2 minutes to change the angle of elevation of the top of the cliff from 60° to 45° , then the speed of the boat in km/hour is

- A $\frac{9-3\sqrt{3}}{2}$
B $\frac{9+3\sqrt{3}}{2}$
C $9 - \sqrt{3}$
D $9 + \sqrt{3}$

Answer: A

SBI PO Solved Previous Papers (Download PDF)

15. If the polynomial $-a^2x^3 - 2ax^2 + b^2x + 1$ is divisible by $x + 1$, then $a - 1 =$

- A $\pm b$
B $\pm 2b$
C $\pm(b + 1)$
D $\pm(b - 1)$

Answer: A

16. A polynomial in x leaves remainders -1 and 7 when it is divided by $x + 1$ and $x - 3$ respectively. If that polynomial is divided by $x^2 - 2x - 3$, then the remainder is

- A -7
B $7x - 1$
C 6
D $2x + 1$

Answer: D

17. If $73 \times 74 \times 75 \times 76$ is divided by 14 , then the remainder is

- A 0
B 5
C 10
D 12

Answer: C

18. The 8th term of the progression 162, 54, 18, is

- A $\frac{2}{9}$
- B $\frac{2}{81}$
- C $\frac{2}{27}$
- D $\frac{2}{243}$

Answer: C

19. The sum of the first 10 terms of the series 1, 3, 5, 7, is

- A 75
- B 50
- C 100
- D 121

Answer: C

20. The coefficient of x in the expansion of $(3x^2 - \frac{1}{2x})^5$ is

- A $\frac{45}{4}$
- B $-\frac{45}{4}$
- C $\frac{45}{8}$
- D $-\frac{45}{8}$

Answer: B

SBI Clerk Previous Papers (Download PDF)

21. If $(2 + 3x)^5 = \sum_{n=0}^5 a_n x^n$, then $\sum_{n=0}^5 a_n =$

- A 32
- B 243

C 1024

D 3125

Answer: D

22. If $A = \begin{pmatrix} 0 & -2 \\ 2 & 0 \end{pmatrix}$ and $B = \begin{pmatrix} 1 & 0 \\ 0 & -1 \end{pmatrix}$, then $AB + BA =$

A $\begin{pmatrix} 0 & -2 \\ 2 & 0 \end{pmatrix}$

B $\begin{pmatrix} 1 & 0 \\ 0 & -1 \end{pmatrix}$

C $\begin{pmatrix} 0 & 0 \\ 0 & 0 \end{pmatrix}$

D $\begin{pmatrix} 1 & 0 \\ 0 & 1 \end{pmatrix}$

Answer: C

23. If A, B are square matrices of same order such that $B = -A^{-1}BA$, then $(A + B)^2 =$

A 0

B $A + B$

C $A^2 + B^2$

D $A^2 + 2AB + B^2$

Answer: C

33. The median of the observations 7, 8, 7, 9, 7, 14, 15, 6, 8, 14, 9, 17, 15, 16 is

- A** 7
- B** 8
- C** 8.5
- D** 9.5

Answer: E

34. If the mean and mode of a data are 45 and 51 respectively then the median of the data is

- A** 46
- B** 47
- C** 48
- D** 49

Answer: B

35. The quartile deviation of the observations 80, 48, 60, 92, 50, 35, 70 is

- A** 10
- B** 12
- C** 14
- D** 16

Answer: D

Whatsapp "JOB" to 7661025557 for Updates

36. If σ is the standard deviation of the observations $x_1, x_2, \dots, x_n$ then the standard deviation of $5x_1 + 7, 5x_2 + 7, \dots, 5x_n + 7$ is

- A $5\sigma + 7$
- B $\sqrt{25\sigma^2 + 7}$
- C 5σ
- D $5\sigma + \sqrt{7}$

Answer: C

37. The variance of the numbers 87, 88, 89, ..., 98 is

- A $\sqrt{\frac{143}{12}}$
- B $\sqrt{\frac{843}{12}}$
- C $\frac{143}{12}$
- D $\frac{843}{12}$

Answer: C

38. If two unbiased six-faced dice are thrown simultaneously then the probability that the sum is 8 with at least one die showing a prime number is

- A $\frac{1}{9}$
- B $\frac{1}{8}$
- C $\frac{1}{7}$
- D $\frac{1}{6}$

Answer: A

- C** with
- D** between

Answer: A

Free Banking Study Material (15000 Solved Questions)

Instructions [166 - 170]

Read the following passage and answer questions.

Passage:

Philosophy in the East is an art of life and way of living. The proper aim of philosophising, according to the Indian mind, is not to obtain knowledge for its own sake but for the sake of making life better. Philosophise in the soil of India is a personal attitude towards life and the universe. To philosophise is not merely to read and know philosophy; it is also to think philosophically. Philosophy begins in wonder, doubt and curiosity. It grows out of our developing awareness of the problems of human existence. Philosophy does not shrink from facing the difficult and unsolved problems of our life. There are certain perennial problems which interest mankind and for which philosophers have sought answers. Philosophy is primarily concerned with the soul, God, immortality, world, knowledge and similar other problems, which again owe their solutions to the proper estimate of life. Many questions, however, have been answered only tentatively, and many problems remain unsolved.

66. What is the aim of philosophy in the East?

- A learning
- B self-realisation
- C material gain
- D professional advancement

Answer: B

67. How does one become philosophical?

- A through reading
- B through discussion
- C through writing
- D through knowledge of the complexities of life

Answer: D

68. What is the meaning of 'perennial'?

- A momentary
- B everlasting
- C temporary
- D short-lived

Answer: B

69. **How can problems be solved?**

- A** by proper evaluation
- B** by meditating
- C** by acknowledging them
- D** by transcending them

Answer: A

70. **Why is the study of philosophy valuable?**

- A** It adds wisdom to one's life.
- B** It deals with spirituality.
- C** It deals with the problems of life.
- D** It provides answers to all problems.

Answer: A

Instructions [171 - 175]

Read the following passage and answer questions.

Passage:

Although languages have come into existence and died away throughout human history, it was only in the 1990s, following the publication of a series of worldwide surveys, that people began to notice that the rate of disappearance was significantly increasing. The thrust of these facts is easy to summarise: of the 6,000 or so languages in the world, it seems probable that about half of these will disappear in the course of the present century. It is a rate of loss unprecedented in recorded history.

The impact of dominant languages on minority languages is a matter of universal concern, and the role of English is specially implicated. The growth of English as a global language is not the sole factor in explaining language endangerment. Although it is English that has been the critical factor in the disappearance of languages in such parts of the world as Australia and North America, this language is of little relevance when we consider the corresponding losses that have taken place in South America or in many parts of Asia, where such languages as Spanish, Portuguese, Russian, Arabic and Chinese have replaced local languages.

Languages die. A language lives on, after the last native speaker dies, only if it has been written down or recorded in some way. At the turn of the millennium, some 2000 languages had still not been documented. When one of these languages disappears, the consequences are truly catastrophic. When people die, they leave signs of their presence in this world, in the form of their dwelling places, burial mounds and artifacts - in a word, their archaeology. But, spoken language leaves no archaeology. When a language dies which has never been documented, it is as if it has never been.

71. **What is the author's view about the languages of the world?**

- A** People are unaware of the dying languages.
- B** People were unaware of the dying languages.
- C** People have been aware of the dying languages:

- D** Causing a lot of disturbance

Answer: A

Instructions [176 - 180]

Read the following passage and answer questions.

Passage:

So now let's talk about how discipline relates to self-esteem. In studies of children Coopersmith found that power and: withholding affection were associated with children who demonstrated low self-esteem, but management techniques were associated children who exhibited high self-esteem. So it seems that parents should use psychology punishment and withholding of affection with caution, right? Well, most psychology oppose physical punishment for children under the age of 2, and some psychology believe that discipline should be achieved without any physical punishment for children of all ages, referencing the fact that discipline means 'to teach' whereas punishment means 'to harm'. Anyway it's generally agreed that reinforcement of good behaviour more effective than waiting for bad behaviour that requires punishment. But we discipline is necessary, setting limits with negative consequences that are consistently enforced seems to promote healthy development of self-esteem in children, especially when these management techniques are supplemented with approval, attention, affection. I mean, when parents try to catch their children in the act of doing something right and use that as a basis for positive reinforcement of their behaviour.

76. The study of Coopersmith found that low self-esteem associated with children is

- A** enforcement of discipline
- B** power and withholding of affection
