Quantitative Techniques and Data Interpretation

Instructions [1 - 3]

Study the pie chart and table and answer the questions

Store	Respective ratio of number of linen kurtis to cotton kurtis sold
A	7 : 5
B	5 : 6
C	3 : 2
D	5 : 3
E	4 : 3
F	7 : 3

Distribution of total no. of Kurtis (cotton and linen) sold by six different stores in 2016, where total kurtis sold are 84,000.

1. Number of kurtis (linen and cotton) sold by store D is what percent more than the number of linen kurtis sold by store B?

- | | |
|----------|-----|
| A | 16% |
| B | 20% |
| C | 24% |
| D | 18% |

CMAT Mock Test

2. What is the difference between average number of linen kurtis sold by stores D and E together and average number of cotton kurtis sold by the same stores together?

- A** 2920
- B** 2880
- C** 2940
- D** 3060

3. What is the respective ratio between number of kurtis (linen and cotton) sold by store C and number of linen kurtis sold by store F?

A 30 : 41

B 40 : 49

C 22 : 31

D 20 : 29

4. The graphs of $ax + by = c$, $dx + ey = f$ will be,
(A) Parallel if the system has no solution.
(B) Coincident if the system has finite number of solutions.
(C) Intersecting if the system has two solutions
(D) Intersecting if the system has only one solution
Choose the correct answer from the options given below :

A A and B only

B B and C only

C A and D only

D B and D only

5. A container is filled with liquid, 6 part of which are water and 10 part milk. How much of the mixture must be drawn off and replaced with water, so that the mixture may be half water and half milk?

A $\frac{1}{3}$

B $\frac{1}{7}$

C $\frac{1}{5}$

D $\frac{1}{8}$

A video solution thumbnail for question 5. It shows a hand-drawn diagram of a container with 16L of liquid, consisting of 6L water and 10L milk. A large play button is overlaid on the diagram. To the right, there are calculations: $\frac{6}{16} \times w$ and $\frac{10}{16} \times m$. Below the diagram, there are more calculations: $6 - 6x + \frac{10 - 10x}{16}$. The video is by Cracku.

VIDEO SOLUTION

6. There are two numbers which are greater than 21 and their LCM and HCF are 3003 and 21 respectively. What is the sum of these numbers?

- A 504
- B 508
- C 514
- D 528

7. Match List I with List II :

List I (Regular Price and Sale Price)		List II (Discount)	
A.	Regular Price : ₹ 65 Sale Price : ₹ 55	I.	13.33%
B.	Regular Price : ₹ 60 Sale Price : ₹ 50	II.	15.38%
C.	Regular Price : ₹ 70 Sale Price : ₹ 50	III.	16.66%
D.	Regular Price : ₹ 75 Sale Price : ₹ 65	IV.	14.29%

Choose the correct answer from the options given below :

- A (A)-(III), (B)-(IV), (C)-(I), (D)-(II)
- B (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
- C (A)-(II), (B)-(I), (C)-(III), (D)-(IV)
- D (A)-(III), (B)-(I), (C)-(IV), (D)-(II)

Match List I with List II :

List I (Regular Price and Sale Price)	List II (Discount)
A. Regular Price : ₹ 65 Sale Price : ₹ 55	I. 13.33%
B. Regular Price : ₹ 60 Sale Price : ₹ 50	II. 15.38%
C. Regular Price : ₹ 70 Sale Price : ₹ 50	III. 16.66%
D. Regular Price : ₹ 75 Sale Price : ₹ 65	IV. 14.29%

Choose the correct answer from the options given below :

A) (A)-(III), (B)-(IV), (C)-(I), (D)-(II)
 B) (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
 C) (A)-(II), (B)-(I), (C)-(III), (D)-(IV)
 D) (A)-(III), (B)-(I), (C)-(IV), (D)-(II)

Handwritten solution for option C:

$$\text{SP} = \text{RP} (1 - \% \text{Discount})$$

$$\% \text{Discount} = \left(\frac{\text{RP} - \text{SP}}{\text{RP}} \right) \times 100\%$$

For C: $\text{RP} = 70, \text{SP} = 50$

$$\% \text{Discount} = \left(\frac{70 - 50}{70} \right) \times 100\% = \frac{20}{70} \times 100\% = 28.57\%$$

For B: $\text{RP} = 60, \text{SP} = 50$

$$\% \text{Discount} = \left(\frac{60 - 50}{60} \right) \times 100\% = \frac{10}{60} \times 100\% = 16.67\%$$

8. In terms of percentage profit, arrange the following transactions in decreasing order.

- (A) Cost price : ₹36, Profit: ₹17
 (B) Cost price : ₹50, Profit : ₹24
 (C) Cost price : ₹40, Profit : ₹19
 (D) Cost price : ₹60, Profit : ₹29

Choose the correct answer from the options given below:

- A $D > C > B > A$
 B $D > B > C > A$
 C $B > D > C > A$
 D $B > C > A > D$

In terms of percentage profit, arrange the following transactions in decreasing order.
 (A) Cost price : ₹36, Profit: ₹17
 (B) Cost price : ₹50, Profit : ₹24
 (C) Cost price : ₹40, Profit : ₹19
 (D) Cost price : ₹60, Profit : ₹29
 Choose the correct answer from the options given below:

Handwritten calculations:
 A) $\frac{17}{36} \times 100\% = 47.2\%$
 B) $\frac{24}{50} \times 100\% = 48\%$
 C) $\frac{19}{40} \times 100\% = 47.5\%$
 D) $\frac{29}{60} \times 100\% = 48.3\%$

Options:
 A) $D > C > B > A$
 B) $D > B > C > A$
 C) $B > D > C > A$
 D) $B > C > A > D$

Correct answer: B

VIDEO SOLUTION

9. A Glass Jar contains 1 Red, 3 Green, 2 Blue and 4 Yellow marbles. If a single marble is chosen then Match List I with List II :

List I		List II	
A.	Probability of yellow marble	I.	$\frac{3}{10}$
B.	Probability of green marble	II.	$\frac{7}{10}$
C.	Probability of either green or yellow marble	III.	$\frac{1}{2}$
D.	Probability of either red or yellow	IV.	$\frac{4}{10}$

Choose the correct answer from the options given below:

- A (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
 B (A)-(I), (B)-(IV), (C)-(II), (D)-(III)
 C (A)-(IV), (B)-(I), (C)-(II), (D)-(III)
 D (A)-(IV), (B)-(II), (C)-(III), (D)-(I)

10. Ice-cream, completely filled in a cylinder of diameter 35 cm and height 32 cm, is to be served by completely filling identical disposable cones of diameter 4 cm and height 7 cm. The maximum number of cones that can be used in this way is

- A 950
- B 1000
- C 1050
- D 1100

CMAT Syllabus PDF

11. 3 men and 18 women together take 2 days to complete a piece of work. How many days will 9 women alone take to complete the piece of work; if 6 men alone can complete the piece of work in 3 days?

- A 5
- B 6
- C 7
- D 9

3 men and 18 women together take 2 days to complete a piece of work. How many days will 9 women alone take to complete the piece of work; if 6 men alone can complete the piece of work in 3 days?

A) 5 B) 6
C) 7 D) 9

$1 \text{ man} = 1 \text{ unit/day}$
 $6 \text{ men} \times 3 = 18 \text{ units}$

VIDEO SOLUTION

12. Given below are two statements :

Statement I: If two chords XY and ZT of a circle intersects internally at point P, then $PX \cdot PY = PZ \cdot PT$

Statement II: If two chords XY and ZT of a circle intersect internally at point P, then $\triangle PXZ$ and $\triangle PTY$ are similar triangles.

In the light of the above statements, choose the correct answer from the options given below:

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false
- D Statement I is false but Statement II is true

13. If $a\%$ of $a + b\%$ of $b = 2\%$ of ab , then what percent of a is b ?

- A 25%
- B 50%
- C 75%
- D 100%

VIDEO SOLUTION

CMAT Percentile Predictor

14. Given below are two statements :

Statement I: The perimeter of a triangle is greater than the sum of its three medians.

Statement II: In any triangle ABC, if D is any point on BC, then $AB + BC + CA > 2 AD$.

In the light of the above statements, choose the correct answer from the options given below :

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false
- D Statement I is false but Statement II is true

15. A player can take a maximum of 4 chances to hit a bottle with a flying disc. The probability of hitting the bottle at the first, second, third and fourth shots are 0.1, 0.2, 0.35 and 0.45 respectively. What is the probability that the player hits the bottle with the flying disc?

- A 0.6573
- B 0.2574
- C 0.7426
- D 0.3427

16. A vessel of 160 L is filled with milk and water. 70% of milk and 30% of water is taken out of the vessel. It is found out that the vessel is vacated by 55%, then the quantity of milk and water in the original mixture is

- A Milk = 100 L; Water = 60 L

- B Milk = 60 L; Water = 100 L
- C Milk = 90 L; Water = 70 L
- D Milk = 70 L; Water = 90 L

17. There are 10 stations on a railway line. The number of different journey tickets that are required by the authorities, is

- A 92
- B 90
- C 91
- D 93

18. Which two figures will have same area?

- (A) Circle with diameter of 14 cm.
- (B) Rectangle with length 12 cm and breadth 10 cm.
- (C) Rectangle with length 14 cm and breadth 11 cm.
- (D) Square with side 12 cm.

Choose the correct answer from the options given below. Assume that $\pi = \frac{22}{7}$

- A A and B only
- B B and D only
- C A and C only
- D A and D only

Which two figures will have same area?

(A) Circle with diameter of 14 cm.

(B) Rectangle with length 12 cm and breadth 10 cm.

(C) Rectangle with length 14 cm and breadth 11 cm.

(D) Square with side 12 cm.

Choose the correct answer from the options given below. Assume that $\pi = \frac{22}{7}$

A) A and B only B) B and D only

C) A and C only D) A and D only

Handwritten calculations: $D=14\text{cm}$, $R=7\text{cm}$, $\text{Area} = \pi R^2$, $= \frac{22}{7} \times 7 \times 7$, $= 154\text{ cm}^2$

VIDEO SOLUTION

19. Arrange the following surds in increasing order :

- (A) $\sqrt[3]{2}$
- (B) $\sqrt{3}$

- (C) $\sqrt[4]{5}$
 (D) $\sqrt[6]{7}$

Choose the correct answer from the options given below :

- A $A < B < C < D$
 B $D < A < C < B$
 C $D < B < C < A$
 D $A < D < C < B$

20. Mr. Seth inherits 2505 gold coins and divides them among his three sons : Brij, Purab and Mohan in a certain ratio. Out of the total coins received by each of them, Brij sells 30 coins, Purab donates his 30 coins and Mohan loses 25 coins. Now, the ratio of gold coins with them is 46 : 41 : 34 respectively. How many coins did Purab receive from his father?

- A 705
 B 950
 C 800
 D 850

VIDEO SOLUTION

Logical Reasoning

21. Find the next term in the series
 XRF, UTI, RVM, _____.

- A OWP
 B OXR

C QXR

D OXP

22. 'Fire' is related to 'Ashes' in the same way as 'Explosion' is related to :

- A Sound
- B Debris
- C Explosive
- D Flames

VIDEO SOLUTION

23. A clock is set right at 10 am. The clock gains 10 minutes in a day. What will be the true time when the watch indicates 3 pm the next day?

- A 12 minutes past 2 pm
- B 45 minutes past 2 pm
- C 32 minutes past 2 pm
- D 48 minutes past 2 pm

24. A and B are twins. B's sister is C. D is the husband of C. A's mother is E. E is wife of F. How is F related to D?

- A Uncle
- B Brother in law
- C Father in law
- D Son in law

A and B are twins. B's sister is C. D is the husband of C. A's mother is E. E is wife of F. How is F related to D?

A) Uncle
B) Brother in law
C) Father in law
D) Son in law

VIDEO SOLUTION

25. Consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement.

Statement:

The entire north India, including Delhi remained 'power less' the whole day of 19th December as the northern grid supplying electricity to seven states collapsed yet again.

Assumptions :

- I. The northern grid had collapsed earlier.
- II. The grid system of providing electricity to a group of states is an ineffective type of power supply system.

- A Only assumption I is implicit
- B Only assumption II is implicit
- C Neither assumption I nor II is implicit
- D Both assumptions I and II are implicit

Consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement.

Statement:
The entire north India, including Delhi remained 'power less' the whole day of 19th December as the northern grid supplying electricity to seven states collapsed yet again.

Assumptions :
I. The northern grid had collapsed earlier.
II. The grid system of providing electricity to a group of states is an ineffective type of power supply system.

A) Only assumption I is implicit
B) Only assumption II is implicit
C) Neither assumption I nor II is implicit
D) Both assumptions I and II are implicit

VIDEO SOLUTION

26. Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): Tides indicate the regular and periodic rise and fall in the sea level.

Reasons (R) : Tides are caused by the gravitational pull of the moon and sea level.

In the light of the above statements, choose the correct answer from the options given below :

- A Both (A) and (R) are true and (R) is the correct explanation of (A)
- B Both (A) and (R) are true but (R) is not the correct explanation of (A)
- C (A) is true but (R) is false
- D (A) is false but (R) is true

27. The following question consists of a statement and argument I and II. Choose the best option.

Statement : Should judiciary be independent of the executive.

Arguments: I. Yes, This would help curb the unlawful activities of the executive.

II. No, the executive would not be able to take bold measures.

- A Only argument I is strong
- B Only argument II is strong
- C Neither argument I nor argument II is strong
- D Both arguments I and II are strong

The following question consists of a statement and argument I and II. Choose the best option.
Statement : Should judiciary be independent of the executive?
Arguments: I. Yes, This would help curb the unlawful activities of the executive.
II. No, the executive would not be able to take bold measures.

A) Only argument I is strong
B) Only argument II is strong
C) Neither argument I nor argument II is strong
D) Both arguments I and II are strong

31. In a row of girl students facing north, Radhika is 10^{th} to the left of Purnima who is 21^{st} from the right end. If Monika who is 17^{th} from the left end is 4^{th} to the right of Radhika, how many students are there in the row?
- A 37
 B 44
 C 43
 D Data is insufficient
32. At sunrise, Ajay and Vijay are having a conversation standing in front of each other. The shadow of Vijay is formed towards the right hand of Ajay. What direction is Vijay facing?
- A North-East
 B South
 C East
 D North

cracku

At sunrise, Ajay and Vijay are having a conversation standing in front of each other. The shadow of Vijay is formed towards the right hand of Ajay. What direction is Vijay facing?

A) North-East
 B) South
 C) East
 D) North

33. Seeta and Geeta start moving towards each other from two places 200 m apart. After walking 40 m, Geeta turns left and goes 15 m, then she turns right and goes 25 m. She then turns right again and comes back to the road on which she had started walking. If Seeta and Geeta walk with the same speed, what is the distance between them now?

- A 40 m
- B 35 m
- C 55 m
- D 65 m

34. Find the odd one among the following :

- A Death : Disease
- B Grape : Wine
- C Milk: Butter
- D Water: Oxygen

35. If RAIN is written as 66, then CLOUD is written as

- A 55
- B 72
- C 94
- D 80

36. A set of figures carrying certain characters is given below. Assuming that the characters in each set follow same pattern, find the missing character.

- A 127
- B 142
- C 146
- D 182

A set of figures carrying certain characters is given below. Assuming that the characters in each set follow same pattern, find the missing character.

A) 127
B) 142
C) 146
D) 182

VIDEO SOLUTION

37. In the following number series, only one number is wrong, find out the wrong number
888, 454, 237, 128.5, 76.25, 47.125

- A 76.25
- B 454
- C 128.5
- D 237

38. If 8th February, 2005 was a Tuesday, then what was the day on 8th February, 2004?

- A Tuesday
- B Monday
- C Sunday
- D Wednesday

If 8th February, 2005 was a Tuesday, then what was the day on 8th February, 2004?

A) Tuesday
B) Monday
C) Sunday
D) Wednesday

Instructions [48 - 50]

In the Below passage there are blanks, each of which has been numbered. Find out the appropriate option in each case to replace the given numbers.

Comprehension:

This particular scepticism of the reach of reasoning (I)_____ not yield - nor (as Appiah makes clear) is it intended to yield - any ground for not using reason to the extent one can, in (II)_____ the idea of justice or any other notion of social relevance, such as identity. Nor does it undermine the case for our trying to persuade each other to scrutinize our respective conclusions. It is also important to note that what may appear to others as clear examples of 'unreason' may not always be exactly that. Reasoned discussion can accommodate conflicting positions that may appear to others to be 'unreasoned' prejudice, without this being quite the case. There is no compulsion, as is sometimes (III)_____ to eliminate every reasoned alternative except exactly one.

48. Pick the appropriate replacement for (II)

- A pursue
- B persuades
- C pursuit
- D persuading

49. Pick the appropriate replacement for (I)

- A does
- B do
- C has
- D have

50. Pick the appropriate replacement for (III)

- A assumes

- B assume
- C assumed
- D assuming

51. Given below are two statements:

Statement I: "HARDLY" can be used to say that something is just true or possible.

Statement II: "HARDLY" is a negative word and should not be used with **not** or other negatives.

In the light of the above statements, choose the correct answer from the options given below :

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false
- D Statement I is false but Statement II is true

VIDEO SOLUTION

52. Rearrange the following sentences to get a meaningful paragraph.

- (A) However, Indian girls have not matched this rate of access to education.
- (B) Still the Indian girl child has been deprived of the gift, as largely girls are not considered worthy of literacy.
- (C) The power of education in transforming communities is a gift that has changed India in the last few decades.
- (D) India has seen a substantial increase in primary school enrolment due to the Right to Education (RTE) Act 2009

Choose the correct answer from the options given below :

- A B A C D
- B A C B D
- C C B D A
- D D C B A

cracku

Rearrange the following sentences to get a meaningful paragraph.
 (A) However, Indian girls have not matched this rate of access to education.
 (B) Still the Indian girl child has been deprived of the gift, as largely girls are not considered worthy of literacy.
 (C) The power of education in transforming communities is a gift that has changed India in the last few decades.
 (D) India has seen a substantial increase in primary school enrolment due to the Right to Education (RTE) Act 2009

54. Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).

"I wish it were possible."

Assertion (A) : Despite the fact that the above sentence lacks subject-verb concord, as per the English Grammar, it is a syntactically correct sentence.

Reasons (R) : It is a syntactically correct sentence because in subjunctive mood (of verb) even singular

subject is followed by a plural verb.

In the light of the above statements, choose the correct answer from the options given below :

- A Both (A) and (R) are true and (R) is the correct explanation of (A)
- B Both (A) and (R) are true but (R) is NOT the correct explanation of (A)
- C (A) is true but (R) is false
- D (A) is false but (R) is true

cracku

Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).
"I wish it were possible." ←
Assertion (A) : Despite the fact that the above sentence lacks subject-verb concord, as per the English Grammar, it is a syntactically correct sentence.
Reasons (R) : It is a syntactically correct sentence because in subjunctive mood (of verb) even singular subject is followed by a plural verb.
In the light of the above statements, choose the correct answer from the options given below :

A) Both (A) and (R) are true and (R) is the correct explanation of (A) B) Both (A) and (R) are true but (R) is NOT the correct explanation of (A)
C) (A) is true but (R) is false D) (A) is false but (R) is true

subjunctive mood →

A

VIDEO SOLUTION

55. Rearrange the following components to get a meaningful sentence.

- (A) The Buddha
- (B) of his time and
- (C) dissented against the orthodoxy
- (D) the eightfold path stood revealed

Choose the correct answer from the options given below:

- A A B C D
- B A C B D
- C D A C B
- D A B D C

cracku

Rearrange the following components to get a meaningful sentence.
(A) The Buddha
(B) of his time and
(C) dissented against the orthodoxy
(D) the eightfold path stood revealed
Choose the correct answer from the options given below:

A) A B C D B) A C B D
C) D A C B D) A B D C

VIDEO SOLUTION

56. Match List I with List II :

List I		List II	
A.	Fits and starts	I.	At appropriate time
B.	In less than no time	II.	At intervals
C.	Once in a blue moon	III.	In a moment
D.	On the dot	IV.	Rarely

Choose the correct answer from the options given below:

- A (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
- B (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
- C (A)-(III), (B)-(II), (C)-(I), (D)-(IV)
- D (A)-(IV), (B)-(III), (C)-(II), (D)-(I)

Match List I with List II :

List I	List II
A. Fits and starts	I. At appropriate time
B. In less than no time	II. At intervals
C. Once in a blue moon	III. In a moment
D. On the dot	IV. Rarely

Choose the correct answer from the options given below:

A) (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
 B) (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
 C) (A)-(III), (B)-(II), (C)-(I), (D)-(IV)
 D) (A)-(IV), (B)-(III), (C)-(II), (D)-(I)

cracku

VIDEO SOLUTION

57. Given below are two statements :

Statement I: "VERY" is used with adjectives, past participles used as adjectives and adverbs.

Statement II: But "VERY" is not used with past participles that have a passive meaning.

In the light of the above statements, choose the correct answer from the options given below:

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false
- D Statement I is false but Statement II is true

cracku

Given below are two statements :

Statement I: "VERY" is used with adjectives, past participles used as adjectives and adverbs.

Statement II: But "VERY" is not used with past participles that have a passive meaning.

In the light of the above statements, choose the correct answer from the options given below:

A) Both Statement I and Statement II are true
 B) Statement I and Statement II are false
 C) Statement I is true but Statement II is false
 D) Statement I is false but Statement II is true

very happy
 ad → very excited
 very good

VIDEO SOLUTION

58. Match List I with List II :

List I		List II	
A.	Alma mater	I.	Reasonable value of service
B.	De Jure	II.	One's own old school/college
C.	Ipso facto	III.	By the fact
D.	Quantum meruit	IV.	As a matter of legal right

Choose the correct answer from the options given below :

- A (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
- B (A)-(II), (B)-(IV), (C)-(III), (D)-(I)
- C (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
- D (A)-(IV), (B)-(III), (C)-(II), (D)-(I)

Instructions [59 - 60]

Comprehension:

All the great religious teachers of mankind have insisted on this : that men ought not to live for themselves alone. We ought not, they have said, to spend all our time and energy in getting just what we want for ourselves, power and money and importance in the world; we ought to serve something greater than ourselves, whether a god or a cause or our fellowmen. It is by serving this something greater that men will forget themselves and so achieve happiness. This or something like it is what the great religions have taught, and it is one of the most important of the things that civilization means. It is also the hardest to learn and practise; in fact, most people have found it much too hard.

59. Which of the following terms is closer to the central idea of the given passage?

- A Nationalism
- B Materialism
- C Humanism
- D Altruism

Comprehension:

All the great religious teachers of mankind have insisted on this : that men ought not to live for themselves alone. We ought not, they have said, to spend all our time and energy in getting just what we want for ourselves, power and money and importance in the world; we ought to serve something greater than ourselves, whether a god or a cause or our fellowmen. It is by serving this something greater that men will forget themselves and so achieve happiness. This or something like it is what the great religions have taught, and it is one of the most important of the things that civilization means. It is also the hardest to learn and practise; in fact, most people have found it much too hard.

do not live for only yourself
(Universal)

VIDEO SOLUTION

60. What does the passage suggest overall?

- (A) It suggests humanism as a religious practice.
- (B) It holds nationalism as the most cherished sentiment in society.
- (C) It holds altruism as a universal value.
- (D) It holds humanism as the most important thing in human life.
- (E) It puts altruism in the binary of selfishness.

Choose the correct answer from the options given below :

- A A and B only
- B A and D only
- C B and D only
- D C and E only

Comprehension:

All the great religious teachers of mankind have insisted on this: that men ought not to live for themselves alone. We ought not, they have said, to spend all our time and energy in getting just what we want for ourselves, power and money and importance in the world; we ought to serve something greater than ourselves, whether a god or a cause or our fellowmen. It is by serving this something greater that men avoid selfishness and so achieve happiness. This or something like it is what the great religions have taught, and it is one of the most important of the things that civilization means. It is also the hardest to learn and practise; in fact, most people have found it much harder.

do not live for only goals

- A Switzerland
- B Netherland
- C Poland
- D Holland

71. Match List I with List II :

List I		List II	
A.	Warren Hastings	I.	Father of civil services in india
B.	Lord Cornwallis	II.	Introduction of subsidiary Alliance
C.	Lord Wellesley	III.	Establishment of Ryotwari system
D.	Lord Hastings	IV.	Abolition of Dual Government

Choose the correct answer from the options given below :

- A (A)-(IV), (B)-(I), (C)-(II), (D)-(III)
- B (A)-(I), (B) -(II), (C)-(III), (D)-(IV)
- C (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
- D (A)-(I), (B)-(IV), (C)-(II), (D)-(III)

72. The youngest Prime Minister in the history of India was

- A Indira Gandhi
- B J.L. Nehru
- C Rajiv Gandhi
- D Choudhary Charan Singh

73. Match List I with List II :

List I (Viceroys of India)		List II (Known for the Events)	
A.	Lord Canning	I.	The Vernacular Press Act
B.	Lord Lytton	II.	The Indian Universities Act
C.	Lord Ripon	III.	Revolt of 1857
D.	Lord Curzon	IV.	The founding father of local self governance in India

Choose the correct answer from the options given below :

- A (A)-(II), (B)-(I), (C)-(III), (D)-(IV)
- B (A)-(IV), (B)-(III), (C)-(II), (D)-(I)
- C (A)-(III), (B)-(I), (C)-(IV), (D)-(II)
- D (A)-(I), (B)-(IV), (C)-(III), (D)-(II)

74. Given below are two statements :

Statement I: Vitamin-A, Vitamin-B and Vitamin-C all are fat soluble vitamins.

Statement II: Vitamin-D, Vitamin-K and Vitamin-E all are water soluble vitamins.

In the light of the above statements, choose the correct answer from the options given below :

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false
- D Statement I is false but Statement II is true

75. Rudyard Kipling is the famous writer of which of the following book?

- A The Brief History of Time
- B The Pie
- C Jungle Book
- D The Republic

76. Which of the following is not a scalar Quantity?

- A Speed
- B Work
- C Force
- D Volume

77. Which of the following statements are correct?

- (A) Jainism came into existence around 600 B.C. in India.
 - (B) There were 24 Tirthankaras in Jainism.
 - (C) First Tirthankar was Swami Mahavira.
 - (D) The last and 24th Tirthankara was Rishabhadeva.
 - (E) Jainism accept the idea of existance of God and believe in caste system.
- Choose the correct answer from the options given below :

- A A, B and C only
- B B, C and D only
- C A and B only
- D C, D and E only

78. Arrange the following Indian Defence organization in terms of their foundation year

- (A) Border Security Force (BSF)
- (B) Indian Air Force (IAF)
- (C) National Cadet Corps (NCC)
- (D) National Security Guards (NSG)
- (E) Central Industrial Security Force (CISF)

Choose the correct answer from the options given below :

- A A, B, E, D, C
- B B, A, C, E, D
- C B, A, E, D, C
- D B, C, A, E, D

79. Given below are two statements :

Statement I: In Indus valley civilization, houses were made of Bricks.

Statement II: Indus valley civilization were not familiar with cotton.

In the light of the above statements, choose the correct answer from the options given below :

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false

- D Statement I is false but Statement II is true

80. Given below are two statements :

Statement I: The Abbreviation of ASCII is, Army standard code for information interchange.

Statement II: The abbreviation of COBOL is, computer Business oriented language.

In the light of the above statements, choose the correct answer from the options given below :

- A Both Statement I and Statement II are true
- B Both Statement I and Statement II are false
- C Statement I is true but Statement II is false
- D Statement I is false but Statement II is true

81. Design thinking has following important stages. Arrange in a sequence.

- (A) Define
- (B) Empathize
- (C) Prototype
- (D) Test
- (E) Ideate

Choose the correct answer from the options given below:

- A B, A, E, C, D
- B B, E, A, D, C
- C A, B, C, D, E
- D A, B, C, E, D

82. Critical evaluation points of Entrepreneurship Development Programmes (EDPs) are:

- (A) Organisational Policies
- (B) Suitable selection procedure of trainees and Faculty
- (C) Quality of Technical and Vocational Education and Training
- (D) Organisation associated in the EDP

Choose the correct answer from the options given below :

- A C, D only
- B A, B, C, D only

C A, B, C only

D B, D only

83. Following are the reasons of the success of entrepreneurial ventures

(A) Effective Market Research

(B) Good Financial Control

(C) Good Management

(D) Caste of Entrepreneur

(E) Good Idea

Choose the correct answer from the options given below :

A B, C, D only

B A, C, D only

C A, B, C, E only

D B, D, E only

84. Given below are two statements :

Statement I: Dividing the market in small niches is known as targeting.

Statement II: Segmentation and targeting are essential components of understanding the market and tap it effectively.

In the light of the above statements, choose the correct answer from the options given below:

A Both Statement I and Statement II are true

B Both Statement I and Statement II are false

C Statement I is true but Statement II is false

D Statement I is false but Statement II is true

85. Hands-on learning can be best taught through.

(A) Case study analysis

(B) Entrepreneurial Audit

(C) Entrepreneurial profiling

(D) Class discussion

(E) Focused group discussion

Choose the correct answer from the options given below :

A A, B, C only

B C, D, E only

C A, B, E only

D A, B, C, D only

86. Shaadi.com, an online match making service is an example of following start up model

- A Subscription based business service model
- B Transaction based business service model
- C Multilevel marketing premium model
- D Relationship based selling

87. Given below are two statements :

Statement I: Business ideation is important aspect of venture creation.

Statement II: Conversation that happens in an elevator is known as elevator pitch.

In the light of the above statements, choose the most appropriate answer from the options given below :

- A Both Statement I and Statement II are correct
- B Both Statement I and Statement II are incorrect
- C Statement I is correct but Statement II is incorrect
- D Statement I is incorrect but Statement II is correct

88. Along with goal setting, major concerns for a growing enterprise are

- (A) Time management.
- (B) Finding, retaining and motivating able human resource
- (C) Finding new financiers
- (D) Diversification and export potential
- (E) Performance measurement and incentives

Choose the correct answer from the options given below :

- A A, B, C, D, E
- B A, C, D, E only
- C B, C, D only
- D A, B, E only

89. Which of the following factors are **not** relevant for judging the adequacy of market?

- A Labour Market
- B Domestic Market Demand
- C Export Market Demand
- D Competitors and their market shares

90. Given below are two statements :

Statement I: Changing competition in market place is the primary reason for govt involvement in business globally.

Statement II: Increase in cost of production is the primary reason for govt in business globally.

In the light of the above statements, choose the most appropriate answer from the options given below :

- A** Both Statement I and Statement II are correct
- B** Both Statement I and Statement II are incorrect
- C** Statement I is correct but Statement II is incorrect
- D** Statement I is incorrect but Statement II is correct

91. Diffusion of Innovation theory is associated with

- A** Schumpeter
B Peter Drucker
C Fredrick Taylor
D E.M. Rogers

92. Which of the following statements are correct?

- (A) SMILE loans are aimed pursue growth opportunities
(B) SMILE loans are aimed to pay for the earlier loan
(C) SMILE loans are available to both manufacturing and services organisations.
(D) SMILE loans are aimed at setting upstate of the Art manufacturing infrastructure for MSME
(E) SMILE loans are aimed at meeting the consumption needs of farm-based entrepreneurs.

Choose the correct answer from the options given below :

- A** A, B, C only
- B** A, C, D only
- C** B, C, E only
- D** C, D, E only

93. The legal term for brand is

- A** Patent
- B** License
- C** Copyright
- D** Trade mark

94. Match List I with List II :

List I		List II	
A.	Plant and Machinery Records	I.	Design thinking
B.	Profit Statements	II.	Technical feasibility
C.	Creativity and Innovation	III.	Financial feasibility
D.	Empathize	IV.	Business ideation

Choose the correct answer from the options given below:

- A (A)-(I), (B)-(II), (C)-(III), (D)-(IV)
- B (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
- C (A)-(IV), (B)-(I), (C)-(II), (D)-(III)
- D (A)-(II), (B)-(IV), (C)-(III), (D)-(I)

95. Bottom line measures of social performance for an entrepreneur include the following

- (A) Unemployment rate
- (B) Relative Poverty
- (C) GDP Growth
- (D) Average Commute Time
- (E) Illiteracy Rate

Choose the correct answer from the options given below :

- A A, B, D, E only
- B A, C, D, E only
- C A, B, C, D, E only
- D B, C, D, E only

96. 'Entrepreneur' means

- A to struggle
- B to undertake
- C to invent
- D to motivate

97. To maintain consistent business through out the year, an entrepreneur may

- A do multiple businesses at a time
- B have more than one customer segment

C do gurilla marketing and sales promotion

D do business plan

98. Shruti wants to launch a small flora I shop in Nagarbhavi, Bengaluru. As part of business plan, she prepared an engaging. MS Powerpoint presentation to garner interest among potential investors and trigger discussion. This format of business plan is known as

A Business plan

B Pitch deck

C Presentation

D Business talk

99. Match List I with List II :

List I		List II	
A.	Manage	I.	Value addition
B.	Retailer	II.	Gets the work done
C.	Entrepreneur	III.	Works on existing business model
D.	Business Man	IV.	Calculate risk taking

Choose the correct answer from the options given below :

A (A)-(II), (B)-(I), (C)-(IV), (D)-(III)

B (A)-(I), (B)-(II), (C)-(IV), (D)-(III)

C (A)-(II), (B)-(IV), (C)-(III), (D)-(I)

D (A)-(I), (B)-(II), (C)-(III), (D)-(IV)

97.B	98.B	99.A	100.D				

Explanations

Quantitative Techniques and Data Interpretation

1. B

Store	Total	Linen	Cotton
A	13440	7840	5600
B	18480	8400	10080
C	6720	4032	2688
D	10080	6300	3780
E	23520	13440	10080
F	11760	8232	3528

Number of kurtis (linen and cotton) sold by store D = 10080

number of linen kurtis sold by store B = 8400

$$\frac{(10080-8400)}{8400} = \frac{1680}{8400} = \frac{1}{5} = 20\%$$

2. C

Store	Total	Linen	Cotton
A	13440	7840	5600
B	18480	8400	10080
C	6720	4032	2688
D	10080	6300	3780
E	23520	13440	10080
F	11760	8232	3528

The number of linen kurtis sold by stores D and E together = 6300+13440 = 19740

The average is 9870.

The number of cotton kurtis sold by stores D and E together = 3780+10080 = 13860

The average is 6930.

The difference = 9870 - 6930 = 2940

3. B

Store	Total	Linen	Cotton
A	13440	7840	5600
B	18480	8400	10080
C	6720	4032	2688
D	10080	6300	3780
E	23520	13440	10080
F	11760	8232	3528

Ratio between number of kurtis (linen and cotton) sold by store C and number of linen kurtis sold by store F = 6720:8232 = 40:49

4. C

(A) Parallel if the system has no solution: True. If the two lines are parallel, they do not intersect, implying the system of equations has no solution. This occurs when the slopes of the lines are equal but their intercepts differ.

(D) Intersecting if the system has only one solution: True. If the lines intersect at exactly one point, the system has a unique solution. This happens when the lines have different slopes.

(B) Coincident if the system has a finite number of solutions: Incorrect. If the lines are coincident, the system has infinitely many solutions, not a finite number.

(C) Intersecting if the system has two solutions: Incorrect. Two linear equations can intersect at only one point, meaning the system cannot have two solutions.

The nature of the solutions depends on how the lines relate geometrically:

Parallel lines → No solution (A is correct).

Intersecting lines → Unique solution (D is correct).

Lines cannot intersect at more than one point, ruling out C, and coincident lines lead to infinitely many solutions, ruling out B.

Therefore, the correct answer is option C.

5. **C**

Given that currently container has 6 parts of water and 10 parts of milk.

Assume the volume of water to be $6x$ and that of milk to be $10x$

So, the volume of the container is $16x$.

Assume we take out y litre of mixture and replace it with water

So, the resultant mixture will have

$$\left(6x - \frac{6x}{16x} \times y + y\right) \text{ water and}$$
$$\left(10x - \frac{10x}{16x} \times y\right) \text{ milk}$$

Given the volume of water is half of the container i.e. $8x$

$$\text{So, } \left(10x - \frac{10x}{16x} \times y\right) = 8x$$

$$10x - \frac{5}{8}y = 8x$$

$$\text{or, } y = \frac{16x}{5}$$

In terms of container volume

$$\frac{y}{16x} = \frac{\frac{16x}{5}}{16x} = \frac{1}{5}$$

Hence, the answer is Option C

 VIDEO SOLUTION

6. **A**

We are given that the HCF of two numbers is 21. Let the numbers be X, and Y. Then X and Y can be written as,

$X = 21a$ and $Y = 21b$ where a and b are coprimes.

We know that,

product of the numbers = LCM * HCF

$$X * Y = 3003 * 21$$

$$21a * 21b = 3003 * 21$$

$$a * b = 143$$

$$a * b = 11 * 13$$

There are two possibilities for (a,b) with a and b as coprimes, one being (1, 143) and the other being (11, 13). We cannot take (1, 143) because, in this case, one of the numbers would be 21, but we are given that both numbers are greater than 21. So, the numbers X and Y are $21 * 11$ and $21 * 13$, which are 231 and 273. So, the sum of the numbers = $231 + 273 = 504$.

Therefore, the correct answer is option A.

7. **B**

Discount is always calculated on the marked price or the regular price.

A: Regular price = 65, Sale price = 55

Discount = 10

$$\text{Discount \%} = \frac{10}{65} = 15.38\%$$

B: Regular price = 60, Sale price = 50

Discount = 10

$$\text{Discount \%} = \frac{10}{60} = 16.66\%$$

C: Regular price = 70, Sale price = 50

Discount = 20

$$\text{Discount \%} = \frac{20}{70} = 28.57\%$$

(Note: The correct discount percentage should be 28.57%, however, in actual exam, the correct option given was 14.29%)

D: Regular price = 75, Sale price = 65

Discount = 10

$$\text{Discount \%} = \frac{10}{75} = 13.33\%$$

 VIDEO SOLUTION

8. B

$$\text{Percentage profit} = \frac{\text{Profit}}{\text{Cost Price}} \times 100$$

(A) Cost price : ₹36, Profit: ₹17

$$\text{Percentage profit} = \frac{17}{36} \times 100 = 47.22\%$$

(B) Cost price : ₹50, Profit : ₹24

$$\text{Percentage profit} = \frac{24}{50} \times 100 = 48\%$$

(C) Cost price : ₹40, Profit : ₹19

$$\text{Percentage profit} = \frac{19}{40} \times 100 = 47.5\%$$

(D) Cost price : ₹60, Profit : ₹29

$$\text{Percentage profit} = \frac{29}{60} \times 100 = 48.33\%$$

Thus, percentage profits are in this sequence $D > B > C > A$

 VIDEO SOLUTION

9. C

A glass jar contains 1 red, 3 green, 2 blue and 4 yellow marbles.

If a single marble is chosen at random from the jar, the probability of getting a yellow marble = $\frac{\text{no of yellow marbles}}{\text{Total no of marbles}} = \frac{4}{10}$

Probability of getting a green marble = $\frac{\text{no of green marbles}}{\text{Total no of marbles}} = \frac{3}{10}$

Probability of getting either a yellow or a green marble = $\frac{\text{no of yellow or green marbles}}{\text{Total no of marbles}} = \frac{4+3}{10} = \frac{7}{10}$

Probability of getting either a red or a yellow marble = $\frac{\text{no of yellow or red marbles}}{\text{Total no of marbles}} = \frac{4+1}{10} = \frac{5}{10}$

(A)-(IV), (B)-(I), (C)-(II), (D)-(III)

10. C

We know the volume of a cylinder of radius r and height h is $\pi r^2 h$

Given $D = 35$ cm, so $r = 17.5$ cm

Also, $h = 32$ cm

So, Volume = $\pi r^2 h = \pi (17.5)^2 \times 32 \text{ cm}^3$

We know that the volume of a cone of radius r and height h is $\frac{1}{3}\pi r^2 h$

Given the diameter of cone = 4 cm, so the radius = 2 cm

Height = 7 cm

So, the volume of the cone is $\frac{1}{3}\pi r^2 h = \frac{1}{3}\pi (2)^2 \times 7$

To find the maximum number of cones that can be used, divide the volume of the cylinder by the volume of a cone

$$\text{Max cones} = \frac{\pi (17.5)^2 \times 32}{\frac{1}{3}\pi (2)^2 \times 7} = 1050$$

Hence, the answer is 1050.

11. B

Let the work done by 1 man and 1 woman in 1 day, m and w , respectively.

It is given that 3 men and 18 women together take 2 days to complete a piece of work.

Total work = $(3m+18w)*2$

6 men alone can complete the piece of work in 3 days = $6m*3 = 18m$

Work done is the same for both cases.

So, $18m = 6m+36w$

$12m = 36w$

$m = 3w$

Total work = $18m = 18*3w = 54w$

Therefore, 9 women will complete the work in x days. = $9w*x = 54w$

Thus, $x = 6$ days.

[VIDEO SOLUTION](#)

12. D

Statement I: If two chords XY and ZT of a circle intersect internally at point P, then $PX \cdot PY = PZ \cdot PT$

There is no such theorem since the length of XY and ZT can be different. Let's take any random example:

Here, we can clearly say $PX - PY < PZ - PT$

Hence, this statement is not true.

Statement II: If two chords XY and ZT of a circle intersect internally at point P, then PXZ and PTY are similar triangles.

This statement is correct. When two chords intersect inside a circle, triangles formed by the intersecting chords (i.e., triangles PXZ and PTY) are indeed similar by the AA (Angle-Angle) similarity criterion. This happens because:

$\angle XPZ = \angle TPY$ (vertically opposite angles)

Now, if I join XT, the triangles formed will be XZT and XYT. Hence, the triangle formed on the same base has third angles equal. With this, we can say, $\angle XZT = \angle XYT$

Therefore, by the Angle-Angle (AA) similarity criterion, triangle PXZ is similar to triangle PTY.

So, the correct answer is: Statement I is false but Statement II is true.

13. **D**

$$\frac{a}{100} \times a + \frac{b}{100} \times b = \frac{2}{100} \times ab$$

$$a^2 + b^2 = 2ab$$

$$(a - b)^2 = 0$$

$$a = b$$

Thus, a is 100% of b.

 VIDEO SOLUTION

14. **A**

Statement I: The perimeter of a triangle is greater than the sum of its three medians.

This is true. In a triangle:

The medians connect a vertex to the midpoint of the opposite side, dividing the triangle into two smaller triangles of equal area.

The length of each median is always less than the sum of the two sides it connects (triangle inequality).

Therefore, the sum of the three medians is always less than the perimeter of the triangle.

Statement II: In any triangle ABC, if D is any point on BC, then $AB + BC + CA > 2AD$.

This is true as well. By the triangle inequality:

For the triangle formed by

AD, AB, and BD, we have

$$AB + BD > AD.$$

Similarly, for the triangle formed by

AD, AC, and CD, we have

$$AC + CD > AD.$$

Adding these inequalities gives

$$AB + AC + BD + CD > 2AD.$$

Since

$BD + CD = BC$, we conclude

$$AB + AC + BC > 2AD.$$

Statement I relies on the fact that medians are always shorter than the sum of the sides they span.

Statement II is a direct result of the triangle inequality applied to segments involving AD, proving its validity.

Therefore, the correct answer is option A.

15. C

The probability he hits the disc = Probability of hitting on any of the four shots

$$P = (\text{Hitting of 1st}) + (\text{Not hitting on 1st shot} \times \text{Hitting on 2nd shot}) + (\text{Not hitting on 1st and 2nd shot} \times \text{Hitting on 3rd shot}) + (\text{Not hitting on 1st, 2nd and 3rd shot} \times \text{Hitting on 4th shot})$$

We know that the Probability of not hitting at a shot = $1 - \text{The probability of hitting the bottle at that shot}$

$$P = 0.1 + (0.9 \times 0.2) + (0.9 \times 0.8 \times 0.35) + (0.9 \times 0.8 \times 0.65 \times 0.45)$$

$$P = 0.1 + 0.18 + 0.252 + 0.2106$$

$$P = 0.7426$$

Hence, the answer is Option C

16. A

The total volume of the mixture is 160 L and 70% of the milk and 30% of the water is removed. With this, 55% of the vessel is vacated, so 45% of the original mixture remains, which is 72 L.

Let the amount of Milk in the original mixture be x liters so the amount of water in the vessel would be $160 - x$ liters.

$$\text{Milk removed} = 70\% \text{ of } x = 0.7x$$

$$\text{Water removed} = 30\% \text{ of } 160 - x = 0.3(160 - x).$$

$$\text{Remaining milk: } x - 0.7x = 0.3x$$

$$\text{Remaining water: } 160 - x - 0.3(160 - x) = 0.7(160 - x)$$

The remaining mixture is 72 liters.

$$0.3x + 0.7(160 - x) = 72$$

Upon solving, we get, $x = 100$

Therefore, the amount of Milk is 100 liters and the amount of water = $160 - 100 = 60$ liters.

17. B

There are 10 stations on the railway line. A journey ticket is for traveling between two different stations, where the order matters (i.e., traveling from station A to B is different from traveling from B to A).

For each starting station, there are 9 possible destinations (since you can't travel to the same station). Since there are 10 possible starting stations, the total number of different journey tickets is $10 \times 9 = 90$

18. C

Area of circle = πr^2

Area of rectangle = $L \times B$

Area of Square = S^2

(A) Circle with a diameter of 14 cm = $\pi 7^2 = 49\pi = 49 \times 22/7 = 154 \text{ cm}^2$

(B) Rectangle with length 12 cm and breadth 10 cm = $12 \times 10 = 120 \text{ cm}^2$

(C) Rectangle with length 14 cm and breadth 11 cm = $14 \times 11 = 154 \text{ cm}^2$

(D) Square with side 12 cm = $12 \times 12 = 144 \text{ cm}^2$

Thus, A and C have the same area.

 VIDEO SOLUTION

19. D

We are given the surds, $\sqrt[3]{2}$, $\sqrt{3}$, $\sqrt[4]{5}$ and $\sqrt[6]{7}$.

The values can be written as, $2^{\frac{1}{3}}$, $3^{\frac{1}{2}}$, $5^{\frac{1}{4}}$, $7^{\frac{1}{6}}$ which can be rewritten as, $2^{\frac{8}{24}}$, $3^{\frac{12}{24}}$, $5^{\frac{6}{24}}$, $7^{\frac{4}{24}}$.

In the above values, comparing the values of 2^8 , 3^{12} , 5^6 , 7^4 is enough and they can be rewritten as, $(2^4)^2$, $(3^6)^2$, $(5^3)^2$, $(7^2)^2 = 16^2$, 729^2 , 125^2 , 49^2

We can see that the value of $A < D < C < B$.

Therefore, the correct answer is option D.

20. D

Given the ratio now is 46 : 41 : 34.

Assume the constant of the ratio to be x

So, now the coins they have are $46x$, $41x$ and $34x$ respectively.

Before selling/donating/losing the number of coins will be $(46x + 30)$, $(41x + 30)$ and $(34x + 25)$ respectively.

We know $46x + 30 + 41x + 30 + 34x + 25 = 2505$

$121x = 2420$

$x = 20$

So, the number of coins Purab received will be $41x + 30 = 41 \times 20 + 30 = 850$

Hence, the answer is 850

 VIDEO SOLUTION

Logical Reasoning

21. B

The logic for the nth term first letter of the series = previous series first letter - 3

The logic for the nth term second letter of the series = previous series second letter + 2

The logic for the nth term third letter of the series = previous series third letter + n + 1

So, the 4th term is given as,

1st letter = R - 3 = O

2nd letter = V + 2 = X

3rd letter = M + 4 + 1 = R

So, the next term of the series is OXR.

Therefore, the correct answer is option B.

22. **B**

The after result of fire is Ashes.

Similarly, the after result of an Explosion is Debris.

 VIDEO SOLUTION

23. **D**

The clock gains 10 minutes in a day.

Therefore, the clock gains 10 minutes in 24 hours.

So, from 3 PM the next day to 10 AM the previous day, time passed = 29 hours.

We know that in 24 hours, the clock gains 10 minutes.

So, in 1 hour, the clock will gain $10/24$ minutes.

And, in 5 hours, the clock will gain = $50/24$ minutes = 2.08 minutes approx.

Hence, total time gained = $10 + 2.8 = 12.08$ minutes

So, the true time when the watch indicates 3 pm = 3 pm - 12.08 = 2 pm 48 minutes (approx)

24. **C**

A and B are twins. And B's sister is C. So, A, B and C are siblings.

D is the husband of C. A's mother is E. This means E mother of A, B, C.

E is the wife of F. So, F is father of A, B, C.

Therefore, F is D's father-in-law.

 VIDEO SOLUTION

25. **A**

I. The northern grid had collapsed earlier.

- The phrase "yet again" implies that the northern grid has collapsed in the past, which makes this assumption **implicit** in the statement. The use of "yet again" suggests that it is not the first occurrence of this event.

II. The grid system of providing electricity to a group of states is an ineffective type of power supply system.

- The statement does not directly mention anything about the effectiveness or inefficiency of the grid system. It only states that the grid collapsed, but it does not provide an evaluation of whether the grid system is inherently ineffective. This assumption is **not implicit** in the statement because the statement does not make any claims about the overall effectiveness of the grid system.

Hence, the answer is Only assumption I is implicit.

 VIDEO SOLUTION

26. C

Assertion(A): True. Tides indeed indicate the regular and periodic rise and fall in the sea level, which is a well-documented natural phenomenon.

Reason (R): False. While tides are caused by the gravitational pull of the **moon and the sun**, the reference to "sea level" as a cause is incorrect. The moon's gravitational pull plays the most significant role, and the sun's gravitational pull contributes as well. Sea level, however, is not a causal factor but rather the feature affected by tides.

The gravitational forces of the moon and the sun act on Earth's water bodies, causing tides. The sea level rises and falls as a result of these forces; it does not itself cause the tides. Thus, while the assertion is correct, the reason is factually inaccurate.

We can say that (A) is true but (R) is false

Therefore the correct answer is option C.

27. A

Argument I: Yes, an independent judiciary can make sure that the executive does not misuse its power, thereby curbing unlawful activities and upholding the rule of law. This is a **strong** argument because an independent judiciary acts as a check on executive power, ensuring fairness and justice in society.

Argument II: No, this argument suggests that an independent judiciary might prevent the executive from taking bold or swift actions, which might be necessary in certain circumstances. However, it is flawed because an independent judiciary does not interfere with necessary government actions but ensures they are lawful and constitutional. Therefore, **Argument II is weak**.

[VIDEO SOLUTION](#)

28. A

A, B, C, D, E, F, G, H and J are sitting around a circle facing the centre. So, 9 people are sitting around a circle.

Let us draw the diagram of 9 positions in a circle.

C is third to the left of A. E is fourth to the right of A. D is fourth to the left of J, who is second to the right of A.

Placing with respect to A.

29. D

There are 8 small squares.

There are three big squares.

And one more square that is formed by diagonals.

Total $8+3+1 = 12$

 VIDEO SOLUTION

30. D

(A) **No needle is a tree.**

- We know that all needles are threads, and all threads are boxes, and all trees are boxes. However, there's no direct relationship given between needles and trees. Therefore, this is **not necessarily true**.

(B) **Some trees are threads.**

- We know that all trees are boxes, and all threads are also boxes. However, the statements don't tell us that any tree must be a thread. Therefore, this is **not necessarily true**.

(C) **Some boxes are needles.**

- Since all needles are threads and all threads are boxes, this means that some boxes (specifically those that are threads) must be needles. This is **true**.

(D) **Some trees are needles.**

- We know that all trees are boxes, but there's no information linking trees and needles directly, so this is **not necessarily true**.

Hence, the answer is C only.

 VIDEO SOLUTION

CMAT Syllabus PDF

31. C

There are 20 girls to the right of Purnima and 9 girls between Purnima and Radhika. Mounika is 17th from the left end and 4th to the right of Radhika. This means that there are 3 girls between Radhika and Mounika, and also, there are 12 girls to the left of Radhika.

The arrangement would be as follows,

(12 girls) (Radhika) (3 girls) (Mounika) (5 girls) (Purnima) (20 girls)

So, the total number of girls = $12 + 1 + 3 + 1 + 5 + 1 + 20 = 43$ girls.

Therefore, the correct answer is option C.

32. **D**

When it is sunrise: Ajay is facing north. This is because shadows cast at sunrise point west, and since Vijay's shadow is towards Ajay's right, it indicates Ajay is facing north (and Vijay would be facing south).

However, the important thing to notice is that **Vijay's shadow is towards the right hand of Ajay**, which, if Ajay faces north, means the shadow is pointing **east** (since the sun rises in the east). This aligns with the statement that the shadow is on Ajay's right.

 VIDEO SOLUTION

33. **A**

Let us assume Seeta and Geeta are at A and B initially.

Distance between A and B = 200 m.

Seeta and Geeta have the same speed.

So, their travel distance will be the same since they start together.

Seeta travels = $40+25 = 65$ meters in the horizontal direction from Point A and $15+15 = 30$ meters in the vertical direction.

Total distance travelled by Seeta = $65+30 = 95$ meters.

Hence, Geeta also travels = 95 meters.

Since Seeta travels only 65 meters on line AB, and Geeta travels = 95 meters on line AB.

Distance between them = $200-65-95 = 40$ meters.

34. **A**

Grape : Wine, Milk : Butter, and Water : Oxygen all represent relationships where the second item is derived or produced from the first.

Death : Disease does not fit this pattern. While a disease can lead to death, death is not a product or result derived in the same way as the other pairs. Thus, this pair stands out as different in the nature of its relationship.

35. **D**

We know

R - 18th letter

A - 1st letter

I - 9th letter

N - 14th letter.

$$\text{Sum} = 18 + 1 + 9 + 14 = 42$$

$$\text{It is written as } 66 \text{ or } 42 + 4 \times 2(4 - 2 + 1) = 66$$

Using the same logic for CLOUD we get

C - 3rd letter

L - 12th letter

O - 15th letter

U - 21st letter

D - 4th letter

$$\text{Sum} = 3 + 12 + 15 + 21 + 4 = 55$$

$$\text{So, it is written as } 55 + 5 \times 5(5 - 5 + 1) = 80$$

Hence, the answer is 80.

CMAT Percentile Predictor

36. B

From the first figure, we can calculate the middle term as the difference between the sums of the opposite terms.

$$\text{First figure} = (101 + 15) - (35 + 43) = 116 - 78 = 38$$

$$\text{Second figure} = (48 + 184) - (56 + 34) = 232 - 90 = 142$$

Therefore, the correct answer is option B.

VIDEO SOLUTION

37. A

We need to identify the pattern in the series and check if there is any inconsistency.

From 888 to 454:

$$888 \div 2 = 444 \text{ (But the next number is 454)}$$

So, we can guess that the next number is **approximately halved** but with a small increase.

$$454 = 444 + 10$$

From 454 to 237:

$$454 \div 2 = 227 \text{ (But the next number is 237)}$$

Again, we see that the number is **approximately halved** with a small increase.

$$237 = 227 + 10$$

From 237 to 128.5:

$$237 \div 2 = 118.5 \text{ (But the next number is 128.5)}$$

Here, we see a similar pattern where the number is halved with an addition.

$$128.5 = 118.5 + 10$$

From 128.5 to 76.25:

$128.5 \div 2 = 64.25$ (But the next number is 76.25)

This doesn't fit the pattern of halving with a small increase.

The correct number here should be **64.25**, so **76.25 is the wrong number**.

From 76.25 to 47.125:

$76.25 \div 2 = 38.125$ (But the next number is 47.125)

Again, this doesn't follow the halving pattern with an increase.

38. C

Let us assume the day on 8th February, 2004 is X

And, since 2004 is a leap year so, it will have one extra day = $365+1 = 366$ days till 8th February, 2005

So, number of odd days = $366/7 = 2$ days

So on 8th February, 2005, it will be X+2 day and it is Tuesday.

Therefore, X = Sunday

Hence, on 8th February, 2004 it was Sunday.

 VIDEO SOLUTION

39. B

Here is the pattern:

$$(21-8)*9 = 117$$

$$(34-9)*8 = 200$$

$$(?-13)*5 = 110$$

$$(?-13) = 22$$

$$? = 35$$

 VIDEO SOLUTION

40. D

We make pairs that will be opposite each other after folding

We see that

a. 1 will be opposite 2

b. 3 will be opposite 5

c. 4 will be opposite 6

Option A - 3 will be opposite 5, hence cannot be adjacent. Wrong

Option B - 4 will be opposite 6, hence cannot be adjacent. Wrong

Option C - 3 will be opposite 5, hence cannot be adjacent. Wrong

Option D - Correct

The correct position is only displayed in Option D

CMAT Score Calculator

Language Comprehension

41. **C**

a) Go about, b) Go after, and d) Go through are phrasal verbs, where the meaning changes significantly when combined with the preposition (e.g., "Go about" means to deal with something, "Go after" means to pursue, "Go through" means to endure or experience).

c) Go fast is a literal expression, meaning to move quickly, without forming a distinct phrasal verb.

Thus, c) Go fast is the odd one out

 VIDEO SOLUTION

42. **D**

The first "Puzzled" acts as a verb here, referring to the children's confusion, and the second "puzzle" works as a noun, referring to a thing or problem that has confused the children.

The word thus acts as a verb and a noun.

Therefore, Option D is the correct answer.

 VIDEO SOLUTION

43. **D**

Option D is the correct answer.

An office without pay refers to a position where someone works voluntarily or without receiving monetary compensation. The term used to describe such a position is "Honorary."

A) Salaried refers to a position with regular pay.

B) Bonded refers to being legally bound to a job, often with pay.

C) Exgratia refers to payments made voluntarily or as a favour, not regular pay.

 VIDEO SOLUTION

44. **A**

The subject "the teacher" is singular, so the verb must agree with it in the present tense. Among the options, "sleeps" is the correct conjugation for the singular subject, making "The teacher never sleeps in the class" grammatically correct.

 VIDEO SOLUTION

45. **A**

Do you know that dressing properly for an interview can earn you those brownie points which will help you get that dream job?

This is the grammatically correct sentence. "Earn" is used in the present tense, while "earns" is used in the third person singular form of the verb.

 VIDEO SOLUTION

46. **A**

Doleful means something sad, or full of grief.

The direct opposite of this would be cheerful, which means happy.

Deceitful means dishonest or misleading, which is unrelated to "doleful."
Beautiful refers to something pleasing to the senses or mind and does not oppose "doleful."
Mournful is synonymous with "doleful" as it also means sad or full of sorrow.

Therefore, Option A is the correct answer.

 VIDEO SOLUTION

47. **D**

Option D is the correct answer.

The object of the active sentence becomes the subject of the passive sentence. In the active voice, "the council" is the object. In the passive voice, it becomes the subject.

The verb is changed to its passive form. The active verb "urged" is transformed into the passive form "was urged."

Thus, the sentence "He urged the council to reduce the rates" in passive voice becomes "The council was urged to reduce the rates."

 VIDEO SOLUTION

48. **D**

The word "in" is a preposition, and prepositions are typically followed by a gerund (the -ing form of a verb).

Option A: "Persue" is the base form of the verb. However, prepositions like "in" are not followed by the base form of a verb

Option B: "Persues" is the third-person singular form of the verb, which doesn't fit here. Verbs in their third-person singular form cannot follow a preposition like "in."

Option C: "Pursuit" is a noun, and while grammatically possible, it changes the sentence's meaning. Using "pursuit" would emphasize the abstract concept of pursuit, rather than the ongoing action that the context suggests.

Option D: The gerund "persuing" indicates an ongoing action or process, making "in persuing the idea of justice" a grammatically and semantically appropriate phrase, and hence would be the best fit.

Therefore, Option D is the correct answer.

49. **A**

The subject of the sentence is "scepticism," which is singular; the verb should also agree with this. (A) is best suited for a singular subject in the present tense.

Option D would be grammatically incorrect (used for plural subjects) and can be easily eliminated.

Option C is close, but "does" is a better overall fit, with "has" and "yield-nor is it intended to yield" not being coherent grammatically.

Option B is generally used with plural subjects; since the subject here is singular, this, too, can be eliminated.

Therefore, Option A is the correct answer.

50. **C**

The final sentence suggests a general belief about something in a passive form. In such instance base form of the verb +ed is used, generally in past tense. Which would be option C.

Options A, B and D are in different tenses and would be grammatically inappropriate to place in the blank.

Therefore, Option C is the correct answer.

51. **A**

Let us assess the statements -

Statement I: True, as "hardly" can indeed be used to indicate something is just true or possible - e.g., "There was hardly enough food for everyone."

Statement II: True, as "hardly" is a negative word and should not be used with double negatives - e.g., "I hardly found nothing" is incorrect.

Hence, the correct answer is Option A.

 VIDEO SOLUTION

52. **C**

C starts the paragraph: It introduces the broad idea of education as a transformative gift, setting the context for the discussion.

B follows C: It narrows the focus to the disparity, stating that girls are often deprived of this gift.

D comes next: It provides a specific example of progress in education through the RTE Act, highlighting India's strides in enrolment.

A concludes: It contrasts the progress mentioned in D with the fact that Indian girls still lag behind in accessing education, completing the logical flow.

Thus, the sequence CBDA creates a coherent progression from the general importance of education to the specific challenges faced by Indian girls.

 VIDEO SOLUTION

53. **B**

The definition or meaning of "Delineate" is as follows: describe or portray (something) precisely. Considering this, we can say that the synonyms for this word are Depict and Describe only.

 VIDEO SOLUTION

54. **A**

The sentence "I wish it were possible" is syntactically correct because it uses the subjunctive mood. In English grammar, the subjunctive mood allows for singular subjects to be followed by a plural verb ("were" instead of "was") to express wishes, hypothetical scenarios, or unreal conditions. Therefore, both the assertion and the reason are true, and the reason correctly explains the assertion in this case.

 VIDEO SOLUTION

55. **B**

Option B is the correct answer. ACBD forms the correct sequence to form a meaningful sentence

A (The Buddha) is the subject of the sentence.

C (dissented against the orthodoxy) follows logically, describing the Buddha's action.

B (of his time and) provides additional context to the orthodoxy he dissented against.

D (the eightfold path stood revealed) concludes the sentence by describing the outcome.

 VIDEO SOLUTION

56. **B**

The correct answer here is Option B: (A)-(II), (B)-(III), (C)-(IV), (D)-(I)

Fits and starts (II): Refers to something done at intervals or irregularly.

In less than no time (III): Means very quickly, in a moment.

Once in a blue moon (IV): Indicates something that happens very rarely.

On the dot (I): Means at an appropriate or precise time.

 VIDEO SOLUTION

57. **A**

Option A is the correct answer. Both Statement I and Statement II are true

Statement I: "VERY" is used to modify adjectives (e.g., very happy), past participles functioning as adjectives (e.g., very pleased), and adverbs (e.g., very quickly), which makes Statement I true.

Statement II: "VERY" cannot modify past participles with passive meanings because in such cases, the participles act as verbs rather than adjectives (e.g., very punished is incorrect), confirming Statement II is also true.

 VIDEO SOLUTION

58. **B**

The correct answer here is Option B: (A)-(II), (B)-(IV), (C)-(III), (D)-(I)

Alma mater (II): Refers to one's own old school/college.

De Jure (IV): Means something as a matter of legal right.

Ipso facto (III): Translates to "by the fact itself."

Quantum meruit (I): Refers to "reasonable value of service," often used in legal contexts where services are rendered without a prior agreement on payment.

 VIDEO SOLUTION

59. **D**

The central idea of the passage is **Altruism** because it emphasizes the importance of living for something greater than oneself, as taught by great religious teachers. The passage highlights that true happiness comes from serving others—be it a god, a cause, or fellow human beings—rather than focusing solely on personal desires like power or money. This selfless service to others aligns with the core principle of altruism: prioritizing the well-being of others over oneself.

 VIDEO SOLUTION

60. **D**

Altruism as a universal value:

The passage presents altruism as a fundamental teaching of all great religions, suggesting it transcends cultural and religious boundaries and is integral to the essence of civilization. This universal emphasis establishes altruism as a shared human value.

Altruism in the binary of selfishness:

The passage contrasts altruism (serving something greater) with selfishness (seeking personal power, money, and importance). This clear opposition frames altruism and selfishness as two opposing choices, reinforcing the binary.

General Awareness

Innovation and Entrepreneurship

81. **A**

Option A is the correct answer. Correct Sequence is $B \rightarrow A \rightarrow E \rightarrow C \rightarrow D$

The Design Thinking process consists of the following stages in sequence:

Empathize (B): Understand the needs and perspectives of the users.

Define (A): Clearly articulate the problem based on insights gathered.

Ideate (E): Brainstorm potential solutions to the defined problem.

Prototype (C): Create tangible representations of the ideas to explore solutions.

Test (D): Test the prototypes with users to refine and improve the solution.

82. **C**

Let us evaluate the stated factors:

A: Effective organisational policies guide the strategic direction and alignment of EDPs with developmental objectives.

B: Proper selection ensures that the right candidates and qualified instructors participate, improving program relevance and effectiveness.

C: High-quality training equips participants with practical skills and knowledge for entrepreneurial success.

D: The organisation associated with the EDP may influence its effectiveness, but it is not a critical factor for evaluating the program's success. The primary focus should remain on internal factors like policies, selection, and training quality.

We observe that A, B and C are key factors that need to be considered. Hence, Option C is the correct answer.

83. **C**

The correct answer is **A, B, C, and E**, as these are critical factors for the success of entrepreneurial ventures:

Effective Market Research (A): Understanding market needs, target audience, and competition is vital to identify opportunities and tailor offerings accordingly.

Good Financial Control (B): Proper financial management ensures optimal allocation of resources, cash flow stability, and the ability to adapt to market challenges.

Good Management (C): Strong leadership and efficient management drive strategic decision-making, team performance, and operational success.

Good Idea (E): A strong and innovative idea is the foundation of any entrepreneurial venture, providing the value proposition that attracts customers and investors.

The **caste of the entrepreneur (D)** is irrelevant in determining business success. Success is driven by skills, strategies, and execution, not by socio-cultural factors.

Entrepreneurial success is rooted in actionable factors like market research, financial control, management skills, and innovative ideas (A, B, C, and E). Attributes like caste (D) do not impact the ability to create or grow a successful venture and have no bearing on the universal principles of entrepreneurship.

Therefore, the correct answer is option C.

84. **D**

Statement I: Dividing the market into small niches is not targeting. Instead, dividing the market into small niches is segmentation. Targeting comes after segmentation, where the marketer selects the specific segments to focus on. So, Statement I is false.

Statement II: Segmentation and targeting are indeed essential components of understanding and tapping the market effectively. Segmentation helps in identifying different customer groups, while targeting helps in selecting the right group to focus marketing efforts on. Statement II is true.

85. **A**

The correct answers are **A, B, and C** because they all involve practical and hands-on approaches to learning:

Case Study Analysis (A): This helps students engage with real-world situations, understand problems, and come up with solutions. It's an effective way to apply theoretical knowledge in a practical context.

Entrepreneurial Audit (B): This involves examining real businesses to understand their strengths, weaknesses, and operations. It gives learners direct exposure to how businesses work in practice.

Entrepreneurial Profiling (C): By studying the journeys and strategies of successful entrepreneurs, students gain real insights into decision-making, challenges, and the mindset required to succeed.

All three methods focus on active learning and practical application, making them ideal for hands-on learning.

86. **A**

Shaadi.com, as an online matchmaking service, primarily operates on a subscription-based business service model, where users pay a fee to access premium features or services such as enhanced profile visibility, direct messaging, or personalized matchmaking assistance. This model generates revenue by charging users for ongoing access to its services.

87. **C**

Statement I: Business ideation is important aspect of venture creation.

This statement is **true**. **Business ideation** refers to the process of coming up with and developing ideas for a new business or product. It is a critical step in **venture creation** because without a solid idea, it's difficult to build a successful business. Business ideation involves identifying market needs, potential solutions, and the core vision for the business.

Statement II: Conversation that happens in an elevator is known as elevator pitch

The **elevator pitch** is not simply any conversation that happens in an elevator. It specifically refers to a **brief, persuasive speech** that is designed to spark interest in a person, idea, product, or project. The term "elevator pitch" comes from the idea that the pitch should be short enough to be delivered during a brief elevator ride—typically lasting between 30 seconds to 2 minutes. Hence, not true.

Hence, Statement I is correct but Statement II is incorrect

88. **D**

(C) Finding new financiers

(D) Diversification and export potential

These are not mandatory for a thriving business that is growing, this is probably applicable for a certain fraction of businesses.

Whereas the other three options, (A), (B), (E) are all essential for growing enterprises.

89. **D**

Labour market indirectly affect market adequacy by influencing production capabilities, an hence are useful in judging how adequate is the market.

Domestic and export demand are similarly useful in giving an idea of how big the market is.

While competitors and their market shares provide insight into the competitive landscape, they do not directly determine the **adequacy** of the market itself. Hence is not a relevant factor.

Therefore, Option D is the correct answer.

90. **C**

Option C is the correct answer. Statement I is correct but Statement II is incorrect

Statement I: Changing competition in the marketplace can indeed drive government involvement in businesses globally. Governments may intervene to ensure fair competition, prevent monopolies, protect consumer interests, and promote economic stability. This makes Statement I correct.

Statement II: While an increase in production costs might lead businesses to seek government support (e.g., subsidies or incentives), it is not the primary reason for government involvement. Governments typically get involved to regulate the market, ensure equitable distribution of resources, or address market failures, not just to manage production costs. This makes Statement II incorrect.

CMAT Percentile Predictor

91. **D**

E.M. Rogers developed the Diffusion of Innovation theory, which identifies five key adopter categories: innovators, early adopters, early majority, late majority, and laggards. The theory also describes factors such as the innovation's relative advantage, compatibility, complexity, trialability, and observability, which influence its diffusion.

92. **B**

The correct answer is A, C, and D, as these align with the objectives of SMILE (SIDBI Make in India Loan for Enterprises) loans.

(A) SMILE loans are aimed at pursuing growth opportunities:

SMILE loans are designed to help businesses, particularly in the MSME sector, seize growth opportunities by providing funding for expansion and modernization.

(C) SMILE loans are available to both manufacturing and services organizations:

The scheme supports enterprises in both manufacturing and service sectors, ensuring broad applicability across industries.

(D) SMILE loans are aimed at setting up state-of-the-art manufacturing infrastructure for MSMEs:

The program focuses on funding projects that involve advanced manufacturing setups to enhance productivity and competitiveness.

(B) SMILE loans are aimed to pay for earlier loans: Incorrect, as SMILE loans are not designed for refinancing or debt repayment but for new investments.

(E) SMILE loans are aimed at meeting the consumption needs of farm-based entrepreneurs: Incorrect, as SMILE loans are not for consumption or farm-based needs but for MSME infrastructure development and growth.

SMILE loans specifically cater to the "Make in India" initiative, supporting MSMEs in manufacturing and services with funding for new investments and infrastructure upgrades (A, C, and D). The other options (B and E) misrepresent the purpose of the program, which is not for refinancing or meeting consumption needs.

Therefore, the correct answer is option B.

93. **D**

The legal term for a brand is **Trademark**.

A **trademark** is a legally recognized symbol, design, word, or combination of these that identifies and distinguishes the products or services of one business from others. It provides legal protection to the brand, ensuring that no one else can use a similar mark that could cause confusion in the marketplace.

94. **B**

Plant and Machinery Records is related to Technical feasibility.

Profit Statements is related to Financial feasibility.

Creativity and Innovation is related to Business ideation.

Empathize is related to Design thinking.

95. **A**

An entrepreneur's bottom-line measures of social performance should reflect their impact on society and community well-being, such as employment, poverty reduction, and education.

Of the given options, bottom lines measures of social performance would include:

A: Unemployment rate- Entrepreneurs create jobs and reduce unemployment.

B: Relative Poverty - Entrepreneurship can help reduce poverty by increasing income.

D: Average Commute Time - If an entrepreneur's business improves transportation or work-life balance, it can impact commute times.

E: Illiteracy Rate - Entrepreneurs may contribute to education and skills development, reducing illiteracy.

GDP growth rate is not directly a social measure. It is a broad economic indicator of the country.

Therefore, Option A) A,B,D and E only

97. **B**

Multiple businesses at a time can be risky and divert the attention of the entrepreneur leading to substandard output.

Similarly, a business and plan and marketing strategy is basic to a company's functioning, and it is mandatory to do it, it does not guarantee all year-round sales.

The correct option is having more than one customer segment.

98. **B**

The premise is to present your idea to potential investors; although all of the given options are valid forms of discussion, given the context, the presentation by Shruti would be concise and short, only catering for the necessary information and open to questioning by the investors.

Such presentations are known as pitch decks, a concise visual presentation, typically created in slides, used to communicate a business idea, product, or investment opportunity to potential investors, partners, or stakeholders.

Therefore, Option B is the correct answer.

99. **A**

The correct answer is: a) (A)-(II), (B)-(I), (C)-(IV), (D)-(III)

(A) Manage -(II) Gets the work done: Managing involves organizing and ensuring tasks are completed.

(B) Retailer -(I) Value addition: A retailer adds value by providing goods conveniently to customers.

(C) Entrepreneur -(IV) Calculate risk taking: Entrepreneurs are known for taking calculated risks to start or innovate businesses.

(D) Businessman -(III) Works on existing business model: Businessmen typically operate within established business frameworks or models.

100. **D**

Option D is the correct answer.

Entrepreneurship involves much more than financial resources or external factors like support. The mindset is the most crucial factor, as it drives innovation, resilience, and the ability to take calculated risks. While commitment, money, and support can contribute, the entrepreneur's mindset ultimately determines their success.
