

11DD 44 – I (15)

B.Sc. I Semester Degree Examination, November 2011

COMPUTER SCIENCE

Introduction to Computers and 'C' Programming

Time: 3 Hours

Max. Marks: 80

Instruction : All the Sections are compulsory.

Answer any ten of the following :

(10×2=20)

- 1) Write the characteristics of computer.
- 2) Write the functions performed by the control unit.
- 3) Convert :
 - a) $27_{(10)}$ to binary
 - b) $171_{(10)}$ to hexadecimal.
- 4) Write the logic diagram and truth table for NOR gate.
- 5) Define ROM.
- 6) Define operating system.
- 7) Distinguish between LAN and WAN.
- 8) List out valid and invalid identifier :

a) sal-net	b) 32 MBRAM
c) lot amt	d) internet.
- 9) Write the output of the following statement :
 If the string – “Computer is a fantastic machine” is
 input : a) `printf (“%s”, messag);`
 b) `printf (“%25s”, messag);`
- 10) Write the flowchart and syntax for if else statement.
- 11) Distinguish between :
 - a) While and do-while
 - b) Break and continue.
- 12) List the internal commands using DOS.

II. Answer any five of the following :

(5×6=30)

Paper -
Micro

Time: 3

- 1) Why input devices are needed ? Explain any three input devices.
- 2) Write the difference between assembly language and high-level language.
- 3) Give the basic structure of a 'C' program with example.
- 4) List the different types of operator in C and explain the following with example.
 - a) Relational operator
 - b) Conditional operator.
- 5) Write a 'C' program to generate and print prime numbers upto an integer n.
- 6) What is an array ? How arrays are declared and initialized ? Give example.
- 7) What is looping ? Explain the type of looping.
- 8) List and explain the character type functions in C. Give example.

III. Answer any three of the following :

(3×10=30)

- 1) Give the functional diagram of computer and explain each block.
- 2) Write a 'C' program to find NORM and TRACE of a matrix.
- 3) Explain the different type of printer in detail.
- 4) Write a 'C' program to illustrate the working of switch statement.
- 5) What are the modes of operation ? Explain.
