AP ICET 2017 Shift 2

Analytical Ability

Instructions [1 - 20]

A question is followed by data in the form of two statements labelled as I and II. You must decide whether the data given in the statements are sufficient to answer the questions.

1. What is the present population of the city C?

I. The population of the city in the year 2010 is 24,80,000.

II. The population of the city grows every year.

- A If the statement I alone is sufficient to answer the question.
- B If the statement II alone is sufficient to answer the question.
- C If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

Free Banking Study Material (15000 Solved Questions)

2. Is the positive real number "a" rational?

I. The area of a rectangle is "a" sq. units.

II. The area of the circle with radius 4 cm is a square centimeters.

- A If the statement I alone is sufficient to answer the question.
- B If the statement II alone is sufficient to answer the question.
- C If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

3. If a, b, c are negative integers and d is an integer. is $d = 0$?

I. $d = 2a - b$

II. $da = c$

- A If the statement I alone is sufficient to answer the question.
- B If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

4. If a, b, c are real numbers, is $a > b$?

I. $a^2 + b^2 + c^2 = 0$

II. $a > b - c$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

Daily Free Banking Online Test

5. Does $a + b = 0$?

I. $ab < 0$

II. $a^2 = b^2$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

6. In the sequence 1, $a, b, c, 9$ of real numbers, what is the value of c ?

I. The third term of the sequence is twice the first.

II. Second term of the sequence is 4.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

7. What is the average of p, q, r and s?

I. $p + q + r = s + 64$

II. $4(p + r + s) = 128, q = 16$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

200+ Free GK Tests for Banking exams

8. Is P the mother of Q?

I. Q is the daughter of P.

II. P is not the brother of Q's paternal uncle.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

9. What is the mother's age?

I. 15 years ago the mother was twice the age of her daughter five years ago.

II. Five years Later the mother's age will be twice the age of her daughter.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

10. **What was the percentage of defective items produced in the factory?**

I. The ratio of defective items to the non defective items was 25 : 625.

II. The total number of defective items produced was 225.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

11. **Will it be a Monday tomorrow?**

I. Every Sunday is a holiday.

II. Today is not a Sunday.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

12. **If a, b, c are integers, is $a + b + c$ divisible by 3?**

I. $a > b > c$

II. $a - b = b - c = 2$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

13. What is the length of the line segment AB on the straight line PQ?

I. $AP = BQ = 25$ cm.

II. $PQ = 300$ cm.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

Whatsapp "JOB" to 7661025557 for Updates

14. For real numbers a, b and c. what is the value of $a + b + c$?

I. $ac = 16$.

II. a, b, c are in a geometric progression.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

15. Is $A \cap C = \emptyset$

I. $A \cap B = \emptyset$

II. $B \cap C = \emptyset$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

16. Is the integer n divisible by 120?

- I. $n = k(k^2 - 1)(k^2 - 4)$ for some integer k .
 II. n is divisible by 4 and 30.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

AP SI Free Solved Previous Papers PDF

17. For real numbers a, b and c , is $(a - b)^c > 0$?
 I. $a < b$
 II. c is divisible by 16

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: C

18. For any real number x , the greatest integer not exceeding x is denoted by $[x]$. If $[a] = 5$ for some a , then what is $[2a]$?
 I. $a - [a] = \frac{2}{3}$
 II. a is a rational number

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.

- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: A

19. For a polynomial $p(x)$, is $x - 1$ a factor of $p(2x - 1)$?

I. $p(3) = 0$

II. $p(1) = 0$

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: B

200+ Banking Previous Papers (Download PDF)

20. What is the maximum possible length of the rod that can be placed in the box with rectangular base?

I. The area of the base of the box is given as a square units.

II. The height of the box is given as h units.

- A** If the statement I alone is sufficient to answer the question.
- B** If the statement II alone is sufficient to answer the question.
- C** If both the statements I and II are sufficient to answer the question but neither statement alone is not sufficient.
- D** If both the statements I and II together are not sufficient to answer the question and additional data is required.

Answer: D

Instructions [21 - 30]

An analogy with two strings of numbers or letters or both are given following a definite pattern on the left. Identifying this pattern, you have to fill the blank space on the other side analogously from among the four options given.

21. $E : V :: ---- : Q$

The children in the age group of five years to twenty five years in a town are categorized into six groups A, B, C, D, E, F based on the level of their studies. as given in the following pie-chart. Using this information, answer the questions.

41. The percentage of children in group F, among the children of the town is

- A** $\frac{1}{83}$
- B** $\frac{1}{75}$
- C** $\frac{1}{64}$
- D** $\frac{1}{46}$

Answer: D

Free Banking Study Material (15000 Solved Questions)

42. If the group E has 1182 children. then the total number of children in the given age group in that town is

- A** 7092
- B** 7192
- C** 8182
- D** 8262

Answer: A

43. If k times the number of children in F is equal to the number of children in B and C put together, then the value of k is

- A 3
- B 5
- C 7
- D 9

Answer: D

Instructions [44 - 48]

The following table shows the admissions of students into four Engineering colleges from 2011-12 to 2015-16. Using this information, answer the questions.

Academic year → Engineering college ↓	2011-12	2012-13	2013-14	2014-15	2015-16
A	375	400	450	425	450
B	525	500	550	575	550
C	225	275	325	350	375
D	475	525	475	550	625

44. In which college, admissions are increasing year by year?

- A A
- B B
- C C
- D D

Answer: C

Daily Free Banking Online Test

45. Considering the admissions into all the colleges during 2013-2014, the percentage of admissions in the college A that year is

- A 20
- B 25
- C 30
- D 35

Answer: B

46. By what percentage, admissions are increased in the college B during 2013-14, over the previous year?

- A** 30
- B** 25
- C** 20
- D** 10

Answer: D

47. The college having the maximum number of admissions in all the years put together, is

- A** A
- B** B
- C** C
- D** D

Answer: B

200+ Free GK Tests for Banking exams

48. The college in which the admissions are reduced compare to the previous years on two occasions, is

- A** A
- B** B
- C** C
- D** D

Answer: B

Instructions [49 - 50]

In an office with a staff of 30, five persons speak Hindi. English and Telugu. Four persons speak Hindi and English only. Four persons speak only Telugu. Three only English and four only Hindi. The number of persons speaking only two languages namely Hindi. Telugu and English. Telugu is the same. Based on this information answer the questions.

49. How many persons speak only two languages out of the three languages?

- A** 10
- B** 14
- C** 16
- D** 19

Answer: B

50. The percentage of staff members speaking more than one language is

A $53\frac{1}{3}$

B $58\frac{1}{3}$

C $61\frac{1}{3}$

D $63\frac{1}{3}$

Answer: D

Instructions [51 - 55]

The letters of the English alphabet are arranged around a circle and are coded as follows:

(1) A vowels coded as third vowel from it in the clock-wise direction.

(2) A consonant is coded as the fifth consonant from it in the clock-wise direction.

The reverse process is used for decoding. Using this coding and decoding processes, answer the questions.

51. The letter that is coded as 'l' is

A A

B U

C O

D E

Answer: B

52. The code word for 'MASTER' is

A SUYZAX

B TOZBVY

C SOYZUX

D SOYZAX

Answer: C

53. The code word for 'PRINCE' is

A VXUTJU

B WXAJTU

C VXATJU

D UXATJU

Answer: C

Whatsapp "JOB" to 7661025557 for Updates

54. The code for the letter 'X' is

A B

B C

C G

D D

Answer: D

55. The string of letters that is coded as 'MUSIC' is

A GEMVZ

B GEMUZ

C GEMVW

D GEMUW

Answer: D

56. In a certain code language, if "SAND" is coded as 'AIR'. 'AIR' is coded as 'PLATEAU', 'PLATEAU' is coded as 'WELL'. 'WELL' is coded as 'ISLAND' and 'ISLAND' is coded as 'SKY', then where from water can be drawn in this code language?

A WELL

B ISLAND

C AIR

D SKY

Answer: B

AP SI Free Solved Previous Papers PDF

57. In a code language. 'CLOUD' is called 'WHITE'. 'WHITE' is called 'RAIN', 'RAIN' is called 'GREEN'. 'GREEN' is called 'ATR' and 'AIR' is called 'BLUE' and 'BLUE' is called 'WATER'. Then where will the birds fly in this code language?

- A AIR
- B CLOUD
- C BLUE
- D RAIN

Answer: C

58. In a code language. 'AIR' is called 'GREEN'. 'GREEN' is called "BLUE". 'BLUE' is called 'SKY', 'SKY' is called "YELLOW", 'YELLOW' is called 'WATER' and "WATER" is called 'PINK'. Then what is the colour of the clear sky in that code language?

- A YELLOW
- B BLUE
- C PINK
- D SKY

Answer: D

59. In a code language. 'SKY' is called 'SEA'. 'SEA' is called 'WATER'. 'WATER' is called 'ATR', 'AIR' is called 'CLOUD' and 'CLOUD' is called "RIVER". Then what do we drink when thirsty in that code language?

- A RIVER
- B AIR
- C WATER
- D SEA

Answer: B

63. Two clocks began to strike 12 together. One clock strikes its strokes in 33 seconds and the other in 22 seconds. What is the interval of time between the 6th stroke of the first clock and the 10th stroke of the second?

A 1 second

B 2 seconds

C 4 seconds

D 3 seconds

Answer: D

64. X introduced Y saying "he is the husband of the grand daughter of the father of my father". How is Y related to X?

A Uncle

- B** Cousin
- C** Brother-in-law
- D** Brother

Answer: C

65. If the first day of a non-leap year was Friday. then which was the last day of that year?

- A** Thursday
- B** Friday
- C** Sunday
- D** Saturday

Answer: B

SSC CHSL Free Mock Test

66. Two trains arrived at a station at 9:30 AM and 10:00 AM with 47 minutes and 22 minutes late respectively. Then the time difference between their scheduled arrivals at the station is

- A** 55 min
- B** 48 min
- C** 30 min
- D** 42 min

Answer: A

67. A, B, C, D, E sit around a round table facing the centre. E sits between D and A, C is the immediate right of B, and A sits between E and C. Then the person to the immediate right of D is

- A** A
- B** B
- C** C
- D** E

Answer: B

68. If * represents multiplication. $\otimes$ represents addition. $\triangle$ represents division and ∇ represents subtraction, then

$$7 \nabla 8 \triangle 2 * 5 \otimes 3 = ?$$

- A -10
- B 18
- C -16
- D 24

Answer: C

75. $(4 + \sqrt{15})^3 + (4 - \sqrt{15})^3 = p\sqrt{10} \Rightarrow p =$

- A** $2\sqrt{2}$
- B** $\frac{7}{2}$

C 7

D 3

Answer: C

76. A and B are two alloys of gold and copper in the ratio 7:2 and 7:11 respectively. If equal quantities of these alloys are melted to form an alloy C then the ratio of gold and copper in C is

A 6 : 5

B 9 : 4

C 12 : 7

D 7 : 5

Answer: D

77. The value of the digit 'a' in the number 43a4567 such that it is divisible by 11 is

A 8

B 7

C 6

D 5

Answer: A

SBI Clerk Free Mock Test (Latest Pattern)

78. The number of integers from 200 to 400 which are divisible by 7 is

A 32

B 31

C 30

D 29

Answer: D

79. The least square number that is divisible by 3, 4, 5, and 6 is

A 60

B 100

C 900

D 1200

Answer: C

80. Let h and g respectively denote the least common multiple and the greatest common divisor of a and b . If $h : g = 20 : 1$, $h + g = 2520$ and $a = 480$ then $b =$

A 600

B 800

C 900

D 1200

Answer: A

SBI Clerk Previous Papers (Download PDF)

81. The rational number given by 0.12 is

A $\frac{3}{25}$

B $\frac{3}{22}$

C $\frac{4}{33}$

D $\frac{5}{33}$

Answer: C

82. If a_1, a_2, a_3 and a_4 in the increasing order of the elements in the set $\left\{\frac{2}{7}, \frac{7}{15}, \frac{5}{8}, \frac{9}{23}\right\}$ then $a_4 - a_1 =$

A $\frac{2}{7}$

B $\frac{19}{56}$

C $\frac{17}{56}$

D $\frac{15}{56}$

Answer: B

83. If $\alpha_1 = \sqrt[3]{4}, \alpha_2 = \sqrt[4]{5}, \alpha_3 = \sqrt[4]{7}$ and $\alpha_4 = \sqrt{3}$ then their correct order is

A $\alpha_1 > \alpha_2 > \alpha_3 > \alpha_4$

B $\alpha_2 > \alpha_3 > \alpha_4 > \alpha_1$

C $\alpha_3 > \alpha_4 > \alpha_1 > \alpha_2$

D $\alpha_2 > \alpha_3 > \alpha_1 > \alpha_2$

Answer: D

Free Banking Study Material (15000 Solved Questions)

84. For a rational number r , if we add 3 to its denominator it is $\frac{1}{3}$ and if we add 4 to its numerator it is $\frac{3}{4}$. Then $r =$

A $\frac{3}{7}$

B $\frac{4}{9}$

C $\frac{5}{12}$

D $\frac{7}{15}$

Answer: C

85. If the length and breadth of a rectangle are increased by 20% and 25% respectively then the percentage increase in its area is

A 45

B 5

C 50

D 28

Answer: C

86. One litre of water is evaporated from 6 litre solution containing 5% salt and 95% water. The percentage of salt in the remaining solution is

A 7

B 4

C 5

D 6

Answer: D

Daily Free Banking Online Test

87. A sells an article to B for a profit of 20% and B sells the same to C at a profit of 25%. If C pays Rs 4500 then the price (in rupees) A bought it is

- A** 1500
- B** 3000
- C** 2500
- D** 3250

Answer: B

88. Selling two items each at Rs 240/-. a merchant gets a profit of 20% on one and a loss of 20% on the other. In this whole transaction the merchant gets

- A** 4% profit
- B** 4% loss
- C** 10% profit
- D** 10% loss

Answer: B

89. In a joint business A, B and C invested capitals in the ratio 5 : 6 : 8 and the periods of investments are in the ratio 8: 5:15. If the share in the profit for A is Rs 15000/- more than that of B then the share of the profit for C (in lakhs of rupees) is

- A** 0.18
- B** 1.8
- C** 18.0
- D** 180

Answer: B

200+ Free GK Tests for Banking exams

90. A and B started a business with investments of Rs 24000/- and Rs 30000/- respectively. After 6 months A withdraws Rs 4000/-. In the year end profit of Rs 1.04 lakhs the share of A (in lakhs of rupees) is

- A** 0.33
- B** 0.43
- C** 0.44
- D** 0.48

Answer: C

91. A tank has three pipes P, Q and R. The pipes P and fill it independently in 4 hours and 5 hours respectively while R empties it in 2 hours. If P, Q and R are respectively opened at 1 AM, 2 AM and 3 AM in that order. then the time when the tank will be empty is

A 4 PM

B 5 PM

C 6 PM

D 7 PM

Answer: B

92. Two pipes P and Q can fill a tank in 10 hours and 12 hours respectively. If they are opened alternately for one hour each, starting with P. the time required to fill the tank is

A 11 hours

B 10 hours 50 minutes

C 10 hours 40 minutes

D 10 hours 30 minutes

Answer: B

Latest Job Updates on Telegram - Join here

93. A train travels at a speed of 40 kmph through urban areas, 50 kmph in suburban areas and 75 kmph in rural areas. If the trip of train has half-an-hour travel in urban areas, $3\frac{1}{2}$ hours through suburban areas and 3 hours in rural areas then the average speed (in kmph) of the train during the entire trip is

A 52

B 55

C 60

D 62

Answer: C

94. A car driver driving at 68 kmph locates a bus 40 meters ahead of him and after 10 seconds finds that the bus is 60 meters behind. The speed (in kmph) of the bus is

A 50

B 40

C 32

D 28

Answer: C

95. If 3 men or 4 women can reap a field in 43 days then the number of days required for 7 men and 5 women to reap the field is

A 12

B 11

C 10

D 9

Answer: A

Whatsapp "JOB" to 7661025557 for Updates

96. P, Q and R can complete a work independently in 15 hours, 12 hours and 10 hours respectively. P and R started the work and after 5 hours Q joined them and completed the work. The time (in minutes) Q worked is

A 32

B 40

C 45

D 60

Answer: B

97. If the circumference of a circle is increased by 50% then the percentage increase in its area is

A 100

B 125

C 150

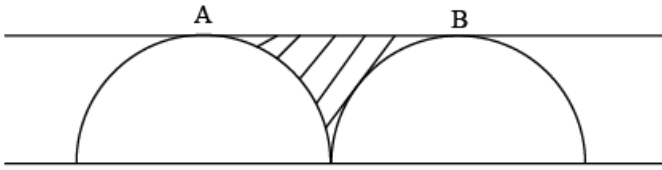

D 225

Answer: B

98. In the figure given below both the semicircles have radius 7 units each and AB is a tangent to these semicircles. The area (in sq. units) of the portion

in the figure is

- A $98(4 - \pi)$
- B $49(4 - \pi)$
- C $24.5(4 - \pi)$
- D $14.79(4 - \pi)$

Answer: C

AP SI Free Solved Previous Papers PDF

99. The maximum possible length (in cms) of a rod that can be kept in the rectangular box with dimensions 5 cm X 4 cm X 3 cm is

- A $5\sqrt{2}$
- B 10
- C $10\sqrt{2}$
- D 20

Answer: A

00. The radius of a sphere and the radius of the base of a right circular cylinder are equal to r . If the ratio of the volume of the sphere to that of the cylinder is 8 : 3 then the height of the cylinder is

- A r
- B $\frac{r}{2}$
- C $\frac{r}{4}$
- D $\frac{r}{8}$

Answer: B

01. The radius of a roller is 35 cm and its length is 3 meters. The area (in sq.mts) it covers in 25 rounds is (Take $\pi = \frac{22}{7}$).

- A 33
- B 165
- C 198
- D 231

Answer: B

200+ Banking Previous Papers (Download PDF)

02. The perimeter of a rhombus is 40 cms and one of its diagonal is 16 cms long. The length (in cms) of the other diagonal is

- A 15
- B 13
- C 12
- D 11

Answer: C

03. The number of revolutions made by a wheel of 42 cms diameter in covering a distance of 1.32 km is (Take $\pi = \frac{22}{7}$)

- A 30
- B 300
- C 400
- D 1000

Answer: D

04. For integers a and b ; and for integer $m > 0$ we write $a \equiv b \pmod{m}$ if m divides $a - b$, if $8^{2017} \equiv n \pmod{13}$ and $0 \leq n \leq 13$ then $n =$

- A 4
- B 5
- C 6
- D 7

Answer: B

SSC CHSL Previous Question papers (download pdf)

05. $(1100.001)_2 = (x)_{10} \Rightarrow x =$

A 12.125

B 13.125

C 12.025

D 12.105

Answer: A

06. The contradiction, among the following, is

A $p \wedge q$

B $p \wedge \sim q$

C $p \vee \sim p$

D $p \wedge \sim p$

Answer: D

07. The inverse of the proposition $(p \wedge \sim q) \rightarrow r$ is

A $(p \wedge \sim q) \rightarrow \sim r$

B $(\sim p \vee q) \rightarrow \sim r$

C $(\sim p \wedge q) \rightarrow \sim r$

D $(p \vee \sim q) \rightarrow \sim r$

Answer: B

SSC CHSL Free Mock Test

08. If $I_n = \{x \in \mathbb{R} : -\frac{1}{n} < x < \frac{1}{n}\}$ for $n = 1, 2, 3, \dots$ then $I_7 \cap I_{13} =$

A I_7

B I_{13}

C I_6

D I_{20}

Answer: B

09. Let L be the set of all straight lines in a plane and $R = \{(l_1, l_2) \in L \times L \mid l_1 \text{ is perpendicular to } l_2\}$. Then on the L the relation R is

- A Symmetric
- B reflexive and transitive
- C symmetric and transitive
- D an equivalence relation

Answer: A

10. Let N be the set of all natural numbers and $f : N \rightarrow N$ be defined by $f(n) = r$, where r is the remainder when n is divided by 17 for any $n \in N$. Then $\{n \in N : f(n) = 3\} =$

- A $\{3\}$
- B $\{17k + 3 : k = 0, 1, 2, 3, \dots\}$
- C $\{3k + 17 : k = 0, 1, 2, 3, \dots\}$
- D $\{17k + 3 : k = 0, \pm 1, \pm 2, \pm 3, \dots\}$

Answer: B

SSC CGL Free Mock Test

11. If the lines $ax + 2y + 1 = 0$, $bx + 3y + 1 = 0$ and $cx + 4y + 1 = 0$ are concurrent then a , b and c are in

- A an arithmetic progression
- B a geometric progression
- C a harmonic progression
- D an arithmetic — geometric series

Answer: A

12. If the line through the points $(7, -2)$ and $(4, -5)$ cuts the coordinate axes at A and B then the length AB is

- A 9
- B $9\sqrt{2}$
- C 18
- D $18\sqrt{2}$

Answer: B

13. $\tan 40^\circ = x \Rightarrow \frac{\tan 250^\circ + \tan 150^\circ}{1 - \tan 250^\circ \tan 150^\circ} = x$

- A x
- B $\frac{1}{x}$
- C -x
- D $-\frac{1}{x}$

Answer: A

SSC CGL Free Online Coaching

14. If $270^\circ < \theta < 360^\circ$ and $\cot \theta = -\sqrt{3}$ then $\cos \theta =$

- A $\frac{\sqrt{3}}{2}$
- B $\frac{1}{\sqrt{3}}$
- C $-\frac{\sqrt{3}}{2}$
- D $-\frac{1}{\sqrt{3}}$

Answer: A

15. $(1 + \cot \theta - \operatorname{cosec} \theta)(1 + \tan \theta + \sec \theta) =$

- A 0
- B 1
- C 2
- D -1

Answer: C

16. The angle of elevation of the top of a tower from a point P on the ground is 45° and moving s feet towards the tower the angle of elevation is found to be 60° . The height (in feet) of the tower is

- A** $\sqrt{3} s$
- B** $(\sqrt{3} - 1)s$
- C** $(\sqrt{3} + 1)s$
- D** $\frac{\sqrt{3}}{\sqrt{3} - 1}s$

Answer: D

SSC CGL PREVIOUS PAPERS (download pdf)

17. The highest common factor of the polynomials $p(x) = x^4 - 2ax^3 - 3a^2x^2$ and $q(x) = x^5 - 2ax^4 - 8a^2x^3$ is

- A** $x^2(x + a)$
- B** $x^2(x - 3a)$
- C** $x^2(x + 3a)$
- D** x^2

Answer: D

18. If $x^2 + x - 2$ is a factor of $x^4 + 3x^3 - 8x^2 + p(x)$, where $p(x)$ is a linear polynomial then $p(x) =$

- A** $-12x + 16$
- B** $12x - 16$
- C** $x + 16$
- D** $x - 16$

Answer: A

19. If $p(x) = 2x^2 + 5x + 1$ and $q(x) = x - 4$ then a factor of $q(p(x))$ is

- A** $x - 3$
- B** $2x + 1$
- C** $x + 2$
- D** $2x - 1$

Answer: D

SBI PO Solved Previous Papers (Download PDF)

20. If $x + 1$ and $x - 1$ are factors of $x^3 + 2x^2 + ax + b$ then $a + b =$

- A -2
- B -3
- C 2
- D 3

Answer: B

21. In 10 years. A will be twice as old as B was 10 years ago. If A is 9 years older than B then the present age (in years) of B is

- A 19
- B 29
- C 39
- D 49

Answer: C

22. The number of solutions of the system of linear equations $x + y + z = 3$, $2x + 2y - z = 3$ and $x + y - z = 1$ is

- A 0
- B 1
- C Finite
- D Infinite many

Answer: D

SBI Clerk Free Mock Test (Latest Pattern)

23. If $a_1, a_2, a_3, \dots, a_{19}$ are 19 arithmetic means between $\frac{1}{4}$ and $-\frac{39}{4}$ then $a_7 =$

- A $-\frac{11}{4}$
- B $-\frac{13}{4}$
- C $-\frac{15}{4}$
- D $-\frac{17}{4}$

Answer: B

24. If the sum of the first six terms of a geometric progression is 9 times the sum of the first three terms then the common ratio $r > 1$ is

- A 2
- B 3
- C 4
- D 5

Answer: A

25. $(1 + x + x^2)^n = \sum_{k=0}^{2n} a_k x^k \Rightarrow \sum_{k=0}^n a_{2k}$

- A $\frac{1}{2}(3^{2n} + 1)$
- B $\frac{1}{2}(3^n - 1)$
- C $\frac{1}{2}(3^n + 1)$
- D $\frac{1}{2}(3^{2n} - 1)$

Answer: C

SBI Clerk Previous Papers (Download PDF)

26. If the sum of the binomial coefficients in the expansion of $(a + b)^n$ is 512 then the greatest binomial coefficient is

- A 252
- B 210
- C 126
- D 120

Answer: C

27. If a, b and c are such that $ak^2 + bk + c \neq 0$ for some k and if the determinant of the matrix $\begin{bmatrix} a & b & ak+b \\ b & c & bk+c \\ ak+b & bk+c & 0 \end{bmatrix}$ is zero then a, b, c are in

- A an arithmetic progression
- B a harmonic progression
- C an arithmetic — geometric series

- D** a geometric progression

Answer: D

28. The rank of the matrix $\begin{pmatrix} 1 & 2 & 0 & -1 \\ 3 & 4 & 1 & 2 \\ -2 & 3 & 2 & 5 \end{pmatrix}$ is

- A** 1
B 2
C 3
D 4

Answer: C

Free Banking Study Material (15000 Solved Questions)

29. $\lim_{x \rightarrow 2a} \frac{\sqrt{x} - \sqrt{2a} + \sqrt{x - 2a}}{\sqrt{x^2 - 4a^2}} =$

- A** $\frac{1}{a}$
B $\frac{1}{2a}$
C $\frac{1}{\sqrt{a}}$
D $\frac{1}{\sqrt{2a}}$

Answer: D

30. $\lim_{x \rightarrow 0} \frac{e^x - e^{-x}}{\sin x} =$

- A** -1
B 0
C 2
D 1

Answer: B

31. In $\triangle ABC$ the bisector of the angle A meets BC in D and DE is parallel to BA meeting AC in E, then $\frac{AE}{EC} =$

- A** $\frac{AB}{AC}$
B $\frac{AC}{AB}$
C $\frac{BC}{AB}$

D $\frac{AB}{BC}$

Answer: A

Daily Free Banking Online Test

32. The sum of the interior angles of a regular octagon, in radians, is

A 2π

B 4π

C 6π

D 8π

Answer: C

33. Let AC and BD be two diameters of a circle with centre at O and having circumference 9 units. If $\angle OBA = 70^\circ$ then the length (in units) of the minor arc BC is

A $\frac{7}{2}$

B 4

C $\frac{11}{3}$

D $\frac{13}{4}$

Answer: A

34. If (a, b) is a point such that its distance to (4, 0) is twice its distance to the origin then $3(a^2 + b^2) =$

A $8 - 4a$

B $16 - 8a$

C $9 - 8a$

D $9 - 6a$

Answer: B

200+ Free GK Tests for Banking exams

35. The length of the median of $\triangle ABC$ through B, if the vertices A, B and C are respectively at (4, 2), (6, 5) and (1, 4) is

A $\sqrt{65}$

- B** $\frac{1}{2}\sqrt{65}$
- C** $\frac{1}{3}\sqrt{65}$
- D** $\frac{1}{4}\sqrt{65}$

Answer: B

36. If $a > 1$ and the median of the observations $\frac{a}{5}$, $\frac{a}{4}$, a , $\frac{a}{2}$ and $\frac{a}{3}$ is 8 then the arithmetic mean of the observation is

- A** 8
- B** 9
- C** 10
- D** 10.96

Answer: D

37. The mean deviation about the median of the observation 25, 34, 31, 23, 22, 26, 25, 22, 20 and 32

- A** 3
- B** 3.2
- C** 3.6
- D** 3.8

Answer: C

38. The mode of the distribution whose mean and median are respectively 24.5 and 24.375 is

- A** 24
- B** 24.125
- C** 24.250
- D** 24.375

Answer: B

39. If σ is the standard deviation of x_i ($i = 1, 2, \dots, n$) then the variation of $5x_i + 3$ ($i = 1, 2, 3, \dots, n$) is

- A** $\sqrt{5}$

- B** σ
- C** $\sigma^2 + 9$
- D** $25\sigma^2$

Answer: D

40. The observations $x_i (i = 1, 2, \dots, 15)$ of an experiment it is given $\sum_{i=1}^{15} x_i = 170$ and $\sum_{i=1}^{15} x_i^2 = 2830$. Later it is noticed that one x_i is entered as 20 instead of the correct value 30. The correct value of their variance is

- A** 78
- B** 8.33
- C** 188.66
- D** 177.33

Answer: A

Whatsapp "JOB" to 7661025557 for Updates

41. In the calculation of rank correlation coefficient (r) of 8 observations it is found that $\sum d_i^2 = 40.5$. Where d_i are the deviations. Then the value of r is

- A** $\frac{27}{56}$
- B** $\frac{29}{56}$
- C** $\frac{31}{56}$
- D** $\frac{33}{56}$

Answer: B

42. If A and B are two events of a random experiment such that the probability that at least one of A and B occurs is 0.6 and the probability that both of them occurs is 0.2 then $p(\overline{A}) + p(\overline{B}) =$

- A** 0.8
- B** 0.9
- C** 1.2
- D** 1.4

Answer: C

43. A number is chosen at random from the set $\{1, 2, 3, \dots, 50\}$. The probability that $\sqrt{n}$ is an irrational number is

- A $\frac{7}{50}$
- B $\frac{13}{50}$
- C $\frac{43}{50}$
- D $\frac{37}{50}$

Answer: C

AP SI Free Solved Previous Papers PDF

44. Two unbiased six-faced dice are thrown. The probability the sum on them is a prime, is

- A $\frac{19}{36}$
- B $\frac{17}{36}$
- C $\frac{15}{36}$
- D $\frac{13}{36}$

Answer: C

45. Let F be the set of all functions from the set A of 4 elements to the set B of 6 elements. The probability that f selected at random from F is an injection is

- A $\frac{5}{36}$
- B $\frac{5}{72}$
- C $\frac{5}{432}$
- D $\frac{5}{18}$

Answer: D

Communication Ability

Instructions [146 - 151]

Choose the correct meaning of the word given:

46. **Insolvent**

- A incapable of being solved

- B** unable to pay one's debt
- C** incapable of being dissolved
- D** disobedient

Answer: B

[SSC CHSL Previous Question papers \(download pdf\)](#)

47. **Terrestrial**

- A** worldly
- B** earthly
- C** heavenly
- D** galactic

Answer: C

48. **Emulate**

- A** deny
- B** neglect
- C** imitate
- D** reprimand

Answer: C

49. **Progeny**

- A** genie
- B** commandant
- C** descendant
- D** engineer

Answer: C

SSC CHSL Free Mock Test

50. **Unrelenting**

- A** extremely determined

- B** extremely weak
- C** extremely flexible
- D** extremely sympathetic

Answer: A

51. **Obstinate**

- A** obscure
- B** inflexible
- C** flexible
- D** obese

Answer: B

Instructions [152 - 155]

Fill the Blank choosing the correct word

52. **One who anticipates the worst at all instances is described as a/an -----**

- A** optimist
- B** pessimist
- C** anarchist
- D** democrat

Answer: B

SSC CGL Free Mock Test

53. **As the actions of the officer were uncivil. he had to be -----**

- A** praised
- B** recommended
- C** promoted
- D** reprimanded

Answer: D

54. **The pilot was ----- injured; he died on the spot.**

- A** fatefully

- B** fancifully
- C** fatally
- D** lightly

Answer: C

55. Several news channels provided extensive ----- of the commonwealth games.

- A** network
- B** holocaust
- C** broadcast
- D** coverage

Answer: D

59. Touch screen is

- A** an input device
- B** an output device
- C** an input and output device
- D** a storage device

Answer: C

60. A connection that allows one to move easily between two computer documents on the internet is called

- A** Hyperlink
- B** DNS
- C** URL
- D** HTML

Answer: A

61. A batch of articles sold or bought at one time is known as a

- A** job lot
- B** job centre
- C** job share
- D** jobbing

Answer: A

SBI PO Solved Previous Papers (Download PDF)

62. The abbreviation R.O.I stands for

- A** Real operation income
- B** Return on investment
- C** Range of investment
- D** Roll on investment

Answer: B

63. **Recruiting personnel by offering more pay than competitors is called**

- A** witch hunting
- B** head hunting
- C** competitive recruitment
- D** poaching

Answer: D

64. **In business, normative economics may be described as**

- A** objective and fact based
- B** subjective and opinion based
- C** evidence based
- D** economic policy of a company

Answer: B

SBI Clerk Free Mock Test (Latest Pattern)

65. **Articles that are purchased frequently for immediate use and with a minimum effort are called -----**

- A** Speciality goods
- B** Convenient goods
- C** Retailing goods
- D** Fast moving goods

Answer: B

66. **"Get out". he told the boy**
(change the voice)

- A** The boy was asked by him to get out.
- B** He was asked by the boy to get out.
- C** He was begged to get out.
- D** The boy asked to get out.

Answer: A

67. **A: Their arguments do not rest on sound premises.**
B: From the beginning, their plan was ill-conceived.
B

- A** refutes the arrangement of A
- B** does not totally refute the argument of A
- C** seconds the opinion of A
- D** has reservations about A's opinion

Answer: C

SBI Clerk Previous Papers (Download PDF)

68. **A: Excuse me. Can I have a copy of Oxford Dictionary?**
B: I'm afraid we ran out of stock. just yesterday.
In this conversation

- A** B is getting ready to give the dictionary
- B** B expresses his inability to give the dictionary
- C** B speaks arrogantly about the dictionary
- D** B is hesitating to give the dictionary

Answer: B

69. The officers were hand in glove with the corrupt publications. The underlined phrase means

- A** not bothered
- B** totally indifferent
- C** colluded
- D** disagreed

Answer: C

70. I walked a long distance ----- foot.

- A on
- B by
- C indifferent
- D at

Answer: A

Answer: C

Instructions [181 - 185]

Read the following passage and answer questions.

Passage:

Gandhiji was of a ripe age. but he was still full of vitality and his capacity for work was prodigious. The end came suddenly by the hand of an assassin. India was shocked and the world grieved. and to those of us who were more intimately connected with him the shock and sorrow was hard to bear. And yet perhaps. it was a

fitting close to a magnificent career and in his death. as in his life, he served the cause to which he had devoted himself. None of us would have liked to see him gradually fade in body and mind with increasing years. And so he died. as he had lived. a bright star of hope and achievement. the Father of the Nation which had been shaped and trained by him for half a century.

To those who had the high privilege of being associated with him in some of his innumerable activities, he

will ever remain the embodiment of youthful energy.

We shall not think of him as an old man, but rather as one who represented with the vitality of spring the birth of a new India. To a younger generation who did not come in personal contact with him, he is a tradition and numerous stories are woven round his name and activities. He was great in his life. He is greater since he passed away.

81. 'Prodigious' in the opening line means

- A extremely hardworking
- B extremely dedicated
- C extremely great
- D unbelievable

Answer: C

82. The author was ----- Gandhi.

- A a stranger to
- B a friend to

Instructions [186 - 190]

Read the passage below and choose the correct answer

Passage:

Communication is essentially a social affair. Man has evolved a host of different systems of communication. which render his social life possible—social life not in the sense of living in packs for hunting or for making war, but in a sense unknown to animals. Most prominent among all these systems of communication is of course, human speech and language. Human language is not to be equated with the sign system of animals: he can with his remarkable faculties of speech give utterance to almost any thought. Speech and writing are by no means our only system of communication. Social intercourse is greatly strengthened by habits of gesture — little movements of the hand and face. Also. we have economic systems for trafficking not in ideas but in material goods and services; the tokens of communication are coins, bonds, letters of credit and so on. But life in the modern world is coming to depend more and more upon 'technical' means of communication. telephone and telegraph, radio and printing. Without such technical aids the modern city —state could not exist one week,for it is only by means of them that trade and business can proceed.

86. What renders social life possible for man?

A different systems of communication

B living in packs

C making war

D living away from animals

Answer: A

87. The author believes that speech and writing are

A our only means of communication

- B** not our only means of communication

- D** signs

Answer: B

90. The modern world banks upon ----- kind of communication.

- A** physical
- B** religious
- C** technical
- D** economic

Answer: C

Instructions [191 - 195]

Read the following passage and answer question

Passage:

Now, if there are groups of people who have a claim to other people's labour and self-denial, and if there are other people's labour and self-denial, and if there are other people whose labour and self-denial liable to

be claimed by the first groups. then there certainly are "classes". and classes of the oldest and most vicious type. For a man who can command another man's labour and self-denial for the support of his own existence is a privileged person of the highest species conceivable on earth. Princes and pampers meet on this plane. and no other men are on it. On the other hand, a man whose labour and self-denial may be diverted from his maintenance to that of some other man is not a freeman, and approaches more or less toward the position of a slave. Therefore we shall find that. in all the notions which we are to discuss. this elementary contradiction. that there are classes and that there are not classes, will produce repeated confusion and absurdity. We shall find that. in our efforts to eliminate the old vices of class government. we are impeded and defeated by new products of the worst possible distinction — the right to claim and the duty to give one man's effort for another man's satisfaction. We shall find that effort to realize equality necessitates a sacrifice of liberty.

It is very popular to pose as a "friend of humanity". or a "friend of the working classes". Anything which has a charitable sound generally passes without investigation, because it is disagreeable to assail it. Whatever may be one's private sentiments. the fear of appearing cold and hard-hearted causes these conventional theories of social duty and these assumptions of social fact to pass unchallenged.

91. Which word in the opening line indicates that the passage is taken from the middle of a text?

- A first
- B there
- C now
- D other

Answer: C

SSC CHSL Previous Question papers (download pdf)
