technology, and infrastructure. Yet, poverty, inequality, and unemployment remain daunting challenges. The country must address these issues if it wishes to leverage its demographic dividend effectively.

Q13. What was the literacy rate in India at the time of independence?

- (a) 12%
- (b) 15%
- (c) 18%
- (d) 25%
- (e) 30%

Q14. According to the passage, which of the following sectors has shown considerable progress in India?

- (a) Agriculture and Fishing
- (b) Technology and Infrastructure
- (c) Tourism and Hospitality
- (d) Mining and Extraction
- (e) None of the above

Q15. Which of the following challenges still persist in India despite economic progress?

- (a) Poverty, inequality, and unemployment
- (b) Only poverty
- (c) Only inequality
- (d) Only unemployment
- (e) None of these

Q16. What is meant by the term *demographic dividend* as used in the passage?

- (a) Advantage of having a large elderly population
- (b) Benefits arising from a young and working-age population
- (c) Increase in tax revenue due to industrial growth
- (d) Profits gained by investing in foreign markets
- (e) None of these

Q17. Which of the following statements is true according to the passage?

- (a) India's economy was industrial in 1947.

Reasoning

Directions (1): Each question consists of two conclusions followed by some statements. Consider the given conclusions to be true even if they seem to be at variance with commonly known facts. Read the conclusions and then decide which of the following statements is true for the given conclusions.

Q1. Conclusions:

- I. All number can never be digit
- II. Some digit being letter is a possibility

- (a) Statements: All series is number; Some series is digit; Only a few letter is number
- (b) Statements: Only a few series is digit; All series is number; Some letter is number
- (c) Statements: No digit is series; No series is number; All number is letter
- (d) Statements: Only digit is letter; Some digit is number; Only a few series is number
- (e) Statements: No digit is letter; Only a few letter is number; Only a few number is series

Directions (2–6): A word/number arrangement machine is given an input line of words and numbers; it arranges them following a particular rule in each step. The following is an illustration of input and its arrangement:

Input: *triangle 45 38 galaxy 93 puzzle 27 velocity rhythm 84*

Step I: *88 triangle 45 38 puzzle 27 velocity rhythm 84 aaglx*

Step II: *87 88 triangle 45 38 27 velocity rhythm aaglx eulpzz*

Step III: *40 87 88 triangle 38 27 velocity aaglx eulpzz hhmrt*

Step IV: *41 40 87 88 27 velocity aaglx eulpzz hhmrt aeighrt*

Step V: *22 41 40 87 88 aaglx eulpzz hhmrt aeighrt eiocltv*

Based on the above example, rearrange the below input:

Input: *shadow 74 19 magnet 52 forest 68 bridge whistle 31*

Q2. Which element is 5th to the right of second least number in Step V?

- (a) eibdgr
- (b) 31
- (c) eofrst
- (d) aegmnt
- (e) None of these

Q3. What is the sum of all the odd numbers in Step II?

- (a) 110
- (b) 147
- (c) 128
- (d) 117
- (e) 198

Q4. What is the position of 'eibdgr' with respect to '77' in Step IV?

- (a) 3rd to the right
- (b) 5th to the right
- (c) 4th to the left
- (d) 2nd to the right
- (e) None of the above

Q5. Find the square of the 2nd highest number in Step III?

- (a) 3844
- (b) 3025
- (c) 2809
- (d) 5041
- (e) None of these

Q6. Which element is 6th from the right end in Step II?

- (a) whistle
- (b) 19
- (c) magnet
- (d) 77
- (e) 52

Directions (7–10): Read the given information carefully and answer the questions based on it.

A certain number of persons sit in a row facing north. The known persons like different colors. On counting from left, the persons at even positions are managers and the persons at odd positions are associates.

- Four persons are in between A and the one who likes red.
- G sits third to the left of A.
- The one who likes blue sits exactly between G and the one who likes red.
- Four persons are in between C and the one who likes blue.
- The one who likes pink sits immediate right of C.
- D sits three persons to the right of the one who likes pink.
- The number of persons to the right of D is equal to the square root of the number of persons between D and the one who likes red.
- T sits sixth to the left of H who sits adjacent to C. H likes pink and sits immediate right of the one who likes yellow.
- No one sits to the left of B who sits adjacent to T.
- The one who likes black sits fourth from the right end.
- The one who likes grey sits second to the right of B and third to the left of the one who likes white.

Q7. How many associates sit to the right of the one who likes white?

- (a) Three
- (b) Four
- (c) Five
- (d) Six
- (e) More than six

Q8. What is the position of C with respect to the one who likes grey?

- (a) 5th to the right

- (b) 7th to the right
- (c) 8th to the left
- (d) Immediate right
- (e) 4th to the right

Q9. Which of the following statements is correct?

- I. The one who sits 7th to the right of B is a manager.
- II. Four associates sit between B and the one who likes black.
- III. H is a manager and sits second to the right of A.

- (a) Only II
- (b) Only III
- (c) Only I and II
- (d) Only I and III
- (e) All I, II and III

Q10. Choose the incorrect combination.

- (a) G – grey – associate
- (b) D – black – associate
- (c) A – white – manager
- (d) T – blue – manager
- (e) B – yellow – associate

Directions (11–15): Study the following information carefully and answer the questions given below.

Seven persons P, Q, R, S, T, U and V are sitting in a row facing north. Each of them likes a different dish – Biryani, Dosa, Idli, Paneer, Pasta, Pizza and Chowmein – but not necessarily in the same order.

- *Q sits third to the right of the one who likes Pizza.*
- *The one who likes Pasta sits second to the left of Q.*
- *Two persons sit between the one who likes Pasta and the one who likes Paneer.*
- *S sits to the immediate right of the one who likes Paneer.*

Q15. Which of the following is true regarding T?

- (a) T likes Chowmein
- (b) T sits second to the left of U
- (c) T is an immediate neighbour of S
- (d) T sits at one of the extreme ends
- (e) None of these

Directions (16–20): In each of the questions below, a statement is given followed by three assumptions numbered I, II and III. Consider the statement and decide which of the assumptions are implicit.

Q16. Statement: The government has decided to provide free education up to class VIII for all children.

Assumptions:

- I. Children below class VIII will get motivated to study.
- II. Parents will prefer to send their children to school.
- III. Literacy level in the country will improve.

- (a) Only I is implicit
- (b) Only II is implicit
- (c) Only III is implicit
- (d) All I, II and III are implicit
- (e) None of these

Q17. Statement: “Use of cell phones in examination halls is strictly prohibited.” — A notice in the examination hall.

Assumptions:

- I. Cell phones can be used for unfair means in the examination.
- II. Students may not carry cell phones to examination halls.
- III. The school authorities have the right to stop students from carrying cell phones.

- (a) Only I and II are implicit
- (b) Only II and III are implicit
- (c) Only I and III are implicit

- (d) All I, II and III are implicit
- (e) None of these

Q18. Statement: The municipal corporation has decided to open more schools in the city.

Assumptions:

- I. The level of literacy in the city will improve.
- II. There will be demand for more schools.
- III. The students will get admission easily.

- (a) Only I is implicit
- (b) Only II is implicit
- (c) Only I and II are implicit
- (d) Only II and III are implicit
- (e) All I, II and III are implicit

Q19. Statement: The government has increased the excise duty on petrol and diesel.

Assumptions:

- I. People may use more public transport.
- II. Government may earn more revenue.
- III. The price of petrol and diesel will go down.

- (a) Only I is implicit
- (b) Only II is implicit
- (c) Only III is implicit
- (d) Only I and II are implicit
- (e) All I, II and III are implicit

Q20. Statement: The government has decided to increase the rate of interest on small savings schemes.

Assumptions:

- I. People may prefer to deposit money in small savings schemes.
- II. The total savings of people may increase.
- III. Government may earn more revenue.

- (a) Only I is implicit
- (b) Only II is implicit
- (c) Only I and II are implicit
- (d) Only II and III are implicit
- (e) All I, II and III are implicit

Directions (21–25): In each of the following questions, a statement is followed by two courses of action. Decide which of the given courses of action follows logically.

Q21. Statement: Cases of road accidents are increasing continuously, especially in metropolitan cities.

Courses of Action:

- I. Government should take steps to ensure strict adherence to traffic rules.
- II. Road transport authorities should conduct regular checks.

- (a) Only I follows
- (b) Only II follows
- (c) Both I and II follow
- (d) Neither I nor II follows
- (e) Either I or II follows

Q22. Statement: A large number of candidates submitted applications for admission to MBA course in one college.

Courses of Action:

- I. The college authority should conduct an entrance exam.
- II. The college authority should select candidates on merit.

- (a) Only I follows
- (b) Only II follows
- (c) Both I and II follow
- (d) Neither I nor II follows
- (e) Either I or II follows

Q23. Statement: A very large number of people visit the temple every Sunday and the temple is overcrowded.

Courses of Action:

- I. More security personnel should be deployed.
- II. Entry should be regulated in a systematic manner.

- (a) Only I follows
- (b) Only II follows
- (c) Both I and II follow
- (d) Neither I nor II follows
- (e) Either I or II follows

Q24. Statement: The availability of imported fruits has increased in the Indian market. They are less expensive than Indian fruits.

Courses of Action:

- I. To help Indian farmers, the government should impose tax on imported fruits.
- II. Indian farmers should adopt modern technology of farming.

- (a) Only I follows
- (b) Only II follows
- (c) Both I and II follow
- (d) Neither I nor II follows
- (e) Either I or II follows

Q25. Statement: In spite of a huge demand for sugar, many sugar mills are closing down.

Courses of Action:

- I. The government should give tax benefits to sugar mills.
- II. The government should import sugar from other countries.

- (a) Only I follows
- (b) Only II follows
- (c) Both I and II follow
- (d) Neither I nor II follows
- (e) Either I or II follows

Directions (26–29): In each of the following questions, a statement is followed by three arguments. Choose which of the arguments are strong.

Q26. Statement: Should higher education be made compulsory in India?

Arguments:

- I. Yes, it will help in increasing the literacy rate.
- II. No, higher education should be based on choice.
- III. Yes, it will lead to more employment opportunities.

- (a) Only I and II are strong
- (b) Only II and III are strong
- (c) Only I and III are strong
- (d) All I, II and III are strong
- (e) None of these

Q27. Statement: Should lotteries be banned in India?

Arguments:

- I. Yes, it leads to addiction.
- II. No, government earns revenue through lotteries.
- III. Yes, it is a social evil.

- (a) Only I and II are strong
- (b) Only II and III are strong
- (c) Only I and III are strong
- (d) All I, II and III are strong
- (e) None of these

Q28. Statement: Should there be reservation for women in parliament?

Arguments:

- I. Yes, women should be given equal representation.
- II. No, reservation is against the principle of equality.
- III. Yes, it will empower women in politics.

- (a) Only I and II are strong
- (b) Only II and III are strong
- (c) Only I and III are strong
- (d) All I, II and III are strong
- (e) None of these

Quantitative Aptitude

Directions (1–5): Read the following table carefully and answer the questions given below.

The table shows the total number of cars manufactured, the total number of cars sold, and the total number of cars unsold by four companies.

Companies	Total cars manufactured	Total cars sold	Total cars unsold
A	P	Z	----
B	$P + 150$	$(8/4)7 X$	----
C	900	648	$3X$
D	----	$2Z + 132$	$(P/3) + 150$

Note:

- (i) Total cars unsold by D is $1/3$ rd of the total cars sold by the company.
- (ii) Total cars sold by all the companies are 3552.

Q1. Total number of cars manufactured by E is $(P/25)\%$ more than that of C. If the total number of cars unsold by E is $(5Z/9)$, then find the total number of cars sold by E.

- (a) $P - 6^2$
- (b) $Z + 214$
- (c) $X + 8^3$
- (d) $(P + X)/5$
- (e) $(P - Z + X) \div 3$

Q2. The total number of non-defective cars sold by B is $(X/4 + 39)$ and the remaining are defective cars sold. If the total number of defective cars sold by D are double that of B, then find which of the following statement/s is/are true.

- I. The difference between the total number of non-defective cars sold by B and D is 120.
- II. The total number of defective cars sold by D is more than the total number

of cars unsold by A.

III. The total number of defective cars sold by B is less than total number of cars manufactured by C.

- (a) Only I
- (b) Only III
- (c) Both I & III
- (d) Both I & II
- (e) All I, II & III

Q3. $(Z/4 + X/6)$ of the total number of cars manufactured by A are SUV and the rest are hatchback. The total number of SUV sold cars by A is $P/15$. Find which of the following statement/s is/are false.

- I. Total number of SUV cars unsold by A < Total number of hatchback cars sold by A
- II. Total number of hatchback cars manufactured by A > Total number of cars manufactured by C
- III. Total number of SUV cars unsold by A = Total number of cars sold by D

- (a) Both II & III
- (b) Both I & III
- (c) Both I & II
- (d) None
- (e) Only II

Q4. The total number of cars sold by F is $(7X + Z + 12)/2$ and the total number of cars unsold by F is $2P$. Find which of the following option is correct about the difference between the total cars manufactured by F and A & C together.

- (a) $5P/3$
- (b) $2(P - X)$
- (c) $(X + Z)/3$
- (d) $X + 146$
- (e) $P - 258$

Q5. If the average of the number of unsold cars by A, C and B is Y and the average of the number of cars manufactured by C and D is 5Q, then find which of the following statement/s is/are true.

- I. $P - Z < Q$
- II. $Y + X > P$
- III. $Y - Q = X - 8$

- (a) Only III
- (b) Only II
- (c) Both I & II
- (d) Both I & III
- (e) All I, II & III

Q6. Total number of cars unsold by A and B together is what percentage more or less than the total number of cars sold by D?

- (a) $(2X - P/25)\%$
- (b) $(P - 1.5Z)\%$
- (c) $((P + X)/50)\%$
- (d) $(X/2 + 1.6)\%$
- (e) None of these

Directions (7–10): Solve the given series and answer the following questions.

Series: $a + 15, a + 16.2, a + 18.6, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, M$

Note:

- (i) x and y are prime numbers less than 10 ($y > x$)
- (ii) $xy = a$
- (iii) $2a = 10y$

Q7. Find which of the series follows the same pattern as the above series.

- I. 25.8, 27, 29.4, 33, 37.8, 43.8
- II. 112, 113.2, 115.6, 119.2, 124, 130
- III. 325, 326.2, 328.6, 332.2, 337, 343

- (a) Both I & II
- (b) Both I & III
- (c) All I, II & III
- (d) None of the above
- (e) Only I

Q8. Find the seventh term of the given series.

- (a) 75.2
- (b) 68
- (c) 83.6
- (d) 77.2
- (e) 92.8

Q9. Find the value of M.

- (a) $9y + x$
- (b) $12x + 8$
- (c) $2a - 2$
- (d) All (a), (b) & (c)
- (e) None of the above

Q10. If 7 is added to the value of $2a$, then the resultant is?

- (a) Divisible by 7
- (b) Multiple of 11
- (c) Prime number
- (d) Both (a) & (b)
- (e) None of these

Q11. The length of a rectangle is equal to the side of a square, and the breadth of the rectangle is 10 cm less than its length. Find the area of the rectangle.

I. The perimeter of the square is 80 cm.

II. The difference between the area of the square and the rectangle is 375 cm^2 .

III. The ratio of the breadth of the rectangle to its length is 3 : 4.

- (a) Either I and II together or III alone is sufficient to answer the question
- (b) Either I and III together or II alone is sufficient to answer the question
- (c) Either II and III together or I alone is sufficient to answer the question

- (d) All I, II and III together are necessary to answer the question
(e) None of these

Q12. A boat covers 72 km downstream in 't' hours. Find the speed of the stream.

I. The ratio of the speed of the boat in still water to the speed of the stream is 4 : 1.

II. The boat covers 48 km downstream in 2 hours.

III. The boat covers 72 km upstream in (t+6) hours.

- (a) Any one of I, II or III alone is sufficient to answer the question
(b) Either I and II together or III alone is sufficient to answer the question
(c) Only I and III together are sufficient to answer the question
(d) Only II and III together are sufficient to answer the question
(e) None of these

Q13. The average marks of 40 students in a class is 65. If the marks of P, Q, and R are excluded, the average of the remaining students is 64. Find the marks obtained by R.

I. P scored 25% more than Q.

II. The difference between the marks obtained by Q and R is 15.

III. The total marks obtained by P, Q, and R together is 200.

- (a) Only II and III together are sufficient to answer the question
(b) Only I and III together are sufficient to answer the question
(c) All I, II and III together are necessary to answer the question
(d) Either I and II together or III alone is sufficient to answer the question
(e) None of these

Q14. The sum of two numbers is 60. Find the numbers.

I. The difference between the numbers is 12.

II. One of the numbers is divisible by 3.

III. One of the numbers is a perfect square.

- (a) Only I is sufficient to answer the question
(b) Only II and III together are sufficient to answer the question
(c) Only I and II together are sufficient to answer the question

- (d) Either I and III together or II alone is sufficient to answer the question
(e) None of these

Q15. A box contains red, blue, and green balls. Find the number of red balls.

I. The ratio of red to blue balls is 3 : 2.

II. The ratio of green to blue balls is 4 : 5.

III. The total number of balls in the box is 72.

- (a) Any two statements together are sufficient to answer the question
(b) All I, II, and III together are necessary to answer the question
(c) Only II and III together are sufficient to answer the question
(d) Only I and III together are sufficient to answer the question
(e) None of these

Q16. A shopkeeper bought some articles at Rs. 120 each. Find the total number of articles.

I. He sold all the articles at Rs. 150 each and earned a total profit of Rs. 600.

II. He sold half of the articles at 20% profit and the remaining at 25% profit.

III. The selling price of each article is 25% more than the cost price.

- (a) Only I is sufficient to answer the question
(b) Only II and III together are sufficient to answer the question
(c) Any one of I or III alone is sufficient to answer the question
(d) Only II alone is sufficient to answer the question
(e) None of these

Q17. The perimeter of a rectangle is 64 cm. Find its area.

I. The difference between the length and the breadth of the rectangle is 8 cm.

II. The ratio of the length to the breadth is 3 : 1.

III. The diagonal of the rectangle is 20 cm.

- (a) Any one of I or II alone is sufficient to answer the question
(b) Only I and II together are sufficient to answer the question
(c) Only II and III together are sufficient to answer the question
(d) Only I and III together are sufficient to answer the question
(e) None of these

Q18. The sum of the ages of A and B is 50 years. Find the present age of A.

I. The ratio of A's age to B's age is 3 : 2.
