digital well-being. Screen time during COVID-19 has further increased as a result of public health measures enforced by governments to curb the pandemic. A lack of comprehensive empirical overviews on screen time in the COVID-19 era in the present literature prompted us to conduct this review. The present review attempts to understand the virtual social connectedness, excessive use of digital technology, its consequences and suggest strategies to maintain healthy use of digital technology. Though there are mixed consequences of prolonged screen time use and blurred understanding between healthy and unhealthy social connectedness over digital media, the suggestions for negative implications on (physical and) mental health warrant a strict need for inculcating healthy digital habits, especially knowing that digital technology is here to stay and grow with time.

The last two decades have seen a thriving future in the use of digital technology. It has accelerated human exposure to prolonged bright screen which is becoming a growing concern. Digital technology is essentially the use of electronic devices to store, generate or process data; it facilitates communication and virtual interactions on social media platforms using the internet. The COVID-19 pandemic has forced people to rely on digital networks as their only method of maintaining a socio-emotional connection, but it has also made it a shallow one. Digital technology is influencing how people use digital devices to maintain, or avoid social relations or how much time to spend on virtual social connectedness. Screen time refers to the amount of time spent and the diverse activities performed online using digital devices. For instance, screen time encompasses both, using digital devices for work purposes as well as for leisure and entertainment.

The COVID-19 pandemic came with restrictions, regulations and stay-at-home orders. Many individuals could not return to their homes, many stuck in foreign lands and many in solitude. As a result, the usage of digital devices has increased manifold across the globe. The addiction to the digital devices has started to run in the genes of individuals. Irrespective of age, people are pushed to rely on digital platforms. Education, shopping, working, meeting, entertaining and socializing suddenly leaped from offline to online. Here, digital technology came as a blessing in disguise, enabling individuals to remain emotionally connected despite social distancing. At the same time, prolonged screen time has caused concerns related to its impact on physical and mental health. While mindful use of digital devices is linked with well-being, excessive screen time is reported to be associated with a range of negative mental health outcomes such as psychological problems, low emotional stability, and a greater risk for depression or anxiety.

Q4. What, according to the author, is/are the major objective(s) of conducting a review on the usage of digital technology?

- (a) To recognize the idea of virtual social togetherness
- (b) To suggest ideas for discontinuing the use of digital technology
- (c) To comprehend the suitable limit of digital technology usage
- (d) Only (a) and (c)
- (e) Both (a) and (b)

Q5. Why has the use of digital technology become more than a matter of concern?

- (a) Because the future of digital technology is bright for the next generation.
- (b) Because it has suffocated interpersonal relations with its wide usage.

Reasoning

Directions (66–70): Study the following information and answer the questions given below.

Fourteen persons viz. A, B, C, D, P, Q, R, S, K, L, M, N, Y and Z sit in two parallel rows (but not necessarily in the same order) in such a way that seven persons sit in each row. A, B, P, Q, K, L and Y sit in row 1 and face north while C, D, R, S, M, N and Z sit in row 2 and face south. The persons in row 1 sit exactly opposite to the persons sit in row 2.

- Y sits diagonally opposite to Z.
- One person sits between Z and R.
- P faces R and sits immediate right of A.
- The number of persons sit between Y and A is same as the number of persons sit to the right of M.
- B sits second to the right of the one who faces R.
- Three persons sit between B and Q.
- C sits diagonally opposite to Q.
- C and D are immediate neighbours.
- N faces K.

Q66. Who among the following faces S?

- (a) P
- (b) L
- (c) A
- (d) B
- (e) None of these

Q67. Who among the following sits third to the left of L?

- (a) Q
- (b) A
- (c) P
- (d) K
- (e) Y

Q68. What is the position of M with respect to D?

- (a) Immediate right
- (b) Immediate left
- (c) Third to the left
- (d) Second to the left
- (e) Second to the right

Q69. Who among the following sits fourth to the right of the one who faces Z?

- (a) Y
- (b) P
- (c) K
- (d) L
- (e) B

Q70. Four among the following five are alike in a certain way and related to a group, who among the following does not belong to the group?

- (a) Z
- (b) C
- (c) Q
- (d) R
- (e) Y

Q71. In the given number '85274369', if all the odd digits are decreased by 1 and all the even digits are decreased by 2, then what would be the sum of the digits which are not repeated in the new number formed after rearrangement?

- (a) 10
- (b) 14
- (c) 2
- (d) 8
- (e) None of these

Directions (72–74): In each of the questions below, some statements are followed by some conclusions. Assume the statements are true, even if they are at variance with commonly known facts. Read all the conclusions and then decide which of them logically follow.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

Q72.

Statements: Some key is chain. Some chain is plant. All plant is lock.

Conclusions:

- I. No key is lock is a possibility.
- II. All lock is plant.

Q73.

Statements: Only a few story is real. No real is drama. No drama is news.

Conclusions:

- I. Some story is not real.
- II. Some news can be real.

Q74.

Statements: Only pen is city. Some pen is black. Only a few office is black.

Conclusions:

- I. Some black is not pen.
- II. All office is pen.

Directions (75–78): Study the following information and answer the questions given below.

Nine persons i.e., H, I, J, K, L, M, B, P and T visit three different cities viz. Mumbai, Pune and Bangalore but not necessarily in the same order. At least two persons but not more than four persons visit the same city.

- *H visits with T. T does not visit Pune.*
- *K visits Mumbai.*
- *B visits neither Pune nor with K.*

Q78. Which among the following pair is incorrect as per the data given?

- (a) I-L
- (b) P-J
- (c) L-M
- (d) T-K
- (e) H-M

Directions (79–81): Study the given information and answer the following questions.

A certain number of persons sit in a linear row and all face north. Four persons sit between A and B. G sits second to the right of B. One person sits between G and K. The number of persons sit between B and K is same as the number of persons sit to the right of K. V sits fifth to the left of G. P sits third from one of the extreme ends. P sits just left of V. P sits to the left of A.

Q79. Find the total number of persons sit in the row?

- (a) 14
- (b) 13
- (c) 15
- (d) 16
- (e) Can't be determined

Q80. If P sits exactly between V and R, then how many persons sit between R and G?

- (a) Three
- (b) Four
- (c) Seven
